

## Program #50011 - Recovery System of Care

**Program Contact:** Jay Scroggin

**Department:** Community Justice **Program Offer Type: Existing Operating Program** Program Offer Stage: As Adopted

**Related Programs:** 

**Executive Summary** 

**Program Characteristics:** 

Providing justice-involved adults with alcohol and substance abuse treatment along with wraparound services is an effective strategy to reduce re-offense, especially for individuals classified as high risk. This includes intensive alcohol and substance abuse outpatient treatment, which addresses major criminal risk factors and are a necessary correctional intervention for reducing recidivism. Other services such as vocational assistance, mentoring, and housing are also essential in promoting client success.

# **Program Summary**

This program offer supports a recovery system of care which includes comprehensive recovery support, including stable and substance free housing, peer mentors, medication assisted treatment, and vocational assistance. A recovery system of care better supports long-term behavior change than treatment alone. Alcohol and substance abuse treatment services are provided through contracts with non-profit providers who are also equipped to respond to culturally-specific needs and address criminal risk factors. Several providers offer culturally and gender responsive specific services.

Most clinical services previously supported by the Department of Community Justice's (DCJ) budget can now be reimbursed by insurance due to the expansion of Medicaid and increased access to private insurance. DCJ will continue to provide funding for clinical services for individuals eligible for treatment who do not have insurance. In addition, funding is provided to support treatment interventions for criminal risk factors such as antisocial thoughts, attitudes, antisocial peers, impulsivity, poor problem solving skills and anger management. Effective interventions for adults should integrate addictions treatment with treatment for criminality. Without treatment, justice-involved adults are more likely to re-offend and/or to occupy expensive jail beds. Treatment has been proven to be effective at reducing recidivism both in Oregon and nationally.

Performance Measures									
Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer				
Output	Number of individuals that received DCJ funded treatment	852	215	850	850				
Outcome	Percent of individuals convicted of a misdemeanor or felony within 1 year of treatment admission date	8%	10%	8%	8%				

### **Performance Measures Descriptions**

Measure 1: FY 2022 Budgeted was based on an assumption regarding BM110 and impacts of COVID-19. FY 2022 Estimate reflects current level of service.

7/14/202
