Program Characteristics:

Executive Summary

The Midland Library project renovates 24,000 sf existing library with a roughly 6,000 sf addition on the existing site. Project decision considerations include Library pillars, priorities, environmental sustainability, and operational efficiencies.

Program Summary

This multi-year project is expected to complete design, obtain permits, establish the Guaranteed Maximum Price (GMP), and start construction in FY 2023. The project will increase roughly 6,000 sq. ft and renovate existing space to be more modern, flexible, and accessible by the community. The project has a minimum aspirational goal for COBID (Certification Office for Business Inclusion and Diversity) certified firm participation in construction of 20% over the life of the project.

The new Midland Library will be a destination library - 30,000 to 60,000 square feet, providing a rich variety of services, resources, and spaces to meet the needs of the diverse community. Midland Library is currently one of east Multnomah County's two designated regional libraries. It has a large geographic draw and is one of the most-visited and highestcirculating libraries in the Multnomah County Library system. The Midland Library is in one of the most culturally and linguistically diverse areas of the county.

Community outreach and engagement will utilize diverse approaches through virtual, in-person and additional community meetings with translation and interpretation services. The building design will also receive input from Community Design Advocates, paid community members who will provide two-way feedback between community organizations, patrons and the design team. Key activities include robust community engagement to inform design, onboarding of paid positions for Community Design Advocates and the project delivery team meeting their schedule and goals.
