

#### Program #90008 - Animal Services Animal Health

**Program Contact:** Wade Sadler

**Community Services Department:** 

**Program Offer Type: Existing Operating Program** Program Offer Stage: As Proposed

**Related Programs:** 90007

**Program Characteristics:** 

### **Executive Summary**

The Multnomah County Animal Services (MCAS) Animal Health program provides veterinary care 365 days a year for lost, stray, injured, sick, abandoned, abused and neglected animals found in Multnomah County. The program provides comprehensive veterinary care in our American Animal Hospital Association (AAHA) accredited hospital and contracts services with veterinary emergency hospitals in the community. In addition to standard veterinary care, the Animal Health program performs surgical procedures including spay and neuter, dental, amputations, and a variety of other procedures. The primary goal for Animal Health is improving medical and behavioral outcomes for animals, and providing palliative care to improve the quality of life for sick and injured animals.

## **Program Summary**

The Animal Health (AH) program supports Animal Care in providing a clean, comfortable, safe and healthy environment to house and care for all animals that enter the shelter by providing medical protocols and guidelines that protect animals in the shelter from infectious disease outbreaks. AH also provides direct veterinary care including treatments for injuries and illnesses, preventative treatments including vaccinations, and emergency medical care for animals in distress.

AH provides surgical care when necessary, including performing spay and neuter surgeries for animals prior to placement into new homes, amputations, wound repair, dentals, and other procedures as needed. Animal Health facilitates enhanced care for animals in need of specialty procedures such as neurological or orthopedic care. These types of specialized care are funded by private donations via Dolly's Fund, which was established to provide medical care for animals that otherwise would not receive the treatment they need.

In addition to surgical procedures for shelter animals, AH provides spay and neuter services to low-income community members through a subsidized program called Spay & Save, which is coordinated in partnership with the Animal Shelter Alliance of Portland (ASAP), of which MCAS is a founding member. This program provides equitable services to underserved community members who are unable to access this vital type of veterinary care through other means. The success of this program is systemically correlated with a manageable shelter population, reduced euthanasia, and reduced pet overpopulation in the community over time.

AH provides post-placement support for recent adopters, as well as longer-term support for shelter animals in need through more than 200 volunteer foster homes, which work to rehabilitate or socialize homeless animals in preparation for placement into new homes. AH coordinates with Field Services and contracts with veterinary hospitals to provide emergency care for animals in the community in need of immediate intervention.

Performance Measures									
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer				
Output	Veterinary Consultations and Treatments Provided	N/A	8,500	7,000	7,500				
Outcome	Surgeries provided to improve medical and behavior conditions for shelter animals	N/A	2,000	1,200	1,500				
Outcome	Low-cost spay/neuter surgeries provided to the public	N/A	N/A	N/A	300				

#### **Performance Measures Descriptions**

This program was previously included in the Animal Care program, resulting in a lack of historic comparable data. Veterinary consultations and treatments provided include exams, diagnostic consultations and care/treatment of injuries and illnesses. Surgeries performed are primarily spay and neuter procedures, but also include other general procedures such as amputations, wound repair, and dental procedures. A new performance measure was added for FY23 to track spay and neuter surgeries provided to members of the public that are low/no-income.

5/2/202

## **Legal / Contractual Obligation**

Oregon Revised Statute 433.340 - 433.390 pertains to Rabies Control which includes: requirements to report animal bites, impoundment, quarantine and disposition requirements, inoculations against rabies requirements, and records requirements.

#### Revenue/Expense Detail

	Adopted General Fund	Adopted Other Funds	Proposed General Fund	Proposed Other Funds	
Program Expenses	2022	2022	2023	2023	
Personnel	\$796,560	\$192,429	\$1,019,752	\$0	
Contractual Services	\$40,000	\$0	\$91,000	\$0	
Materials & Supplies	\$134,551	\$0	\$147,460	\$0	
Cash Transfers	\$0	\$10,000	\$0	\$7,500	
Total GF/non-GF	\$971,111	\$202,429	\$1,258,212	\$7,500	
Program Total:	\$1,17	\$1,173,540		\$1,265,712	
Program FTE	6.00	2.00	8.00	0.00	

Program Revenues							
Financing Sources	\$10,000	\$0	\$7,500	\$0			
Beginning Working Capital	\$0	\$192,429	\$0	\$0			
Service Charges	\$0	\$10,000	\$0	\$7,500			
Total Revenue	\$10,000	\$202,429	\$7,500	\$7,500			

# **Explanation of Revenues**

In the General Fund, the revenue represents the cash transfer from the Animal Services Fund to the General Fund. Service Charges (\$7,500) primarily includes revenue from co-pays for spay and neuter procedures performed for community members and their pets. These revenues have been significantly impacted by COVID-19 as surgery was initially fully suspended to conserve PPE at the beginning of the pandemic, and has slowly been resumed with a focus primarily on shelter animals.

## **Significant Program Changes**

Last Year this program was: FY 2022: 90008 Animal Services Animal Health

MCAS is partnering with the University of Wisconsin Shelter Medicine Program. A primary goal of the partnership is to ensure excellence in the quality of care we provide for animals in our shelter, including prioritizing behavioral and medical needs and providing focused, individualized care for high-needs animals. This will result in healthier outcomes for animals by redirecting resources for animals most in need, and eliminating unnecessary routines. MCAS is also expanding services contracted with emergency veterinary hospitals to equitably serve community members and their animals.
