Executive Summary

Juvenile Detention protects the community by holding youth in custody when they are awaiting a hearing and have been determined to be a serious risk to public safety and/or are high risk to not appear for court. In FY 2021, over 450 youth were brought to Juvenile Detention for intake screening. This offer funds 16 of the 56 beds required to meet the Metro Region's daily detention needs.

Program Summary

Though originally constructed with 191 beds, only 56 beds are needed to meet the Metro Region's daily detention needs. Clackamas and Washington Counties contract for 27 beds. The remaining 29 beds will house high risk Multnomah County youth who are not appropriate for community placement. Of those 56 beds, a unit of 16 beds must be kept available for youth who identify as female.

The ability to safely detain delinquent youth is mandated by Oregon law and is essential to community protection. The decisions made to hold Multnomah County youth in detention are based on the results of a validated detention screening system along with policies developed collaboratively among system stakeholders. This system has saved Multnomah County millions of dollars by safely diverting lower risk youth into less costly community placement alternatives. The ability to house tri-county youth in one facility maximizes the use of space and provides the flexibility needed to structure units according to age and gender.

Funding for these 16 detention beds allows for intake services and housing arrangements for youth who are: awaiting trial, have violated parole, have serious probation violations, or are on out-of-state holds awaiting return to their jurisdiction.

Due to the COVID-19 pandemic, juvenile justice partners worked together to decrease the number of youth placed in detention in an effort to prevent the spread of the virus. This provided the juvenile justice system an opportunity to operate significantly below capacity while finding alternatives to detention without impacting public safety. Black, African American, and Latinx youth are overrepresented in detention. Less detention resources may force the public safety system to create other, more appropriate and culturally responsive alternatives to detention that will benefit these youth.
