#### **Executive Summary**

The Sex Offense Reduced Supervision (SORS) caseload provides supervision for adults convicted of sex offenses who have been identified as low risk for sexual re-offense by validated risk assessment tools. A reduced level of supervision is provided to qualifying clients in order to monitor compliance with sexual offense specific treatment, sex offense registration and special conditions of supervision. The SORS caseload's staff assists with community safety by reducing risk through continued monitoring of the individual's behavior while on supervision.

### **Program Summary**

The SORS caseload is for adults convicted of sex offenses who have been identified as low risk for sexual re-offense. These individuals have shown compliance via: 1) Completing a minimum of one year supervision and treatment; 2) Passing a full disclosure polygraph (if medically able and if no extenuating circumstances exist); 3) Passing a maintenance polygraph within six months prior to their transfer to the SORS caseload; and 4) Having a limited sexual and criminal history.

An individual who meets any of the following criteria is excluded from SORS supervision: 1) Having a score of 6+ on the Static-99 assessment tool which is a risk assessment tool designed to assist in the prediction of sexual and violent recidivism among adult male sex offenders; 2) Having a primary sexual preference for children or sexual arousal to violence; 3) Having emotional identification with children; and 4) Level 3 Sex designation (may be waived by the manager).

In accordance with the Risk/Need/Responsivity model, the SORS program limits the extent of resources invested in low risk individuals and focuses on allocating the majority of resources to high and medium risk adults convicted of sex offenses. One (1) Sex Offense Specialist Parole-Probation Officer (PPO) supervises the SORS caseload and is required to complete a home visit every six months. The individual on supervision is required to submit monthly reports, report in person every six months, successfully complete a maintenance polygraph every six months, participate in sexual offense specific treatment until discharged, and pay court ordered fees. Individuals are returned to a high risk caseload if there are any indications of status instability or verified behaviors that present an increased risk to the community or victim.

Performance Measures								
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer			
Output	Number of adults served annually	169	175	175	175			
Outcome	Percent of adults convicted of a misd. or felony within one year of supervision start date	0%	0%	0%	0%			
Outcome	Percent of adults convicted of a new sex offense misd. or felony within one year of supervision start date	0%	0%	0%	0%			

#### **Performance Measures Descriptions**

Measure 1: In FY 2022, the COVID-19 pandemic caused a bit of a reduction in the numbers due to there being fewer movements from SCU to the reduced caseload.
