Executive Summary

Food Handler Replacement for the Health Department. This application is an old technology, and doesn't accept modern payment methods, which require manual intervention.

Program Summary

The Technology Improvement Program funds the replacements and consolidation of obsolete technology. This is an ongoing business need. The projects are identified through the Technology Fitness Assessment conducted every other year. The Technology Fitness Assessment determines how well the most critical technology supports the mission, business processes, and technical requirements of the County. Projects are prioritized based on the fitness assessment and availability of technical and business resources to perform the work.

The Food Handle Replacement application is an old technology, and doesn't accept modern payment methods, which require manual intervention. The current application does not follow current standards for accepting payments. This requires manual intervention to change passwords to keep the application running or reversing payments.
