## **Executive Summary**

The Department of Community Justice (DCJ) Victim and Survivor Services (VSS) collaborates with public safety agencies and community partners as well as DCJ staff to develop a more coordinated system response to crime victims/survivors in Multnomah County. VSS provides survivor-centered consultation on policy and procedures; ensures crime victim's rights are upheld and integrated into supervision practices; educates DCJ staff and community partners around victim rights and best practices for supporting victims/survivors; collaborates with partners to engage in system change that is trauma informed, survivor-led and consistent with best practices; and provides advocacy and support to people who have experienced harm.

## **Program Summary**

In FY 2021 VSS updated their strategic plan to more closely align services with equity, trauma informed and survivor led approaches. Many of the goals and activities put forth in this plan came directly out of a department wide strength and needs assessment. This includes establishing two culturally specific caseloads to serve Black, African American and Latinx survivors. Services offered by VSU include:

Notification: Crime victims' legal rights are guaranteed by Oregon law, yet they are often unaware of these rights. Notification is the most important - if a victim is not given notice of the time and place of a sentencing hearing, there is little chance that they will ever have the opportunity to be heard. In cases of domestic violence and stalking, notification of a justice-involved individual's (JII) release is more than a matter of interest, it is sometimes a matter of life and death.

Advocacy: Advocates support survivors through safety planning; crisis response; emotional support; community referrals; system information and navigation; accessing emergency funds; and court accompaniment. Advocates serve as a critical piece of support to survivors as they navigate a confusing and often re-traumatizing criminal justice system that was not built with their needs in mind. DCJ Advocates are unique in that once a JII is on supervision they can support the survivor through the entire system. Survivor safety is often in jeopardy after a JII is sentenced. DCJ Advocates are the only system-based advocates that can help them access community resources, safety plan, and provide support to the healing process.

Victim and Survivor Services Fund: This fund helps ease financial burdens survivors often face due to the victimization they experience by JIIs and provide temporary emergency assistance that bridge the gap to self-sufficiency or longer term support from other agencies, or are related to an immediate safety concern.

Training and Education: VSS provides a wide variety of trainings and consultations to partners including: victim rights, working with survivors, trauma informed care, sex trafficking, and domestic violence.

Performance Measures						
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer	
Output	Number of initial contacts with victims of probation cases	2,022	2,000	2,000	2,000	
Outcome	Monthly average victims served through victim advocacy	187	70	150	150	
Outcome	Number of crime victims registering for ongoing notifications	1014	500	600	600	
Performance Measures Descriptions						

In FY 2021 monthly average victims/survivors served increased by 63%, from 70.5 per month to 187 per month. The COVID-19 pandemic has exacerbated issues that survivors face in the aftermath of crime and violence. In the past two years the department has improved how information is shared to victims/survivors which has allowed them to be more aware of their rights. It is predicted the pandemic will have long-term ripple effects that will continue to impact service levels with VSS.
