Program Characteristics: In Target

Executive Summary

The Director's Office includes the DCM Department Director / Chief Operating Officer combined positions. The COO/Director role manages the organizational health of Multnomah County and sets administrative policy. Areas of countywide responsibility include budget, finance, human resources, property assessments & recording, tax collections, emergency management and protected class complaints. The COO provides countywide oversight through the supervision of the appointed department directors for the Health Department, Department of Community Justice, Library, Department of County Human Services, Department of County Assets, and Department of Community Services.

Program Summary

The COO's office works with the County Chair, Board of County Commissioners, department directors and DCM division directors to set countywide priorities and ensure that County policies are upheld. The Office works with the Chief Financial Officer, Budget Director, and Chief Human Resources Officer to develop and present administrative, financial, human resource and infrastructure guidelines and policies to the County Chair, the Board of County Commissioners (Board), and department directors.

The Office of the COO/DCM Director works with departments and human resource personnel to recruit, train and retain a diverse workforce; provides management for county-wide projects and initiatives; and serves as the supervisor for all department directors. In FY 23, the Director's Office will continue to focus on sustaining and continuing to implement the countywide and department's Workforce Equity Strategic Plan (WESP), leadership development for County managers and supervisors, and workforce security.

Output	Number of countywide monthly newsletters published for managers and supervisors.	12	12	12	12	

Performance Measures Descriptions

Output: COVID-19 impacted manager and supervisor professional development events as we allocated the time and resources for all-staff meetings and communications to keep staff informed of our ever-changing environment. The performance measures all lead towards the department's desire to create a culture of Safety, Trust and Belonging for its workforce.

ORS 208, 238, 288, 294, 295, 310 and many other Oregon Revised Statutes, Multnomah County Code, Chapters 7, 9, 11 and 12 and County Charter requires the county to maintain appropriate personnel, infrastructure, taxation and financial system operations.

Program Characteristics: Out of Target

Executive Summary

This scaled program offer increases resources for professional services to enable the COO's office to respond to emergent issues, facilitate communication, team-building, employee engagement and professional development for the County's leadership, and innovate around strategic county-wide matters.

Program Summary

As the pandemic and extreme weather events have taught us, timely, emergent issues of a county-wide nature can be difficult to predict, and often require flexibility and quick deployment of resources. Furthermore, with many new department directors and a new COO team, the time is ripe for County leadership to build relationships and develop a strategic vision for the future. COO professional services funds may be utilized for:

- County leadership team building and equity training
- Development of program in support of managers of color in partnership with ODE and CHR
- A COO/Chair employee-engagement tour
- Re-institution of the Executive Learning Series
- Consulting to support strategic planning across departments
- Research and consulting related to initiatives like workforce security, future of work, etc.
- Resources to fund countywide initiatives such as de-escalation training
- Executive recruitment consultants

By way of illustration, in the 2018/2019 Executive Leadership Series, the COO provided County executives quarterly professional development and change management opportunities with a focus on equity. In 2019, Multnomah County's first management conference "Together: Forward" was held at the Oregon Convention Center. The conference was intended as a "level-setting opportunity to communicate a model of excellence for leadership development and accountability, recharging Multnomah County's organizational culture and envisioning a future together as One County." As the County emerges from the COVID-19 crisis and embraces new leadership, similar opportunities to come together and think strategically as a leadership team will be invaluable.

Program #72001 - Budget Office

3/3/2022

Department: County Management **Program Contact:** Christian Elkin

Program Offer Type: Existing Operating Program Program Offer Stage: As Requested

Related Programs:

Program Characteristics: In Target

Executive Summary

The Budget Office, under the leadership of the Chair and Board of County Commissioners, manages the County's budget process and prepares the annual budget. The office serves as a resource to the Chair's Office, the Board of County Commissioners, other elected officials, County departments, and the public. It also helps decision makers and department staff by communicating policy direction and program priorities; coordinating strategic planning; and providing technical expertise, training, and various analyses.

Program Summary

The budget is more than just a list of the planned revenues and expenses for the fiscal year. The budget is the County's largest policy document, and it is through the budget process that the County aligns its funding with its priorities. This is why it's essential that the County's values are incorporated into the budget process. The Budget Office supports this work by facilitating the countywide budget process. For example, one of the main priorities of the Chair, Board, and County is to focus on equity. The Budget Office has updated the budget process and documents to reflect that budgetary decisions should be centered on equity and has helped communicate this priority to the departments.

The Budget Office also provides a variety of resources and analyses to help inform decision makers and to guide departments through the budget process. For example, the Budget Office does the following:

- Creates General Fund forecasts to inform the Board how much funding is available for the budget (the General Fund is the County's largest source of discretionary revenues; if the forecast is too high, a midyear reduction may be required, but if it is too low, the County may unnecessarily cut services or employees during the annual process).
- Performs analysis as needed throughout the year to determine the estimated cost impacts of departmental, local, State, or Federal policy proposals and changes,
- Provides cost estimates during labor negotiations,
- Provides budgetary information to departments during the annual budget process and throughout the fiscal year,
- Trains department employees on budget software and the budget process,
- Presents information about the budget process to external stakeholders such as community based organizations, and
- Communicates policy direction and program priorities to departments.

The Budget Office also helps ensure that the County follows Oregon budget law. The County is committed to producing a high quality budget that follows recommended guidelines and best practices. This is reflected in the fact that the County has received the Government Finance Officers Association's Distinguished Budget Presentation Award for almost two decades.

Performan	Performance Measures						
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer		
Output	Number of budget modifications processed (includes internal)	208	200	259	200		
Outcome	% of budget modifications entered into Workday within 4 weeks of Board approval	88%	98%	88%	90%		
Quality	Percent error in General Fund Revenue Forecast	7.5%	2.0%	6.4%	2.0%		
Quality	Customer rating of countywide budget process on scale of 1 to 10 (extremely dissatisfied to extremely satisfied)	6.66	N/A	7.22	7.25		

Performance Measures Descriptions

Budget modifications make changes after the fiscal year begins; most need Board approval, but purely technical changes are "internal" and only need Budget Office approval. The forecast error in FY 2021 and FY 2022 is significantly higher than usual due to the quick rebound of the Business Income Tax (BIT) after the economic shock from the pandemic. Customer rating: New due to change in budget survey questions. Because of survey timing, the FY 2022 estimate is the actual rating. (Previous measure of "% of customers rating Budget Office efforts as either 'good' or 'excellent'" was 84% in FY 2021).

The Budget Office is not mandated, but the County is subject to Oregon Budget Law (ORS Chapter 294). The office is responsible for producing a financially sound budget that complies with the law and communicates the anticipated outcomes from use of public funds entrusted to the County.

The office has transitioned to a hybrid workplace with staff spending some days in the office and other days teleworking. To accommodate countywide transitions to hybrid or fully-remote workplaces, the Budget Office has also expanded its communication efforts and methods, including instituting a regular Budget Bulletin covering time-sensitive issues, providing live online trainings related to the budget process and budget software, and developing numerous video trainings available when most convenient for departmental users (supplementing already-existing written materials). The Budget Office is also engaging in economic forecasting support related to the voter-approved initiatives for Metro Supportive Housing Services and Preschool for All; as well as, additional analysis related to those programs, the Library General Obligation Bond, and American Rescue Plan funds.

Program Characteristics: In Target

Executive Summary

Central Accounts Payable provides customer service to departments and expert support in payment processing, travel and training, procurement card administration, auditing and data integrity, and supplier master file management. Additionally, Central Accounts Payable provides leadership and support to the creation, revision, and application of County Administrative and Financial Procedures.

Program Summary

Central Accounts Payable (AP) processes approximately 135,000 vendor invoice payments and refunds annually; this includes check payments, electronic payments and intergovernmental funds transfers. AP administers the purchasing card program and facilitates the establishment and monitoring of petty cash accounts countywide; furthermore, it coordinates the year-end expenditure accruals; conducts internal audits of AP functions while ensuring that vendor payments are paid in an accurate and timely manner and are compliant with applicable internal controls, administrative procedures and government accounting practices. AP coordinates/prepares documentation for external audits and is responsible for maintaining accurate vendor records for payment and tax reporting purposes. AP also establishes and communicates clear and uniform county administrative practices and procedures related to AP functions. In addition, AP provides one-on-one technical assistance/training and also hosts information forums and periodic finance related user-group meetings for the purpose of informational updates, group training, and peer/professional support which ultimately contribute to staff competencies.

Central Accounts Payable plays a critical role in the County's support to the community by ensuring that payments to suppliers are completed timely and accurately. Many of these payments are going to local organizations that are providing services to our most vulnerable residents. Central AP strives to provide support to all our suppliers in a respectful, caring, and equitable manner. And to help promote the success of County operations through continuous process improvement leveraging technology to evolve the AP function from a paper intensive payment process to a more sustainable, electronic payment system.

Outcome	Percent of Total Payments that are Electronic	75%	75%	69.01%	84%			

Performance Measures Descriptions

Payments processed is the total of all invoices paid regardless of type, check, electronic, procurement card, Multco Marketplace. Net payment is due 30 days after receipt of original invoice. Payments that are electronic are non-check methods such as ACH, ePayables, Pcards, and MMPcards. COVID relief related invoices such as rent assistance and restaurant relief have often been paid via check and have impacted this performance metric.

Tax Information Returns (i.e. 1099 MISC, 1099 INT, etc.) are mandated by the Internal Revenue Service code as described in Sections 1.6001-1 through 1.6091-4. Failure to comply would result in the County being assessed penalties and fines.

This program is supported by General Fund revenues.

Rebates are the only Central Accounts Payable revenue. Rebates, received from U.S. Bank and Bank of America, are based on the level of annual spending in each of the bank's credit card programs. The majority is from Bank of America's purchasing card program; rebates from BOA are generally 1.4% of total value of transactions processed annually. Where practical, Multnomah County maximizes the use of electronic card payments to leverage rebates back to the County.

Program #72003 - FRM Chief Financial Officer

3/3/2022

Department: County Management **Program Contact:** Eric Arellano

Program Offer Type: Administration Program Offer Stage: As Requested

Related Programs:

Program Characteristics: In Target

Executive Summary

The Chief Financial Officer manages the financial health of the entire County and sets administrative policy related to financial management. Direct responsibilities include Accounts Payable, ERP Finance Support, General Ledger, Fiscal Compliance, Risk Management, Payroll, Retirement Programs, Excise Tax Administration, Central Purchasing and Treasury.

Program Summary

The Chief Financial Officer (CFO) develops and presents financial guidelines to executive level staff, the County Chair's Office, and the Board of County Commissioners. The CFO presents recommendations related to public financial policy to these groups as well as other jurisdictions. The CFO interacts with the Oregon Legislature, the general public, and the business community in assessing the potential impact of changes in financial policy. The CFO also develops and/or suggests financing alternatives to executive level staff and jurisdiction partners.

The CFO monitors the Public Employees Retirement System (PERS) and works with partner jurisdictions to develop and present legislative policy. This involves communication with the Board, the Oregon Legislature and/or PERS Board and labor groups. The CFO works with the Budget Office, the Chair's Office, the Board and County departments to establish priorities and guidelines, and ensures that policies are aligned with these priorities. The CFO works with departmental finance sections, DCM divisions, and all County department stakeholders on all administrative policies and procedures.

The CFO manages the County's risk fund, this includes but is not limited to managing risk fund budget, setting collection rates, managing/setting reserve requirements (e.g. workers compensation and health self insured programs), managing other post retirement employment benefits (OPEB) program, and managing the usage of the fund.

Executive Summary

The General Ledger program manages central financial accounting and reporting, including the annual external financial audit, the comprehensive framework of internal controls, as well as general countywide accounting support and assistance.

Program Summary

The General Ledger (GL) program supports and monitors the County's financial accounting activity by performing corporate level accounting functions including account reconciliations, review/approval of accounting transactions and preparing required financial reports.

The primary product is the County's Annual Comprehensive Financial Report, which includes all activities associated with the required annual external financial audits. The report earns the Government Finance Officers Association (GFOA) award annually for excellence in financial reporting. This award indicates management has prepared financials that meet the reporting standards and requirements noted by GFOA. Approximately 3% of governmental entities in the United States receive this award annually.

General Ledger prepares the financial reports for three component units of the County: Mid County Service District No. 14, Dunthorpe-Riverdale Service District No. 1 and the Multnomah County Library District. GL also maintains internal controls and the chart of accounts.

Performa	Performance Measures						
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer		
Output	Number of properly stated balance sheet accounts per review of external auditors	300	300	300	300		
Outcome	Number of Comprehensive Annual Financial Report audit deficiency comments from external auditors	0	0	0	0		
Quality	Number of days Annual Comprehensive Financial Report is completed after fiscal year end	155	170	155	155		

Performance Measures Descriptions

Fewer balance sheet accounts identified with misstatements indicate a high degree of accuracy in the financial statements and effective internal controls are in place (approx. 300 total accounts). External auditors express their opinion on the County's Comprehensive Annual Financial Report, including assessment of the risks of material misstatement of the financial statements. "0" means the auditors identified no deficiencies or weaknesses in internal controls. Financial reports should be issued soon enough after the close of a period to affect better decision making.

Oregon Revised Statutes (ORS), Ch. 297: Audits of Public Funds and Financial Records, requires governments to have an external audit and that it be submitted to the Secretary of State - Audits Division.

Executive Summary

Purchasing oversees the County's goods and services procurement activities and provides leadership, expertise, and training to employees who perform purchasing functions. Purchasing supports departments to procure products and services in construction, materials, and both non-professional and professional services. Purchasing ensures appropriate and cost-efficient public procurement and contracting practices, including evaluating the economic, social, and environmental impacts of purchases.

Program Summary

Purchasing provides leadership, policy oversight and monitoring, contract procurement, compliance, staff training, support services and overall accountability for several thousand contracts and hundreds of millions of dollars awarded each year.

Key efforts include the following: (1) safeguard the County from potential contractual risk and liability exposure; (2) functional administration of the County's procurement and contracting software; (3) ensure products and services are purchased in accordance with federal and state laws, procedures and regulations including County Administrative Procedures and rules established by Multnomah County's Public Contract Review Board (PCRB); (4) review and approve contract documents, review and approve contract changes and/or amendments and maintain official contract records; (5) research, analyze, recommend, and implement best business practices; (6) provide ongoing public purchasing guidance, support, training, and consultation to departments and employees; (7) track, monitor, analyze and annually report on contract data and performance measures; (8) maximize efforts to include and ensure participation of State Certification Office for Business Inclusion and Diversity (COBID) Certified suppliers (Disadvantaged Business Enterprises, Minority-owned, Women-owned, Service Disabled-owned and Emerging Small Businesses) and Qualified Rehabilitation Facilities (QRF); (9) participate in community events, meetings and conduct outreach to the COBID Certified supplier community and; (10) develop and implement sustainable purchasing policies, procedures and training.

Purchasing promotes the County's sustainability goals by ensuring sustainable practices of prospective suppliers, contractors and service providers are included as evaluation criteria in all contract awards over \$10,000. All Purchasing staff share in the education, training, and support of County staff to ensure sustainable purchasing practices.

Performance Measures						
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer	
Output	Percent of contracts awarded to COBID Certified and QRF businesses	7%	8%	10%	8%	
Outcome	Number of sustained protest on formal procurements	0	0	0	0	
Output	Number of formal RFP and Bid solicitations issued	47	120	62	80	
Output	Number of contracts and amendments processed	1020	1,000	1276	1,000	

Performance Measures Descriptions

Purchasing manages formal Request For Proposal (RFP) and bid solicitations (>\$150,000) for the County because those represent the greatest risk in the County's purchasing activity. Minimizing the number of sustained protests is an indicator of how well Purchasing is managing the risks associated with formal procurement processes. The output measures listed are good indicators of the volume of formal procurements we conduct and the contract processing activity across all County departments.

Oregon Revised Statutes (ORS) 279A, 279B, and 279C establish requirements affecting the County's procurement and contracting practices. The County establishes and implements Public Contract Review Board (PCRB) Rules and Administrative Procedures CON-1 and PUR-1 to define its procurement and contracting processes within the constraints of ORS requirements.

Program #72005B - FRM Purchasing - MMP Contracts + Optimization

3/3/2022

Department:County ManagementProgram Contact:Brian Smith

Program Offer Type: Innovative/New Program Program Offer Stage: As Requested

Related Programs: 72005 FRM Purchasing

Program Characteristics: One-Time-Only Request, Out of Target

Executive Summary

This project maintains and optimizes the software and business processes that support the County's more than 3,000 active contracts. It includes four initiatives that leverage the County's investment in the contract module of the Multco Marketplace (MMP). MMP has been the County's procurement and contracting solution of the county's Enterprise Resource Planning (ERP) system since 2019. MMP itself consists of four modules of the Jaggaer Software as a Service (SAAS) platform: E-procurement, Supplier Management, Sourcing and Contracts+ (pronounced "contracts plus"). Contracts+ is the most complex of the four modules as it relates to functionality, system architecture, review and approval workflows. Taking this opportunity now ensures efficiency and resiliency of the County's contracting system moving forward.

Program Summary

This project focuses on optimization of the Contracts+ module, clean-up of legacy contracts from SAP, and creation of ongoing support and maintenance resources. The four specific initiatives which make up this project include:

- 1) System and Business Process Optimization Since the County went live with MMP, we have managed 11 software update releases. This work will be the first opportunity to review how the County is actually using the system across all Departments. It includes documenting the contract authoring, review, and management processes. We will also examine opportunities for optimizing the existing Contracts+ features, and determine if other available features would add value for the County. This project will result in recommendations for system improvements to increase the efficiency of our contracting system.
- 2) Configuration Changes to the Testing and Production Environments This project will implement the recommendations that result from the system and business process review. This involves changing the configuration of the software that runs MMP and will result in many benefits for the County: decreased contract development and processing time, greater consistency of user experience across Departments, reduced training needs for contract creation and approval. It also streamlines the testing and impact of future software production releases which happen three times per year.
- 3) System Support Standard Operating Procedures To support the continuity of operations and increase resiliency, this project would develop detailed operating procedures the the System Administrator's daily management of contracts within MMP. Much of this work is transparent to users, but critical to system functioning and includes maintenance of contract template, workflow, clause, and obligation libraries; and maintenance of workgroups, contract groups, and reporting systems.
- 4) Conversion of Legacy Agreements There are currently 900 active contracts which the County imported from SAP into MMP at system implementation. Over time, and with new MMP software releases, these legacy contracts have the potential to create problems as they lack many of MMP's required fields of contracts created in MMP. This project would convert these legacy contracts into MMP-originated agreements and end this problem moving forward.

Oregon Revised Statutes (ORS) 279A, 279B, and 279C establish requirements affecting the County's procurement and contracting practices. The County establishes and implements Public Contract Review Board (PCRB) Rules and Administrative Procedures CON-1 and PUR-1 to define its procurement and contracting processes within the constraints of ORS requirements. MMP is the County's system of record that contains the records to demonstrate compliance with these laws.

Department:County ManagementProgram Contact:Brian Smith

Program Offer Type: Innovative/New Program Program Offer Stage: As Requested

Related Programs: 72005A, 72044A Program Characteristics: Out of Target

Executive Summary

The Construction Diversity and Equity Fund (CDEF) program supports recruitment and retention of women and minorities in the skilled construction trades. It also supports the competitiveness of State certified minority-owned, women-owned, service-disabled-veteran-owned businesses, and emerging small businesses. This program offer is for an additional staff person to manage the CDEF program and support the increasing County ongoing requirements which impact the Supplier Diversity Program.

Program Summary

The Supplier Diversity Program in Central Purchasing includes several of the County's key programs aimed at assuring adequate opportunities and support for state certified businesses, subcontractors and apprentices to participate and compete for business opportunities provided through County contracts. The Construction Diversity and Equity (CDEF) program is the newest of these programs and specifically supports recruitment and retention of women and minorities in the skilled construction trades. It also supports increasing the competitiveness of State certified minority owned, women owned, service-disabled-veteran-owned businesses, and emerging small businesses. Originally launched in FY20, CDEF was designed and implemented utilizing existing staff and has never had dedicated operational staffing. More recently, the program has struggled to maintain timely reporting and the business support it requires. We are requesting one additional FTE (Program Specialist) to support the CDEF growing program needs.

We have experienced some more recent constraints in the CDEF program. Over the past few months, we have thoroughly evaluated the status of both CDEF and the related Workforce Training and Hiring Program. Though both programs are expanding due to demand, the resource constraints have been more than planned especially with the implementation of the B2G/LCP tracker software system. The software has dramatically increased the efficiency for suppliers to comply with the County's Workforce Training and Hiring Program, but there remains an overall staffing deficit to keep up with the additional demand. A Supplier Diversity Manager and two program specialists currently staff CDEF and three other programs (Good Faith Effort program, Workforce Training and Hiring program, and the Labor Compliance program). An additional Program Specialist resets the County's commitment to CDEF and could greatly enhance our ability to maintain current program needs while addressing/supporting other new initiatives that may arise (e.g. Labor Harmony, contractor living wage, equity in contracts etc.). These initiatives are newer and evolving so support needs may change over time. We will closely monitor these priorities as they grow and/or change.

Program #72006 - FRM Property & Liability Risk Management

3/3/2022

Department: County Management **Program Contact:** Michelle Cross

Program Offer Type: Existing Operating Program Program Offer Stage: As Requested

Related Programs: 72009B

Program Characteristics: In Target

Executive Summary

The Property & Liability Risk Program (P&LRP) manages the County's property and liability risks in accordance with all legal requirements and County policies/procedures. It focuses on countywide risk exposures, liability/subrogation claims, property claims, purchasing insurance, loss control/prevention, and assists departments in managing identified risks.

Program Summary

The (P&LRP) purchases property insurance, marine coverage, crime coverage, excess liability, excess medical malpractice coverage, bonds, and other specialized insurance coverage for the County. Where the cost of insurance prohibits purchase or coverage is not available, we self fund losses. The P&LRP recommends the types/limits of insurance for contracts, recommends the purchase of specialized insurance and develops countywide policies and procedures related to loss prevention and control. The P&LRP designs and implements risk management strategies for the prevention of risk exposure and property and liability loss countywide. The program adjusts property loss claims, and oversees the Third Party Administrator contracted to process general liability insurance claims for the County. Litigation and large general liability insurance claims are settled with expertise from the County Attorney's Office. The County chooses to "self-insure" (retain a certain amount of financial exposure to loss) and purchases property and excess liability coverage for large property and liability related claims. This decision controls the loss adjustment process, minimizes our "total cost of risk" (uninsured claims costs + insurance costs + administrative costs), and motivates internal loss control behavior. A department's internal property and liability allocated charges are based on their past losses using actuarial data and historical loss data to determine cost percentage rates based on anticipated future losses. This process allows for equitable distribution of financial losses.

The Property & Liability Risk Program is mandated by County Code 7.100-7.104. The County is required by the State to have specific insurance and bond coverage. The County is self-insured for third-party liability in accordance with the provisions of the Oregon Tort Claims Act, ORS 30.270 and purchases Excess General Liability insurance above the self-insured retention of \$1,000,000. The required Public Official Bonds, DEQ Bonds, and Pharmacy Bond are purchased in accordance with State requirements.

Executive Summary

Central Payroll is responsible for paying the employees of Multnomah County, ensuring compliance with Federal, State, and local wage and hour laws, withholding and remitting employment taxes and other deductions, issuing wage and tax reporting statements and administering the pension and deferred compensation programs.

Program Summary

Central Payroll produces 24 payrolls per year for all Multnomah County employees and is responsible for accurately withholding, reporting and remitting employment taxes to Federal, State and Local taxing authorities. Payroll reports and remits pension contributions to the Public Employees Retirement System and administers the County's IRC §457 Deferred Compensation Program. Payroll ensures that timekeeping and wage payments are done in compliance with Federal and State wage and hour laws, labor contracts and County Administrative guidelines. Payroll reconciles and remits mandated deductions for creditor garnishments, child support, bankruptcies, tax levies and union dues. Payroll reconciles and produces year-end tax statements for employees (W2's) and suppliers (1099's) of Multnomah County following strict federal and state regulations.

Payroll protects County funds by ensuring that employment taxes, wage and tax statements, and pension payments are processed and remitted timely to avoid assessment of fines for noncompliance. The program supports the County's sustainability goals by providing electronic disbursements of wages to employees' financial institutions and providing paperless notification of their deposits. Currently 98% of employees participate in direct deposit, and all employees receive notification of their payslip through Employee Self Service.

^{**}The percent of employees participating in the deferred compensation plan will measure the effectiveness and quality of the educational opportunities offered. The national average for participation is 45%.

Wage payments are mandated by Federal & State wage and hour laws, union contracts, and Multnomah County Personnel Rules. Withholding and remitting employment taxes is mandated by the Internal Revenue Service, the Oregon Dept of Revenue and other state tax agencies. Pension contributions are mandated by union contracts, Multnomah County Personnel Rules and Oregon Revised Statutes. Failure to comply with these laws and regulations result in fines and penalties being assessed.

External revenues for the deferred compensation program are contractually negotiated with the County's deferred compensation provider through a revenue sharing agreement. All administrative costs associated with the program are paid for through the agreement. The revenue sharing enables the County to offer the program to employees at no cost to the County. The estimated reimbursement for FY 2023 is \$180,000 and is adjusted each following year by the CPI-W. In addition \$35,000 of BWC from FY 2022 is budgeted.

Executive Summary

Treasury manages the County's cash assets, investment portfolio, debt, banking services and relationships and broker/dealer relationships. Treasury also manages the Excise Tax Administration program which includes management of revenue collections for Motor Vehicle Rental Tax (MVRT), Transient Lodging Tax (TLT) and Business Income Tax (BIT) in accordance with Multnomah County Code, the County's fiduciary responsibilities and revenue & taxation policies and procedures.

Program Summary

Treasury invests the County's financial assets to ensure that funds are available to meet anticipated cash flow needs. Investment earnings are measured against specific benchmarks outlined in the Investment Policy. Treasury complies with all applicable laws, policies and best practices in the management of County funds.

Treasury supports the Chief Financial Officer in the issuance of debt, including opportunities to refinance existing debt and maintains contact with rating agencies. It ensures timely and accurate debt service payments and generates arbitrage rebate calculations and reports. Treasury regularly analyzes cash flow. From time to time it is necessary to issue short term Tax and Revenue Anticipation Notes (TRANs) to provide liquidity prior to the collection of property taxes in November.

The County collects and administers three excise taxes. A Business Income Tax (BIT) is assessed against businesses with income generated within the County. It is set at a rate of 2.00% of net income. BIT is the second largest revenue source in the General Fund, generating approximately 22% of General Fund revenues. A Motor Vehicle Rental Tax (MVRT) is charged on the rental of cars and light trucks within the County. It is currently set at a rate of 17% of rental fees. A portion of the tax (2.5%) is passed through to the Visitors Development Fund to support tourist activities. A Transient Lodging Tax (TLT) is charged on the rental of hotel/motel rooms within the County. It is currently set at a rate of 11.5% of rental fees. Most of the revenue generated by the TLT is passed through to other entities. Cities retain 6%, another 3% is dedicated to operating the Oregon Convention Center, and 2.5% is passed through to the Visitors Development Fund.

Treasury provides countywide accounts receivable oversight and management including AR aging monitoring, cash management, and collection activities. Treasury maintains effective banking relationships to keep pace with technology and adapt to the needs of County Departments in delivering business services to County residents.

Executive Summary

The Workers' Compensation section of this program manages the work-related employee injury and illness process and assists employees in returning to their jobs post injury or illness using established policies to ensure equitable use of light duty. The Safety and Health section oversees the loss prevention efforts of the County by assisting each department in meeting loss prevention requirements of a workers' compensation self-insured employer and Oregon Occupational Safety and Health Division (OR-OSHA) compliance.

Program Summary

This program provides workers' compensation benefits in accordance with state law. Multnomah County has been self-insured for this mandatory program since 1978. Claims are administered through a contract with a third-party administrator (TPA) with oversight and coordination of return to work from Risk Management staff. Staff work with employees, supervisors, physicians, the TPA, attorneys, managed care organizations and other vendors to accurately and timely process claim benefits for the injured employee. Internal Workers' Compensation section employees focus on service, equitability, cost containment and compliance efficiency. The Workers' Compensation section is responsible for the County's return-to-work program and follows state requirements necessary to benefit from the Workers' Compensation Division (WCD) Employer-At-Injury reimbursement program.

The primary activity of the Safety and Health section is assisting management in efforts to reduce employee on-the-job injuries, illnesses, and employer liability due to injuries to non-employees. This work incorporate safety, trust, and belonging values in all communication and program implementation. Through an equity lens, the Safety and Health staff consult with County departments to assist them in providing a safe environment, safety for both employees and the public. Staff help to identify and abate deficiencies related to occupational safety and health regulations with an inclusive and equitable manner. All employer-based loss prevention activity needed to maintain the workers' compensation self-insured status is managed by the Safety and Health staff and communicated to internal partners through an equity lens for implementation and program success.

The Workers' Compensation Section receives reimbursement from the State of Oregon for claims cost when specific eligibility criteria are met. Claim processing over payment reimbursements are also received as revenue. Safety and Health receives internal service reimbursements from departments whose staff attend the first aid/CPR/AED classes taught by Safety and Health instructors. The revenues received are to offset the cost paid to the Medic First Aid for course materials and completion certificates. The cost to Departments/Offices whose staff attend these internal classes are well below the cost of taking the class from an external provider.

Executive Summary

The Recreation Fund Payment to Metro program provides support funding to Metro for the operation and maintenance of community parks. The expenditures of the fund are pass-through payments to Metro under an intergovernmental agreement (IGA) the County entered into in 1994. The transactions for this program are recorded in the Recreation Fund.

Program Summary

This program's primary purpose is to provide funding to Metro to maintain and operate community parks which in turn build local communities and provide for recreational opportunities. The program's resources derive from Marine Fuel Tax apportioned to Multnomah County. The expenditures of the fund are pass-through payments to Metro under an IGA the County entered into in 1994.

These funds may be used to operate, administer and maintain the following Metro natural areas and regional facilities that were transferred from Multnomah County in 1994: Mason Hill Park, Sauvie Island Boat Ramp, Multnomah Channel Park, Bybee-Howell House and Park, Belle View Point, James Gleason Memorial Boat Ramp, Broughton Beach, Beggars Tick Marsh, Glendoveer Golf Course and Fitness Trail, Blue Lake Park, Gary and Flagg Islands, Oxbow Park, Indian John Island, Larch Mountain Corridor, Chinook Landing Marine Park, Sandy River Access Points, Smith & Bybee Lakes Addition, Phillipi Property and the Expo Center. Program Characteristics: In Target

Executive Summary

The Fiscal Compliance is responsible for maintaining compliance with Federal, State and County laws and regulations and to provide fiscal oversight of contracted programs. The unit performs pre-award risk assessments, site reviews and financial statement analyses on County human service contracts to meet that responsibility. The unit manages the County's annual Single Audit (audit of the County's federal expenditures) and provides countywide grant management policy development, guidance, and support to County departments.

Program Summary

Fiscal Compliance performs annual fiscal monitoring for all CBO's that work with the County. Monitoring includes, financial statement analysis including cash flow and revenue reliance for all CBO's, and site and desk reviews for those receiving Federal funding. Site reviews include internal control, compliance and accuracy testing. Fiscal Compliance provides recommendations to align with best practices.

Fiscal Compliance performs annual risk assessments (which includes a financial statement review) on all contracts receiving Federal funds to ensure compliance with external standards/regulations and assesses the entities financial health. In the most recent year, Fiscal Compliance performed 55 risk assessments and performed 20 site audits covering \$6.5 million in federal expenditures. The performed oversight helps department programmatic staff with transparency into fiscal assessments by ensuring subrecipients are compliant with grant requirements and are financially stable.

Fiscal Compliance also offers both external and internal support around compliance. Internal support includes, but not limited, to approval of costing allocations, reviewing CBO budgets, and providing guidance for external audits. External support for our CBO's includes, but isn't limited to, review of internal controls for fiscal recommendations, review of indirect rates and costing allocations, and invoice reviews.

Fiscal Compliance manages and coordinates the annual Single Audit for the County. The program also administers the County's fiscal grants management user group which supports County grants administration, grants policy, and grant compliance efforts. Fiscal Compliance prepares the County's Cost Allocation Plan annually to set indirect rates, overhead costs in support of grants and contracts.

Performa	Performance Measures							
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer			
Output	Total risk assessments performed on County contracts receiving Federal funds	69	50	60	50			
Outcome	Percent of total County pass-through dollars actively monitored by Fiscal Compliance	75%	85%	90%	85%			

Performance Measures Descriptions

The Fiscal Compliance unit performs financial monitoring of County-funded human service providers. Monitoring includes Federal, State, County and other funds recorded in the pass-through/program support GL account. A higher percentage/count monitored indicates greater coverage and decreased County financial risk as it relates to human services providers.

The Office of Management and Budget (OMB) Federal Register requires entities expending Federal funds over \$750,000 in a fiscal year to have a single audit of Federal awards. Also, according to the Federal Register, Federal funds that are passed on to other organizations (such as non-profits) must perform subrecipient monitoring on those contracts funded with pass-through dollars. The Federal Register requires organizations to publish an approved indirect cost allocation plan for any indirect or administrative costs allocated to Federal awards.

Program #72014 - Evaluation and Research Unit

3/3/2022

Department: County Management **Program Contact:** Alison Sachet

Program Offer Type: Support Program Offer Stage: As Requested

Related Programs:

Program Characteristics: In Target

Executive Summary

The Evaluation and Research Unit (ERU) does research about workforce equity, employees' experiences, and evaluates programs both countywide and within the Department of County Management. The goal of this work is to ensure that County employees have the resources, support, and environment that they need to thrive as they do the important work to serve the community.

Program Summary

In FY 2022, the Evaluation and Research Unit performed projects to measure: whether employees are paid equitably; trends in hiring, promotions, and separations by different demographics (e.g., race and ethnicity, gender); and employees' experiences of work climate, belonging, job satisfaction, relationships with supervisors and coworkers, communication, the County's equity efforts, and how employees' identities impact their experiences at work. The ERU consistently consults across the County, ensuring that surveys, data collection, and other small research projects are performed with integrity and lead to actionable findings. The ERU also helps to organize a community of practice, which supports a community of researchers and a culture of collaboration and learning across the County's research and evaluation professionals.

The ERU plans to continue this work in FY 2023 and will build on it by working towards greater stakeholder engagement in their work in ways that model people-centered research and design and methods that embody principles of equity, safety, trust and belonging. For example, the ERU plans to convene an Advisory Group, which will be composed of members of Employee Resource Groups and Department Equity Committees, to guide and advise projects to ensure that employees' voices are centered in the work.

Performance Measures						
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer

Output	Number of stakeholder engagement activities	12	27	25	25	
Outcome	Percent of county employees stating that they feel like they belong at the county	79%	80%	68%	68%	

Performance Measures Descriptions

Measure 1 included 331 pay equity consults in FY 2021. Pay equity consults have since transitioned to Classification and Compensation, so we do not anticipate as many in FY 2022 or FY 2023. Measures 2 and 4 are from the Countywide Employee Survey, which is done every two years. Stakeholder engagement activities are to ensure broad input from diverse stakeholders, including listening sessions and meetings with advisory groups.

Executive Summary

The Department of County Management (DCM) Business Services Program provides business services to the Department through exercising sound, accurate and transparent financial management. The Program coordinates development of the Department Budget, enfolding equity and inclusion practices in the budget development process, performs financial functions of accounts receivable, accounts payable, grant accounting, procurement and contracting and provides administrative and general accounting support to the Department.

Program Summary

The Department of County Management (DCM) Business Services Program is responsible for coordination and development of a balanced budget that meets Oregon Budget Law, County policies, and the accounting practices established by the County's Chief Financial Officer. Business Services ensures that the Department's budget adequately supports operations and aligns with the organizational values and programs authorized by the Board of County Commissioners.

Business Services is responsible for developing the annual DCM budget through collaboration and engagement with DCM leadership and department programs, following guidance from the Budget Office, enfolding equity and inclusion practices in the budget development process; is responsible for monitoring, analysis, tracking, and financial reporting, position control, adjustments, amendments and modifications; and monitoring various revenue streams and funds. Business Services monitors departmental spending to ensure it is within approved budget limits.

Business Services is responsible for grant accounting, accounts receivable, accounts payable, travel and training coordination, employee reimbursements, procurement card management, general accounting and administrative support, procurement of goods and services in support of DCM operations, and for County-wide contracts and Intergovernmental Agreements. The contracts team provides consultation, procurement and contract development, negotiation, risk assessment and management, supplier management and ongoing contract administration. The program ensures compliance with applicable financial policies, accounting standards and practices, and contract & procurement rules and laws; Collaborates with stakeholders to review Administrative Procedures, policies and the implementation of best practices; and Participates in countywide teams including Finance Managers Forum, Fin Champs, Purchasing Advisory Council, Purchasing Leaders Group, ERP Governance Group, Strategic Sourcing Council and DCM's Workforce Equity Strategic Plan Committees.

Outcome	% of Accounts Payable invoices paid in 30 days or less	95%	98%	95%	98%	

Performance Measures Descriptions

Outcome measures demonstrate adequate controls and processes are in place to ensure compliance with county policies and practices. No out of town travel for FY2021 due to COVID-19 travel restrictions; training shifted to virtual events resulting in 100% reconciliation rate. Accounts Receivable transactions fluctuates annually; Contract cycle time reflects the number of days from initiating in MMP to execution of the contract, with a goal of 30 days. 119 contracts completed in FY2021: anticipate over 100 for FY2022.

Oregon Budget Law (ORS Chapter 294), Government Accounting Standards Board statements and pronouncements, County Administrative Procedures. Oregon Revised Statutes (ORS) 279A, 279B, and 279C establish requirements affecting the County's procurement and contracting practices. The County Public Contract Review Board (PCRB) Rules and Administrative Procedures CON-1 and PUR-1 define procurement and contracting processes within the constraints of ORS requirements. DCM Contracts utilizing cooperative agreements must adhere to state and federal laws governing the use of the cooperative agreements as described therein.

Program #72015B - DCM Business Services Finance Supervisor

3/3/2022

Department:County ManagementProgram Contact:Travis GravesProgram Offer Type:Innovative/New ProgramProgram Offer Stage:As Requested

Related Programs:

Program Characteristics: Out of Target

Executive Summary

DCM Business Services Expansion adds a Finance Supervisor position to provide increased operational support for the Department of County Management (DCM) central corporate functions and the Office of the DCM Director/Chief Operating Officer. The position adds resources for succession planning for key business functions, and supports knowledge transfer for DCM's unique and complex business operation support needs with countywide impacts. The position provides staff supervision, employee engagement and professional development in alignment with organizational values.

Program Summary

DCM Business Services provides budgeting, contracts/procurement and financial services for the Department of County Management (DCM), for over 50 division programs with 287 FTE, and a budget exceeding \$208 M in FY2022.

The DCM organization and programs have grown and expanded over time, with implementation of new countywide initiatives, new voter approved measures, responses to the pandemic and the implementation of the Workforce Equity Strategic Plan (WESP). DCM's Business Support needs have expanded, as the complexity of support has evolved across multiple functions. In addition, the business support requirements have grown and expanded for key countywide leadership positions in DCM, including the Chief Operating Officer (COO), Deputy COO, Chief Human Resources Officer, Chief Financial Officer, Budget Director and County Assessor/ Tax Collector, as well as support for DCM programs with countywide impacts.

The addition of a Finance Supervisor position to expand DCM Business Services would ensure adequate support for DCM operations, functions, and key leadership positions including the Office of the Chief Operating Officer, and would better align business services support with organizational requirements and values.

The Finance Supervisor provides for succession planning and knowledge transfer of key finance and budget operations, and unique operational support requirements. The position would lead analysis and documentation of business processes and functional procedures, participate in development of the departmental budget, and provide operational supervision of budget and finance staff and functions, including daily work monitoring, scheduling and assignments, employee engagement and professional development.

Program Characteristics: In Target

Executive Summary

Central Human Resources (HR) Administration is the administrative program that oversees and supports the work units that make up the Central HR Division. The Chief Human Resources Officer strategically leads and partners with department HR units to guide consistent, equitable, efficient, and cost effective HR practices across the organization. The Central HR Division consists of several work units which are each stand-alone program offers.

Program Summary

Central HR Administration is made up of the office of the Chief Human Resources Officer (CHRO), and the administrative support team that supports that position as well as the Central Human Resources Division. The CHRO directly oversees Employee Benefits and Wellness, Classification and Compensation, Labor Relations, Organizational Learning, Talent Acquisition, Unemployment Insurance Program, Workday Human Capital Management as well as county wide communications on HR related topics, COVID-19, Workforce Equity, etc. Additionally, indirect leadership relationship between the CHRO, and the HR Managers/Directors at each department as well as with Department Directors.

The CHRO sets direction, determines policy, develops business processes, and builds relationships to develop and sustain a diverse, inclusive, equitable and talented workforce necessary to successfully provide a variety of services to our community. The CHRO focuses on communicating with and seeking feedback from internal stakeholders (elected and department leadership, employee resource groups, HR partners, labor unions, etc.), and engaging in collaborative problem solving to guide and deliver on the division's strategic plan. The CHRO is the primary liaison to elected and departmental leaders to ensure HR processes align with countywide business goals and values as well as the Workforce Equity Strategic Plan, and oversees the evaluation of HR contributions to organizational effectiveness. The CHRO oversees countywide program integration and performance measurement; leads HR technology development and process automation; provides budget and financial management; and ensures compliance with federal, state, local laws, rules, regulations and labor agreements.

The administrative support team in Central HR Administration: coordinates the Countywide Employee Recognition programs including Years of Service, and Employee Awards; coordinates response to unemployment claims; processes countywide transfer requests and lists; distributes regular announcements regarding job openings; as well as general office administration and management for the CHRO and the division.

Program #72017A - Central HR Services

3/3/2022

Department: County Management Program Contact: Chris Lenn

Program Offer Type: Existing Operating Program Program Offer Stage: As Requested

Related Programs:

Program Characteristics: In Target

Executive Summary

Central Human Resources (CHR) Services is responsible for providing key programs and services that support employees throughout their lifecycle and leading CHR efforts to advance best practices in workforce equity, recruitment, onboarding, learning and professional development, leadership development, conflict resolution, performance planning and review, and career pathways that furthers Multnomah County's ability to attract, train, and retain a diverse, high performing, and supported workforce. Through collaboration and partnership, CHR Services enables Multnomah County to fulfill and advance countywide recommendations from strategic plans and employee feedback trends.

Program Summary

Organizational Learning provides a wide range of services including culturally responsive training, leadership development, facilitation services, conflict resolution learning and mediation support, and professional development opportunities for the general workforce. Organizational Learning maintains the County's Core Competencies, the skill sets that help County employees promote our values of safety, trust, and belonging. The Leadership Development Program delivers programs that increase manager accountability, strengthen knowledge of county processes and policies, and build the interpersonal skills that promote a culture of safety, trust, and belonging in the workplace.

Talent Acquisition focuses on recruitment strategies, screening and selection best practices, new employee experience, and workforce pathways that promote the County's mission to build a diverse and talented workforce. The centralized function serves as a subject matter-expert, provides guidance to departmental recruitment resources, and facilitates the countywide Employment Committee. The College to County Mentorship Program, a workforce pathways initiative focuses on the development of college students from underrepresented communities by offering paid internship opportunities in County projects across departments and matches participants with a trained mentor.

HR project and change management focuses on countywide HR projects that respond to the highest priority needs identified by internal priorities (ex: Workforce Equity Strategic Plan, HR Audit) and external industry best practices related to the field of Human Resources. Dedicated internal communications resources provide employees timely and accessible information on county management policies and resources relevant to employee experiences and expectations.

Centralized performance planning, coordination of departmental orientation and onboarding efforts, and career development training also provide services to employees throughout their lifecycle and help to advance overall workforce growth and success.

Output	Employees trained on effective interview panel and selection skills	105	200	160	200	
Output	Number of College to County Mentees placements	54	50	60	50	

Performance Measures Descriptions

Output/Outcome measures align with key performance goals of the Workforce Equity Strategic Plan. Participant learning outputs are intended to capture knowledge transfer and support of professional development which both align with the organizational commitment to becoming a learning organization. Continued impacts of COVID, plan for relaunching training was delayed and therefore enrollment was less than anticipated in some areas. Performance Measure on learning participation was adjusted from previous year to include all CHR Services' team's learning offerings.

Federal, state, local laws, rules, and regulations covering wage and hour, discrimination, harassment, labor relations, privacy, employment at will, hiring, defamation, Uniformed Service Employment and Re-employment Rights Act, Health Insurance Portability & Accountability Act and other employment related issues. Program #72017B - Recruiter Training & Capacity Building

3/3/2022

Department: County Management **Program Contact:** Chris Lenn

Program Offer Type: Innovative/New Program Program Offer Stage: As Requested

Related Programs:

Program Characteristics: One-Time-Only Request, Out of Target

Executive Summary

This Program Offer would develop and pilot a Recruiter Training & Capacity Building Program that lives under the Talent Acquisition portfolio in Central Human Resources. This program would provide training and hands-on experience as a Recruiter. As a part of the training, these roles would be deployed to support outstanding recruitment needs in departments to supplement department HR and help them to fill vacancies.

Program Summary

This Program Offer enhances the services provided by Talent Acquisition in Central Human Resources. This offer provides one time only funds for 4 LDA HR Analyst 2 positions. The goal of this program is to minimize impacts to County operations due to unfilled positions by developing and deploying a bench of recruitment talent with equity informed training to supplement recruitment efforts in departments. This program will provide training to ensure new and existing recruiters are focused on applying best practices that will support our WESP initiatives, including how to develop diverse applicant pools and how implicit and structural biases show up throughout the recruitment process as well as their mitigation strategies. Participants will be able to gain hands-on experience that operationalizes inclusive recruitment best practices needed to step into a vacant recruiter position in the future or increase a department's recruitment capacity in times of high vacancies.

In addition, to promote job postings, increase applicant pools and engage with passive candidates, this program includes a professional LinkedIN Recruiter License. This would allow the County to highlight and sponsor job postings which would allow County jobs to show up at the top of a search conducted by candidates and allow recruiters to search for and connect with potential candidates based on details listed on their profile.

Program #72018A - Central HR Labor Relations

3/3/2022

Department:County ManagementProgram Contact:Travis GravesProgram Offer Type:Existing Operating ProgramProgram Offer Stage:As Requested

Related Programs:

Program Characteristics: In Target

Executive Summary

Labor Relations provides leadership to ensure effective labor-management relationships, appropriate work conditions and legal compliance that balance the rights of employees with the business needs of the County. This program manages 12 labor contracts, representing 86% of the County workforce, and the Personnel Rule (work rules) that apply to all 100%.

Program Summary

Collective Bargaining Agreement (CBA) negotiation and interpretation present the front line of interaction with our employees' Labor Unions. Historically staggered dates for contract renewals have allowed the best opportunity to strategically plan and time proposals for contract changes. Managing negotiations during the COVID-19 pandemic, however, has resulted in many CBA negotiations being settled with one-year extensions, resulting in the accumulation of negotiation obligations FY2022 and beyond.

Forums, such as Employee Relations Committees and the Employee Benefits Advisory Team, along with tools such as negotiated Memoranda, allow the candid communication, clear and accessible decision-making, and collaborative problem solving needed to achieve consistent labor/management practices throughout the County. Additionally, Labor Relations has integrated consideration of Diversity, Equity, and inclusion dynamics into its work negotiating and interpreting/applying labor contracts, and various CBA impacts on employees in historically disadvantaged groups. Labor Relations:

- Leads collective bargaining activities, including contract negotiations, interim negotiations, labor contract administration and interpretation.
- Guides development of employee relations programs to create and promote a positive organizational culture, and advocate for fair, respectful treatment of employees.
- Provides internal expertise for dispute resolution, grievance handling, and cooperative problem solving.
- Maintains and develops personnel rules; ensures consistent application of CBAs, personnel rules, discipline policies, and; administers the County's drug and alcohol testing process.
- Coordinates countywide layoff activities and the merit council appeals process; and
- Ensures compliance with federal, state, local laws, rules, regulations and labor agreements, and communicates, trains and coaches supervisors, managers and department human resources units on these requirements.

Output	Number of labor disputes	141	116	162	140		
Outcome	Percentage of labor disputes settled collaboratively.	90%	98%	93%	94%		

Performance Measures Descriptions

Output and Outcome: Resolving formal and informal labor disputes collaboratively means efficiently addressing concerns without the necessity of arbitration, which can be costly and result in a binding decision not in the County's best interest. Additionally, the County now seeks to include Diversity & Equity considerations, applying equity consideration lenses to determining the County's interpretations in labor disputes, so as to work from more Diversity, Equity, and Inclusion-informed positions.

Twelve labor agreements necessitate contract compliance regarding rates of pay, hours of work, fringe benefits, and other matters pertaining to employment. Significant Program Changes

Last Year this program was: FY 2022: 72018 Central HR Labor Relations

Due to the COVID-19 Pandemic, some staff in this program were initially released from an office environment into a telework environment; others moved to be near the Emergency Operations Center, but have since been released to telework. Operational changes have included establishing virtual bi-weekly meetings with the county's largest employee union, AFSCME Council 75, regarding various Labor Issues associated with the COVID-19 pandemic. Communication is done primarily via email and chat, including virtual meetings with staff and bargaining units. These changes also included having held virtual bargaining sessions with those bargaining units who had open contracts this fiscal year.

Program Characteristics: One-Time-Only Request, Out of Target

Executive Summary

To create equity across departments, Labor Relations will fund the wages of the employee elected to the AFSCME Presidency. Departments will then be able to fund an employee to backfill behind the President's temporary vacancy to ensure business needs are met without financial hardship.

Program Summary

The County and AFSCME have a Memorandum of Agreement (MOA) that allows the AFSCME President to devote their full time schedule to union related duties. The AFSCME Presidency is a full-time job, and it is difficult for the incumbent to be effective at either their county position or the presidency if required to do both simultaneously. Per the MOA, they are no longer performing the duties of their regular County position, and departments need to backfill behind them during their term for business continuity. Some departments are better able to absorb that additional cost, while for other departments it creates a financial hardship.

This program offer seeks ongoing funding to pay the wages of the employee designated as the AFSCME President. This will create equity for the departments, and allow them to fully fund the backfilling of that employee's position. The amount of funding would vary every two years, based on the wages of the person elected to the AFSCME presidency.

Output	Number of Local 88 labor disputes	71	86	50	69			
Outcome	Percentage of Local 88 labor disputes settled collaboratively.	95%	97%	96%	96%			

Performance Measures Descriptions

Output and Outcome: Resolving formal and informal labor disputes collaboratively means efficiently addressing concerns without the necessity of arbitration, which can be costly and result in a binding decision not in the County's best interest. Additionally, the County now seeks to include Diversity & Equity considerations, applying equity consideration lenses to determining the County's interpretations in labor disputes, so as to work from more Diversity, Equity, and Inclusion-informed positions.

Labor agreements necessitate contract compliance regarding rates of pay, hours of work, fringe benefits, and other matters pertaining to employment. Federal, State, local laws, rules, and regulations covering wage and hour, discrimination, harassment, labor relations, privacy, employment at will, hiring, defamation, Uniformed Service Employment and Reemployment Rights Act, Health Insurance Portability & Accountability Act and other employment related issues.

Program #72019 - Central HR Unemployment

Program Offer Type: Existing Operating Program Program Offer Stage: As Requested

Program Characteristics: In Target

Executive Summary

The Unemployment Insurance Program provides unemployment benefits to eligible workers who are unemployed due to layoff or other discharge for reasons other than misconduct. Unemployment insurance replaces part of the income that employees lose when they become unemployed.

Program Summary

Unemployment benefits are provided through the State or Oregon Employment Department. The County funds these benefits, as a self-insured employer, with direct payments to the state. Former employees, or employees who have had their hours reduced, submit claims to the State, who determines eligibility and benefit amounts. The State recoups funding for the claims directly from the County quarterly. Claimants file an appeal with the State when they want to contest an eligibility decision, for a hearing with an administrative law judge.

The Unemployment Insurance Program provides the funding to ensure eligible workers secure financial assistance when they are no longer employed by the County, or their hours are reduced. The program responds to the State's Employment Department in a timely manner, provides accurate and timely monitoring and reporting, and participates in all appeal hearings to decrease costs and liability due to ineligible claims. The County doesn't contest eligible claims, but benefits claim decisions can favor the applicant if responses are late, data is inaccurate or an employer fails to respond to a requested clarification.

The impact of COVID-19 has been an increase in the number of claims filed. Fraudulent claims, which were previously non-existent, have reached 212 since the onset of work-from-home directives in March 2020. This has been due to a nationwide issue with "bad actors" using unemployment claims as a method of identity theft. Ultimately, there should be no financial impact as these claims should be closed, but there has been an increase in county-to-employee contact as we notify each employee or former employee they have possibly been a victim of ID Theft.

Performance Measures							
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer		
Output	Number of employee claims for unemployment.	597	475	424	450		
Outcome	Percentage of unemployment claim appeals found in the county's favor.	67%	50%	50%	50%		
Output	Number of unemployment appeals.	9	8	8	8		

Performance Measures Descriptions

Outputs and Outcomes: The number of claims for FY 2022 is higher than budgeted due to the reasons listed in summary. Appeals are filed when the claimant disagrees with the benefit eligibility decision by the State; claims in the County's favor means a lower expense and lower risk to the County.

Unemployment Insurance benefits are mandated by federal and state laws. Oregon Employment Law, statues 657.005 and 657.010, Federal Unemployment Act Social Security Act.

Program Characteristics: In Target

Executive Summary

The County's Benefit programs provide comprehensive health and financial security options to help over 12,000 employees, retirees and their families to ensure their needs are covered. Health programs focus on prevention and managing chronic conditions. Work is ongoing to promote greater health equity. Our health vendors have been asked to increase access to more diverse providers within their provider panels and some improvements have been made.

The Wellness Program promotes and supports holistic workforce well-being across seven dimensions of wellness. It serves employees and families through programming, services, and practices, aligned with Central HR's priorities, that center equity and investment in employee well-being and experience, and workplace culture.

Program Summary

By internally administering the County's health and welfare programs, the department can best support our populations' unique business, labor and financial requirements. The team monitors transactions and contractual arrangements carefully to provide sound fiscal management in coordination with DCM Business Services and Financial partners.

The Benefits team administers a complex array of plans while ensuring compliance with labor contracts, federal, state and local laws and mandates. Coverages include a variety of comprehensive health coverage options, a VEBA health reimbursement account, basic and supplemental life insurance, flexible spending accounts for health, dependent/elder care and transit, leave management, and short/long term disability benefits. These programs help provide employees with peace of mind by supplying the resources to protect their financial security and physical and mental health and well-being. Participants include over 12,000 employees, spouses or domestic partners, dependent children and retirees. The team also consults and coordinates with County employees and departments to ensure timely enrollment in benefit plans, accurate payroll deductions, and user-friendly benefit communication/educational materials. Member advocacy is available through Benefits to assist plan participants and facilitate problem resolution. Prospective retirees are counseled to understand their County-provided options during their pre-retirement planning process.

The program works closely with County labor unions and management to structure benefit components that provide desirable, affordable and sustainable benefit options within budgetary constraints.

Wellness programs can help reduce employee health plan costs and absenteeism, while enhancing employee recruitment, retention, morale, and productivity. The Employee Wellness Program adapts to serve the most relevant and emerging wellness needs of our employees as identified by population health data, employee feedback, and in response to Countywide equity efforts. Programming and policies focus on a holistic approach to well-being across multiple dimensions of wellness including physical, emotional, intellectual, financial, social, environmental, and a sense of purpose.

Efficiency	County's annual benefits cost change per employee.	4.2%	5.4%	5.75%	5%			

Performance Measures Descriptions

Output: Total number of members enrolled in health plan coverage during the plan year. This includes employees, retirees, COBRA participants and dependents from all. Outcome: This totals the participation across all Wellness offerings in which some report unique participants and others report number of engagements by participants (not unique). Efficiency: Actual and projected changes in annual county benefit costs per employee.

County labor contracts have benefit mandates for active and retired members. Benefits are governed by Federal/State/local laws and agencies, including the IRS, Dept of Labor (DOL), Dept of Health and Human Services (HHS), COBRA, Working Families Tax Relief Act, Older Workers Benefit Protection Act, Genetic Information Nondiscrimination Act (GINA), HIPAA, PPACA, CHIP, civil rights and EEO laws. Labor contracts require a transit pass be provided, so the county follows OAR Chapter 340, Div 242 that requires employers provide commute options to achieve and maintain a reduced auto trip rate.

Sources of revenue are: departmental contributions for health plan coverage (\$92,086,000 Actives/\$8,405,576 Retirees), Short and Long Term Disability and Life Insurance (\$3,175,000); benefit administration charge, (\$4,548,046), employee payroll deductions (both pre- and post- tax) for benefit plan participation (\$6,235,000), premium payments from retirees and COBRA participants (\$4,900,000), and operational refunds, forfeitures, rebates, performance guarantee penalties from vendors, space rentals (\$1,120,000).

Significant Program Changes

Last Year this program was: FY 2022: 72020 Central HR Employee Benefits & Wellness

Benefit operations have converted to a primarily virtual format, with limited staff presence in the office each week for mail and check processing. Wellness numbers decreased because several programs that measure participation have been paused due to COVID-19, including fitness center utilization and fitness class utilization, and employee discount access. Other programming continues in a virtual format.

Executive Summary

HR Workday Support provides strategic, technical, and operational leadership for the County's Human Capital Management System. Workday was implemented in January 2019 as part of the county's enterprise resource planning system (ERP). HR has implemented a three tier support model utilizing employee self-service, HR operational teams and HR Workday support staff. The HR Workday Support team is responsible for developing, maintaining, troubleshooting, and enhancing Workday Human Capital Management (HCM) functionality in collaboration with County functional subject matter experts, ensuring an effective, efficient and innovative ERP system.

Program Summary

The Workday Support Team manages human resources operational and strategic functions in Workday including project management, business analysis, configuration, reporting and daily maintenance across the multiple HR disciplines. For HCM and payroll the team supports Workday functions including maintenance of supervisory organization, maintenance of jobs architecture, payroll, compensation, talent, recruiting, core HR, time, absence, benefits and learning. The Workday Management Team will perform the following functions:

- System configuration related to new functionality or changes to existing system.
- 2. Manage system business processes, determine the methodologies for implementing and maintaining HCM and payroll systems, business processes and procedures to achieve a consistent and predictable employee and manager experience across the county.
- 3. Conduct audit, analyze data, and perform testing to protect data integrity and internal controls.
- 4. Meet regularly with HR stakeholder groups to share and prioritize new functionality in upcoming Workday releases.
- 5. Provide ongoing learning support to all county HCM users to enhance skill development and adoption for system end users, in conjunction with Central HR Organizational Learning team.
- 6. Write reports and maintain existing reports to meet HR business and operational needs.
- 7. Manage business relationship with Workday.
- 8. Work collaboratively with Information Technology and Workday Support-Finance team on technical issues and solutions.
- 9. Provide analysis support for human resource data associated with the Workforce Equity Strategic Plan.
- 10. Develop and present reports that show progress towards workforce goals.

Program Characteristics: Out of Target

Executive Summary

The HR Workday Support Team manages human resources operational and strategic functions in Workday including project management, business analysis, configuration, reporting and daily maintenance across the multiple HR disciplines. This program offer requests funding for one new position. This position will provide additional resources, allowing for a restructuring of work across the HR Workday team, resulting in a more balanced workload for team members and improved team morale. Additionally, the position will allow the HR Workday team to maintain and improve on current service levels, as well as adding much needed capacity to focus on key projects to improve and enhance current system functionality.

Program Summary

This program would fund one additional FTE to support HR Workday administration. The HR Workday Support team provides essential Countywide support for the HCM module of Workday. The team continues to provide higher levels of support for day to day operations than initially expected. To meet current support needs and deliver critical functionality, the HR Workday team consistently works a substantial amount of hours, often working extremely late in the day and on days off including weekends, holidays and vacations.

The initial support model developed in advance of go live was expected to dedicate approximately 75% of work to system enhancements and improvements and 25% to user support. In reality, the team dedicates 75% to user support and has not had the capacity for system enhancements and improvements. This has resulted in a significant backlog of key configuration that would improve overall system performance, operational efficiencies, and improved end-user experience. The constant improvements and functionality released from Workday has highlighted the need for an additional FTE. The additional FTE would be utilized to staff the day-to-day support of HCM to ensure we maintain current service levels, while also allowing for key staff to prioritize and implement important projects.

Potential key projects include implementation of Multiple Jobs functionality, redesign of the Change Job process, implementation of organizational dashboards, redesign of position management, etc. These projects have been on the HR Workday team roadmap for over 2 years but have not been implemented due to resource constraints. These projects are expected to significantly improve user experiences, process efficiencies, and organization/employee data. Each implementation requires requirements gathering from many stakeholders, design, configuration, comprehensive end to end testing, and implementation including change management and user training. With workload and staffing limitations, it has not been feasible to dedicate adequate resources for implementation and testing. The current backlog of these projects is approximately 2 years.

Program #72023 - Div of Assessment, Recording & Taxation Administration

3/3/2022

Department: County Management **Program Contact:** Jeffrey Brown

Program Offer Type: Administration Program Offer Stage: As Requested

Related Programs:

Program Characteristics: In Target

Executive Summary

Administration plans, directs, and coordinates operations and activities of the County's Division of Assessment, Recording and Taxation (DART); performs state mandated functions of the Assessor, Tax Collector, and certain County Clerk functions; monitors activities for statutory compliance; establishes effective implementation of policies, strategic direction, program evaluation, and process/technology improvements; provides financial and tactical resource planning and employee development and performance management.

Program Summary

The Division of Assessment, Recording, and Taxation (DART) performs the duties of the County Assessor including property valuation and assessment, property tax rate/levy calculation, certifying the property tax roll for collection, ownership and records management, and mapping. It is responsible for maintaining Real Market Value for 310,000 real and personal property accounts, as well as capturing and calculating taxable value events as outlined in ORS 308.146, which increases total Assessed Value of taxing districts. DART's duties as the Tax Collector entails billing, collections, and distribution of more than 2 billion dollars in property taxes. Our County Clerk responsibilities consist of document recording, providing marriage licenses, domestic partnership registrations, and administration of the Board of Property Tax Appeals.

The Administration program plans, directs and coordinates the operations and activities of DART. This includes strategic direction and tactical planning; policy development and implementation; financial planning and budget development; employee development, training, succession planning and performance management; continuity of operations planning; technology and information systems; quality control, program measurement, evaluation, and process improvements; administrative support, communications, including news media, as well as oversight of over 500,000 customer service interactions annually.

The program supports and provides leadership that ensures all property is valued accurately and taxed fairly as required by the Oregon State Constitution, Oregon Revised Statutes, and the Oregon Department of Revenue Administrative Rules. It also monitors division activities and processes for equitable and inclusive practices, statutory compliance, as well as submission of the required compliance reports to the Oregon Department of Revenue. This program also ensures the timely collection of property taxes, maintains accurate and accessible property ownership records, and property descriptions that are used in the production of county property tax maps. The program continues to provide quality customer service to the public and internal clients while making certain every function is reviewed to ensure that no service the division provides is impacting any segment of those we serve in an unfair, inequitable or non-inclusive manner.

Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer
Output	Total Number of Property Tax Accounts Administered	309,900	310,000	311,000	311,000
Outcome	Percent Acceptable Compliance Reports Required by Oregon Department of Revenue	100	100	100	100
Efficiency	Administrative Costs as a Percent of Actual Expenditures	6	6	6	6
Efficiency	Cost of Collection per Account (in Dollars)	\$4	\$4	\$4	\$4

Performance Measures Descriptions

The percent of required compliance reports received and accepted by the Dept of Revenue (CAFFA Grant Document, Appraisal Plan, Sales Ratio Study) implies adequacy of DART operations and uniform taxation. The goal is to maintain administrative costs at 6-7% of total DART operating program expenditures. The cost of collection per account will fluctuate depending on costs of collection activities and the number of accounts.

Functions in this program are required under Oregon Revised Statutes (ORS) Chapters 92, 205, 294, 305-312 and 321. Additionally, ORS 306.115 assigns statewide general supervision of the property tax system to the Oregon Dept of Revenue (DOR). Through the "County Assessment Function Funding Assistance" (CAFFA) Grant process described in ORS 294.175, the DOR determines guidelines for acceptable levels of assessment and taxation staffing. Per their metric, DART staffing is at the lower end of adequate to perform statutory functions. Reductions to program may jeopardize grant revenue.

Explanation of Revenues

DOR's County Assessment Function Funding Assistance (CAFFA) Grant provides reimbursement of approximately 15% of program expenditures. Grant amounts can vary depending upon the CAFFA pool and the allocated percentage to each participating county. Multnomah County's share of CAFFA is estimated at \$3.079,265, with \$83,448 allocated to DART Administration. General Fund Revenue of \$80,000 is from a portion of the document recording fee (5% of the \$10 per document fee) and is for maintenance of county property tax systems. Revenue from recording fees varies annually due to economic factors affecting the number of documents recorded. (Note: The balance of the \$10 recording fee is allocated to the County Clerk (5%) and the County Assessment & Taxation Fund (90%) for distribution to the DOR for deposit into the statewide CAFFA Account.) Remaining program support is from General Fund revenues.

Executive Summary

The Division of Assessment, Recording, and Taxation (DART) Customer Service Program is the first primary point of contact for DART customers. The Customer Service professionals assist the community by providing virtual and in person assistance with questions regarding and the acceptance of property tax payments, marriage licenses and domestic partnerships, passport services including passport photos, employee IDs, and administer the Board of Property Tax Appeals. This excellent service is provided through the organization's soft phone system, at the public counter, through mail, by email, and via online chat.

Program Summary

The Customer Service unit is responsible for assisting taxpayers in person, over the phone, and through chat and email; the issuance and record keeping of marriage licenses and domestic partnerships which are governed by state law; managing the passport acceptance program that is administered by federal laws and regulations; accepting property tax payments that are guided by state statutes; and administering the Board of Property Tax Appeals program that is guided by state statutes. The Employee Photo unit is responsible for the issuance of county employee photo IDs and processing passport application photos.

Property owners, taxpayers, and citizens, in general, have an expectation of local government to provide responsive, accurate, and quality service. The ability to connect directly with the taxpayer increases the understanding of government and the role of property taxation. During FY21, the Customer Service program responded to approximately 110,000 inquiries, with 13,456 being walk-in tax payments accepted during our limited 4 week opening in October and November of 2020 when the Multnomah building was officially closed to the public. In addition to providing direct customer service, the team reaches out with marketing campaigns regarding tax due dates and information on how to pay. The team also provides the use of drop boxes for property tax payments throughout the county that are operational around the November property tax payment due date annually in order for the community to not have to travel to the Multnomah building in order to pay in person. The department also continues to further improve online payment options.

Outcome	Average number of phone calls, emails, and chats per operator	9,453	8,500	10,135	10,000	

Performance Measures Descriptions

"Number of counter transactions" includes computer-generated statistics from the operating systems used in Customer Service. The system tracks revenue-generating transactions including tax payments, marriage licenses, domestic partnership registrations, passport applications and copies of various records.

Oregon Revised Statutes(ORS) Chapters 92, 205, 294, 305, 306, 307, 308, 308A, 309, 310, 311, 312 and 321 and related Oregon Administrative Rules regulate virtually all aspects of the assessment and property taxation process. ORS 306.115 assigns statewide general supervision of the property tax system to the Oregon Department of Revenue (DOR). Through the "County Assessment Function Funding Assistance" (CAFFA) Grant process described in ORS 294.175, the DOR determines the acceptable level of assessment and taxation staffing. The DOR has determined that DART staffing is at the minimally acceptable level to perform their functions. Any reduction to this program may ieopardize this grant revenue.

Explanation of Revenues

Participation in the Oregon Department of Revenue County Assessment Function Funding Assistance (CAFFA) Grant provides reimbursement of approximately 15% of Assessment & Taxation program expenditures. Grant amounts vary depending upon the overall state-wide CAFFA pool and the allocated percentage to each participating county. Multnomah County's total annual share of CAFFA is estimated at \$3,079,265, with \$281,445 allocated to DART Customer Service. Remaining Customer Service Program support is provided by General Fund revenues.

Program #72025 - DART County Clerk Functions

Program Characteristics: In Target

Executive Summary

The County Clerk Functions program consists of recording land related and other legal documents, issuance of Marriage Licenses and Domestic Partnership Registrations, acceptance of Passport Applications, creation and maintenance of permanent records, issuance of certified copies, and administration of the Board of Property Tax Appeals (BoPTA). BoPTA is responsible for hearing petitions from taxpayers who disagree with their property value. The Board makes decisions to reduce property values or waive personal property late filing fees based on evidence provided by the taxpayer.

Program Summary

For FY 2021, 202,561 documents were recorded, 4,555 Marriage Licenses were processed, and 160 Domestic Partnership Registrations were issued. For FY21, 538 BoPTA appeals were processed. Due to COVID and the Multnomah building being closed to the public, passport services were not operational, thus no Passport Applications and passport photos were processed. The Customer Service team adjusted to this situation by making the marriage license process, which is a mandated function, a mail in process. The team also, not only maintained, but increased Customer Service support through phone, emails, mail, and chat in order to accommodate the building being closed. For FY21, the clerk functions of the Board of Property Tax Appeals program were reimagined to an online format, but a need for in-office processing of certain appeals functions still existed, necessitating the need for a small number of the team to work in the Multnomah building.

The Recording staff received over 46,717 recordings via mail and provided customer support via phone and email. This program also makes available records for customer use and provided alternative ways for the public to access records during the period that the building, thus the Digital Research Room, was closed to the public. Electronic recording functionality was installed in 2012 and additional service providers were added in subsequent years, improving efficiency and customer service. Currently, more than 75% of recording transactions are completed electronically.

The office opened to the public for a limited duration in October and November of 2020 to ensure those community members who wanted to pay their property taxes in person were able to. Our services officially opened to the public in July 2021 and initially were by appointment only. At this time, marriage license applications and domestic partnership applications are by walk-in service only, passport applications and photos are taken by appointment only, tax payments continue to remain a walk-in function. The Digital Research Room is operational and available by appointment or walk-in service with a limited capacity. Teleworking continues on a daily basis for a percentage of the team who are responsible for answering incoming calls, chats, and emails.

Output	Number of documents recorded	202,561	160,000	165,000	160,000	
Outcome	Average number of business days to return original recorded documents	2	2	2	2	

Performance Measures Descriptions

The "% of Accurately Processed Licenses" is a measure to track errors on licenses internally. The "Average Number of Business Days to Return Original Recorded Documents" is a measure of compliance with the statutory requirement that documents be returned within 10 business days.

The County Clerk functions are governed by Oregon Revised Statutes (ORS) Chapter 205. Multnomah County Ordinance 948 authorizes couples to voluntary register as domestic partners. Additional statutes pertaining to this program are found in ORS 106, 107,409,432 (marriage/state domestic partnerships); ORS 86, 87, 93, 100 (requirements for recording); and ORS 306 and 309 (Board of Property Tax Appeals). Guidelines for the acceptance of Passports are set by the US Department of State. ORS 205.320(2) requires dedication of a portion of recording fees to the restricted County Clerk Fund for records storage and retrieval systems.

A \$60 fee is collected for each marriage license, State and County Domestic Partnership (DP) registration: \$25 to the County General Fund, \$25 to State Domestic Violence fund (for licenses and State DP), \$25 to County Community and Family Services for domestic violence victims (for County DP), and \$10 to Court Conciliation Services. Estimated fees of \$168,300 for marriage licenses, domestic partnerships, marriage record copies, amendments to marriage and DP records, and waivers of a 3-day waiting period for a marriage license. Passport acceptance fees \$140,000, Passport photo fees \$30,000; Document Recording fees \$5,950,500. Recording copy fees \$250,000. County Clerk Restricted Fund Carryover Revenue \$200,400 and Fees \$150,000 pursuant to ORS 205.320(2). Fees for filing a Board of Property Tax (BoPTA) Appeal \$16,200. BoPTA is allocated \$20,939 of the \$3,079,265 County Assessment Function Funding Assistance (CAFFA) Grant.

Significant Program Changes

Last Year this program was: FY 2022: 72025A DART County Clerk Functions

In FY23, an Assessment & Taxation Technician 1 added to the Recording team as the need of additional support to reliably deliver results was apparent. The recording numbers have remained consistently high, 180,000+ for both 2020 and 2021 calendar years. Ownership transfers also increased 20% in the calendar year 2021. Since August 2020 the team has relied on a full-time temporary position to help fill the gaps in coverage. The permanent position allows the team to perform all duties, not only fill the gaps, as a temp position is only delegated specific tasks due to the temporary nature of the position. This position is funded within existing general fund allocation by shifting available DART resources, with .60 FTE allocated to Program Offer 72025 County Clerk Functions and .40 FTE to Program Offer 72026 Ownership & Parcel Management.

Program #72026 - DART Ownership & Parcel Management

Department:County ManagementProgram Contact:Tim MercerProgram Offer Type:Existing Operating ProgramProgram Offer Stage:As Requested

Program Characteristics: In Target

Executive Summary

The Ownership & Parcel Management Program, within the Division of Assessment, Recording, and Taxation (DART) is responsible for making real property ownership changes, adding sale information to the tax roll, and maintaining property information and property tax roll descriptions. Through examination of recorded and unrecorded documents, this program verifies the documentation and ensures that the documentation is acceptable for ownership transfer and processing. Program staff provide direct customer service for both the public and internal staff.

Program Summary

The Ownership & Parcel Management Program, within the Division of Assessment, Recording and Taxation (DART), updates and maintains the ownership records and property information for real property tax accounts. Recorded documents, such as deeds, contracts and assignments and unrecorded documentation, such as marriage records, court orders, and death certificates, are used to update the tax roll. Accurate ownership information is essential for DART programs to ensure that tax statements and various notices are sent to the correct party. Additionally, the group processes voucher actions of partition plats, subdivisions, condominiums, and property line adjustments. This information is also used for the production of county maps. Property sales are utilized by the Valuation Section in the process of updating property values. Developed databases enable related work units to access shared data, thereby reducing transfer time and the need for paper records. The group also maintains a transaction file for complex transfers, which is maintained for permanent retention on microfilm. The Program teams interface with the public through the organization's soft phone system, at the public counter, through mail, and by email. The Ownership team also maintains a Digital Research Room for the public to access records through a database.

During FY21, the program made appointments available for customers to bring in plats and other documents to be recorded in order to make certain that services were still provided. The team met the customer outside of the building to ensure safety and adhere to the building closure. Also, since the Digital Research Room was closed during FY21 the team provided alternative online resources for customers to access records. The Digital Research Room opened to the public in July of 2020 to appointment and limited walk-in service.

Performance Measures							
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer		
Output	Number of ownership changes processed	25,371	30,000	28,500	25,000		
Outcome	Average number of days to complete ownership changes	24	5	20	18		

Performance Measures Descriptions

The "Number of Ownership Changes Processed" is a combination of ownership changes processed from actual recorded deeds and ownership changes transferred with unrecorded documents (approximately 5% of transfers are from unrecorded documentation). The "Average Number of Days to Complete Ownership Changes" is tracked manually by staff by logging both the date the work is begun and the date of completion. Those numbers are then combined and divided by the actual number of working days in the fiscal year.

Functions in this program are required under Oregon Revised Statutes (ORS) Chapters 92-93,100,198-199,205,222,306-308,457,477-478. Additionally, ORS 306.115 assigns statewide general supervision of the property tax system to the Oregon Department of Revenue (DOR). Through the CAFFA Grant process described in ORS 294.175, the DOR determines the acceptable level of assessment and taxation (A&T) staffing. The DOR has determined that DART staffing is already at the minimally acceptable level to perform their A&T functions. Any reduction to this program may jeopardize this grant revenue.

During FY 2022 an Office Assistant 2 position was reclassified to an Assessment & Taxation Technician 2. The Assessment & Taxation Technician 2 will be hired and join the Customer Service, Recording, and Parcel Management teams, and fill a gap that was identified. This new A&T Tech 2 will be an essential link between the three teams by overseeing the scheduling software, compiling statistical data, and overseeing financial reconciliation for all three groups. For FY23, an A&T Technician 1 permanent position was funded within existing general fund allocation by shifting available DART resources, with .40 FTE allocated to Program Offer 72026 Ownership & Parcel Management, and .60 FTE to Program Offer 72025 County Clerk Functions.

Program #72027 - DART Tax Revenue Management

Program Characteristics: In Target

Executive Summary

The Tax Revenue Management Program administers the County Tax Collector responsibilities. The program manages the billing, collecting, accounting, and distributing of property tax revenues and assessments for over 60 Multnomah County taxing districts and several state agencies. Revenue from interest on past-due taxes is also accounted for and a portion distributed to the County Assessment and Taxation Fund.

Program Summary

The Tax Revenue Management Program's goal is to ensure the timely, equitable, and accurate billing, collection, accounting, and distribution of property tax revenues in accordance with Oregon Revised Statutes. The Tax Revenue Management Program provides responsive, accurate, quality customer service to taxpayers and other government agencies while complying with property tax laws. The program sends property tax statements; collects current and delinquent real and personal property taxes and fees; issues property tax refunds; distributes tax revenues to taxing districts; and performs accounting, auditing, and reporting services. The program processes foreclosures, tax roll corrections, bank adjustments, senior and disabled citizen tax deferral applications, and manufactured structure ownership changes. Over 345,000 tax statements are issued and almost 400,000 payment and accounting transactions are processed annually, resulting in the distribution of roughly \$2 billion. Most directly this program works with the property owners of Multnomah County. Indirectly, this program serves the work of property tax collection and distribution. Property taxes account for more than 60% of the County's General Fund revenues. The program has recently taken steps to better serve non-English speaking property owners by translating the Property Tax Guide into multiple languages. We also have translation services for in-person and phone interactions. We have taken additional steps to make our information and communication more accessible through the use of plain language, reducing the use of jargon and legal terms. While we have considerable constraints based on Oregon Revised Statutes, we utilize client feedback and unmet needs to inform changes to our processes, communication, and interfaces. We have taken many steps to implement changes based on this feedback. One example of this is the utilization of taxpayer feedback as part of the procurement, design, and implementation of our new payment processing system.

Performance Measures Descriptions

Due to the pandemic and concerns about the postal system, as well as our new online payment system and our marketing efforts, we saw a dramatic increase in the number of taxpayers paying online in FY21. In FY22, that number continues to increase at a slower rate. We expect FY23 to potentially level off.

Functions in this program are required under Oregon Revised Statutes (ORS) Chapters 311 and 312. Additionally, ORS 306.115 assigns statewide general supervision of the property tax system to the Oregon Department of Revenue (DOR). Through the "County Assessment Function Funding Assistance" (CAFFA) Grant process described in ORS 294.175, the DOR determines the acceptable level of Assessment and Taxation (A&T) staffing. Any reduction to this program may jeopardize this grant revenue. The County as an agent of the State carries out the functions under ORS 446.566 to ORS 446.646 related to mobile home ownership document transactions and trip permits.

Explanation of Revenues

Participation in the statewide County Assessment Function Funding Assistance (CAFFA) Grant reimburses approximately 15% of program expenditures. Grant amounts vary depending upon the state-wide CAFFA pool and Multnomah County's allocated percentage. Multnomah County's share is estimated at \$3,079,265, with \$329,173 allocated to DART Tax Revenue Management Program. Program revenues of \$453,000 are service fees required by Oregon Revised Statutes and County Fee Ordinance, are based on historical averages, and include foreclosure publication fees, title search fees, exemption late filing fees, delinquent personal property tax warrant, and warrant recording fees, manufactured structure ownership transfer fees and miscellaneous tax collection and copy fees. The remaining Program support is provided by County General Fund revenue.

Executive Summary

The Division of Assessment, Recording and Taxation's (DART) GIS/Cartography Program creates and maintains official county maps for property taxation purposes; processes voucher actions; maintains the base map for the County's Geographic Information System (GIS); maintains property information and property tax roll descriptions; designs, develops, and deploys GIS applications, tools, and resources; and provides direct customer service to internal and external business partners and the public.

Program Summary

The GIS/Cartography Program is responsible for maintaining accurate tax maps used to describe taxing district and urban renewal boundaries, process subdivisions, condominiums, and partition plats, and describe annexations and County road filings within GIS and assessment database (Orion). Program staff designs, develops, and deploys GIS applications, tools, and resources for DART team's access to geospatial data representations to increase work efficiency and accuracy. This program also contributes GIS data to the Department of Revenue Oregon Map (ORMAP) program which provides a statewide property tax parcel base map that is digital, publicly accessible, and continually maintained. Direct customer service is provided to internal and external business partners, including property owners, taxpayers, and the community.

The community's access to the program has generally transitioned to more flexible, technological, customer focused solutions that provide for safe, effective remote contact. However, in order to fully support the diverse community that we serve, we offer all forms of customer service when requested.

Executive Summary

The Assessment Performance Analysis Unit (APA), within the Division of Assessment, Recording and Taxation (DART) is responsible for annual adjustments to Real Market Value resulting in assessed value upon which taxes are calculated and levied for the benefit of all Multnomah County taxing districts. Analysts develop and publish the annual Sales Ratio Study as required by statute. APA acts as the audit function for all valuation processes.

Program Summary

The Assessment Performance Analysis (APA) Unit links to DART appraisal and other programs and their contributions. Appraisal Data Analysts analyze sales, trends and other market data used to monitor, maintain and report valuation performance regarding Residential, Business Personal Property, Commercial, Multi-Family, and Industrial Appraisal models. The APA Unit adjusts Real Market Values of all property in the County and publishes the annual Sales Ratio Study that evaluates and reports on the effectiveness of appraisal programs to the Oregon Department of Revenue. The program assists in answering public and media questions about property values, contributing to the public's perception of fairness in assessing and collecting property taxes. APA performs an independent audit function for all valuation processes, projects and functions.

We have transitioned to more flexible, technological, customer focused solutions that provide for safe, effective remote contact. This is providing the same level of customer service while balancing the needs and safety of staff and the community.

Explanation of Revenues

Participation in the Oregon Department of Revenue County Assessment Function Funding Assistance (CAFFA) Grant provides reimbursement of approximately 15% of Assessment & Taxation program expenditures. Grant amounts vary depending upon the overall state-wide CAFFA pool and the allocated percentage to each participating county. Total annual Multnomah County share of CAFFA is estimated at \$3,079,265, with \$79,751 allocated to DART Assessment Performance Management Program. Remaining Program support is provided by General Fund revenues.

Executive Summary

Special Programs Group (SPG) is part of the Division of Assessment, Recording and Taxation (DART). SPG is the expert in property tax exemptions and special assessments, tax roll corrections, maximum assessed value (MAV), and floating property returns. Additionally, Special Programs assists the community using various means of communication including by phone, email, and mail. Special Programs provides ongoing training and expertise to other sections within DART.

Program Summary

Special Programs Group (SPG) oversees more than 60 property tax exemption and special assessment programs. These programs provide partial to full property tax relief to qualifying individuals and organizations. Programs established by the state and other jurisdictions affect historic properties, charitable non-profits, fraternal and religious organizations, disabled veterans, and numerous others. SPG receives and makes eligibility determinations on more than 1,000 applications annually for property tax exemptions.

Properties owned by government entities are exempt under Oregon Statute. However, it is common for government entities to lease portions of their properties to nongovernment organizations. The space leased is subject to property taxes. SPG determines what portions of the government owned buildings are subject to property taxes.

SPG serves as the subject matter expert on the tax roll correction process; providing guidance and training to DART valuation sections. SPG corrects the certified tax roll under specific circumstances including property tax appeal resolution, data entry errors, qualified impacts to value due to Act of God incidents, and others.

In 1997, Oregon voters changed the method used to calculate property taxes, which required the calculation of each property's Maximum Assessed Value (MAV). MAV is the basis for determining taxable assessed value for a property and often involves complex calculations. SPG is the division authority on MAV and the advisor to DART sections on anything related to MAV. SPG calculates all MAV changes related to property tax exemption or special assessment, property actions such as divisions of property or lot line adjustments, or property that was demolished or destroyed. The SPG team determines and reallocates MAV for hundreds of properties annually.

Performance Measures Descriptions

Oregon Revised Statute (ORS) requires all property to be valued according to market as accurate market values directly relate to the bonding capacity and general obligation bond tax rates for taxing districts. Specific property tax exemptions are allowed by law. Measurements indicate exempt and specially assessed properties are accurately assessed and tax rolls properly maintained.

Oregon Revised Statutes (ORS) Chapters 92, 205, 294, 305, 306, 307, 308, 308A, 309, 310 and 321 and related Oregon Administrative Rules regulate virtually all aspects of the assessment and property tax calculation process. ORS 306.115 assigns statewide general supervision of the property tax system to the Oregon Dept. of Revenue (DOR). Through the "County Assessment Function Funding Assistance" (CAFFA) Grant process described in ORS 294.175, the DOR determines the acceptable level of assessment and taxation staffing. Current DART staffing is minimally adequate to perform statutory functions.

Executive Summary

The Personal Property Assessment Program, within the Division of Assessment, Recording, and Taxation (DART), is responsible for processing all taxable Business Personal Property returns received. Personal Property represents 3% of the value upon which taxes are levied for the benefit of all Multnomah County taxing districts.

Program Summary

The Personal Property Assessment Program's goal is to ensure proper filing amongst all businesses within the county, to create assessment records for new taxable business Personal Property accounts, and to maintain the Real Market Value and Maximum Assessed Value of all taxable business Personal Property accounts.

Oregon Revised Statutes require annual filings of the Confidential Personal Property Return form from businesses in the county for property tax purposes. The Personal Property Assessment Program reviews those returns (approximately 22,000 businesses annually) for accuracy & completeness and applies appropriate depreciation factors to each business asset on each return. Technicians in this program also conduct research and discovery of new businesses and assets omitted from the assessment roll. Appraisals are performed to defend values under appeal. Technicians in this program also conduct account maintenance including ownership information, address information, and more. This program also conducts significant outreach, communication, and education efforts to help taxpayers understand their obligations and to assure the assessment records are accurate.

Under the Measure 50 tax limitation measure, there is no assumption of a 3% increase in personal property taxable value; instead, each business is required to annually report existing taxable property. Failure to monitor this process will result in the loss of taxable assessed value and tax revenue. Accurate values maximize the level of tax assessment allowed under Measure 5 and Measure 50 tax limitation measures.

Most directly this program works with the business representatives of Multnomah County. Indirectly, this program serves the work of property tax assessment. Property taxes account for more than 60% of the County's General Fund revenues. The program has recently taken steps to better serve non-English speaking business representatives, by translating informational documents into multiple languages.

Executive Summary

The Industrial/Commercial/Multi-family (INCOM) Appraisal Program, within the Division of Assessment, Recording and Taxation (DART), is responsible for valuing all Commercial, Multifamily, Local and State Industrial Manufacturing plants, Warehouses, Bulk Petroleum Storage Facilities and Port of Portland properties. The INCOM valuation section is responsible for valuing and maintaining accounts that represent approximately 31% of the total taxable assessed value for the county, upon which taxes are levied for the benefit of all Multnomah County taxing districts and residents.

Program Summary

This program is responsible for maintaining Real Market Values for approximately 22,736 accounts (19,700 Commercial and Multifamily + 3,036 Storage and Distribution Warehouse accounts); 1,172 County and State appraised manufacturing accounts; and 448 billboards. Manufacturers are required to file industrial property returns annually. This requires the annual audit and review of approximately 58,848 machinery, equipment and personal property assets as well as 444 bulk-petroleum storage tanks. In addition to these assignments, a few hundred value appeals are reviewed annually.

Maintaining accurate Real Market Value (RMV) on properties directly affects essential funding for all taxing districts. This program ensures that all Industrial, Commercial and Multi-family properties are valued within State of Oregon standards and taxed under applicable laws. Property taxes account for approximately 60% of the County's General Fund revenues and directly support a number of community-based programs that depend on this revenue. The more properties that can be reviewed by staff each year, the more accurate the inventory and resulting values are. The performance measures for the program specifically seek to measure both the volume of accounts reviewed as well as the relevance of the value for each account as it relates to the market.

Taxpayer access to the program has been enhanced to offer solutions such as; appointments for site visits, telephone consultations, virtual property inspections as well as electronic exchanges of information and digital photography; this included improved website accessibility.

Outcome	Percent Market Groupings with Coefficient Of Dispersion Compliance	87%	92%	90%	90%		

Performance Measures Descriptions

Performance is measured by the new value added to the roll, processing of real property returns, and annual audits of machinery, equipment and personal property assets. The efficiency measure reflects how many accounts have been placed on income models, and other automated calculation methods. These property types represent high-value accounts; value reduction on appeal can result in large tax refunds with interest, impacting taxing jurisdictions and their budgets.

Oregon Revised Statutes (ORS) Chapters 92, 205, 294, 305, 306, 307, 308, 308A, 309, 310 and 321 and Oregon Administrative Rules regulate the assessment and property tax calculation process. Through the County Assessment Function Funding Assistance (CAFFA) Grant process described in ORS 294.175, the DOR determines an acceptable level of staffing. Executive Summary

The Residential Property Appraisal Program, within the Division of Assessment, Recording and Taxation (DART), is responsible for valuing and appraising all residential property, residential property converted to commercial use, personal property floating and manufactured homes and all land specially assessed for use as farm, forest and open space. The Residential valuation section is responsible for valuing and maintaining accounts that represent approximately 60% of the total taxable assessed value, upon which taxes are levied for the benefit of all Multnomah County taxing districts and residents.

Program Summary

This program is responsible for maintaining accurate property inventories and Real Market Values for 261,000 Real and Personal Property accounts including: Single and 2-4 family, Condominiums, Manufactured, Floating homes, Farm Forest, and small General Commercial Use properties. A total of 22,444 valuation assignments were completed for FY2021 requiring review and processing, largely issued by local jurisdictions. In addition to these assignments, a few hundred value appeals are reviewed annually.

Maintaining accurate Real Market Value (RMV) on properties directly affects essential funding for all taxing districts. This program ensures that all Residential property is valued within State of Oregon standards and taxed under applicable laws. Outcome	% Neighborhood with COD Compliance	100%	100%	100%	98%		

Performance Measures Descriptions

Estimated reduction in Accounts Appraised is a byproduct of COVID and the inability to conduct property inspections. Oregon law requires property appraisals to be at 100% of Market Value as of January 1 of each year. The Coefficient of Dispersion (COD) is a key measure and failure to meet standards can result in loss of CAFFA grant revenue which funds assessor office operations.

Oregon Revised Statutes (ORS) Chapters 92, 205, 294, 305, 306, 307, 308, 308A, 309, 310 and 321 and Oregon Administrative Rules regulate the assessment and property tax calculation process. Program Offer Type: Support Program Offer Stage: As Requested

Related Programs:

Program Characteristics: In Target

Executive Summary

The Applications Support (App Support) Program designs, develops, and deploys technology solutions for the entire Division. App Support is also responsible for managing DART's application software and hardware through configuration, support and collaboration with external IT vendors and internal business partners. Furthermore, App Support performs the functions necessary to produce the certified annual tax roll, which includes calculating tax rates, taxes, and producing tax statements. As a result of these efforts, this program also maintains vital information necessary for both internal and external data requests, essential in developing statutorily required reports and providing transparency to Multnomah County stakeholders.

Program Summary

DART's Applications Support (App Support) Program designs, develops, and deploys technology solutions, through collaboration with IT business partners that create efficiencies, standardizations, improve data integrity, and generate sustainability across the entire division.

App Support performs the functions of extending and certifying the annual tax roll; including calculating tax rates and taxes, producing tax statements, and producing reports required by the Oregon Department of Revenue. As a result, the program assists in answering public and media questions about property tax bills, contributing to the accountability factor of the public's perception of fairness in assessing and collecting property taxes. In addition to certifying the annual tax roll, the Program responds to requests for information by developing data files for both internal and external customers. The Program manages the working relationship with the application software and hardware vendors, as well as the County IT business partners; including consulting on contract formulation, implementation, support, and project management. The Program answers user questions, resolves problems, and provides expert recommendations on the effective use of the Division's business application systems. Additionally, the App Support team manages and promotes the Division's public facing website, designs and implements accessibility features; procures, distributes and supports software solutions to create accessible video content for internal and external education materials.

The community's access to the program has been modified to include more flexible, technological, customer focused solutions that provide for safe, effective remote contact. This is providing the same level of customer service while balancing the safety of staff and the needs of the community we serve.

Performance Measures Descriptions

The Number of Requests & Support Activities measures an Activity representing a single request or contact, even if that request is for 5 data files to be created and sent to the client. The percent of Requests Associated with Program Revenue indicates the portion of the program's work activities associated with a portion of our revenue. Tax Statement Production numbers can fluctuate due to factors beyond the control of the Assessor.

Functions in this program are regulated under Oregon Revised Statutes (ORS) Chapters 92,205,294,305,306,307,308,308A,309,310 and 321 . Through the County Assessment Function Funding Assistance (CAFFA) Grant process described in ORS 294.175, the DOR determines the acceptable level of staffing. According to the DOR, Multco's assessment and taxation staffing is adequate to meet ongoing statutory needs; however, DOR staffing guidelines are indicating a deficiency in recommended FTE within assessment areas including this unit.

Program #72038 - DART Tax Title

3/3/2022

Department: County Management **Program Contact:** Jeffrey Brown

Program Offer Type: Existing Operating Program Program Offer Stage: As Requested

Related Programs:

Program Characteristics: In Target

Executive Summary

The Tax Title Program, within the Division of Assessment, Recording and Taxation (DART), is responsible for project management, maintenance supervision, portfolio strategy, and final disposition of the County's tax foreclosed property portfolio. The Program's highest priority is foreclosure avoidance prior to County ownership and occupant support throughout the process. Vulnerable populations and historically disadvantaged groups, especially during the challenges of Covid-19, are supported with appropriate resources using best practices. Less than 5% of the current portfolio (~210) properties have improvements or structures. Property dispositions are through public and private sales, government transfers and donations to non-profits.

Program Summary

The County comes into ownership of real property generally once a year (September/October) through the foreclosure of delinquent property tax liens. The tax foreclosed properties are deeded by the Tax Collector to the County as the responsibility of the Tax Title Program and are managed and disposed of pursuant to Multnomah County Code, Chapter 7 as part of the larger portfolio project management. Shortly after the properties are deeded to the County they may become available for repurchase by qualified former owners of record. In FY 2021, special consideration was given for repurchase by former owners due to the health, safety, housing, and economic conditions brought about by the COVID-19 pandemic. The same consideration will continue into FY 2022. The program consults with other County departments and community agencies for housing, services and support for occupants of tax foreclosed properties. Maintenance of the properties is performed through agreement and reimbursement to Department of County Assets, Facilities and Property Management Division.

The Tax Title Program researches and assesses properties received to determine their highest and best use. The program will identify property to be sold at public sale in cooperation with the Multnomah County Sheriff's Office, a private sale or to make available for donation to governments or non-profits. Effective January 1, 2016, ORS 275.275 was amended to redirect the distribution of proceeds from sales, net of program expenses. All net proceeds will be credited to the General Fund, Sub-Fund 10030 Tax Title: Affordable Housing, for the following purposes: (i) Funds for housing placement and retention support services for youth and families with children; (ii) Flexible rental assistance to place youth and families with children into housing; or (iii) Funds to develop new low income housing that is affordable to youth and families with children with 30 percent or lower median family income.

Performance Measures Descriptions

The goal of the program is to first apply rigorous foreclosure avoidance measures and, if deeded, reinstate tax foreclosed properties to the tax roll or into public use. At the end of every budget year the tax foreclosed property revenues are totaled, operating expenses and pass-through payments are accounted for, and the balance of revenue will be disbursed to Multnomah County General Fund, Sub-Fund 10030 Tax Title: Affordable Housing.

Oregon Revised Statutes (ORS) 275 details how counties are to manage and dispose of tax foreclosed properties. ORS 312 details the foreclosure process & responsibilities of the county including guidance on how the redemption period can be reduced when there is evidence of waste and abandonment. ORS 271 provides information concerning the transfer of foreclosed properties to non-profits & government agencies. ORS 98 details procedures concerning abandoned property & vehicles at foreclosed property. County Code Chapter 7 states how tax foreclosures are to be managed and disposed.

Explanation of Revenues

The Program is financially self sustaining. Sales of Tax Foreclosed Properties (public sales, auctions, repurchases, and private sales) are estimated at approximately \$750,000 for FY 2023. Prior to deeding property to Multnomah County, the program directs a rigorous foreclosure avoidance outreach. If foreclosure avoidance efforts are successful it can significantly reduce the number of properties deeded to, and subsequently sold by, Multnomah County. The FY 2023 revenue estimate reflects the likelihood of continued success in the program's foreclosure avoidance efforts and Covid-19 considerations. If the program's revenues exceed the operating costs, the excess is distributed to Multnomah County Fund 10030 Tax Title: Affordable Housing, in accordance with ORS 275.275, and per formula provided in ORS 311.390.

Executive Summary

The Construction Diversity and Equity Fund (CDEF) program supports recruitment and retention of women and minorities in the skilled construction trades. It also supports the competitiveness of State certified minority-owned, women-owned, service-disabled-veteran-owned businesses, and emerging small businesses.

Program Summary

Jobs in the fields of construction offer stable careers that pay wages sufficient to raise a family. As a result of a history of discrimination and other barriers, jobs in these fields have not been available to all people. The CDEF program increases diversity, equity, and opportunity in both our construction workforce and business community.

The CDEF program supports three initiatives.

- (1) It funds Bureau of Labor and Industries (BOLI) certified pre-apprenticeship programs. These programs are an important gateway into the trades. CDEF supports their recruitment of women and minorities.
- (2) It funds support and retention services for women and minority apprentices. This recognizes that every individual has different barriers that may disrupt their employment. Employers and unions refer apprentices to one of the County's three contractors who provide the services. Providing tools, safety equipment, or various support services helps ensure success on the job. Contractors provide qualitative feedback from the apprentices to gauge program impacts.
- (3) It funds technical help, mentoring and training for State certified minority-owned, women-owned, service-disabled-veteran-owned businesses, and emerging small businesses. Within that group, we emphasize serving construction-related professional services or contracting businesses. Certified firms apply online for support. We match them with one of four contractors to provide the help. Both contractors and certified firms provide feedback on the success of the engagement. This feedback is provided through monthly online surveys from both of these groups.

Output	Number of State Certified firms receiving technical assistance, mentoring, and training.	N/A	30	14	25		

Performance Measures Descriptions

Due to COVID, pre-apprenticeship programs were largely shut down. We expect these to reopen in FY23. We believe that direct support for both workers and State Certified firms was depressed due to COVID.

Explanation of Revenues

The program has two sources of funding. First, the County pays (1%) of construction costs into the fund. Second, any Liquidated Damages paid by construction contractors are part of the fund. Liquidated damages are a sum contractors pay to the County if they do not meet contracted inclusion goals for women, minorities and apprentices.

Significant Program Changes

Last Year this program was: FY 2022: 72044 FRM Construction Diversity and Equity

Spending of CDEF funding has not been as aggressive as we had hoped due to COVID. Specifically, the pre apprentice training programs have had a difficult time conducting classes, and State Certification Office for Business Inclusion and Diversity (COBID) certified business assistance applications have lagged.

Executive Summary

Program Offer Type:

This program funds the County's participation in a regional effort to increase the diversity of the construction workforce. By co-investing around common objectives for development of workforce diversity, the County is able to leverage existing local infrastructure as well as other workforce funding. By aligning our support with others in the region, there is a greater opportunity for long term planning and strategy, as well as creating a platform to attract private and foundation funding for workforce development. The intent of this program offer is that, pending Board approval, it is the first year of a five year commitment to diversity our construction workforce.

Program Summary

The Regional Construction Workforce Diversity Funder Collaborative is a group of committed public owners who work together to invest in activities that directly support increasing the racial and gender diversity of the regional construction trades workforce. This Collaborative is an initiative that came from The Construction Career Pathways Project (C2P2) Public Owner Workgroup. Each funder commits to a minimum amount of multi-year annual contributions, participates in ongoing planning, development, and outcomes review, and participates in the investment decisions of the collaborative. Additionally, the Funder Collaborative serves as a community of practice, where the funders learn from each other to help inform the regional efforts.

Membership of the Funders Collaborative consists of C2P2 signatories who have financially committed to collectively invest in diversifying and growing the construction workforce supply. Currently, these are the City of Portland, Multnomah County, Washington County, Clackamas County, Prosper Portland, and Portland Public Schools. Future member onboarding goals include ODOT and TriMet. Additionally, the Funder Collaborative would like to explore including Contractors and foundations as future contributing members.

The Funder Collaborative has formal voting procedures, as agreed upon by its members and outlined in the bylaws. Each funder has one vote, unless otherwise specified. Collectively, the members develop an annual work plan that explicitly includes the desired outcomes of the investments. The Funder Collaborative uses their annual work plan to guide decisions and update it each year based on the performance outcomes and regional labor needs.

This program offer is scaled to 72044A Construction Diversity and Equity Fund (CDEF) which also provides some dedicated funding for workforce diversity development activities. However the CDEF funding can be volatile on an annual basis, and is supplemental rather than reliable multi-year base funding. This program offer includes that stable funding, aligned in purpose with other agencies in the region.

Executive Summary

Workday is part of the County's enterprise resource planning system (ERP). Workday is designed to be managed and supported by business operational staff in Central Finance. The ERP Finance Support team provides strategic and operational leadership; maintains, troubleshoots, and enhances Workday finance functionality; and provides operational and learning support to finance staff to help the County use our ERP system to its fullest potential.

Program Summary

The ERP Finance Support team maintains, troubleshoots, and enhances Workday finance functionality to help the County use the ERP system to its fullest potential. This program supports planning, design, build, and testing of Workday configuration and custom reports. It maintains the system's foundational finance data model. It includes a variety of operational and learning support services that range from responding to individual end user questions to preparing online self-service learning materials to delivering in-person training sessions. It supports active participation in the larger Workday Community and direct advocacy with Workday for functionality enhancements that would benefit County operations.

Workday functionality supported by this program offer includes: Allocations, Banking and Settlement, Business Assets, Customer Accounts (Accounts Receivable), Facilities Tasks, Finance Data Model, Financial Accounting, Grants Management, Inventory, Procurement, Projects, Project Assets, and Supplier Accounts (Accounts Payable).

The ERP Finance Support team performs the following key functions:

- (1) Analyze, design, build, test, and configure all changes made to the existing system, including features from mandatory, twice-yearly Workday system updates.
- (2) Maintain ERP's foundational finance data model.
- (3) Maintain system business processes and security approach to establish internal controls over finance transaction processing.
- (4) Create new custom reports and maintain existing custom reports.
- (5) Meet regularly with finance stakeholder groups to create transparency and stakeholder involvement in decision making about which configuration projects will best meet the County's business needs.
- (6) Provide operational and learning support to County finance users that creates a culture where people feel safe asking questions and trust they will receive quick and accurate assistance.

Executive Summary

The ERP Finance Support team supports Workday as the County's accounting system of record. It provides strategic and operational leadership; maintains, troubleshoots, and enhances Workday finance functionality; and provides operational and learning support to finance staff to help the County use our ERP system to its fullest potential. This program offer requests ongoing General Fund revenue for one new position. It builds capacity to meet the increasing reporting needs of County departments and undertake key configuration projects that will improve current system functionality.

Program Summary

The ERP Finance Support team maintains, troubleshoots, and enhances Workday finance functionality to help the County use the ERP system to its fullest potential. It supports planning, design, build, and testing of Workday configuration and custom reports. It maintains the system's foundational finance data model. It includes a variety of operational and learning support services that range from responding to individual end user questions to preparing online self-service learning materials to delivering in-person training sessions. It supports active participation in the larger Workday Community and direct advocacy with Workday for functionality enhancements that would benefit County operations.

The initial support model developed in advance of going live with Workday was expected to dedicate approximately 75% of the team's work to system enhancements and improvements and 25% to operational support. We have learned over the last three years that a more realistic breakdown is 75% to operational support and 25% to system enhancements. This has resulted in a significant backlog of key projects needed to meet the increasing reporting needs of County departments and improve current system functionality. Workday's constant pace of releasing improved functionality has also highlighted the need for an additional FTE.

Potential projects include configuration and training for: dashboards for cost center managers; Financial Data Mart to facilitate reporting on County-wide, multi-year data sets; specialized custom reports for new program areas such as Preschool for All, Supportive Housing, and Culturally Specific Services; automated cash flow statements; OfficeConnect for a direct connection between Workday data and Microsoft Excel; system enhancements that empower department staff with more customization options for the reports they run within Workday; and new, focused training courses for data analysts, cost center managers, and other advanced finance report users.

3/3/2022

Department:County ManagementProgram Contact:Brian Smith

Program Offer Type: Existing Operating Program Program Offer Stage: As Requested

Program Characteristics: In Target

Executive Summary

This program offer will fund a Labor Compliance Program to provide education and support for workers and construction contractors on wage theft prevention and will support a volunteer program to interview workers on the jobsite to help ensure they are paid a fair wage. The program offer also includes data infrastructure to assist the County with compliance monitoring.

Program Summary

Wage theft exists when a worker is not paid or is underpaid for their work. Wage theft harms workers by driving down wages and harms honest contractors by making them less competitive. Wage theft is particularly prevalent in the construction industry. According to the Oregon Center for Public Policy, "Between 2015 and 2016, the most recent period of data we analyzed, the construction industry had the second highest number of wage claims as a share of its workforce." Some wage theft is unintentional (for example, a calculation error) and easily correctable when identified. Other wage theft is intentional and often harms workers who may not report it for fear of losing their jobs. The County Labor Compliance Program supports workers and contractors to ensure workers are getting paid correctly. In addition, the program supports construction project delivery by assembling and analyzing data to ensure contractors are delivering on the workforce equity objectives for the County's capital projects.

This Labor Compliance Program 1) provides technical assistance and support to ensure that contractors and subcontractors properly classify workers and are in compliance with BOLI labor laws which include Apprenticeship rules and Prevailing Wage laws; 2) ensures that workers on County projects understand their rights related to wage laws, 3) trains and oversees authorized community volunteers to support the County's verification of certified payroll by interviewing workers at worksites regarding wages, benefits, and hours, and 4) manages and maintains software to enable robust monitoring and reporting on wages and benefits paid on County construction projects.

Since the program implementation in 2019 the program has maintained a steady group of 20 trained site volunteers. However, due to the pandemic shutdown in March 2020, visits by volunteers to County construction sites were suspended. County Risk Management estimates the program could restart volunteer operations as early as May 2022.

Program #72048 - FRM Clean Air Construction Standards

3/3/2022

Department:County ManagementProgram Contact:Brian Smith

Program Offer Type: Existing Operating Program Program Offer Stage: As Requested

Related Programs: 10018
Program Characteristics: In Target

Executive Summary

Clean Air Construction standards are a key strategy for reducing diesel emissions in Multnomah County. Thanks to Multnomah County's leadership the City of Portland, Port of Portland, Washington County, TriMet and Metro have all adopted the standard. The purpose of this effort is to use public purchasing to create a strong market signal for clean diesel engines and ultimately reduce MultCo resident's exposure to deadly Diesel PM pollution, the primary source of which is construction equipment.

Program Summary

In September 2018 the Multnomah County Board of Commissioners committed to establishing a Clean Air Construction Procurement Standard. The City of Portland City Council took parallel action on the same day. The Standard requires equipment used on City and County construction projects to dramatically reduce emissions from older diesel engines. The primary pollutants of concern from diesel engines are diesel particulate matter and nitrous oxides.

The Chair approved final procurement policies in May 2019. The policy applies to non-road diesel equipment greater than 25 horsepower, and on-road dump and cement trucks, on construction contracts valued at \$500,000 or more. It includes a phase-in period to allow contractors the time and flexibility to plan for the new standard. COBID firms are required to comply with the standards but have more flexibility. So far Washington County, Metro, TriMet and the Port of Portland have followed the County's and City's lead and adopted these standards.

The program, to help accommodate contractors especially COBID contractors, has a relatively complex implementation timeline. The complex timeline and difficulty of identifying compliant equipment in the field necessitate a strong administrative architecture for the program. Fortunately, the partnership with other jurisdictions and the identical program elements make it possible to share administrative burdens and costs with participating governments. The City of Portland has taken the lead in establishing the administrative infrastructure and allocated over \$400,000 in FY 2020 for startup costs. The annual cost of the administrative program is budgeted at \$311,000 annually, and Multnomah County's share of the program would cost \$53,450 annually, or 17% of the total. The County's costs may decrease as other jurisdictions join the effort, and the fixed costs are spread across additional partners. Refer to Administrative Procedure PUR-10 for a complete description of program requirements.

Outcome	Reduction in PM from construction projects	N/A	10%	0	10%		
Output	Number of pieces of equipment registered	N/A	100	50	100		

Performance Measures Descriptions

The program implementation was delayed by one year because of the economic impacts of the COVID-19 crisis. The first round of diesel engine-restrictions took effect on January 1, 2022. In addition, the registration software that is being used to implement and track the program just launched at the beginning of end of CY 2022. PM reductions are a lagging indicator, since the program just started.

Multnomah County entered into an Intergovernmental Agreement with the City of Portland. The City of Portland will administer the program on the County's behalf. Administrative functions will include technical assistance to contractors, an online platform for registering diesel-powered equipment covered by the standard, the issuance of equipment decals, and online administrative functions to allow County managers to ensure compliance with the standard on specific projects.

Significant Program Changes

Last Year this program was: FY 2022: 72048 FRM Clean Air Construction Standards

Multnomah County residents have the highest exposure to air toxics in the state and are well above national averages for cancer risk and respiratory hazards from air toxics. Soot from older diesel engines is among the most prevalent and harmful airborne toxins in the region. According to the Oregon Department of Environmental Quality (DEQ), the Portland Metro area registers diesel particulate matter (PM) levels above the ambient benchmark concentration set by the state. DEQ estimates the emissions lead to more than 400 premature deaths and \$3 billion in economic losses a year. More than 50 percent of diesel particulate matter in the region comes from construction equipment. People with lower incomes shoulder a disproportionate share of the pollution, as they are more likely to live in denser neighborhoods near congested roadways.

Executive Summary

The DCM/NOND Human Resources (HR) Team provides the full range of Human Resources (HR) services for the approximately 410 employees (412 FTE) of the Department of County Management (DCM) and all non-departmental agencies, including elected officials, the Office of Diversity and Equity, and the Office of Emergency Management. The DCM/NOND HR team supports all employees through the full employee lifecycle, with a focus on workforce equity and ensuring employees experience safety, trust, and belonging in keeping with County values.

Program Summary

The DCM/NOND Human Resources (HR) Team provides the full range of Human Resources (HR) services for the approximately 410 employees (412 FTE) of the Department of County Management (DCM) and all non-departmental agencies, including elected officials, the Office of Diversity and Equity, and the Office of Emergency Management. The DCM/NOND HR team supports all 410 employees through the full employee lifecycle, with a focus on workforce equity and ensuring employees experience safety, trust, and belonging at work.

The HR team combines strategic planning with professional HR advice and support, serving as a strategic business partner and resource for managers and employees. Areas of support include development and implementation of staffing plans, including creating position descriptions; recruitment and retention; onboarding new employees; performance management for both represented and exempt employees; advice and coaching for employees and managers; HR information systems data entry, complex records management and compliance; timekeeping and e-timesheet training; and review and ensure compliance and interpretation of collective bargaining agreements and County Personnel Rules.

All aspects of Human Resources are directly linked to workforce equity and to employee's experiences of safety, trust, and belonging. The DCM/NOND HR team focuses on equitable and inclusive practices and policies for all elements of our work. Many of the goals in the Workforce Equity Strategic Plan (WESP) are directly tied to Human Resources actions or programs, and our team's support and work is fundamental to meeting the organization's commitments under the WESP during FY 2023.

In FY 2023 the DCM/NOND HR Team will

- Provide focused support to the county's non-departmental agencies and Department of County Management
- Support the department meeting of all WESP milestones

Performance Measures Descriptions

A successful recruitment is a recruitment that ends in a hire. Measure 3 is based on the Countywide Employee Survey, which is issued to all county employees every two years. The number of employees supported decreased in FY 2022 when the Joint Office of Homeless Services became a separate department but will increase slightly in FY 2023.

Federal, state, local laws, rules, and regulations covering wage and hour, discrimination, harassment, labor relations, privacy, employment at will, hiring, defamation, Uniformed Service Employment and Re-employment Rights Act, Health Insurance Portability & Accountability Act and other employment related issues. Twelve labor agreements necessitate contract compliance regarding rates of pay, hours of work, fringe benefits and other matters pertaining to employment.

Program #72050 - Central HR Classification & Compensation

3/3/2022

Department:County ManagementProgram Contact:Travis GravesProgram Offer Type:Existing Operating ProgramProgram Offer Stage:As Requested

Related Programs:

Program Characteristics: In Target

Executive Summary

Central HR Classification & Compensation (Class Comp) provides pay and classification structures necessary for the County to offer competitive pay and appealing career paths. Class Comp provides the pay and job profile frameworks that facilitate external competitiveness, ensure internal equity, promote employee retention and support career growth. The team identifies and analyzes job duties and qualifications that define the scope and complexity of work performed. It also researches labor market pay data in support of all unions and management job profiles for the most accurate indicator of prevailing wages and salaries for comparable jobs.

Program Summary

Class Comp aligns practices with County organizational values of safety, trust, and belonging by acting as a neutral function, following procedures established by county code, personnel rules, and collective bargaining agreements to review requests from a centralized perspective. Giving employees the opportunity to have their position reviewed in the reclassification process helps to ensure equity among how positions are classified and compensated.

Class Comp impacts a large percentage of the total County workforce by ensuring positions are allocated at the appropriate level, job profiles are written accurately, and that compensation within our job profile structure is competitive with the public sector market. These efforts ensure equitable work assignments and compensation, which ultimately result in processes that are consistent with the Oregon Equal Pay Act.

Program outcomes are measured for Class Comp based on the number of positions impacted by classification and/or compensation studies, new positions classified, and positions reclassified. Reclassifications and studies directly impact our current workforce and new positions allow for the County to hire staff needed to deliver more effective and new services to the public.

Program #72051 - College to County Interns

3/3/2022

Department: County Management **Program Contact:** Chris Lenn

Program Offer Type: Innovative/New Program Program Offer Stage: As Requested

Related Programs:

Program Characteristics: Out of Target

Executive Summary

This proposal represents an ongoing investment of 25 internship positions towards our commitment to the Workforce Equity Strategic Plan (WESP) performance metric to place 50 College to County internships countywide annually by 2022.

Program Summary

The College to County Mentorship Program is a workforce pathways initiative that focuses on the development of college students or recent graduates from underrepresented communities by offering paid three-month internship opportunities in County projects across departments. In addition, the program matches participants with mentors who are trained in culturally responsive mentoring and development. The internship assists the students' understanding of the pathways to employment and leadership in various County careers so they may consider Multnomah County for future employment. Since the program started in 2011, College to County has successfully helped 30 internship participants become regular status County employees.

Centralized funding will provide a foundation for County departments to meet our commitment on an annual basis despite fluctuations in budget constraints and differences in budgets across departments. In a recent evaluation of this program, one of the biggest barriers for departments/managers to participate is budgetary constraint or uncertainty.

Ensuring a portion of the program's annual placement goals are funded centrally would provide a more equitable chance that internship opportunities are made available across all departments by filling the funding gap for those departments that may be constrained by budget. Additionally, since the internships take place in the summer months, they run across two budget years. Ongoing funding will ensure that an internship is not displaced midway through the experience.

This program honors and advances the County's commitment to building a diverse workforce, promoting inclusion and being better positioned to fulfill our mission to serve the residents of Multnomah County.

A request and funding process will be maintained by the College to County Program Coordinator & the Talent Acquisition Manager.

Program #72052 - FRM Preschool for All Tax Administration

Department: County Management **Program Contact:** Eric Arellano

Program Offer Type: Existing Operating Program Program Offer Stage: As Requested

Related Programs: 25200-25205, 40099B, 78301B

Program Characteristics: In Target

Executive Summary

The Treasury tax administration unit is responsible for managing all tax administrative activities for the new Preschool For All Program tax. This includes but is not limited to tax accounting, tax reporting, tax code development and maintenance, tax procedures, tax forms, tax handbook, tax communication/education, general tax support, and management of intergovernmental agreement with the City of Portland.

Program Summary

On November 3, 2020 the voters of Multnomah County approved Preschool For All Program Ballot Measure 26-214 which authorized the County to impose a personal income tax to fund universal, tuition free, voluntary, and high quality preschool education for every three and four year old residing within Multnomah County. The tax is effective tax years beginning January 1, 2021 and applies to resident and non-residents: 1.5% tax on Oregon taxable income over \$125,000 and 3.00% tax on Oregon taxable income over \$250,000 for single filers. 1.5% tax on Oregon taxable income over \$200,000 and 3.00% for Oregon taxable income over \$400,000 for joint filers.

The City of Portland, through an intergovernmental agreement, is administering and collecting the tax on behalf of Multnomah County. The City of Portland has administered the County's Business Income Tax for over 26 years and administered the County's ITAX (temporary personal income tax) from 2003-2005. The City of Portland is also administering the Metro District Supportive Housing Services personal income tax for the Tri-County area, creating significant economies of scale. The City has the tax software, expert staffing, and experience to administer tax. In the first 3 years of the tax program, the County will pay for system implementation costs to accommodate necessary tax system enhancements directly related to the new tax. In FY 2023 the total cost will be \$7.2m, with \$960K of that going to system implementation costs. Annual ongoing costs of collection will level off in FY24 at approximately \$6.38m, adjusted by consumer price index (CPI).

In addition to contract expenditures, this program includes one FTE (Project Manager) to develop and maintain tax code, tax administrative procedures, tax handbook, educational materials, taxpayer outreach, development of tax forms, tax accounting, tax reporting, and other necessary tax administrative functions.

Program #72053 - Workday Support - Review & Recommend

3/3/2022

Department: County Management **Program Contact:** Cessa Diaz

Program Offer Type: Innovative/New Program Program Offer Stage: As Requested

Related Programs: 72022 Workday Support - Central Human Resources; 72046 Workday Support Finance

Program Characteristics: One-Time-Only Request, Out of Target

Executive Summary

Workday is part of the County's Enterprise Resource Planning system (ERP). Workday is designed to be managed and supported by business operational staff in Central Human Resources and Central Finance. These teams, the HR Workday Support team and Finance Support team, are responsible for developing, maintaining, troubleshooting, and enhancing Workday Human Capital Management (HCM) and Finance functionality in collaboration with County functional subject matter experts, ensuring an effective, efficient and innovative ERP system. If funded this project will address problematic configuration that has resulted in multiple complex and time intensive manual processes. This project will allow both HR Workday and Finance Support teams to identify key areas for optimization, efficiencies and system improvements.

Program Summary

This OTO program offer will fund the Workday Review and Recommend Project for one year. The County implemented Workday in January 2019 supported by two core teams, the HR Workday Support team and Finance Workday Support team. Over the last three years, it has been challenging to maintain efficient and effective functionality to support County operations. The County is a highly complex organization that requires sophisticated and advanced configuration, which is not currently implemented in our systems. We have continued to operate with problematic configuration that has been in place since initial implementation of Workday.

The Review and Recommend project will allow the HR Workday Support team and the Workday Finance team to implement new and improved configuration that will result in better system optimization, efficiency and accuracy. These enhancements have been established in partnership with Workday to ensure alignment with Workday best practices. It is expected that these critical updates and changes will have an immediate and noticeable impact resulting in reduced manual workarounds and work load impacts for key stakeholders.

Examples of targeted system enhancements or new configuration: redesign of time tracking calculations; updates to payroll retro processing; implementation of multiple jobs functionality; optimization of payroll mid-period staffing and or compensation changes; updates to salary reduction configuration.

Key deliverables of this project include: implementation of new configuration to improve functionality, accuracy, efficiencies, and user experience; analysis of identified configuration in Payroll, Absence and Time Tracking modules; development of configuration implementation project plan; extensive end to end testing for all new configuration; cross functional stakeholder engagement to ensure cohesive and accurate implementation across both HCM and Finance modules; improved and more accurate HR and payroll reporting; and change management for key stakeholders.

Performance Measures Descriptions

Output: We currently have over 70 system enhancements and configuration items, target goal of implementing a minimum of 10 configuration items, or 15% of the total list of enhancements. Outcome: Currently we have identified 16 complex reports that need to be developed or revised to get single sources of information. Target goal of implementing 15 reports, or 95% of report enhancements to improve overall reporting for Payroll, Time Tracking, and Absence. Outcome: Reduce current manual payroll cycle processes and audits by 5-6. for a 50% reduction.

Program #72054 - HCM Workday Support Data Mart

3/3/2022

Department: County Management **Program Contact:** Cessa Diaz

Program Offer Type: Innovative/New Program Program Offer Stage: As Requested

Related Programs:

Program Characteristics: One-Time-Only Request, Out of Target

Executive Summary

Workday is part of the County's Enterprise Resource Planning system (ERP). Workday is designed to be managed and supported by business operational staff in Central Human Resources and Central Finance. If funded this project would support the development and implementation of HR data being added to the Finance Data Mart. The Data Mart has been identified as a key project for IT and Finance. Data Mart will allow for HR and Finance data in Workday to be extracted and used in external systems for comprehensive reporting not currently supported by Workday.

Program Summary

The Data Mart will include HR, Finance, and department stakeholders to develop an enterprise data mart environment, in order to enable departmental HR and Finance dashboards and reporting. Currently the County has a Finance Data Mart to capture financial data. This project will add HR data, increasing its functionality and usefulness. The Data Mart will pull Workday data into a business intelligence warehouse where it can be combined more easily with data from other sources (e.g. census data, EPIC, and other systems storing program outcome data) to provide new insights and help evaluate program success

Goals for the Data Mart include the following:

- Easier multi-year, countywide reporting could be of particular benefit to the Office of Diversity & Equity and the Evaluation and Research Unit
- Enables sharing of aggregated data while keeping individual data secured
- Fills some of Workday's reporting gaps (e.g. lack of effective dating for some key data, more granular control over data security)
- Improved data access, analytics, and reporting
- Extracted data can be used throughout the County to make key Finance and HR decisions
- Data will be highly secured and accessible by key partners for more comprehensive reporting
- Data Mart will provide access to HR data that can be utilized for analysis in additional platforms, including Tableau.

Output	HR Dashboards	N/A	N/A	N/A	10

Performance Measures Descriptions

Output: HR Dashboards are currently available to HR Workday users, HR Data mart will expand access to secure stakeholders for analysis and decision making. Outcome: Currently manual analysis is needed to evaluate HR Data against other relevant data sources, including financials. Implementation of the HR Data Mart should result in a reduction of manual processes.

Program #72900 - ARP - Federal Grant Compliance and Monitoring

3/3/2022

Department: County Management **Program Contact:** Eric Arellano

Program Offer Type: Innovative/New Program Program Offer Stage: As Requested

Related Programs:

Program Characteristics: Out of Target

Executive Summary

This program is responsible for maintaining federal grant compliance with American Rescue Plan (ARP) Act laws and regulations. The dedicated position will track County ARP spend, usage of funding, complete all federal required reporting, support general compliance to laws and regulations, support County departments with ARP fund usage, and support enhanced external audit activities as it relates to COVID-19 relief funding.

Program Summary

As a result of the COVID-19 pandemic the federal government has enacted three separate relief bills that have provided local governments with direct financial support in addition to many other priorities (e.g. CARES Act, COVID Relief, & ARPA). The federal relief supports local governments in responding to the pandemic (e.g. testing, contact tracing, vaccination, business relief, rent assistance, food assistance, COVID-19 supplies, efforts to comply with CDC safety requirements, etc..). The new funding comes with various federal spending, reporting, and compliance requirements that require strong and effective oversight. All federal funding received (direct or pass-through) is subject to the Office of Management and Budget (OMB) Super Circular requirements.

ARPA funds will support urgent COVID-19 response efforts to continue to decrease spread of the COVID virus, support immediate economic stabilization for households and businesses, and address systemic public health and economic challenges that have contributed to the unequal impact of the pandemic on certain populations.

This program will provide for a limited duration position (Senior Finance Specialist) to track all County ARP relief funding, maintain oversight on usage/spend, complete required federal reporting, provide guidance/education to applicable department staff, support efforts on an enhanced Single Audit process, and support overall County compliance efforts.

- Comply with ARP Final Rules and FAQ
- Complete quarterly and annual reporting for ARP (e.g. projects, expenditures, and recovery plan)
- Monitor spend for allowability
- Provide ARP federal compliance training
- Support external audit processes for ARP (e.g. Single Audit)
- Support subrecipient monitoring efforts

Output	Number of Single Audit deficiency comments from external auditor (ARPA Funding)	N/A	N/A	0	0			
Outcome			_		-			

Performance Measures Descriptions

External auditors express their opinion on the County's Single Audit Report (Audit of Federal Expenditures). A zero result means the auditors identified no deficiencies or weaknesses in internal controls.

American Rescue Plan (ARP) Act Rules

The OMB Federal Register requires entities expending Federal funds over \$750,000 in a fiscal year to have a single audit of Federal awards. Also, according to the Federal Register, Federal funds that are passed on to other organizations (such as non-profits) must perform subrecipient monitoring on those contracts funded with pass-through dollars.

Executive Summary

Future of Work Coordinator to provide leadership and project management for countywide planning for return to onsite work transition, as well as rules and processes that support a telework staffing environment.

Program Summary

Program funds a Future of Work Coordinator (HR Manager 1, limited duration) to serve as a project manager for countywide planning for return to onsite work transition, as well as development of rules and processes that support a telework staffing environment.

County leadership and key stakeholders developed high level guiding principles to serve as a foundation to help shape the Future of Work at Multnomah County, including a shared commitment to prioritizing community and customer needs, establishing effective remote and onsite strategies that match our services, employees and workgroup needs; and advancing equitable practices that ensure all employees, whether working remotely or onsite, are supported with opportunities to grow and thrive.

Program activities include bringing stakeholders together to develop plans and reach agreements, assisting with supervisor and employee communications, updating policy and process documents as needed, collaborating with Human Resources and Labor Relations managers on staffing and strategies to bring employees back onsite, supporting employee and supervisor training efforts, and serving as a liaison between Central Human Resources, Facilities and Risk Management on safety workspaces.

Executive Summary

Labor Relations provides leadership to ensure effective labor-management relationships, appropriate work conditions and legal compliance that balance the rights of employees with the business needs of the County. This program manages 12 labor contracts, representing 85% of the County workforce, and the Personnel Rules (work rules) that apply to 100% of County employees. This program provides funding for expansion of Labor Relations services and support.

Program Summary

Program funds a Labor Relations Human Resources Manager 2 position (limited duration) to support the expansion of existing services, provide general Labor Relations support; and create additional capacity needed to bargain contracts which were rolled over due to COVID-19.

Performa	Performance Measures							
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer			
Output	Number of Covid-19 related Labor Disputes	26	22	58	35

Output and Outcome: Disputes include formal and informal disagreements about the interpretation or application of labor contracts, Personnel Rules, practices or policies. Resolving labor disputes collaboratively means all involved parties have agreed to the resolution without going to arbitration. Arbitration can be costly and result in a binding decision that is not in the county's best interest.
