#### **Executive Summary**

The Adult Protective Services Program (APS) helps to improve the quality of life for vulnerable older adults and people with disabilities. APS protects against abuse through quick and equitable access to quality services. APS investigates abuse and self-neglect of older adults and people with disabilities with the goal of ending abuse and neglect and holding perpetrators responsible.

### **Program Summary**

ISSUE: Older adults and people with disabilities can be at risk of abuse, financial exploitation, neglect, and self neglect for many reasons. About one in nine vulnerable adults is the victim of abuse at some time during their life.

PROGRAM GOAL: The goal of the Adult Protective Services Program is to protect vulnerable adults from abuse and selfneglect. APS helps the department towards ending abuse and neglect and holding perpetrators responsible. APS also works to balance the safety and independence of vulnerable adults. Finally, APS provides community education on abuse, neglect and exploitation.

PROGRAM ACTIVITY: APS investigates abuse and self-neglect of older adults and people with disabilities. Forty-three APS investigators review the incidents of abuse. Some investigators serve people living in the community. Other investigators serve people living in long-term care facilities. APS staff connect vulnerable adults to resources like healthcare, housing, and advocacy agencies. The APS team includes clinical services specialists, investigators, risk case managers, and screeners. APS works with law enforcement and the District Attorney's Office to prosecute offenders. Many different agencies work together in monthly meetings to discuss criminal cases. The APS risk case managers provide longer-term follow up for people facing threats to their health or safety. Risk case management services last for up to a year. The risk case managers reduce risk by connecting people to the right agencies and setting up needed services.
