Multnomah County					
Program #78203B - Facilities Client Services- Transition to Electric Powered Landscaping					
Department:	County Assets	Program Contact:	Dan Zalkow		
Program Offer Type:	Innovative/New Program	Program Offer Stage	: As Proposed		
<b>Related Programs:</b>	780203A				
Program Characteristic	s:				

**Executive Summary** 

In an effort to reduce our carbon footprint, this program offer is will allow Facilities and Property Management (FPM) to fully transition away from gas powered leaf blowers to electric within our landscaping contracted services. This is in alignment with the Climate Action Plan with a goal to reduce greenhouse gas emissions to eighty percent in 2050.

## **Program Summary**

There is a consensus among the world's leading scientists that climate change caused by human emission of greenhouse gases is among the most significant problems facing the world today and potentially poses the greatest economic, environmental, and social challenge of the 21st century. Documented impacts of global warming include but are not limited to increased occurrences of extreme weather events (Le., droughts and floods), adverse impacts on plants and wildlife habitats, threats to global food and water supplies - all of which have an economic and health impact on communities and their local governments.

In partnership with our landscaping vendors, FPM will fully transition away from gas powered leaf blowers to electric leaf blowers. This is in alignment with the Climate Action Plan with a goal to reduce greenhouse gas emissions to eighty percent in 2050.

Performance Measures						
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer	
Output	Amend contract with landscaping company.	N/A	N/A	N/A	100%	
Outcome	Fully transition away from gas powered leaf blowers	N/A	N/A	N/A	100%	
Performance Measures Descriptions						

Successfully working with landscaping contractor is key to successfully achieving this outcome.
