Executive Summary

The Motor Pool Program offers a shared pool of vehicles and carsharing options for County use, enabling employees an accessible and convenient option for work-related travel. Motor Pool services provide important short-term transportation options for staff working at off-site locations.

Program Summary

The goal of this program is to offer County employees accessible and convenient options for work-related travel. Motor Pool Services connect with numerous County departments with an overarching goal to seamlessly support and engage with the community.

There are two County owned Motor Pool sites supporting the County's short-term business transportation needs using County owned vehicles. In addition, County employees can access the car rentals through a contract with Enterprise. Work is being done to restart the CarShare program to support employees at downtown locations for the Health and Human Services Departments, who regularly travel to meet the people they serve. This blend of County-owned and vendor-supported motor pools strives to remove barriers to transportation and provides employees with accessible and convenient options for work-related travel.

We include County Departments in our budget decision-making process and try to align the program's strengths and funding with the County department's goals. We recently purchased two 15-passenger vans for the motor pool to provide clients with more accessibility and increase their capacity to support our community into the future.

Significant Program Changes

Last Year this program was: FY 2022: 78402 Motor Pool

CarShare services were closed due to COVID and the County's telework mandate. Motor Pool leadership shifted County staff to use Motor Pool resource and Enterprise rental car services. These shifts in services during the pandemic provided support and essential transportation to County programs which added in the support to our community during this emergency.

Increase in BWC are due to additional carry forward of unspent capital. This was due to expected vehicle purchases delayed due to supply chain issues.
