Outcomes

87% of students increased benchmark scores in Reading *

95% of students increased benchmark scores in Math *

Average daily attendance of SUN CS students was 90%

***due to changes in state testing these numbers are not available for this year**

SUN Spotlight

A number of high school students volunteer with Hall SUN each year. This year, we have more volunteers who participated in SUN as elementary school students, than ever before. They have returned to assist in their favorite SUN classes, including Chess Club, Soccer, and Garden Club. They assist students with homework and are developing confidence as role models for SUN students. Having benefitted from SUN during their childhoods, these teenagers have a special connection to and investment in programming at Hall.
