# MULTNOMAH COUNTY, OREGON ANNUAL COMPREHENSIVE FINANCIAL REPORT

FISCAL YEAR ENDED JUNE 30, 2022

## About the Cover

In 2009, Multnomah County established the Community Reaps Our Produce and Shares (CROPS) program. The program was established to address hunger, a growing public health concern, and its links to obesity, and chronic disease. The CROPS farm located in East Multnomah County is used to plant and grow food crops. Tons of fresh produce is donated to the Oregon Food Bank.

Image: in September 2022 County leaders (County Chair Deborah Kafoury and District 4 Commissioner Lori Stegmann) along with community partners broke ground on a new 3.5 acre CROPS Program . The project will transform the land into a farm. Mudbone Grown will manage the CROPS farm.

Mudbone is a black-owned farm enterprise that grows and celebrates culturally-specific ancestral foods, value-added products, and food hubs for systemically absent or barriered communities. Food security and food sovereignty are the foundational values. The farm provides agricultural training, education, economic development, workforce development, farming for procurement, community farm visits and tours, and community placemaking.

# **ANNUAL COMPREHENSIVE FINANCIAL REPORT**

FOR THE FISCAL YEAR ENDED JUNE 30, 2022

Prepared by: Department of County Management Eric Arellano, Chief Financial Officer 501 SE Hawthorne Blvd, Suite 531 Portland, Oregon 97214

Department of County Management

Finance and Risk Management

Office of the Chief Financial Officer 501 SE Hawthorne Blvd. Suite 531 Portland, Oregon 97214

Eric Arellano Chief Financial Officer Phone: 503-988-6718 Email: eric.j.arellano@multco.us

December 2, 2022

Honorable County Chair, Board of County Commissioners and Citizens of Multnomah County, Oregon,

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of Multnomah County, Oregon, (the County) for the fiscal year ended June 30, 2022, together with the unmodified opinion of our independent certified public accountants, Moss Adams LLP.

The ACFR is published to provide the Board of County Commissioners, County staff, our residents, and other interested readers with detailed financial information that presents the County's financial position and activities of County departments. The Department of County Management is responsible for the preparation of this report as required by Oregon Revised Statutes (ORS 297.425). Also included are Audit Comments and Disclosures required under the *Minimum Standards for Audits of Oregon Municipal Corporations* of the Oregon Administrative Rules (OAR).

In addition, the County is required to have a comprehensive single audit of its Federal Assistance Programs in accordance with the Office of Management and Budget (OMB) 2 CFR Part 200 (Uniform Administrative Guidance) and the provisions of Government Auditing Standards promulgated by the U.S. Comptroller General as they pertain to financial and compliance audits. A report on the County's compliance with applicable Federal laws and regulations related to the OMB 2 CFR Part 200 is included with this reporting beginning on page 271.

This report presents fairly the financial position of the various funds of the County at June 30, 2022, and the operations of the various funds in conformance of accounting principles generally accepted in the United States of America (US GAAP). It is prepared under the guidelines for financial reporting developed by the Government Finance Officers Association of the United States and Canada (GFOA) and the principles established by the Governmental Accounting Standards Board (GASB), including all effective GASB pronouncements.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

#### **County Profile**

Multnomah County, incorporated in 1854, is located in northwestern Oregon at the confluence of the Columbia and Willamette rivers, approximately 110 river miles and 80 highway miles from the Pacific Ocean. The County covers 465 square miles, and serves an estimated population as of April 1, 2020 of 812,428 residents. The cities of Portland and Gresham are the largest incorporated cities in the County.

Multnomah County is governed according to its Home Rule Charter. The County's charter, adopted in January 1967, has had several subsequent amendments. The County is governed by a Board of County Commissioners consisting of four non-partisan members elected from designated districts within the County and the Chair of the Board, elected at large. The Board of County Commissioners conducts all legislative business of the County.

Multnomah County provides a full range of services including, but not limited to:

- Law Enforcement
- Elections
- Adult and Juvenile Corrections
- Animal Control
- Public Health
- Construction and Maintenance of Roads, Bridges, and Other Infrastructure
- Parole and Probation
- Aging and Disability Services
- Health Services (Clinical and Dental Services)
- Mental Health and Addictions Services
- Services to Houseless Individuals
- Internal Business Support

In November 2012, the voters of Multnomah County approved the creation of the Multnomah County Library District. The Library District formed in fiscal year 2014 and is supported by a dedicated Property Tax levy. It is legally separate from Multnomah County, although the Board of County Commissioners also serves as the Library District Board. The Library District is included in the County's financial statements, as is The Library Foundation, a tax-exempt foundation whose primary purpose is to support the County's libraries through raising, receiving, administering and disbursing funds, grants, bequests and gifts for the benefit of the County libraries.

Certain sanitary and lighting services are provided as legally separate Service District Authorities, which function, in essence, as departments of the County and therefore are included in the County's financial statements as component units. The County also maintains a Hospital Facilities Authority (Authority) whose primary purpose is to issue conduit debt for health care facilities. The Hospital Facilities Authority is also considered a component unit but it is not included in the County's financial statements as the activity of the Authority is not material to the County's financial statements.

Additional information on these legally separate entities can be found in Note I. *Summary of Significant Accounting Policies* of the *Notes to the Basic Financial Statements*.

#### Accounting System and Budget Control

This report consists of management's representations concerning the finances of the County. Management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, management has established a comprehensive internal control framework that is designed both to protect the County's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's budget is prepared on the modified cash basis of accounting. In accordance with State statutes, the County budgets all funds except custodial funds. The County budget is adopted by the Board of County Commissioners by department for each fund. The expenditure appropriations lapse at the end of the fiscal year. Additional unanticipated resources and corresponding appropriations may be added to the budget during the fiscal year through a supplemental budget process. Original and supplemental budgets may be modified during the fiscal year by the use of appropriation transfers between categories. Appropriation transfers must be approved by the Board of County Commissioners in public meetings prior to the related expenditures. During the fiscal year, three supplemental budgets were adopted.

Budget to actual comparisons are provided in this report for each individual governmental and proprietary fund for which an appropriated annual budget has been adopted. The General Fund, the Federal/State Program Special Revenue Fund, the Coronavirus (COVID-19) Response Special Revenue Fund, and the Preschool for All Program Special Revenue Fund budget to actual comparisons are provided on pages 58-61 as part of the basic financial statements for the governmental funds. For the Multnomah County Library Capital Construction Fund and all other governmental funds with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 159.

#### **Economic Conditions and Financial Outlook**

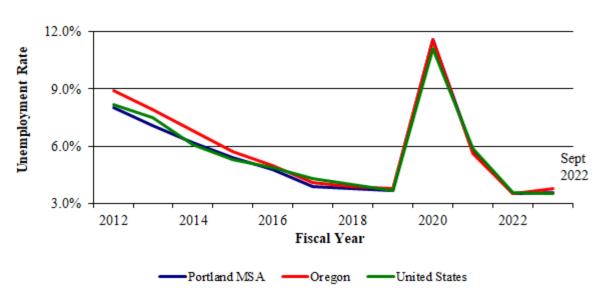

**Local Economy:** Multnomah County is in the "Greater Portland" metropolitan area, which include cities on both sides of the Columbia River. This metropolitan area is the financial, trade, transportation and service center for Oregon, southwest Washington and the Columbia River Basin. Its manufacturing base includes electronics, machinery, transportation equipment, and fabricated metals.

The economic recovery from the pandemic-induced recession continues to be rapid and uneven. As of September 2022, the unemployment rates in both Oregon and Multnomah County remain at historic low levels, comparable to pre-pandemic levels in 2019. Peak unemployment rates hit 13.1 percent during the height of the pandemic in April 2020. The massive disruption to the national and local economy was significantly aided by extraordinary federal action through unemployment payments, direct assistance to households/businesses, and support to the healthcare industry. The unemployment rate in Portland metropolitan area as of September 2022 was 3.6 percent, a 1.1 percent decrease from September 2021 and a 9.5 percent decrease from the peak unemployment rate. Certain industries that were directly impacted by changes in consumer behavior and public health interventions continue to lag behind in the recovery. Inflationary pressures have become one of the biggest concerns to the local and national economy. Consumer prices have jumped 8.2 percent in the last year, a 40 year high. Inflation has been primarily driven by supply chain disruptions, labor shortages, and generally higher costs to produce goods and deliver services.

Gross Domestic Product (GDP) – the output of goods and services produced in the United States – increased at an annual rate of 1.6 percent and 0.6 percent in quarters one and two of 2022, but increased 2.5 percent in quarter three of 2022. To combat historic inflationary pressures the Federal Reserve has increased interest rates four times, with the latest rate hike increasing the federal funds rate to 4 percent. This unprecedented action to curve inflation has raised concerns of a recession in the next one to two years. Despite the tight labor market and health of household balance sheets, consumer sentiment has become more pessimistic to rising prices.

The Federal government took extraordinary measures to combat the economic disruption of the pandemic. In March of 2020, US Congress passed economic relief package, Coronavirus Aid, Relief, and Economic Security (CARES) Act and more recently in March of 2021 passed The American Rescue Plan Act (ARPA). Both of these legislative actions have provided direct economic assistance to workers and small businesses, in addition to providing financial support to local governments to combat the impacts of COVID-19. Multnomah County received a direct allocation of \$28 million from CARES Act in fiscal year 2020 and \$157.8 million over a two-year period (fiscal year 2021-2022) from ARPA, the latest payments of \$78.9 million in late fiscal year 2022. Economic growth returned to normal levels after the massive contraction caused by the pandemic, but more recent inflation pressures have caused future recession concerns.

The chart below displays how unemployment rates have steadily declined since the great recession of 2008, with the local rates being slightly below the national average. The economic impact of the global pandemic has resulted in the local unemployment rates peaking in 2020 slightly above national rates (11.6 vs 11.1 percent) but decreasing to 3.6 percent in September 2022 slightly below national average of 3.5 percent.

Unemployment Trends

Locally, the residential real estate market has seen continuous price increases until very recently. The inventory of single-family homes for sale has been at historic lows, which combined with strong income growth during economic recovery has driven prices up. As measured by S&P Case-Shiller Home Price Index for Portland metro area, home prices increased by almost 17.9 percent during 2021. More recently, the Federal Reserve interest hikes to slow inflation growth has reversed price increases. The S&P Case-Shiller Home Price Index for Portland metro area, decreased to 8.6 percent in August of 2022. For multi-family housing, the eviction moratorium put in place during the pandemic ended. According to the Census's Households Pulse Survey, as of early 2022, about 12 percent of Oregon households reported being behind on monthly rent. Continued Multnomah County rental assistance programs remain a top priority.

The Oregon Economic and Revenue Forecast (dated December 2022) is now predicting a mild recession in the coming years though uncertainty remains (an economic soft landing remains possible). High inflation and the aggressive federal interest hikes will begin to slow down the economy. Inflation is at a 40-year high and historically inflationary booms end up causing some sort of significant economic slowing. Business investment, personal income, and consumer spending is expected to begin to slow. Real GDP is expected to again turn negative in the quarters ahead, with job losses possibly starting as early as the summer of 2023. The State expects revenues for the 2023-25 biennium to be about \$3 billion lower than the current biennium as corporate profits, investment income earnings slow, and a record kicker credit is paid out (about \$3.7 billion). The State notes that the recent significant revenue growth has been driven primarily by nonwage sources of income, which will likely prove to be temporary. **Financial Outlook:** At the beginning of March 2020, the Board of County Commissioners facing a General Fund budget deficit for fiscal year 2021 and a long term "structural deficit," approved an amendment to the County Business Income Tax (BIT) code that increased the BIT rate beginning with tax year 2020 from 1.45 percent to 2 percent. At the time, it was estimated this rate increase would solve the structural deficit over a 5-year period. The global pandemic significantly altered the County's financial picture by reducing forecasted tax revenues (BIT and Motor Vehicle Rental Taxes). Fortunately for the County, the federal aid packages of 2020 and 2021 have driven a faster than expected economic recovery that has supported stability and growth in the County's key tax revenues. BIT collections were up 24 percent in fiscal year 2022. Property and motor vehicle rental taxes were up 5.7 and 87.8 percent respectively.

Oregon's constitutional property tax limits (passed by Oregon voters in 1990 and 1997) general limits the growth of property taxes on individual properties to 3 percent a year. Since property taxes make up a significant percentage of general fund revenues (about 60 percent), the property tax limits have the effect of constraining overall revenue growth. This has become a growing concern for Multnomah County as inflationary pressures are driving up labor costs significantly. Personnel costs are the County's biggest expenditure, when these costs grow faster than property tax revenues it creates a "structural deficit" for the County General Fund. Multnomah County is in the process of renegotiating eight labor contracts that will be driving up on-going labor costs. Of the eight labor contracts, six are currently in ratified to tentative agreement status and two remain in an open process. In the latest General Fund forecast, the cost of living adjustment will be above 5 percent in 2023 and 2024.

Beginning in fiscal year 2023, several large urban renewal areas (URA) in the City of Portland will expire, returning assessed value (AV) above their frozen base back into the property tax rolls. In fiscal year 2023 and 2025, two of largest URA's will return to the rolls, in those years AV growth is expected to nearly double. Property tax revenues are expected to grow by about 4.4 percent in fiscal year 2023, driven by higher assessed value, lower compression, and a lower assumed delinquency rate. Motor vehicle rental tax revenues have recovered to pre-pandemic levels in fiscal year 2022 and are expected to grow by 2 percent in fiscal year 2023. BIT revenues are expected to decrease by about 9 percent in fiscal year 2023 as historically high corporate profits cool.

The November 2022 5-year General Fund forecast is projecting a slight \$88 thousand deficit in 2024 turning into a \$3 million surplus in fiscal year 2025. A surplus is projected to remain until fiscal year 2028 when the County's OPERS (Oregon Public Employees Retirement System) transition surplus of about 2 percent rolls off, a deficit is forecasted to be \$9 million in fiscal year 2028. The latest forecast is primarily begin impacted by rising labor costs, inflation, risks of recession and the slowing of historically high corporate profits.

As the local Public Health Authority, Multnomah County has played a leading role in the regional COVID-19 response. Multnomah County has provided (and continues) to provide broad level supports to combat the pandemic and its economic impacts. Services include testing, contact tracing, isolation and quarantine, physical distancing shelters, vaccination, rent assistance, food assistance, business relief, etc. Both the health and economic impacts of COVID-19 have fallen disproportionately on communities of color. The County's COVID-19 response has been culturally-specific and has targeted resources to communities hardest hit by both the virus and the economic contraction. The County provides an equity lens to all policy decisions.

In fiscal year 2022, Multnomah County spent nearly \$158 million on its COVID-19 response. External funding has primarily funded Multnomah County's pandemic response: this included direct federal assistance (e.g. ARPA) and new or enhanced grant funding. Multnomah County received a direct ARPA allocation for \$157.8 million (received over a two-year period, 2021-2022) to be used on COVID-19 related expenditures. The funding has an expiration date of December 31, 2024. ARPA funding has been programmed to be spent out in fiscal year 2023. Below is summary of priority areas used by the County to allocate funding.

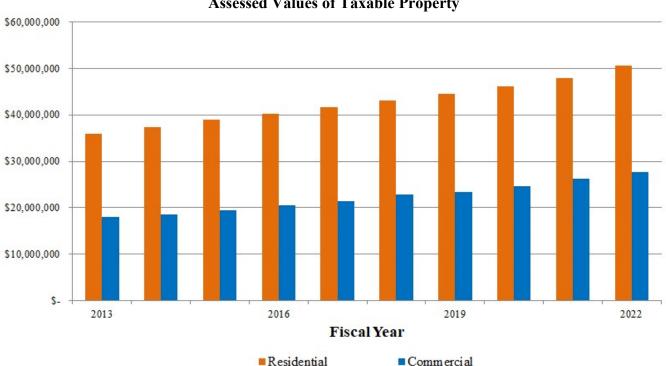

The County will continue to fund certain programs that are supporting the economic recovery beyond the expiration of federal assistance. Uncertainty remains on how those critical programs will be funded as ARPA and other enhanced federal/state funding end.

**General Fund Revenues**: As noted previously, property taxes are the largest single source of revenue in the County's General Fund. Property taxes account for more than 60 percent of General Fund revenues and have seen a consistent, slow increase over the past ten years despite significant increases in real estate values. Property taxes are governed by two state constitutional measures, Measure 5 and Measure 50, which set limits on the amount of tax that can be collected. In fiscal 2022, property taxes collections were up 5.7 percent and the forecasted growth is expected to decrease to about 4.4 percent in fiscal year 2023. Property taxes are sensitive to taxable value growth and compression.

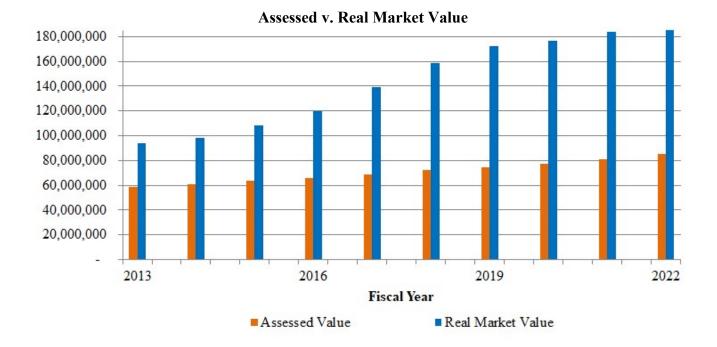

#### ECONOMIC CONDITIONS AND FINANCIAL OUTLOOK

The following charts highlight the County's residential and commercial assessed values (AV) over the past ten years. Residential property has experienced a 40.6 percent increase in AV over a ten-year period compared to a 53.1 percent increase for commercial AV over the same period.

**Assessed Values of Taxable Property** 

The following chart highlights an interesting feature of Oregon's tax system. All new construction is placed on the tax rolls using what is known as a Changed Property Ratio (CPR). The CPR indexes all taxable property values to what they would have been in 1995, the effective year of Measure 50. As an example, a new house that sold in Multnomah County for \$500,000 would have an AV of about \$250,000 which could then only grow by 3 percent annually. A separate CPR is calculated for each class of properties. While the statutory limits on AV growth tend to restrict the growth in tax revenues, applying the CPR ensures that revenues are buffered somewhat during economic downturns.

Business income tax (BIT) is the second largest source of revenue in the General Fund and is set at a rate of 2 percent of net income. In March of 2020, the Board of County Commissioners approved an increase to the tax rate from 1.45 percent to 2 percent beginning with tax year 2020. The last permanent tax rate increase occurred in 1987. Unlike the State of Oregon's corporate income tax, the BIT is assessed against all types of business entities. There are over 100,000 active business income accounts in Multnomah County. Tax collections generally parallel economic cycles. In fiscal year 2022, collections were \$169 million, a 24 percent increase over fiscal year 2022 and the highest level of BIT collections ever received. Since the end of the "great recession" BIT revenues have grown, on average, by 10 percent annually.

The current forecast assumes decline from historic highs for fiscal year 2023, a decrease of 9 percent from fiscal year 2022. The federal economic intervention over the last two years has increased overall incomes boosting increased spending and aggregate demand. US household incomes have seen a boost in wages and available savings. Some of the largest payers of the County's BIT have seen stronger than expected profits coming out of the pandemic. Average tax contributions from the top 10 payers from 2003-2017 tax years was about 11 percent, for tax year 2020 the contributions increased to almost 21 percent. For the same periods, average contributions from the top 100 payers went from 32 percent to 43 percent. Corporate profits have sharply increased since 2020, it is anticipated that may begin to slow in the coming years as labor costs increase, inflationary pressures grow, and consumer demand slows. Current forecast assumes BIT collections will remain flat in fiscal years 2024-2025 and increase at an average growth rate of 5 percent from fiscal years 2026-2028. The County continues to plan conservatively with BIT, as potential recession concerns grow.

The County has taken proactive measures to establish a separate contingency amount in the General Fund to guard against downturns in the BIT. The "BIT Stabilization Reserve" is set at \$13.6 million in fiscal year 2023, which provides an additional 10 percent buffer.

The following chart highlights the volatility of BIT collections over the past eleven years.

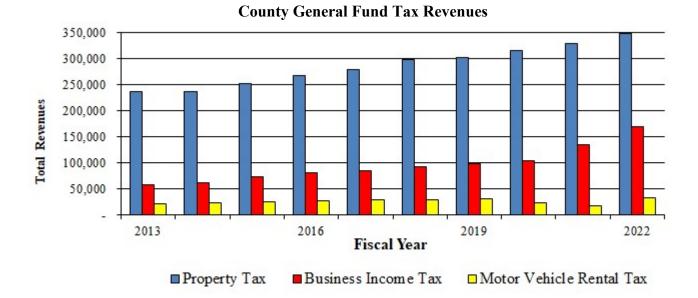

**Annual Business Income Tax Collections** 

Motor vehicle rental taxes (MVRT) account for about 5 percent of General Fund tax revenues. In 2010, the tax rate on vehicle rental charges was increased from 12.5 percent to 17 percent, with the revenue from the 14.5 percent dedicated for use in the General Fund and the remaining 2.5 percent dedicated for use in a Visitors Development Trust Fund. MVRT collections are highly influenced by the economy.

The travel and tourism industry was particularly hard hit by the spread of COVID-19 with global declines in travel, major event cancellations, and hotel closures or reduced capacity. The pace and degree of the downturn was unprecedented, at the peak of the downturn, air travel at the Portland International Airport was down over 90 percent. Travel activity at the Portland International Airport has significantly improved in 2021-2022 as travel became safer. Though PDX domestic deplaned passenger rates remain below pre-pandemic levels a steady improvement has been seen and a return to annual seasonality. This year-over-year change in deplaned passengers at Portland International Airport is highly correlated to MVRT collections. MVRT collections were down 23 percent in fiscal year 2020 and down 28 percent in fiscal year 2021. Collections were driven by improvements in travel industry, growth in recreational and peer-to-peer rentals, and increase to rental car rates. Supply shortages in the car industry has driven rental prices for consumers. Current forecast assumes MVRT collections will increase by 2 percent in fiscal year 2023 and will continue to group slowly over the next 5 years.

MVRT collections over a 10-year period (2013-2022) have grown at an average rate of 9 percent annually, which is reflective of a healthy travel and tourism industry in Multnomah County.

The following graph highlights the major tax sources that make up the County's General Fund.

Historically the State of Oregon provides over 30 percent of the County's total funding. Most of this revenue is recorded in the Federal/State Program Fund. While technically not a General Fund revenue source, the General Fund is used to leverage state support, and the County has used General Fund resources to backfill state funded programs. The State's General Fund is highly dependent upon economically sensitive income taxes. The State does not have a very diverse revenue base – Oregon is one of only five states that do not levy a sales tax – and over 80 percent of State General Fund revenue comes from Personal Income Tax. For the County's fiscal year 2023 and the State's 2021-2023 biennium, funding has been generally stable with continued enhanced State funding to address the economic recovery from the pandemic. The State of Oregon is forecasting their General Fund revenues will see a decrease in the 2023-2025 biennium with or without a recession. Revenues are expected to be around \$3 billion lower than in the current 2021-2023 biennium as growth in corporate profits, investment income returns, and taxable incomes slow.

The State of Oregon implemented Senate Bill 1049 in 2020, which aims to reduce PERS cost growth. The reform re-amortizes Tier One & Tier Two Unfunded Actuarial Liability (UAL) over a 22-year period, redirects a portion of the Individual Account Program (IAP) into an Employee Pension Stability Account (EPSA), limits final average salary for all members to \$195,000 (indexed), and eliminates hour limits and exceptions for work after retirement in calendar years 2020-2024. The changes present short and long financial impacts to the County. The majority of the impacts come from the re-amortization of the UAL and to a lesser extent the IAP redirect by providing short-term rate relief starting in fiscal year 2022. In the long term the re-amortization will result in higher PERS costs as system funding level will be lower than the previous policy. The change will also increase system risk due to longer exposure to the assumed earnings rate. The County continues to evaluate options to counteract the legislation's long-term risks like creating more PERS side accounts with short-term reform savings. The County's outstanding PERS Bond will be fully matured in fiscal year 2030, which will provide significant savings to the County General Fund.

Oregon PERS board voted to reduce the assumed earnings rates from 7.2 percent to 6.9 percent beginning January 2022. The assumed earnings rate represents the rate the Oregon PERS Fund is expected to earn in investment returns over 20 years. The change in assumption moderately impacted County PERS planning as the County had expected a reduction. Multnomah County's reported net pension liability as of June 30, 2022 (measurement date of June 30, 2021) was \$396 million, a \$332 million decrease from reported net pension liability as of June 30, 2021.

In fiscal year 2017, the County Board approved an effort to establish four side accounts with Oregon PERS over a four-year period (\$25 million annually) to mitigate rising PERS rates. In November of 2019, the County established its fourth side account and now has invested over \$100 million into PERS side accounts. These funds are invested by PERS and earn the same rate of return as the overall PERS portfolio. In addition, as established by SB 1049, the County participated in the PERS Employer Incentive Fund (EIF) match program. The PERS EIF provided a 25 percent match on qualifying side accounts made after June 2, 2018. The County received a full match on one side account totaling \$12.5 million. Through the fiscal year 2023 adopted budget, the County Board committed to establishing a fifth PERS side account of \$25 million. The side account will be set up before the end of the calendar year 2022, with the rate offset starting in July 2023. While PERS rates are a significant cost to the County, future PERS rate increases are no longer expected to materially contribute to year-over-year increases to personnel costs.

**Financial and Budget Policies:** The County has established financial and budget policies, which are reviewed and adopted annually by the Board of County Commissioners in connection with the budget process. Some of the goals of the financial policies include:

- Preserving capital through prudent budgeting and financial management,
- Achieving the most productive use of County funds that meets the goals of the Board of County Commissioners,
- Achieving a stable balance between the County's ongoing financial commitments and the continuing revenues available to the County, and
- Leveraging local dollars with Federal and State funding grants.

Consistent application of these financial policies has helped ensure that the County has appropriately recorded and accounted for transactions in its financial statements.

The County's adopted financial and budget policies generally provide for the County to use one-time-only resources for costs that will not recur in future years. However, the policies allow the use of one-time-only resources when, in the short term, it would be more beneficial to allocate such resources to the highest priority public services than to restrict them to non-recurring costs.

In fiscal year 2015, the Board of County Commissioners updated its use of one-time-only resources policy, directing that "after fully funding reserves as established by policy, 50 percent of any remaining one-time-only resources will be allocated to the capitalization, or recapitalization, of major County facilities projects and/or information technology projects." This policy refinement has limited one-time-only funds being used for recurring costs, while addressing long-term facility and information technology costs.

The fiscal year 2023 adopted budget includes approximately \$105.6 million of one-time only General Fund resources after fully funding the General Fund Reserves. The majority of these one-time only funds are used for one-time-only expenses:

|  | Amounts        |        |
|--|----------------|--------|
| Purpose                                      | (in thousands) |        |
| Community Capacity Expansion - Infrastucture | \$             | 5,000  |
| Strategic Capital Investment - JOHS          |                | 15,000 |
| Emergency Shelter Strategic Investment       |                | 12,400 |
| Juvenile Detention Building Improvements     |                | 3,200  |
| COVID-19 Contingency                         |                | 2,000  |
| BIT Stabilization Reserve                    |                | 13,600 |

A complete list of the uses of one-time-only funds can be found on pages 46-49 of the Budget Director's Message in the County's fiscal year 2023 adopted budget. The adopted budget document can be found online at: <u>https://www.multco.us/budget/fy-2023-adopted-budget</u>.

By adopting the financial and budget policies, the Board of County Commissioners acknowledges that, to avoid financial instability, continuing requirements should be insulated from temporary fluctuations. Therefore, one of the goals of the Board of County Commissioners is to fund and maintain a reserve designated as unappropriated fund balance and set at 10 percent of budgeted "corporate" revenues (i.e., property taxes, business income taxes, and motor vehicle rental tax) of the General Fund. The reserve is to be used for periods where revenues experience significant declines or are used for non-recurring extreme emergencies such as disaster relief. Maintaining an appropriate reserve also helps the County achieve favorable bond ratings. Moody's Investor Services currently rates the County as Aaa, and Standard & Poor's recently upgraded the County to AAA, for general obligation debt and for full faith and credit debt indicating that the County's financial capacity to repay its debt obligations is very strong.

For fiscal year 2023, Multnomah County's general fund reserve totals \$53.8 million. The County budgeted additional contingency as part of a multiyear plan to raise the percent set aside as reserve for both the General Fund and BIT Stabilization. For the General Fund, \$5.4 million and \$1.4 million are budgeted in contingency which is enough to increase the General Fund and BIT reserves to 11 percent, respectively, if the Board chooses to allocate this funding as reserves. The goal is to increase both reserves up to 15 percent over a 5-year period to strengthen reserve balances.

**Long-term financial planning:** The County's Chief Financial Officer and Budget Director work closely with the Board of County Commissioners and the Chair's Chief Operating Officer to develop short-term and long-term financial goals and to address the financial stability of the County. The County's Chief Financial Officer and Budget Director also meet with other local jurisdictions to confer on financial issues that either overlap or impact each entity.

**Major initiatives:** The County's overall financial outlook has improved significantly since the end of the "great recession". The regional economy continued to perform well during the pandemic (aided by the federal assistance programs), as evidenced by the fact that receipts from the Business Income Tax reached record highs in fiscal year 2022. As a result of improved economic conditions, the County has been able to focus on and continue longer-term initiatives.

The County has undertaken a number of major capital project initiatives over the past few years. Among those projects are the construction of a new Health Department headquarters. The completed building of approximately 157,000 square feet with nine floors of office, clinic, and laboratory space opened in March of 2019. The modern facility greatly enhanced service delivery for County residents. The total project costs came to approximately \$95 million, which includes new building and relocation costs. The General Fund contributed \$13.4 million, Prosper Portland in the form of a grant provided \$36.4 million and the remaining costs were supported by bond proceeds from a 2017 debt issue.

The County opened a new Central Courthouse in October of 2020. The new building replaces a 100-year-old facility that was structurally obsolete. The new Central Courthouse has 17 floors, 44 courtrooms, and meets all modern standards for court operations and security. The new building has approximately 455,000 square feet of space. The project is estimated to cost slightly above \$350 million when fully closed out. The County partnered with the State of Oregon and many other key stakeholders to complete this project. Under legislation passed in 2013 the State of Oregon will provide \$125 million toward the construction of the project. County General Fund contributed approximately \$110 million and \$90 million in bond proceeds issued in 2017. The 2015 legislature authorized surcharges on court and parking fines that will be used to support between \$25 and \$35 million of the long-term debt associated with the project.

The County made capital improvements to Department of Community Justice East Campus that houses parole and probation services. The project consolidated four separate sites into a single County owned site campus in order to improve operational efficiency, align departmental points of services with their client base, and eliminate exposure to increasing lease rates. The project was substantially complete by the end of fiscal year 2020. The total project cost came to approximately \$14 million. The General Fund contributed \$6.7 million, proceeds from the sale of an asset provided \$1.7 million and the remaining costs were supported by bond proceeds from a 2017 debt issue.

The Burnside Bridge is deemed a lifeline route for emergencies in Portland. The bridge is not up to the current seismic standards and is in need of rehabilitation or replacement to ensure it can serve as a lifeline corridor in an emergency, specifically remain operational in case of a magnitude 9.0 Cascadia Subduction Zone event. The County completed a feasibility study of the bridge in November of 2018 and the results were presented to the County Board. The County established the Earthquake Ready Burnside Bridge Capital Project (EQRB). The Transportation Division completed the environmental phase (National Environmental Policy Act - NEPA) in early fiscal year 2023. In September of 2019, the County issued \$16 million in debt to support the NEPA Phase. The Design and Right-of -Way Phase of the project will begin in fiscal year 2023 and run through fiscal year 2025. In September 2022, the County issued \$25 million in debt to support 30 percent of Design and Right-of-Way project activities. If the County Board approves, construction would begin in fiscal year 2026. The total project is estimated to cost \$898 million. Funding comes from the County's vehicle registration fees (VRF). The project team is evaluating additional funding options for Construction Phase.

In April of 2019, the County purchased the Bushong & Co Building along with adjoining parking lot to be used as a Behavioral Health Resource Center (BHRC). The facility has been programed to provide peer support services, transitional housing for homeless people with behavior health issues, and assisting people with finding housing and treatment services. In May 2021, the County Board approved the construction phase of the project. The total project cost is estimated at \$26 million. The State of Oregon has committed to provide \$10 million in project funding and the remaining balance will be funded through County General Fund. The project is substantially complete and will open on December 5, 2022.

In November 2020, the voters approved two major Multnomah County ballot measures. Measure 26-211 approved a Library General Obligation Bond to expand and modernize certain library facilities and enhance library services across Multnomah County. In January 2021, the County issued general obligations bonds in the amount of \$387 million. The funding will support the following projects:

- Expansions and renovations to seven branch libraries: Albina, Belmont, Holgate, Midland, North Portland, Northwest, and St. Johns
- Building an East County Flagship Library
- Adding high speed internet to all libraries
- Creating a materials handling and distribution center

The projects will significantly increase square footage across the Multnomah County Library System, with a focus on expanding space and services in East County. Capital project activities began in fiscal year 2021 and will continue through project completion in early fiscal year 2026.

Three of the referenced projects use a significant portion of the County's debt capacity (as measured by its internal General Fund restrictions) for the next several years. In 2016, in recognition of this fact and in response to an internal audit report, the County initiated a Strategic Capital Planning process to identify and prioritize future infrastructure investments. The planning process is an acknowledgment that the County should engage in a centralized planning effort that includes not only facilities capital projects but transportation (roads and bridges) and information technology projects as well. A steering committee comprised of the Chief Operating Officer, Chief Financial Officer, Budget Director, and department heads responsible for infrastructure planning was established and a 20-year strategic framework has been adopted by the Board of County Commissioners. For a complete list of fiscal year 2023 budgeted County capital projects, refer to the adopted capital budget (tab 9, pages 1-46) in the County's adopted budget document, found at: https://www.multco.us/budget/fy-2023-adopted-budget.

The voters also approved ballot measure 26-214 Preschool for All Program that established a new and permanent personal income tax within Multnomah County to fund universal, tuition free, voluntary, and high quality preschool education for every three and four year old residing within Multnomah County. Beginning in tax year 2021, a tax of 1.5 percent was imposed on residents and non-resident earning taxable income within Multnomah County. The tax rate is applied on taxable income over \$125,000 for single filers and \$200,000 for joint filers. There is an additional tax of 1.5 percent on taxable income over \$250,000 for single filers and \$400,000 for joint filers. The Preschool for All Program will grow over time, increasing the number of children and families that it serves each year. Families were able to start applying for slots in April 2022 and the first group of preschoolers began in September of 2022. Tax collections totaled \$187 million in fiscal year 2022. The Preschool for All Program maintains a 15 percent reserve to buffer against economic downturns and 10 percent contingency for one-time only unanticipated emergency program expenditures.

In May 2020, Metro district area voters approved the Supportive Housing Services Measure (SHSM), which established a new personal income tax and business income tax to fund supportive housing services for people experiencing homelessness or at risk of experiencing homelessness. The new tax began in January 2021. The fiscal year 2023 budget includes funding for over 1,500 supportive housing units, representing 65 percent of the Local Implementation Plan (LIP) goal of 2,235 units. Tax collections distributed to Multnomah County from Metro totaled \$97 million in fiscal year 2022 (accrual basis).

The County is continuing to use sound financial planning practices and financial policies to ensure existing and future fiscal challenges are met while maintaining fiscal stability. Though the current economic conditions remain stable, inflationary pressures, labor cost increases, rising interest rates, and growing consumer pessimism are raising concerns of a possible recession in the coming years. The County continues to prioritize responding to health and economic impacts of the pandemic, providing health services (testing and vaccination), client assistance, rental assistance, homeless services, and other key essential services. The County will establish a fifth PERS side account in fiscal year 2023 and raise restricted reserve level to 11 percent for both the general fund and business income tax stabilization fund.

**Awards:** The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its annual comprehensive financial report (ACFR) for the year ended June 30, 2021. The County has received this prestigious award for 37 consecutive years. In order to be awarded a Certificate of Achievement, the County published an easily readable and efficiently organized ACFR. This report satisfied both US GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements: The preparation of this report would not have been possible without the efficient and dedicated services of the employees in the Department of County Management who maintained the County's financial records and assisted in the preparation of this report. Special thanks are extended to the General Ledger Staff who were instrumental in preparing this report. Appreciation is also extended to the Chair of the Board, Board of County Commissioners, Department Directors, and other County personnel for their assistance and support in planning and conducting the financial operations of the County in a prudent manner.

Respectfully Submitted,

# **Report of Independent Auditors**

The Board of Commissioners Multnomah County, Oregon

#### **Report on the Audit of the Financial Statements**

#### Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, the aggregate remaining fund information, and the respective budgetary comparisons for the General Fund, the Federal/State Program Fund, the Coronavirus (COVID-19) Response Fund, and the Preschool for All Program Fund of Multnomah County, Oregon (Multnomah County) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Multnomah County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Multnomah County as of June 30, 2022, and the respective changes in financial position, budgetary comparisons for the General Fund, the Federal/State Program Fund, the Coronavirus (COVID-19) Response Fund, and the Preschool for All Program Fund and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of The Library Foundation, a discretely presented component unit, which represents 100% of the assets, net position, and revenues of the discretely presented component unit of Multnomah County. Those financial statements were audited by other auditors, whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for The Library Foundation, is based solely on the report of the other auditors.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (*Government Auditing Standards*), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Multnomah County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of The Library Foundation were not audited in accordance with *Government Auditing Standards*.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Multnomah County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Multnomah County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Multnomah County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Multnomah County's basic financial statements. The combining and individual fund statements and schedules as listed in the table of contents and the schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2022 on our consideration of Multnomah County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Multnomah County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Multnomah County's internal control over financial reporting and compliance.

#### Other Reporting Required by Minimum Standards for Audits of Oregon Municipal Corporations

In accordance with the *Minimum Standards for Audits of Oregon Municipal Corporations*, we have also issued our report dated December 2, 2022, on our consideration of Multnomah County's compliance with certain provisions of laws, regulations, contracts, and grant agreements, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0330 of the *Minimum Standards for Audits of Oregon Municipal Corporations*. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

Ashley Osten

Ashley Osten, Partner, for Moss Adams LLP Portland, Oregon December 2, 2022

As management of Multnomah County, Oregon, we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2022. The information presented here should be read in conjunction with the letter of transmittal, which can be found on pages 1-18 of this report.

## Financial Highlights

• Multnomah County's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at June 30, 2022, by \$1,321,278 (*the County's net position*). Of this total, the following amounts are restricted:

| Library operations                          | \$<br>71,969 |
|---|--------------|
| Capital projects, buildings                 | 6,108        |
| Various community support programs          | 237,269      |
| Roads, bridges, and bike paths improvements | 32,167       |
| Document storage and retrieval              | 200          |
| Debt service                                | 1,033        |

The largest portion of the County's net position reflects an investment of \$1,154,809 or 87.4 percent in capital assets, net of any related outstanding debt and unspent bond proceeds used to acquire those assets. The high percentage of investment in capital assets, in relation to total net position, is largely a result of the offsetting deficit of \$182,277 (*the County's unrestricted net position*). This deficit is primarily due to the net effect of pension related balances of \$467,023 and other post-employment benefit (OPEB) related balances of \$116,199 discussed in detail below. The amortization of deferred inflows and outflows will have a more significant effect on the variance of the net position once a full five-year amortization of these amounts is included in the financial statements.

• For fiscal year 2022, the County reported \$396,720 for it's proportionate share of the Oregon Public Employee Retirement System's (OPERS) net pension liability, pension related deferred outflows of resources of \$242,340, and pension related deferred inflows of resources of \$312,643. A net pension liability of \$728,099 was reported in the previous fiscal year ending June 30, 2021. Total pension expense for the fiscal year ending June 30, 2022 was a negative \$6,833 and for the previous fiscal year ending June 30, 2021, \$128,458, which is a net decrease of 105.3 percent.

- For fiscal year ended June 30, 2022 the County reported other postemployment benefits (OPEB): a net asset of \$8,991 attributable to the OPERS Retirement Health Insurance Account (RHIA) and a total OPEB liability of \$123,162 associated with the Multnomah County Postretirement Medical and Life Insurance Plan. OPEB related deferred outflows of resources \$24,061 and OPEB related deferred inflows of resources of \$26,089 were also reported.
- Total non-depreciating capital assets (land, right-of-ways, construction in process) increased \$55,379 or by 16.9 percent over the prior year. Total depreciating capital assets decreased by \$31,347 or 3 percent from the prior fiscal year. Capital assets for governmental activities increased by \$22,422 or 1.7 percent over the prior year, of which is primarily due to changes in construction in progress. Current year additions to construction in process for major projects are described in the Capital Assets section.
- As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$1,075,426. The net change in governmental fund balances during the year was an increase of \$271,194 or 33.7 percent over fiscal year 2021, which is primarily due to the Preschool for All Program Special Revenue Fund (PFA). PFA fund balance increased by \$168,925 from the prior year.
- Fiscal year ending June 30, 2022 was the first year of the Preschool for All Program (PFA) personal income taxes. At the State level, capital gains almost doubled which is a major reason why revenues exceed forecasted estimates, \$187,112 PFA personal income taxes were collected.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$206,783, or approximately 37.9 percent of total General Fund expenditures and 37.5 percent of total "corporate" revenues of General Fund. Corporate revenues include property taxes, business income taxes, motor vehicle rental taxes, statewide revenue sharing, and interest earnings; revenues that are available for general use and over which the Board of County Commissioners has complete discretion. This balance is consistent with the County's finance and budget policies requiring a 10 percent General Fund reserve. The significant increase in the unassigned fund balance is primarily the result of better than expected business income tax collections and an increase in departmental General Fund underspend cause by increased FTE (full time employee) vacancy rates. In fiscal year 2022, business income tax collections were up 24.3 percent. Prior to fiscal year 2022, the 10-year average growth in business income tax collections were slightly above 11 percent.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to Multnomah County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements**: The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the County's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, health and social services, public safety and justice, community services, libraries, and roads, bridges and bike path improvements. The business-type activities of the County include sanitary sewer and street lighting districts, a behavioral health managed care operation, and a new fund to account and report for Federally Qualified Health Center activities.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also the legally separate library district, legally separate sanitary sewer district and a legally separate street lighting district, for which the County is financially accountable. The statements also include a legally separate, tax-exempt foundation whose purpose is to support the County's libraries through raising, receiving, administering and disbursing funds, grants, bequests and gifts for the benefit of the County libraries. Financial information for the three *blended component units* are each presented as separate funds with separately issued financial statements. The *discretely presented component unit* is reported separately from the financial information presented for the County itself.

The government-wide financial statements can be found on pages 49-51 of this report.

**Fund financial statements**: A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both Balance Sheet - Governmental Funds and the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains 36 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, the Federal/State Program Fund, the Coronavirus (COVID-19) Response Fund, the Preschool for All Program Fund, and the Multnomah County Library Capital Construction Fund, which are considered to be major governmental funds. Data from the remaining governmental funds (non-major governmental funds) are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual appropriated budget for all funds. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

The basic governmental fund financial statements and respective reconciliations can be found on pages 49-57 of this report.

**Proprietary funds:** The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its community health centers, sewer and lighting operations, and for behavioral health managed care services. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its risk management activities, fleet operations, telephone and data processing systems, mail distribution, and facilities management operations. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the community health centers, and aggregated information for the sewer district, lighting district, and the behavioral health fund. The internal service funds are also combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for each of the nomajor proprietary and internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 62-66 of this report.

*Fiduciary funds:* Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are *not* available to support County programs. The accounting used for fiduciary funds is similar to that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 67-68 of this report. The combining statement of position for fiduciary funds and combining statement of changes in fiduciary net position can be found on pages 228-231 of this report.

**Notes to the financial statements:** The notes provide additional information that is essential to a full understanding of the financial data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 69 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found beginning on page 147 of this report.

**Required Supplementary Information (RSI):** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the County's progress in funding its pension obligations and other postemployment healthcare benefits obligations. Required supplementary information can be found on pages 154-158.

### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of the County's financial condition. The County's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$1,321,278 at the close of the most recent fiscal year.

| Total net position               | \$ 1,320,671 | \$ 899,541        | \$<br>607        | \$               | 12,651 | \$ 1,321,278 | \$ 912,192   |

The largest portion of the County's net position reflects investment in capital assets (land, work construction in progress, buildings, improvements, machinery and equipment, bridges and infrastructure), net of accumulated depreciation, and the outstanding debt used to acquire the assets in the amount of \$1,154,809 as compared to \$1,081,163 from the previous year.

The County uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The County's restricted net position for capital projects, debt service, and various community support programs is \$348,746 as compared to \$538,098 a year ago. This decrease is primarily due to the capitalization of construction in progress which moves fund balance from restricted to net investment in capital assets. Community support programs increased to \$237,269 as a result of the Preschool for All (PFA) and Metro Supportive Housing Services (MSHS) program funds. Tax receipts for both programs started in tax year 2021, tax receipts totaled \$187,112 for PFA and \$97,839 for MSHS. Both programs were ramping up in fiscal year 2022. Restricted net position represents resources that are subject to external restrictions on how they may be used.

The remaining balance of unrestricted net position is a net deficit of \$182,277 due to the net effect of pension and other postemployment benefits (OPEB) related balances on the *Statement of Net Position*, \$467,023 and \$116,199 respectively. Below is a summary of the County's changes in net position for fiscal years 2022 and 2021.

|   | Governmental<br>Activities |            |            | ss-Type<br>vities | То           | tal        |

#### Multnomah County's Change in Net Position

**Governmental activities**. Governmental activities increased the County's net position by \$421,130; listed are noteworthy reasons for the change from prior year:

Total program revenues increased \$40,384 or 3.8 percent from the prior year:

- Operating grants and contributions had the largest increase of \$120,215 or 15.9 percent, from the prior year:
  - This increase is primarily related to the increase in social services of \$139,989, which was 26.6 percent over the prior year. The new Metro Supportive House Services (MSHS) business income and personal income tax was approved by voters in 2020 and became effective January 1, 2021. Metro provided \$97,839 MSHS intergovernmental revenues for housing services which are reported in the Supportive Housing Fund. The eXPRS program, which is a significant part of the Developmental Disability Program, has increased \$24,543 from the prior year. The COVID-19 Federal Emergency Rental Assistance Programs increased \$24,169.
  - Roads, bridges and bike path improvements also increased by \$10,279 or 17.4 percent, which came from grants to cover capital projects for the Morrison Bridge and the 238th drive enhancement. In the previous fiscal year, the Morrison Bridge project was mainly in the design phase. During fiscal year ending June 30, 2022 this project moved to the construction phase which increased costs significantly; this resulted in more funding to cover costs.
  - These increases were offset by the decrease in health services of \$25,574 or 23.7 percent. This decrease is largely due to the transfer of the Integrated Clinical Services program from governmental activities to business-type activities, and is now reported in the new Health Department FQHC Fund.
- Total fines, fees and charges for services revenue decreased \$80,922 or 27.1 percent from the prior year.
  - Health services had the most significant decrease of \$99,713 or 87.9 percent due to the transfer of the integrated clinical services program from governmental activities to business-type activities, and is now reported in the new Health Department FQHC Fund.
  - Roads, bridges and bike path improvements had an increase in fines, fees and charges of \$12,483 or 53.1 percent. The increase in the vehicle registration fee was in full force during fiscal year ending June 30, 2022, while the increase was only in effect for half of fiscal year ending June 30, 2021.

Tax revenues grew by \$329,666 or 55.2 percent in the aggregate from fiscal year 2021, largely due to the increased collections of property taxes, business income taxes, and a new personal income tax. The overall increase in tax revenues is a reflection of the region's improving economy.

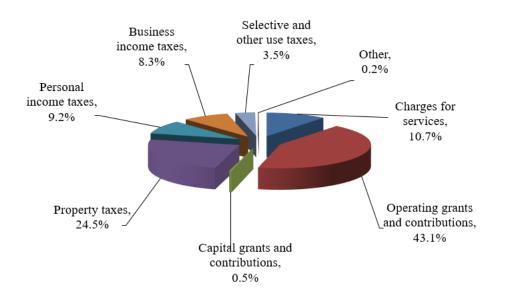

The new Multnomah County Preschool for All (PFA) tax was approved by the voters in 2020 and became effective January 1, 2021. The PFA personal income tax is 1.5 percent on taxable income above \$125 for individual filers and \$200 for those filing jointly, and an additional 1.5 percent on taxable income over \$250 for individuals and \$200 for those filing jointly. During the fiscal year ended June 30, 2022, \$187,113 of personal income taxes were collected.

Also attributing to the increase in tax revenues are property tax revenues, which were up by 78,531 or 18.6 percent as a result of increased assessed value growth of 5.1 percent, lower delinquency rates, and reduced Measure 50 compression. Measure 5 and 50 helps maintain steady growth in property tax collections.

- Business income taxes (BIT) increased by \$33,058 or 24.3 percent. BIT collections had one of the largest year-over-year increases in the last three decades. The increase is due to a record level of corporate profits as economic disruptions from the pandemic continue to unwind.
- Other selective excise and use taxes increased significantly, by \$30,964 or 79 percent. Other selective excise and use taxes include transient lodging taxes (TLT), motor vehicle rental taxes (MVRT), county gasoline taxes, and heavy equipment rental taxes. TLT increased \$12,704, or 98.7 percent over last year. Travel and tourism has been hit hard by the pandemic and though TLT taxes are starting to rebound, they are not at pre-pandemic levels. MVRT increased \$17,849 or 87.8 percent over last year. This increase is due to the substantial drop during the pandemic, and MVRT appears to be recovered to pre-pandemic levels.

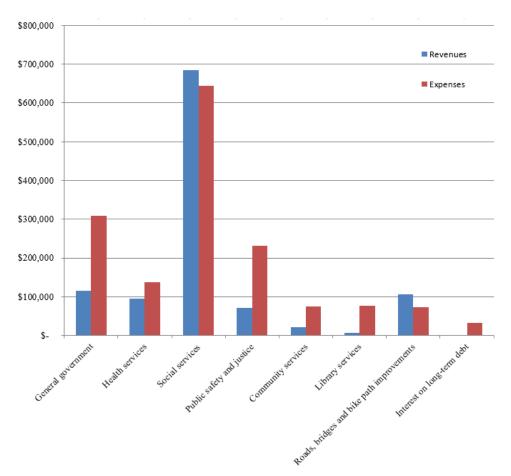

Interest and investment earnings decreased \$39,633, from the prior fiscal year. This is attributed to a low interest rate environment in early fiscal year 2021 and fast pace increase to rates in the latter half of fiscal year 2022. The one year US Treasury was 0.4 percent on January 3, 2022 and 2.8 percent on June 30, 2022. The County's largest source of cash assets are received during property tax season in November resulting in many investments begin made during a low interest rate market. The Library Bond proceeds were also invested in low interest rate market. The Federal Reserve started aggressively raising interest rates in the latter part of fiscal year ending June 30, 2022 to reduce the pace of inflation. The Federal Reserve has increased rates on four occasions and signaled it will continue to increase rates in the remainder of 2022 to achieve price stability. The decrease in interest and investment earnings is a result of unrealized losses from market rate fluctuations rather than actual realized losses. As a general best practice, the County holds investments to maturity and does not sell investments at losses. During fiscal year 2022, the County did not sell an investment at a loss.

The following graphs show the County's Governmental Activities revenues by source and expenses by program area. The unrealized loss for interest and investments are excluded from these graphs.

#### **Revenues by Source - Governmental Activities**

**Business-type activities.** Business-type activities decreased the County's net position by \$12,044, which is attributed to decreases in net position of \$10,886 in the Health Department FQHC Fund, \$1,530 decrease in the Behavioral Health Managed Care Fund.

The Health Department FQHC Fund, a new fund during fiscal year ending June 30, 2022, was created to segregate the activities for Federally Qualified Health Centers (FQHC). This fund had revenues of \$164,268 and expenses of \$184,359. Balances for the activities that were previously reported in the General fund and the Federal/State Program Fund, \$8,206 and \$999 respectively, were transferred into this new fund in order to capture all activities related to FQHC within this fund. The Health Department FQHC Fund reported a negative net position of \$10,885.

Operating revenues decreased in the Behavioral Health Managed Care Fund, a nonmajor enterprise fund, by \$6,794 and expenses decreased by \$443. These decreases were due to a transition in the program associated with Health Share Oregon (HSO). Beginning January 1, 2020, the Health Department was no longer operating as the Multnomah Mental Health (MMH) Risk-Accepting Entity as part of HSO.

#### Financial Analysis of the Government's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds:** The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Other restricted resources include grant programs, improvements to roads or bike paths, various community support or future debt service. The remainder of fund balance is either *committed* for resources constrained on use by the Board of County Commissioners via a County Ordinance or Board resolution or is *nonspendable* to indicate that it is not available for discretionary spending because it has already been dedicated to prepaid items and inventories. Additional information on the County's fund balances can be found in *Note III.H. Fund balances, governmental funds* of this report.

**The General Fund** is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance was \$206,783 in the General Fund or approximately 97.2 percent of the total fund balance of \$212,826. As a measure of the General Fund's liquidity, it may be useful to compare fund balance to total General Fund expenditures of \$546,271. Unassigned fund balance of the General Fund represents 37.9 percent of total General Fund expenditures. This significant increase is attributed to stronger than expected business income tax collections in fiscal year 2022, a 24.3 percent increase. The increase is also attributed to larger than expected departmental General Fund under spending (in certain areas) in fiscal year 2022, primarily the result of increased permanent staff vacancy rates. The local and national economic outlook has improved significantly since the pandemic emergency.

The fund balance of the County's General Fund increased by \$34,675 or 19.5 percent from the prior fiscal year, reflecting revenues that were \$35,451 or 19.5 percent less than the prior year, and expenditures that were \$29,147 or 5.1 percent less than the prior year. Tax revenues increased by \$66,756 or by 13.8 percent. Charges for services decreased by \$54,941 or 76.4 percent due to the transfer of activities to the new Health Department FQHC Enterprise Fund.

**The Federal/State Program Special Revenue Fund** has a total fund balance of \$8,113, of which only \$29 is nonspendable due to balances reported for prepaid items. The restricted balance of \$8,084 includes grants and other amounts received in advance that are restricted to specific purposes by external parties. In general, federal revenues are closely matched with federal expenditures. The fund balance of the Federal/State Program Fund decreased \$3,289.

Intergovernmental revenues increased by \$22,576 or 4.4 percent, which is attributed to the increased revenues of \$24,543 for the eXPRS program, a significant part of the Developmental Disability Program.

The most significant decrease in revenues was for charges for services of \$54,926 or 91.4 percent. Expenditures for health services decreased by \$67,040 or 43.2 percent. Both the revenues and expenditures decreased due to the transfer of activities from the Federal/State Program Fund to the new Health Department FQHC Enterprise Fund. Expenditures for social services increased by \$24,543 for state payments to County service providers; other expenditure increases were among various other programs.

Expenditures for social services increased by \$40,290 or 10.6 percent over the prior fiscal year, which was attributed to the eXPRS program and the COVID-19 Federal Emergency Rental Assistance Programs, for \$24,543 and \$24,169 respectively.

The Coronavirus (COVID-19) Response Special Revenue Fund has a total fund balance of \$441 at the end of fiscal year June 30, 2022 and as in the previous year, federal revenues closely matched with federal expenditures, resulting in little remaining fund balance. The most significant revenues are intergovernmental for \$157,798, which only slightly increased from the prior year. The County received over \$150 million in external funding for its COVID-19 response, of which over \$60 millions was American Rescue Plan Act funding (spent in fiscal year 2022). The County's COVID-19 response has been broad but has focused in a few areas: isolation and quarantine, contact tracing, vaccination, non-congregate sheltering for the houseless, rent assistance, other client assistance, emergency response and other services aimed at stopping the spread of the virus and supporting residents economically impacted by the pandemic. The County's Health Department received emergency rental assistance funding of \$43 million for housing stability and eviction prevention.

**The Preschool for All Program Fund**, has a total fund balance of \$169,115 at the end of fiscal year June 30, 2022, which is an increase of \$168,925 from the prior year. This is attributed to new Multnomah County Preschool for All tax revenues of \$187,112 approved in 2020 by voters, tax receipts for 2021 were primarily collected in Mach-April 2022. Per internal board policy the fund maintains a restricted reserve of 15 percent to guard against economic downturns and a 10 percent contingency for one-time only unanticipated emergency program expenditures.

This fund had community services expenses of \$15,576. This program is operational and will continue to add new facilities in the coming year. Families were able to apply for slots in April 2022 and the first groups of preschoolers began in September 2022.

**The Multnomah County Library Capital Construction Project Fund,** a capital project fund, has a total fund balance of \$409,570, which is a reduction of \$26,638 or 6.1 percent from the prior year. This is due to current year expenditures of \$27,850 offset slightly by interest earnings.

**Proprietary funds:** The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. During fiscal year ending June 30, 2022, a new enterprise fund, the Health Department FQHC fund was created and is reported as a major fund. This fund accounts for revenues and expenditures for the County's Community Health Center Program. The Community Health Centers are community based, patient governed organizations that provide comprehensive primary care and preventative care, including health, oral health, and mental health/substances abuse services. The primary source of revenue is the Consolidated Health Centers 330 grant, medical fees (e.g. Medicaid and Medicare), third party reimbursements, and other State and local program income. All program income is restricted to uses that further the objectives of the Community Health Center.

The Health Department FQHC fund reported a negative unrestricted net position of \$12,795, investment in capital assets of \$1,910, for a total negative net position of \$10,885.

The total change in net position for all proprietary funds was a decrease of \$12,042. Other factors concerning the finances of these funds has been addressed in the discussion of the County's business-type activities.

### **General Fund Budgetary Highlights**

The adjustments necessary to bring the expenditure budget into agreement with the revised revenue budget account for some of the differences between the original General Fund budget and the final adopted budget. Final budgeted revenues decreased by \$51,315 and final budgeted expenditures decreased by \$38,403 from the adopted budget.

The following are noteworthy changes from the original adopted budget to the final budget in the General Fund:

- Charges for services revenue decreased from the original budget by \$50,831, which is primarily due to the transfer of budgeted funds from the General Fund to the new Health Department FQHC Enterprise Fund. This was approved by the Board of County Commissioners in September, 2021.
- Final budgeted expenditures for Health services decreased by \$58,831, which is primarily due to the transfer of budgeted funds from the General Fund to the new Health Department FQHC Enterprise Fund. This was approved by the Board of County Commissioners in September, 2021.

- Final budgeted expenditures for Homeless services increased by \$16,862, which appropriated funding for the Joint Office of Homeless Services for midyear emergency investments.
- Final budgeted expenditures for Nondepartmental increased by \$15,421. Most of this is attributed to an increase of \$14,795 in the final budget for the mid-year re-balance of increased business income taxes.
- Contingency modifications accounted for increases in budgeted expenditures that not were not anticipated at the time the budget was adopted and/or were not accompanied by increased revenues. Contingency may be used only when approved by the Board for a specific purpose and department. There was no effect on the ending General Fund budgetary fund balance as a result of these budget amendments. Contingency was reduced by \$13,446 from the original to the final budget and was primarily attributed to:
  - A contingency modification of \$13,700 was approved for appropriations related to construction activities that are reported in the Behavioral Health Resource Center Capital Fund.
  - Two contingency modifications totaling \$16,763 were approved for midyear emergency investments in the Joint Office of Homeless Services.
  - These were offset by a contingency modification to increase Business Income Tax resources for \$30,389; which in turn resulted in contingency modifications totaling \$13,126 to increase appropriations for activities for non departmental activities, the Health Department, and the Sheriff's Office.

The following are noteworthy variances from the final budget to actual amounts in the General Fund revenues:

- Business income tax (BIT) revenues were budgeted at \$118,195 and actual BIT collections were \$169,300 in fiscal year 2022. The variance was \$51,105 or 43.2 percent more than budgeted. BIT collections had one of the largest year-over-year increases in the last three decades. The increase is due to a record level of corporate profits as economic disruptions from the pandemic continue to unwind.
- Revenues from Motor Vehicle Registration Tax (MVRT) fees were budgeted at \$25,000 and actual MVR collections were \$32,560 during the fiscal year. This was 30.2 percent or \$7,560 more than expected. During the fiscal year, MVRT taxes recovered from the pandemic lows. This is due to an increase in travelers deplaning at PDX, as well as an increase in rental car costs due to supply chain disruptions and rental car shortages.

The following are noteworthy variances from the final budget to actual amounts in the General Fund expenditures:

- Actual expenditures for the Joint Office of Homeless Services (JOHS) were under budget by \$16,304 or 39.8 percent. Though JOHS began receiving funding from the new Metro Supportive Housing Services (MSHS) personal income tax, the fiscal year ended June 30, 2022 was a ramp-up year for that funding, with new capital projects (shelters) and adding new providers.
- Actual Health Department expenditures were \$13,334 or 11.6 percent less than budgeted. This was due to a reduction in personnel services. It was more difficult than expected, to recruit and fill new positions and the types of positions needed continued to evolve. Recruiting vacancies was and continues to be especially challenging for healthcare related positions. There is a nationwide shortage of nurses, doctors, dentists, hygienists, etc. Programs within the Health Department that experienced this scenario significantly include: Organizational Development, Behavioral Health, Public Health, Corrections Health, and Integrated Clinical Services.
- Actual Department of Community Justice (DCJ) expenditures were \$8,333 or 10.6 percent less than budgeted, most of which were due to reduced expenditures for personnel and contract services. Not only did DCJ continue to struggle to fill vacancies in a tight job market, but service providers also had difficulty filling positions and providing services due to stagnant job markets and the nature of the jobs. For example, staff working in residential housing environments which are subject to COVID outbreaks making it difficult to find people to work in certain settings with the population that DCJ serves.

### **Capital Assets and Debt Administration**

**Capital assets**. The County's investment in capital assets for its governmental and business-type activities as of June 30, 2022, amounts to \$1,386,888 (net of accumulated depreciation). This investment in capital assets includes land, right of ways, construction in progress, buildings and improvements, machinery and equipment, internally developed software, roads and bridges, sewer and street lighting systems, motor vehicles, and works of art. The total overall change in the County's investment in capital assets for the current fiscal year was an increase of \$24,032 or approximately 1.8 percent.

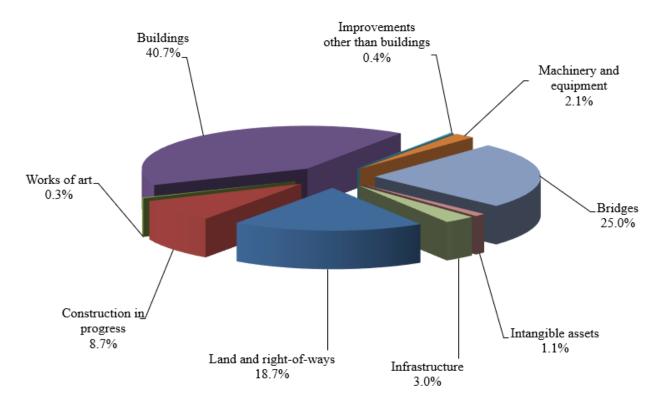

The increase in capital assets is primarily attributable to the increase of \$50,538 in construction in progress, which is offset by the decrease for annual depreciation. Various projects are underway, most notable is the renovation of the Behavioral Health Resource Center. Other larger projects include the Morrison bridge painting project, construction of various projects for the library, and enhancements to 238th drive.

(net of depreciation, where applicable)

The following chart indicates the County's capital assets as of June 30, 2022. Additional information on the County's capital assets can be found in *Note III.F. Capital assets* of this report.

**Total Capital Assets, Net of Depreciation** 

**Long-term debt**. At the end of the current fiscal year, the County had total debt outstanding of \$676,185. Of this amount, \$387,440 represents in general obligation bonds; \$286,086 in full faith and credit bonds; and \$2,658 in loan obligations. Full faith and credit bonds are obligations that pledge the full faith and credit of the County. Only governmental activities held long-term debt during fiscal year 2022.

#### Multnomah County's Outstanding Debt

|                             |            | nmental<br>vities |
|-----------------------------|------------|-------------------|
|                             | 2022       | 2021              |
| Full faith and credit bonds | \$ 286,087 | \$ 311,700        |
| General obligation bonds    | 387,440    | 431,386           |
| Loans                       | 2,658      | 2,914             |
| Line of credit              | -          | 2,730             |
| Total outstanding debt      | \$ 676,185 | \$ 748,730        |

The County's total debt decreased by \$72,545 or approximately 9.7 percent during the current fiscal year. The net decrease is attributable to principal payments made on prior bonds issues and the payoff of the non-revolving credit facility (referred to as the line of credit).

The County maintains an Aaa rating with a stable outlook from Moody's for general obligation debt and full faith and credit bonds. Similarly, Standard & Poor's rated the County's both general obligation and full faith and credit bonds as AAA.

State statutes limit the amount of general obligation debt a governmental entity may issue to two percent of the real market value of all taxable property within the government's boundaries. The current debt limitation for the County for general obligation debt is \$3,535,109, which is in excess of the County's outstanding general obligation debt.

State statutes also limit the amount of full faith and credit obligations to one percent of the real market value of all taxable property within the government's boundaries. The current debt limitation for the County for full faith and credit obligations is \$1,704,679 which is in excess of the County's outstanding full faith and credit debt. In addition, the County maintains an internal board policy that limits General Fund supported full faith and credit annual debt payments to no more than 5 percent of budgeted corporate General Fund revenues. This limit is much more restrictive than provided in statute. In fiscal year 2023, the County is estimated to use about 46 percent of internal policy debt limit.

Additional information on the County's long-term liabilities can be found in *Note III.G. Long-term debt* of this report.

#### Key Economic Factors and Budget Information for Next Year

The unemployment rate for the Portland-Vancouver-Beaverton PMSA (Primary Metropolitan Statistical Area) at the close of the fiscal year had decreased to 3.5 percent. The unemployment rate was similar for the United States and the State of Oregon with 3.6 and 3.5 percent, respectively. This is a significant decrease from 2020, when the unemployment rate exceeded 11 percent, and from 2021, when unemployment exceeded 5 percent.

Property tax revenues are the single largest source of revenue in the General Fund and account for approximately 55.9 percent of ongoing revenues. General Fund growth is particularly sensitive to taxable value growth and compression. Property tax revenues are limited by state statute. Assessed value can generally not grow by more than 3 percent, although new construction can increase value growth above this limit. Property tax revenue is forecast to grow by 4.4 percent in 2023.

The forecast for fiscal year 2023, assumes the economy will remain stable but growing inflationary pressures in the economy will most likely slow the economy in 2024. Business income tax (BIT) collections totaled \$169,300 in fiscal year 2022, the highest annual level of collections ever recorded. This is attributed to federal assistance that stabilized the economy, strong profits from the largest payers, and businesses preferring to realize larger profits now anticipating future increases to corporate tax rates. The County is forecasting BIT collections to decrease by 9 percent in fiscal year 2023, remain flat in 2024 through 2025 before seeing an average growth of 5 percent from 2026 though 2028. The BIT is highly sensitive to economic conditions and has historically been a volatile revenue source. The fiscal year 2023 budget includes a reserve equal to 10 percent of budgeted BIT revenues to guard against year over year volatility.

Health care transformation and the expansion of Medicaid continue to drive growth in the County's Health Department. The County is a founding member of Health Share, a Coordinated Care Organization (CCO) that establishes rates paid to support Medicaid programs throughout Oregon.

The County's primary cost drivers are, like most governmental organizations, related to personnel. Expenditures for employee salaries are forecast to grow by slightly more than 5 percent in fiscal year 2023. Wages are established in labor contracts and wage growth is based on the change in the consumer price index (CPI). The CPI is a reflection of the strength of the regional economy. Inflation remains a concern as supply chain issues have caused supply shortages and the labor markets have tightened with employers struggling to fill vacancies. The forecast assumes inflation will continue to grow in the near term before returning to normal levels in the long run.

The County has taken a conservative approach to its pension liability and has taken proactive steps to limit rate increases established by the Oregon Public Employees Retirement System (OPERS). Accumulated reserves have been used to fund four "side accounts" totaling \$100,000 with OPERS. When fully amortized, these side accounts will reduce the OPERS rate by an estimated three percent of payroll and will help the County mitigate future rate increases. During fiscal year 2020, the County participated in the OPERS Employer Incentive Fund match program created by Senate Bill 1049. The County received a match on one side account totaling \$6,250. In January 2021, the Oregon PERS Board reduced the assumed earnings rate from 7.2 percent to 6.9 percent, though impactful the change was not unexpected.

In recent years, the County has been able to tackle some long-term capital needs. Construction on a new Behavioral Health Resource Center (BHRC) began in the summer of 2021 and will open during fiscal year 2023. The enhanced facility will provide transitional housing for homeless individuals with behavioral health issues and assist them in finding housing and treatment services. In January 2021, the County issued general obligation bonds totaling \$387 million to finance capital costs to expand, modernize, rebuild, and acquire land for library facilities. The library project is set to be completed in fiscal year 2026. The County is currently in the process of refining the Earthquake Ready Burnside Bridge Project scope, but is in the design and right of way phase. The project will be primarily funded with vehicle registration fees and other external funding. The total estimated cost for the project is above \$898 million (costs through construction phase). Assuming the project moves to the construction phase, construction would begin in fiscal year 2027. When completed these projects will add significantly to the County's asset base and reduce the amount of deferred capital maintenance.

The American Rescue Plan Act of 2021 (ARPA) was signed into law on March 11, 2021, and provided \$350 billion in additional funding for state and local governments navigating the impacts of the COVID-19 outbreak. Funds were distributed by the U.S. Treasury to states and eligible local governments and are to be used to cover COVID-19 related expenses and negative economic impacts from the pandemic. Multnomah County received a total direct allocation of \$157.8 million. Funding was provided to Multnomah County in two tranches: 50 percent or \$78.9 million received in May of 2021 and the second payment in June of 2022. The funds are available to be spent through December 31, 2024. The County programmed its first allocation to be used in fiscal year 2022, with the remainder to be spent in fiscal year 2023.

All of these factors were considered in preparing the County's budget for fiscal year 2023. The County's annual budget is prepared by the County's Budget Office; more information can be found at <a href="https://www.multco.us/budget">https://www.multco.us/budget</a>.

# MULTNOMAH COUNTY, OREGON Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities Governmental Funds For the Year Ended June 30, 2022 (dollar amounts expressed in thousands)

| Net change in fund balances - governmental funds  |  | \$<br>271,194 |
|---|--|---------------|
| Amounts reported for governmental activities in the Statement of Activities are different because<br>the following activites are not current financial resources or uses:<br>Governmental funds report capital outlay as expenditures. However, in the Statement of<br>Activities the cost of those assets are depreciated over their estimated useful lives: |  |               |
| Expenditures for capital assets<br>Current year depreciation expense<br>Contributed and donated capital assets - sent<br>Contributed and donated capital assets - received<br>Net loss on disposal of capital assets  | 60,596<br>(42,308)<br>(2,301)<br>176<br>(80) | 16,082        |
| Premium issued on long-term debt is reported as an other financing source in governmental<br>funds, but an increase of long-term liabilities in the Statement of Net Position:<br>Premium liabilities reported under full accrual are amortized to interest expense in the<br>Statement of Activities   |  | 11,328        |
| Repayment of long-term debt are reported as expenditures, respectively in the governmental funds.<br>but as reductions of long-term liabilities in the Statement of Net Position  |  | 70,055        |
| Proceeds from the issuance of long-term debt (including defeased amounts) are reported as revenues, respectively, in the governmental funds, but as increases, respectively, of long-term liabilities in the Statement of Net Position  |  | (5,300)       |
| Some expenses reported in the Statement of Activities do not require use of current resources:<br>Accrual of OPERS net pension liability not reported as an expenditure in governmental funds<br>Accrual of other postemployment liability not reported as an expenditure in governmental funds<br>Other accrued liabilities                                  | 42,469<br>7,054<br>4,344                     | 53,868        |
| Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. The net adjustment of these revenues recognized in different years for modified vs full accrual may result in a net increase or net decrease of revenue.   |  | (4,257)       |
| Internal service funds are used by management to charge the costs of certain activities to individual funds. The change in net position of the internal service funds is reported with governmental activities  |  | <br>8,160     |
| Change in net position of governmental activities   |  | \$<br>421,130 |

# MAJOR GOVERNMENTAL FUNDS

Major governmental funds are defined as those funds whose revenues, expenditures, assets or liabilities (excluding extraordinary items) are at least ten percent of corresponding totals for all governmental funds for the same. The General Fund is always classified as a major fund. The modified cash basis of accounting is used to record revenues and expenditures in the *Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual* for each fund..

- **General Fund** accounts for and report all financial operations of the County which are not accounted for and reported in another fund. The primary sources of revenues are property taxes, business income taxes, motor vehicle rental taxes, service charges, intergovernmental revenue, fees and permits, and interest income. The majority of expenditures in the General Fund are made for general government, public safety, health services, aging services, and youth and family services.
- Federal/State Program Fund accounts for the majority of grant restricted revenues and expenditures related to funding received from federal, state and local programs. The fund also includes some non-restricted operational revenues in the form of fees and licenses.
- Coronavirus (COVID-19) Response Fund accounts for revenues and expenditures associated with the County's COVID-19 public health emergency response. Expenditures are restricted to public health services, behavioral health, medical services, human services, measures taken to facilitate and comply with COVID-19 public health measures (e.g. care for homeless population) and efforts to support economic recovery from the pandemic. Revenues are primarily derived from American Rescue Plan (ARPA), and other State and Federal COVID-19 relief grant funds.
- **Preschool for All Program Fund** accounts for revenues and expenditures for the County Preschool for All Program. The primary source of revenue is personal income tax collections related to Ballot Measure 26-214 passed by the voters of Multnomah County on November 3, 2020, and effective January 1, 2021. Revenues are dedicated to fund universal, tuition-free, voluntary, and high quality preschool education within Multnomah County.
- Multnomah County Library Capital Construction Fund accounts for expenditures for the planning, renovation, and construction of certain library facilities as approved by Multnomah County voters on November 3, 2020, as Ballot Measure 26-211. Resources are derived from debt issuance and interest on bond proceeds. (See the Combining and Individual Statements and Schedules Governmental Funds section for the Schedule of Revenues, Expenditures, and Changes in Fund Balance Budget and Actual)

Reconciliation to modified accrual basis:

Some medical service providers through County programs are paid directly by the State, rather than funds flowing through the County. Under GAAP this activity is added as revenues and expenditures.

# **PROPRIETARY FUNDS**

The County utilizes ten proprietary funds made up of four enterprise funds and six internal service funds. See the *Combining and Individual Statements and Schedules - Proprietary Funds* section for the nonmajor enterprise funds and the internal service funds; this section also includes the *Schedule of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual* for the Health Department FQHC Fund, a major enterprise funds.

These funds are used to finance and account for Integrated Clinical Services, and for the acquisition, operation and maintenance of sewage treatment facilities, street lighting facilities and mental health claims administration, which are supported by user charges.

The County accounts for certain expenditures of the enterprise funds for budgetary purposes on the modified cash basis of accounting. For financial reporting purposes, the full accrual basis of accounting is used. The difference in the accounting basis used relates primarily to the methods of accounting for revenue accruals, depreciation and capital outlay, compensated absences, claims and judgments payable, leases, and pension and other postemployment benefits.

# **Major Enterprise Fund:**

• Health Department FQHC Fund - accounts for revenues and expenditures for the County's Community Health Center Program. The Community Health Centers are community based, patient governed organizations that provide comprehensive primary care and preventative care, including health, oral health, and mental health/substances abuse services. The primary source of revenue is the Consolidated Health Centers 330 grant, medical fees (e.g. Medicaid and Medicare), third party reimbursements, and other State and local program income. All program income is restricted to uses that further the objectives of the Community Health Center.

# FIDUCIARY FUNDS

These funds account for resources received and held by the County in a fiduciary capacity. Disbursements from these funds are made in accordance with an agreement or applicable legislative enactment for each particular fund. The accrual basis of accounting is used to record transactions in the custodial funds. The funds included are:

• **Custodial Funds** - accounts for resources held by the County in a purely custodial capacity.

# NOTES TO THE BASIC FINANCIAL STATEMENTS

### Note I. Summary of significant accounting policies

### A. Reporting entity

Multnomah County, Oregon (County), established in 1854, is organized under the Oregon Revised Statutes (ORS), chapter 201.260 as a municipal corporation. The Board of County Commissioners, comprised of an elected chair and four commissioners, forms the legislative branch of the County government.

The accompanying financial statements present the County and its component units, entities for which the County is considered financially accountable. Criteria that indicates financial accountability includes, but is not limited to, the following:

- Appointment by the County of a voting majority of members of the governing body of an organization with the ability to impose its will on the daily operations of an organization, such as the power to remove appointed members at will; to modify or approve budgets, rates or fees; to make other substantive decisions; or
- Provision by the organization of specific financial benefits to the County; imposition by an organization of specific financial burdens on the County, such as assumption of deficits or provision of support; or
- Fiscal dependency of the organization and reliance on the County, such as: lack of authority to determine a budget, approve rates, or issue its own bonded debt without County approval.

Blended component units, although legally separate entities, are in substance part of the County's operations. Component units may also include organizations that are fiscally dependent on the County in that the County approves the budget, the issuance of debt or levying of taxes. Multnomah County has three blended component units, which are included in this report. Separate financial statements for the individual component units may be obtained at the Finance and Risk Management Division of the County's administrative offices.

**Blended component units.** Dunthorpe-Riverdale Sanitary Service District No. 1 and Mid-Multnomah County Street Lighting Service District No. 14 serve residents within each district's geographical boundaries and are governed by a board comprised of the County's elected Board. The Board approves rates for user charges for both districts. Each district is reported as a nonmajor enterprise fund. County management handles the management of the districts.

The Library District of Multnomah County was created on July 1, 2013. In November 2012, the voters of Multnomah County approved a measure to form and fund a library district with a permanent rate dedicated to library services, operations, books, materials, programs, activities and oversight of the district. The Library District's permanent rate means library operations will have stable and dedicated funding. The Library District is reported as a special revenue fund and is governed by a board comprised of the County's elected Board. The County and the Library District have executed an intergovernmental agreement, which states that the County will be reimbursed by the Library District for the cost of library operations.

The County also maintains a Hospital Facilities Authority (Authority) that issues conduit debt for health care facilities. The Authority is considered a blended component unit of the County because the board for the Authority consists of board members from the County. The Authority is strictly only a conduit of debt; there are no resources and any costs the County incurs related to the Authority are reported as expenses by the County. The County is not fiscally accountable for the Authority, nor do the County and the Authority have any financial benefit or burden between their relationships.

**Discretely presented component unit.** The Library Foundation (TLF) is a legally separate, tax-exempt component unit of the County. TLF's purpose is to support the County's libraries through raising, receiving, administering and disbursing funds, grants, bequests and gifts for the benefit of the County libraries. Although the County does not control the timing or amount of receipts from TLF, the majority of resources or income thereon that TLF holds and invests is restricted to the County libraries' activities by the donors. TLF is a discretely presented component unit as the nature and relationship with the County is significant, and to exclude TLF would cause the County's financial statements to be misleading. TLF is the beneficiary of a split-interest agreement; details are provided in TLF's *Notes to the Financial Statements*.

TLF is a private non-profit organization that reports under the Financial Accounting Standards Board (FASB) standards, including FASB Statement ASC 958, *Financial Reporting for Not-for-Profit Organizations*. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to TLF's financial information in the County's financial reporting entity for these differences. TLF is an organization that is tax-exempt under Section 501(c) (3) of the Internal Revenue Code.

A complete copy of The Library Foundation's financial statements can be obtained by contacting: The Library Foundation, 620 SW Fifth Ave, Suite 1025, Portland, Oregon, 97204 or online at: <u>https://www.libraryfoundation.org/facts-and-financials</u>.

### B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the *Statement of Net Position* and the *Statement of Activities*) report information on all of the non-fiduciary activities of the County (the primary government) and its component units. With the exception of interfund service activity between governmental activities and business-type activities, interfund service activity has been removed from governmental activities. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the County is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or business-type segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Each enterprise fund represents separate segments of business-type activity. The major enterprise fund, the Health Department FQHC Fund, is provided in a separate column in the Statement of Net Position Proprietary Funds and the Statement of Revenues, Expenses and Changes in Net Position Proprietary Funds. Nonmajor enterprise funds are reported in separate columns in the Statement of Net Position Enterprise Funds and the Statement of Revenues, Expenses and Changes in Net Position Enterprise Funds.

In addition, functional expenses on the statement of activities include allocated indirect expenses.

#### *Program revenues* include:

- Charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and
- Grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

### C. Measurement focus, basis of accounting, and financial statement preparation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Custodial funds have no measurement focus, but do employ the *accrual basis of accounting* for purposes of asset and liability recognition. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Budget and actual statements are reported on the modified cash basis, with minor differences in the classification of certain revenues, which are identified in the Reconciliation to GAAP Basis on the statements and schedules for the individual funds.

Property taxes, personal income taxes, business income taxes, selective excise and use taxes, intergovernmental revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered susceptible to accrual as revenue of the current period. All other revenue items are considered measurable and available only when cash is received by the County.

For purposes of measuring the net pension liability, deferred outflows of resources, deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oregon Public Employees Retirement System (OPERS) plan and additions to/deductions from OPERS' fiduciary net position have been determined using the accrual basis of accounting, same as the OPERS plan. Plan member contributions are recognized in the period in which contributions are due. The County's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. All plan investments are recognized at fair value as determined by OPERS.

#### Specific fund changes

During the fiscal year ended June 30, 2022, two new funds were established:

*Debt service fund:* the *General Obligation Bond Fund* accounts for the payment of principal and interest on General Obligation (GO) Bonds. The GO Bond Fund accounts for Series 2021 Library Bonds to expand, renovate, construct library branches/facilities, and improve safety. Proceeds are derived from property taxes and interest earned on the cash balances.

*Capital project fund*: the *Justice Center Capital Fund* accounts for expenditures for various capital projects within the Justice Center over a 5-7 year period. Initial expenditures will be associated with duct and electric system work/upgrades. Resources are derived from County General Fund and other local government support.

The County reports five major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government which are not accounted for or reported in another fund. The primary sources of revenue are property taxes, business income taxes, motor vehicle rental taxes, service charges, intergovernmental revenue, fees and permits, and interest income. The majority of expenditures in the General Fund are made for general government, public safety health services, aging services, and youth and family services.

The *Federal/State Program Fund* is a special revenue fund that accounts for the majority of grant restricted revenues and expenditures related to federal, state and local programs. The fund also includes some non-restricted operational revenues in the form of fees and licenses.

The *Coronavirus COVID-19 Response Fund* is a special revenue fund that accounts for expenditures associated with the County's COVID-19 public emergency response. Expenditures are restricted to public health services, behavioral health, medical services, human services, measures taken to facilitate and comply with COVID-19 public health measures (e.g., care for homeless population) and efforts to support economic recovery from the pandemic. Revenues are primarily derived from Coronavirus Relief Fund (CARES Act), American Rescue Plan (ARPA), other COVID-19 relief grant funds, and Federal Emergency Management Agency (FEMA).

The *Preschool for all Program Fund* is a special revenue fund that accounts for revenues and expenditures for the County's Preschool for All Program. The primary source of revenue is personal income tax collections related to Ballot Measure 26-214 passed by the voters of Multnomah County on November 3, 2020, and effective January 1, 2021. Revenues are dedicated to fund universal, tuition-free, voluntary, and high quality preschool education within Multnomah County.

The *Multnomah County Library Capital Construction Fund* is a capital project fund that accounts for expenditures for the planning, renovation, and construction of certain library facilities as approved by Multnomah County voters on November 3, 2020, as Ballot Measure 26-211. Resources are derived from debt issuance and interest from bond proceeds.

The County reports one major enterprise fund:

The *Health Department FQHC Fund* accounts for revenues and expenditures for the Federally Qualified Health Centers (FQHC), the County's Community Health Center Program. The Community Health Centers are community based, patient governed organizations that provide comprehensive primary care and preventative care, including health, oral health, and mental health/substances abuse services. The primary source of revenue is the Consolidated Health Centers 330 grant, medical fees (e.g. Medicaid and Medicare), third party reimbursements, and other State and local program income. All program income is restricted to users that further the objectives of the Community Health Center.

Prior to the *Health Department FQHC Fund* being established, funding was budgeted and accounted for in the *General Fund* and the *Federal/State Program Fund*. *General Fund* activities included Federally Qualified Health Center/Alternate Payment Method Medicaid reimbursement funds. In mid year, fiscal year ending June 30, 2022, these funds, along with all FQHC-related funding, were moved to the newly created *Health Department FQHC Enterprise Fund for* easier reporting.

During fiscal year ending June 30, 2022 the County closed the *Enterprise Resource Planning Project Fund*, a capital project fund.

Additionally, the County reports the following fund types:

*Special revenue funds* are primarily operating funds that account for revenue derived from specific taxes or other revenue sources, which are legally restricted to finance particular functions or activities. When a special revenue fund is not an operating fund, transfers are made from the special revenue fund to the operating funds authorized to make expenditures.

*Debt service funds* account for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

*Capital projects funds* account for expenditures on major construction projects or equipment acquisition. The principal sources of revenues are proceeds from certificates of participation issued to finance capital acquisitions, proceeds from the sale of County-owned property, general obligation bond proceeds, full faith and credit bonds, and revenue bonds.

*Proprietary funds* account for the operations of predominantly self-supporting activities. Proprietary funds are classified as either enterprise or internal service. *Enterprise funds* account for services rendered to the public on a user charge basis. *Internal service funds* account for services rendered to other departments within the County.

*Enterprise funds* account for services rendered to the public on a user charge basis. The County reports three nonmajor enterprise funds:

Dunthorpe-Riverdale Service District No. 1 Fund accounts for the operations of the sanitary sewer system in southwest-unincorporated Multnomah County.

*Mid-Multnomah County Street Lighting Service District No. 14 Fund* accounts for the operations of the street lighting system throughout unincorporated Multnomah County.

*Behavioral Health Managed Care Fund* accounts for all financial activity associated with the State required behavioral health capitated services.

Segment information is provided for the nonmajor enterprise funds in a separate column in the *Statement of Net Position Enterprise Funds* and the *Statement of Revenues, Expenses, and Changes in Net Position Enterprise Funds*.

Internal service funds account for activities and services performed primarily for other organizational units within the County. The County reports six internal service funds: Risk Management Fund, Fleet Management Fund, Fleet Asset Replacement Fund, Information Technology Fund, Mail Distribution Fund, and Facilities Management Fund.

*Fiduciary funds* are used to account for activities for the benefit of those outside of the government and for certain pension and other postemployment arrangements. Reporting of fiduciary funds is focused on net position and changes in net position.

The fiduciary fund category is comprised of four fund types: three of which are only used to report activities of which assets are the subject of a legal trust or an equivalent agreement, and the fourth, custodial funds, which are not trusted agreements. The trusted fiduciary fund types are pension and other employee benefit trust funds, investment trust funds, and private-purpose trust funds. The County only reports custodial funds within the fiduciary fund type.

*Custodial funds* account for the resources received and held by the County in a fiduciary capacity for individuals, private organizations or other governments and therefore, are not available to support the County's own programs. Disbursements are made in accordance with the agreement or applicable legislative enactment for each particular fund.

The nature of the activities reported in the custodial funds are:

*Client Custodian Funds* - accounts for receipts and disbursements for individuals who are not capable of handling their own financial affairs.

*Property Tax Funds* - accounts for the collection and disbursement of various property tax accounts for governmental entities located in Multnomah County.

Department of County Management Custodial Funds - accounts for the collection and disbursements of various monies held by Multnomah County in a fiduciary capacity.

*Multnomah County Sheriff Custodial Funds* - accounts for receipts and disbursements for individuals who are incarcerated.

*Visitors' Facilities Trust Fund* - accounts for collection and disbursement of motor vehicle rental tax and transient lodging tax used for regional visitor facilities.

*MSCO Criminal Forfeitures Fund* - accounts for cash transactions subject to forfeiture under 1989 Oregon Law, Chapter 791.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's sewer and lighting functions and various other functions of the County. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer and lighting districts, and of the County's internal service funds are charges to customers for sales and services. The sewer district also recognizes as operating revenue the portion of connection fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as needed.

# D. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position or fund balances

#### Cash and investments

The County's cash is comprised of cash on hand, demand deposits, and investments with original maturities of three months or less from the date of acquisition. For purposes of the statement of cash flows, each fund's share of pooled cash is treated as cash.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, municipal bonds, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP). Investments for the County, as well as for its component units, are reported at fair value. The fair value of the County's position in the pool is the same as the value of the pool shares. The LGIP operates in accordance with appropriate state laws and regulations.

The County reports cash with fiscal agent, cash, and investments with special restrictions such as restricted bond proceeds or restrictions imposed by grantors or regulations from other governments as restricted cash and investments.

#### Accounts receivables

The activities between funds for which there are balances owing at year end for transactions occurring for which reimbursement has not yet been completed are referred to as "due to / from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Property tax receivables are deemed substantially collectible or recoverable through foreclosure. Accordingly, no allowance for doubtful tax accounts is deemed necessary. All other receivables are shown net of an allowance for uncollectible accounts.

Property taxes are assessed and become property liens on July 1. Property taxes are assessed in October and tax payments are due November 15 of the same year. Under the partial payment schedule, the first one-third of taxes is due November 15, the second one-third on February 15, and the remaining one-third on May 15. A three percent discount is allowed if full payment is made by November 15 and a two percent discount is allowed if two-thirds payment is made by November 15. Taxes become delinquent if not paid by the due date and interest accrues after each trimester at a rate of one percent per month. Property foreclosure proceedings are initiated four years after the tax due date.

# Inventories and prepaid items

Inventories of materials and supplies are reported at cost, and are included in nonspendable classification of fund balances with the exception of vaccine inventories. Inventories of materials and supplies are recorded as expenditures under the consumption method rather than when purchased.

Vaccine inventories are purchased with federal monies, are required to be used for health services and therefore are recorded as "*restricted*" inventory/restricted fund balance. The County is not eligible for reimbursement of costs until the inventory is properly used. Once used, the funds used to purchase the inventory are eligible for reimbursement; revenue is recorded at that time.

Payments in excess of \$10 to vendors, which reflect costs applicable to future accounting periods, are recorded as prepaid items in both government-wide and fund financial statements. Prepaids are recorded as expenditures under the consumption method rather than when purchased.

# Capital assets

Capital assets, which include land, right of ways, construction in progress, works of art, buildings, machinery and equipment, infrastructure assets (e.g., roads, bridges, sidewalks, sewers, street lighting, and similar items), and property improvements, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Capital assets are defined by the County as assets with an initial, individual cost of more than \$5 for equipment and \$100 for infrastructure and internally developed software with an estimated useful life of at least three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. During the year, the County incurred no interest expense for capital assets for business-type activities.

Capital assets are depreciated unless they are inexhaustible in nature, such as land and right of ways. The County, as well as the component units, depreciates property, plant, and equipment using the straight-line method with a half-year convention in the years of acquisition and disposition over the following estimated useful lives:

|                              | Asset      |     |            |
|------------------------------|------------|-----|------------|
|                              | Class      | Т   | hreshold   |
| Asset Class                  | (in years) | (iı | n dollars) |
| Software                     | 3 to 10    | \$  | 100,000    |
| Vehicles and heavy equipment | 3 to 10    |     | 5,000      |
| Equipment                    | 3 to 20    |     | 5,000      |
| Street lighting              | 30         |     | 10,000     |
| Buildings and improvements   | 40         |     | 100,000    |
| Roads and bridges            | 40         |     | 100,000    |
| Sewer systems                | 50         |     | 10,000     |

# Leases

Leases are recognized in accordance with GASB Statement No. 87, Leases.

A lessor is required to recognize a lease receivable and a deferred inflow of resources. A lease receivable is recognized at the net present value of the leased asset at a borrowing rate either explicitly described in the agreement or implicitly determined by the County, and is reduced by principal payments received. The deferred inflow of resources is recognized in an amount equal to the sum of the lease receivable and any payments relating to a future period which were received prior to the lease commencement. These deferred inflows of resources are amortized equal to the amount of the annual payments.

A lessee is required to recognize a lease payable and an intangible right-to-use lease asset. A lease payable is recognized at the net present value of future lease payments, and is adjusted over time by interest and payments. Future lease payments include fixed payments, variable payments based on index or rate, and reasonably certain residual guarantees. The right-to-use asset is initially recorded at the amount of the lease liability plus prepayments less any lease incentives received prior to lease commencement, and is subsequently amortized over the term of the lease.

In the government-wide, proprietary, and fiduciary fund financial statements, deferred inflows related to leases and any respective right-to-use assets are reported in the *Statement of Net Position*. In the governmental fund financial statements, the present value of lease payments is reported as *other financing sources*. Under modified accrual accounting, lease payments are considered capital outlay and proceeds of lease contracts, and thereafter are recorded as principal and interest payments. The County follows the capital asset thresholds established for accounting and reporting leases.

The County has chosen not to implement GASB 87 for the budgetary basis of accounting. For both the budgetary basis of accounting and for leases that do not meet the criteria for valuation under GASB 87, the County will report inflows of cash for lessor leases and outflows of cash for lessee leases.

## Deferred outflows and inflows of resources

In addition to assets, the *Statement of Net Position* will report a separate section for *deferred outflows of resources*. This separate financial statement element, deferred outflows of resources, represent a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County reports deferred outflows of resources for pension-related and other postemployment benefits; depending on the plan, deferred outflows of resources may include: changes in assumptions, contributions made subsequent to the measurement date, changes in proportionate share, net difference between projected and actual earnings on investments, or the net difference between projected and actual experience.

In addition to liabilities, the *Statement of Net Position* will report a separate section for *deferred inflows of resources*. This separate financial statement element, deferred inflows of resources, represent an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until then. The County reports deferred inflows of resources for pension-related and other postemployment benefits; depending on the plan, deferred inflows of resources may include: net difference between projected and actual earnings on investments, changes in proportionate share, and net differences between employer contributions and proportionate share of contributions. The County also reports deferred inflows of resources for resources for resources for leases where the County is the lessor and recognizes the present value of lease payments to be received in the future. In the governmental fund financial statements, deferred inflows of resources also include revenues that are measurable but not available.

## **Unearned** revenues

Unearned revenues will be recognized as revenue in the fiscal year earned in accordance with the accrual basis of accounting. Revenue is considered earned when measurable and all eligibility criteria are met.

## **Compensated** absences

It is the County's policy to permit employees to accumulate earned but unused vacation, compensatory and sick leave benefits. No liability has been recorded for unpaid accumulated sick leave since the County does not have a policy to pay any amounts when employees separate from service with the County. All vacation pay and compensatory time is accrued as a long-term liability when incurred in the government-wide statements and proprietary funds statements. A short-term liability is reported in governmental funds only if they have matured, for example, because of employee resignations and retirements at June 30. Employees can accumulate up to two years of vacation pay before losing any benefit. When employees separate from service and receive payment for accumulated leave benefits,

liabilities for compensated absences are liquidated. All compensated absences are paid by the individual funds as they become due.

# Pollution remediation obligations

When the County determines a pollution remediation obligation exists and management is able to make a reasonable and supportable estimation of expected outlays, a liability is recorded.

In the County's government-wide and proprietary fund financial statements, pollution remediation costs would be reported in the *Statement of Revenues, Expenses, and Changes in Net Position* as a program or operating expense (or as revenues for recoveries received after all remediation activities have been completed), special item or extraordinary item.

In the County's governmental fund financial statements, expenditures and liabilities are recognized upon receipt of goods and services. Estimated recoveries from insurers and other responsible parties reduce any associated pollution remediation expenditures when the recoveries are measurable and available.

## Long-term obligations

In the government-wide financial statements and for proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type. When incurred, bond premiums and discounts are deferred and amortized over the life of the bonds using a method that approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures when incurred.

## Other postemployment benefits (OPEB)

The total OPEB asset / liability is recognized as a long-term asset / liability in the *Statement of Net Position*. Total OPEB liability will be liquidated by the fund in which an employee is paid.

<u>Multnomah County Postretirement Medical and Life Insurance Plan</u> - For purposes of measuring the total OPEB liability, deferred outflows and inflows of resources for OPEB, and OPEB expense, the County has relied on actuarial reports. County employees who are eligible to initiate a pension through OPERS at the time of separation from County employment may be eligible for a premium subsidy from the County. This liability is funded via internal service charges from the Risk Management internal service fund to all governmental funds that support personnel costs, via a rate charged to subject salary costs.

<u>State of Oregon Public Employees Retirement System - Retirement Health Insurance Account (OPERS-RHIA)</u> - For purposes of measuring the net OPEB asset, deferred outflows and inflows of resources for OPERS RHIA, and OPEB expense/income, information about the fiduciary net position of the State of Oregon Public Employees Retirement System (OPERS) and additions to and deductions from OPERS fiduciary net position have been determined on the same basis as reported by OPERS. For this purpose, OPERS recognized benefit payments when due and payable in accordance with benefit terms. Investments are reported at fair value.

## Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of the Oregon Public Employees Retirement System (OPERS) and additions to/deductions from OPERS's fiduciary net position are determined on the same basis as reported by OPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Net pension liability will be liquidated by the fund in which an employee is paid.

# Fund balances / net position

In the financial statements, assets in excess of liabilities are presented in one of two ways depending on the measurement focus of the statement.

On the *Balance Sheet* – *Governmental Funds*, assets and deferred outflows of resources in excess of liabilities and deferred inflows of resources are reported as fund balances, which are segregated into separate classifications indicating the extent to which the County is bound to honor constraints on the specific purposes for which those funds can be spent. The County's Finance and Budget Policies state that the County will spend restricted resources first, followed by committed, then assigned, with unassigned resources spent last.

Fund balance is reported as *Nonspendable* when the resources cannot be spent because they either are in a nonspendable form, or are legally or contractually required to be maintained intact. Resources in nonspendable form include inventories and prepaid items, except for the vaccine inventory noted above, which is recorded as restricted.

Fund balance is reported as *Restricted* when the constraints placed on the use of resources are either: (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Fund balance is reported as *Committed* for resources constrained on use for specific purposes, authorized by the Board of County Commissioners (Board), the County's highest level of decision-making authority. This is accomplished through either a County ordinance or board resolution. Constraints over how resources are spent are considered an administrative action, which will generally be decided via Board resolution, while ordinances are used for legislative actions.

Resolutions and ordinances are considered equally binding in that either can be repealed with a single vote from the Board. Resources will be committed prior to June 30 and the amount may be determined at a subsequent date.

Resources that are constrained by the County's intent to use them for a specific purpose, but are neither restricted nor committed, are reported as *Assigned* fund balance. The Board expresses their intent to use a resource for a specific purpose by including that resource and associated appropriations in the adopted annual budget for funds outside of the General Fund. The Board may assign fund balances to cover a gap between estimated resources and expenditures in the subsequent year's appropriated budget. Assigned fund balances are not reported in the General Fund, as the County has not established a formal policy regarding the assignment of funds.

*Unassigned* fund balance is the residual classification for the General Fund. This classification represents fund balance that is not otherwise reported as nonspendable, restricted or committed within the General Fund. This classification is also used to report any negative fund balance amounts in other governmental funds.

On the *Statement of Net Position* for government-wide reporting and for the proprietary funds and on the fiduciary funds' *Statement of Fiduciary Net Position*, net position is segregated into three categories: net investment in capital assets, restricted net position, and unrestricted net position.

*Net investment in capital assets* represents total capital assets net of accumulated depreciation and amortization, net of capital related debt, unspent bond proceeds, and lease liabilities. Deferred outflows of resources and deferred inflows of resources directly related debt should also be included in this section. Significant unspent deferred inflows of resources should not be included.

**Restricted net position** represents net position that is not subject solely to the County's own discretion. Restrictions may be placed on net position by an external third party that provided the resources, by laws or regulations of other governments, by enabling legislation, by endowment agreements, or by the nature of the asset. Unspent bond proceeds for capital projects are used in the calculation of restricted net position.

Certain revenues derived from specific taxes or other earmarked revenue sources are considered restricted assets. Such revenues include dedicated property taxes, state gas tax, intergovernmental grants, and charges for services, which are legally restricted to finance particular functions or activities. In addition, proceeds from general obligation bonds, revenue bonds, and full faith and credit bonds are restricted to support the specific purpose for which the debt was issued.

Unrestricted surplus (deficit) net position represent amounts not included in other categories.

## **Contributions**

Contributions of cash, property or equipment received from other governments are credited to contribution revenue and recorded in the government-wide financial statements. The County also receives financial gifts and gifts in-kind from The Library Foundation. These in-kind donations from The Library Foundation are recorded at acquisition value upon receipt, as contribution revenue in the government wide and fund financial statements.

# Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

# Reclassifications

Certain amounts from the financial statements of the discretely presented component unit have been reclassified to conform from nonprofit reporting requirements to the presentation requirements of the primary government's financial statements.

Revenue and expenditure naming conventions may differ in presentation from prior year. If so, current year naming conventions have been applied consistently throughout these statements and appropriately reflect the activity presented.

## E. Adoption of new accounting pronouncements and standards

During the fiscal year ended June 30, 2022, the County implemented the following Governmental Accounting Standards Board (GASB) pronouncements:

**GASB Statement No. 87,** *Leases.* This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows or outflows of resources based on the payment provision of the contract. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an asset. Lessees will be required to recognize a lease liability and an intangible right to use an asset and lessors will be required to recognize a lease receivable and a deferred inflow of resources enhancing the relevance and consistency of information about a governments' leasing activities.

GASB Statement No. 87 was implemented by the County for the fiscal year ended June 30, 2022. The County has opted to not restate prior periods, as comparative periods were not reported. The following describes the nature of the restatement and its effect with leases recognized and measured using the facts and circumstances that existed at the beginning of the period of implementation.

Previous standards define leases as either capital leases or operating leases. Capital lease obligations were previously recorded at the lesser of present value of minimum lease payments or fair value of the leased property at inception. Other leases not meeting the criteria of a capital lease were classified as operating leases.

Impact to net position - in accordance with Statement No. 87, leases that do not transfer ownership of the underlying asset are classified as short-term (non-valuated) or long-term (valuated, generally). Some exceptions exist for items such as regulated lease, air rights, and the like. For valuated leases, lessees recognize an intangible right-of-use asset and a lease liability measured at the net present value of future lease payments, while lessors recognize a lease receivable and a deferred inflow of resources at the net present value of future lease receipts. Non-valuated leases are functionally similar to leases previously classified as "operating" and record inflows and outflows of resources during each period, for both the lessee and lessor. As such, there is no material impact to net position to implement this standard.

Deferred inflows of resources - Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources mirror the principal payments maturities noted in the lease receivable.

Pursuant with GASB Statement No. 87, the cumulative effect of apply this statement is reported as a restatement of beginning net position (or fund balance or fund net position, as applicable) for the earliest period restated, that is, for the fiscal year ended June 30, 2022.

There were no material cumulative effect adjustments recorded to net position upon adoption. For lessee leases, right-of-use assets and liabilities were recognized on the date of adoption based on the present value of lease payments over the lease term. For lessor leases, lease receivables and deferred inflows were recognized on the date of adoption based on the present value of lease payments over the lease term.

At inception of the year of adoption, the County recognized right-of-use assets of \$58,157 with a corresponding lease liability of \$58,157, lease receivables of \$1,670 and deferred inflows of resources of \$1,670. As of June 30, 2022, the following lease amounts are reported: lease liabilities in the amount of \$8,127 and \$42,106 included in the current and long-term lease liabilities, respectively, lease receivables in the amount of \$287 and \$1,109 included in current and long-term lease receivables, respectively, and lease deferred inflows of \$1,396.

GASB Statement No. 89, Accounting for Interest Costs Incurred before the End of a Construction *Period.* The objectives of this statement are to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period, and to simplify accounting for interest cost incurred before the end of a construction period. This statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest costs incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. GASB Statement No. 89 was implemented by the County for the fiscal year ended June 30, 2022. There is no effect on the County's financial statements as a result of the adoption of this statement.

GASB Statement No. 92, *Omnibus 2020.* The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature. This statement addresses a variety of topics and includes specific provisions about leases, intra-entity transfers of assets, assets accumulated for defined benefit postemployment benefits, fiduciary activities, asset retirement obligations, reinsurance recoveries, nonrecurring fair value measurements, and derivative instruments. GASB Statement No. 92 was implemented by the County for the fiscal year ended June 30, 2022. There is no effect on the County's financial statements as a result of the adoption of this statement.

**GASB Statement No. 93,** *Replacement of Interbank Offered Rates (IBOR).* The objective of this statement is to address certain accounting and financial reporting implications of the replacement of an IBOR the most notable of which is the London Interbank Offered Rate (LIBOR) which ceased to exist in its current form at the end of 2021. This will cause governments to amend or replace financial instruments by changing the reference rate or adding or changing fallback provisions related to the reference rate.

The original implementation date for the portion of the statement dealing with the removal of LIBOR as an appropriate benchmark was for reporting periods ending after December 31, 2021 while all other requirements of the statement were effective for reporting periods beginning after June 15, 2020. However, GASB 95 postponed the implementation date for all provisions except the portion of the statement dealing with the removal of LIBOR as an appropriate benchmark by one year to reporting periods beginning after June 15, 2021. GASB Statement No. 93 was implemented by the County for the fiscal year ending June 30, 2022. There is no effect on the County's financial statements as a result of the adoption of this statement.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans.* The requirements of this statement will result in more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. The requirements also will enhance the relevance, consistency, and comparability of (1) the information related to Section 457 plans that meet the definition of a pension plan and the benefits provided through those plans and (2) investment information for all Section 457 plans.

The requirements of this statement that (1) exempt primary governments that perform the duties that a governing board typically performs from treating the absence of a governing board the same as the appointment of a voting majority of a governing board in determining whether they are financially accountable for defined contribution pension plans, defined contribution OPEB plans, or other employee benefit plans and (2) limit the applicability of the financial burden criterion in paragraph 7 of Statement 84 to defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement 67 or paragraph 3 of Statement 74, respectively, were effective immediately.

The requirements of this statement that are related to the accounting and financial reporting for Section 457 plans are effective for fiscal years beginning after June 15, 2021. For purposes of determining whether a primary government is financially accountable for a potential component unit, the requirements of this Statement that provide that for all other arrangements, the absence of a governing board be treated the same as the appointment of a voting majority of a governing board if the primary government performs the duties that a governing board typically would perform, are effective for reporting periods beginning after June 15, 2021. GASB Statement No. 97 was implemented by the County for the fiscal year ended June 30, 2022. There is no effect on the County's financial statements as a result of this statement.

## F. Future adoption of accounting pronouncements and standards

The following pronouncements have been issued by the Governmental Accounting Standards Board (GASB), but are not effective as of June 30, 2022:

**GASB Statement No. 91,** *Conduit Debt Obligations.* This statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This statement achieves those objectives by clarifying the existing definitions of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers. The effective date of GASB Statement No. 91 was originally required for the County for fiscal year ending June 30, 2022. With the extension granted by GASB Statement No. 95, the new required implementation date for the County is fiscal year ending June 30, 2023.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements.* The requirements of this statement will improve financial reporting by establishing definitions of Public-Private or Public-Public Partnerships (PPPs) and Availability Payment Arrangements (APAs) and providing uniform guidance on accounting and financial reporting for transactions that meet those definitions. This statement requires governments to report assets and liabilities related to PPPs consistently and disclose important information about those PPP transactions. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. The required implementation date for the County is fiscal year ending June 30, 2023.

**GASB Statement No. 96,** *Subscription-Based Information Technology Arrangements.* This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset, which is an intangible asset, and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases,* as amended. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. The required implementation date for the County is fiscal year ending June 30, 2023.

**GASB Statement No. 99,** *Omnibus 2022.* This statement was issued April 2022 and addresses issues that were identified during implementation and application of certain GASB statements. The statement address a variety of topics including the extension of the use of LIBOR, accounting for Supplemental Nutrition Assistance Program (SNAP) distributions, disclosure of nonmonetary transactions, pledges of future revenues by pledging governments as well as clarification of provisions in Statement No. 34 and terminology updates related to Statements No. 53 and 63. These requirements are effective upon issuance and had no material impact on the County.

GASB Statement No. 99 paragraphs 11-25 will be effective for the County for the fiscal year ending June 30, 2023, paragraphs 4-10 will be effective for the County for the fiscal year ending June 30, 2024. The County has not completed the process of evaluating the remaining requirements of this statement that is effective for subsequent fiscal years.

GASB Statement No. 100, Accounting Changes and Error Corrections-an amendment of GASB Statement No. 62. This statement was issued June 2022 to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. This statement defines accounting changes as changes in accounting principles, changes in accounting estimates and changes to or within the financial reporting entity and describes the transactions or other events that constitute those charges. As part of those descriptions, for certain changes in accounting principles and certain changes in accounting estimates that result from a change in measurement methodology, a new principle or methodology should be justified on the basis that it is preferable to the principle or methodology used before the change. That preferability should be based on the qualitative characteristics of financial reporting--understandability, reliability, relevance, timeliness, consistency, and comparability. This statement also addresses corrections of errors in previously issued financial statements. GASB Statement No. 100 will be effective for the County for the fiscal year ending June 30, 2024.

**GASB Statement No. 101, Compensated Absences.** This statement was issued June 2022 to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences, That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used, and (2) leave that has been used but not paid in cash or settled through noncash means. Other requirements include that a liability for certain types of compensated absences not be recognized until the leave commences, and that a liability for specific types of compensated absences not be recognized until the leave is used. GASB Statement No. 101 will be effective for the County in the fiscal year ending June 30, 2024.

Multnomah County will implement new GASB pronouncements no later than the required effective date. The County is currently evaluating whether or not the above listed new GASB pronouncements will have a significant impact to the County's financial statements.

#### Note II. Stewardship, compliance, and accountability

#### A. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for all governmental funds except the fiduciary funds. Any differences from the budgetary basis to the GAAP basis are reconciled on the budget to actual statement. All annual appropriations lapse at the end of the fiscal year.

During the month of February each year, all agencies of the County submit requests for appropriations to the County Chair so that a budget may be prepared. The proposed budget is presented to the County Board of Commissioners (Board) for approval no later than May 15. The Board holds public hearings and a final budget must be prepared and adopted no later than June 30.

The adopted budget is prepared by fund and department levels. County department managers may make transfers of appropriations within a department and fund. Transfers and changes (increases) of appropriations between departments or funds require approval of the Board prior to the related expenditures.

The legal level of budgetary control, (i.e., the level at which expenditures may not legally exceed appropriations) is the fund and department level. Current expenditures are reported by department in the *Schedules of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual* and include personnel services, contractual services, internal services, materials and supplies. The legal level of budgetary control for departments also include capital outlay and other financing uses.

Multnomah County budget documents are available at: https://multco.us/budget

#### **B.** Expenditures in excess of appropriations

Oregon state law requires a supplemental budget to increase appropriations when unexpected additional resources become available. A supplemental budget is also required to transfer appropriations from a fund's operating contingency during the fiscal year. The supplemental budget process requires a public hearing, advance notice by newspaper publication, and approval by the Board of County Commissioners (the Board). The Board approved three supplemental budgets and several other budgetary appropriation modifications throughout the year. Oregon state law requires disclosure of fund expenditures in excess of budgeted appropriations. For the year ended June 30, 2022 there were no expenditures in excess of appropriations.

#### C. Deficit net position

Oregon state law requires fund disclosure of deficit fund balances/net position. At June 30, 2022, the following Funds reported deficit net positions, in the amounts shown, in the *Combining Statement of Net Position - Internal Service Funds*, and the *Combining Statement of Revenues, Expenses, and Changes in Net Position - Internal Service Funds*.

|   | Γ            | Deficit |  |  |
|---|--------------|---------|--|--|
| Funds with Deficit Net Position           | Net Position |         |  |  |
| Capital Project Fund:                     |              |         |  |  |
| Behavioral Health Resource Center Capital | \$           | 431     |  |  |
| Internal Service Funds:                   |              |         |  |  |
| Information Technology                    |              | 9,077   |  |  |
| Mail Distribution                         |              | 529     |  |  |
| Facilities Management                     |              | 4,538   |  |  |
| Enterpirse Fund:                          |              |         |  |  |
| Health Department FQHC                    |              | 10,885  |  |  |

The deficit net position in the *Behavioral Health Resource Center Capital Fund* is attributed to an internal loan payable to the *Risk Management Fund*.

The Internal Service Funds and the Enterprise Fund are managed on a modified cash basis of accounting before considering the effects of accrual entries. Management, with Board approval, budgets for a targeted ending fund balance that is positive as reported in the appropriate *Schedule of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual* for the Funds shown. Long-term activity is not budgeted on an annual basis. The deficit net position in the Internal Service Funds and the Enterprise Fund are primarily attributed to the full accrual entries for total OPEB liability and the net pension liability (see *Note IV.C. Postemployment benefits other than pensions* and *Note IV.D. Employee retirement systems, pension plans and deferred compensation* for additional information). Additionally, the effects of the implementation of GASB 87 further reduced the net position for the Facilities Management Fund (see *Note III.D. Leases for additional information*).

#### Note III. Detailed notes

#### A. Cash and investments

Multnomah County pools virtually all funds for investment purposes. All appropriate funds are allocated interest based on the average daily cash balance of the fund and the average monthly yield of the County's investment portfolio. Each fund's portion of this pool is displayed as "Cash and Investments."

Cash and investments for Multnomah County are reported in governmental and custodial activities. The balances at June 30, 2022 are:

|                                      | Primary |         |    | duciary   | Total      |           |  |

## Deposit risk

## Policies 197

Oregon Revised Statutes (ORS), Chapter 295 governs that the Office of the State Treasurer (OST) be given responsibility for overseeing collateralization of public funds held by depositories, banks and credit unions in Oregon. The Public Funds Collateralization Program (PFCP) requires well-capitalized depositories to pledge securities with a fair value of at least 10 percent of their uninsured public deposits. The OST may require up to 110 percent be pledged for those banks that are poorly capitalized.

A list of depositories that may accept public deposits over the insurance limits can be found at: <u>https://www.oregon.gov/treasury/public-financial-services/public-depository-information/pages/list-of-q</u> <u>ualified-depositories.aspx</u>

Funds deposited with fiscal agents for the purpose of meeting the payment of principal or interest on bonds or like obligations are not required to be collateralized per ORS 295.005.

#### Custodial risk

At June 30, 2022, the carrying amount of the County's deposits was \$66,440. Of this balance, \$2,966 was covered by depository insurance, Federal Deposit Insurance Corporation (FDIC) or National Credit Union Administration (NCUA), and \$60,337 was collateralized by the PFCP. The remaining carrying amounts of \$23 and \$3,137 represent petty cash accounts and securities held for retainage on capital projects per ORS 279.421, respectively, that were uninsured and uncollateralized. The County does not have a policy related to custodial risk over cash.

#### Investment risk

#### Policies

ORS 294 authorizes the County to invest in obligations of the U.S. Treasury, U.S. Government Agencies and instrumentalities, bankers' acceptances guaranteed by a qualified financial institution, commercial paper, corporate bonds, repurchase agreements, State of Oregon Local Government Investment Pool (LGIP), and various interest-bearing bonds of Oregon and other municipalities.

The County's investments are governed by a written investment policy that is reviewed annually by the Multnomah County Investment Advisory Board, and is adopted annually by the Board of County Commissioners. The policy specifies the County's investment objectives, benchmarks, required diversification by security type and by maturity, investment restrictions, and the reporting requirements. A copy of the current policy is located at <u>http://multco.us/finance/investments</u>.

The County is authorized to invest in the LGIP, an open-ended, no-load diversified portfolio. The LGIP is commingled with other state funds in the Oregon Short-Term Fund (OSTF). These investments are governed by a written investment policy that is reviewed annually by the, Governor appointed, OSTF Board. The OSTF is not managed as a stable net asset value fund; therefore, preservation of principal is not assured. The OSTF financial statements and its portfolio rules can be obtained at www.ost.state.or.us. The LGIP is not rated by any national rating service.

## Custodial risk

The County's investment policy requires that a third party be used for safekeeping of investment instruments. Investment securities purchased or sold pursuant to the County's investment policy are delivered via payment by book entry or physical delivery to a third party custodian. The investments are held in the County's name and therefore do not have custodial risk.

## Credit risk

The County's investment policy seeks to minimize credit risk by establishing limits on the level of investments with financial institutions, municipalities, and issuers of corporate bonds and commercial paper. It stresses a fairly short maturity with highly rated securities.

## Concentration of credit risk

#### Policies

In addition to limiting its exposure to losses due to asset concentration, the County's investment policy and ORS limit asset concentration as follows:

1. Corporate indebtedness must be rated on the settlement date, A-1, AA- or better by Standard & Poor's Corporation, or P-1 or Aa3 or better by Moody's Investors Service or the equivalent rating by any nationally recognized statistical rating organization.

2. Notwithstanding item one, corporate indebtedness must be rated A-2 or A or better by Standard & Poor's or P-2 or A by Moody's, or the equivalent rating by any nationally recognized statistical rating organization when issued by a business enterprise that has its headquarters in Oregon, employs more than 50 percent of its permanent workforce in Oregon, or has more than 50 percent of its tangible assets in Oregon.

3. Purchase of commercial paper and other corporate debt not insured by an agency of the U.S. Government up to 35 percent of the total investment portfolio is allowed.

4. U.S. Government agencies may be owned without limit.

5. Investments guaranteed by an agency of the U.S. Government (e.g., the U.S. Treasury or the FDIC) may be owned without limit.

6. Lawfully issued debt obligations of the agencies and instrumentalities of the State of Oregon and its political subdivisions that have a long-term debt rating of A or an equivalent rating or better or are rated on the settlement date in the highest category for short-term municipal debt by a nationally recognized statistical rating organization [ORS 294.035 (2)]. Also, lawfully issued debt obligations of the States of California, Idaho, Washington, and their political subdivisions if such obligations have a long-term rating of AA- or better or are rated on the settlement date in the highest category for short-term municipal debt by a nationally recognized statistical rating organization. For these latter obligations, they are allowable subject to ORS 294.040.

Additionally, to limit its exposure to asset concentration risk, the County restricts the total investment that can be made in the corporate indebtedness of a single corporate entity and its affiliates and subsidiaries to 5 percent of the total investment portfolio.

|                                  | Issuer Hol | Issuer Holding Greater than Five Percent |        |  |  |  |  |  |

| Investment Type / Issuer         | Fair Value | Total Portfolio                          | Limit  |  |  |  |  |  |
| Federal Home Loan Mortgage Corp. | \$ 102,736 | 7.2%                                     | 40%    |  |  |  |  |  |
| Federal National Mortgage Assn.  | 71,073     | 5.0%                                     | 40%    |  |  |  |  |  |

The County maintains cash with fiscal agent accounts to set aside for debt service requirements per the trustees and bond indentures. As of June 30, 2022, the County had the following investments and maturities with a portfolio weighted average maturity of 19.99 months, and a net portfolio yield of 0.53 percent (this table includes fiduciary activities).

|                            |    |           |    |            |               | Weighted |

## Interest rate risk

#### Policies

As a means of limiting its exposure to fair value losses resulting from rising interest rates, the County's investment policy limits maturities as follows:

| <u>Maturity</u>      | Cumulative Constraint |
|----------------------|-----------------------|
| Less than 90 days    | 10%                   |
| Less than 1 year     | 35%                   |
| Less than 5.25 years | 100%                  |

The County's investment policy limits the weighted average maturity of the total portfolio to 2.5 years.

If the goals of maturity limits are exceeded by 5 percent or more for ten successive business days, prompt notification to the County's Chief Financial Officer and the County's Investment Advisory Board is required.

|                 | Fair         | Days to Maturity |            |            |            |  |  |  |
|-----------------|--------------|------------------|------------|------------|------------|--|--|--|
| Investment Type | Value        | Rating           | 0-90       | 91-365     | 366-1825   |  |  |  |

At June 30, 2022, the County had the following interest rate and concentration risk. Credit ratings are noted by Moody's and Standard & Poor's respectively:

\*This represents the composite weighted average rating of the investments held by the LGIP.

#### Fair value measurement

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability between market participants at the measurement date (exit price). Observable inputs reflect market participants' assumptions in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset or liability.

Multnomah County's investment custodial bank utilizes Interactive Data Pricing and Reference for daily security pricing on the following asset types: U.S. Treasuries, U.S. Federal agencies, U.S. Corporate debt, and Municipal debt.

Various inputs are used in determining the fair value of investments. These inputs are categorized into a fair value hierarchy. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels. The categorization is based on pricing transparency of the investments, and not an indication of the risks associated with investing in the security.

Level 1 – quoted prices (unadjusted) in active markets for identical assets at the measurement date.

Level 2 – quoted prices for similar assets in active or inactive markets, or inputs derived from observable (directly or indirectly) market data.

Level 3 – valuations derived from valuation techniques in which significant inputs are unobservable.

\* Amortrized cost approximates fair value for the LGIP investment.

U.S. Treasuries and U.S. Agencies are valued using quoted prices for identical assets in the active market. Corporate and municipal securities are valued using observable market data for comparable instruments. Balances held in the LGIP, certificates of deposit, and money market accounts are valued at amortized cost, the amount required to replace the asset. Demand deposits and other cash and equivalent accounts are reported at bank balance as of June 30, 2022.

#### **B.** Receivables

Receivables as of June 30, 2022, are as follows:

Total uncollectible amounts related to revenues are all for prior periods.

## C. Unearned revenue and deferred inflows of resources

The County recognizes revenues when earned. Amounts received in advance of the period in which services are performed are recorded as a liability, "unearned revenue." The various components of unearned revenue reported in the governmental and business-type activities at June 30, 2022 are as follows:

|                                |           |   | 1 D 1 | <u>c1</u> |       |     | G          | overnment-wide<br>Statement of |

Governmental statements report deferred inflows of resources in connection with receivables for revenues that are not considered to be available within 60 days of year end to liquidate current liabilities. Proprietary and government-wide statements report deferred inflows and outflows of resources in connection with pension, other post-employment benefits (OPEB) activity, and leases.

For details regarding deferred outflows and inflows of resources related to pensions, OPEB, and leases, see Note IV.C. *Postemployment benefits other than pensions*, Note IV.D. *Employee retirement systems, pension plans and deferred compensation plan*, and Note III.D. *Leases*.

#### D. Leases

The City is involved in various leasing arrangements for buildings and land use rights. With the implementation of GASB Statement No. 87 Leases, effective for the fiscal year ended June 30, 2022, all existing and newly acquired leases during the current fiscal year were analyzed and classified as either qualified or non-qualified leases, for both lessor and lessee positions. With this implementation, a respective receivable or payable was recognized.

#### Lessor lease receivables

As the lessor, the County leases County-owned properties such as buildings. The related receivables are presented in the *Statement of Net Position* for the amounts equal to the present value of lease payments expected to be received during the lease term. All lessor leases are reported in governmental activities. The total amount of lease revenue recognized in the current year was \$274, and interest revenue of \$37 for a total of \$311. The total amount of deferred inflows reported for lessor leases for the fiscal year ended June 30, 2022 is \$1,395.

The County has a variety of variable payment clauses, within its lease arrangements, which include payments dependent on indexes and rates (such as the Consumer Price Index and market interest rates) Variable payments related to lease agreements that are qualified as leases under GASB Statement No. 87 such as common area maintenance, late fees, operating expenses, property taxes, rent credits and utilities are not included in the measurement of the lease receivable. The County did not incur revenue related to residual value guarantees or lease termination penalties. It also does not currently have agreements that include sale-leaseback and lease-leaseback transactions.

The County has entered into three lease agreements as the lessor, that qualify both within the County capitalization threshold and under GASB Statement No. 87. The receivable related to these leases was initially recognized on July 1, 2021 with the adoption of GASB Statement No. 87. These leases are for buildings, with periods covering various ranges and the latest expiring on January 31, 2034. Interest rates range from 2.05 to 2.84 percent. Annual payments for the current year range from \$42 to \$167.

Lease receivables for the year ended June 30, 2022 are as follows:

|                         | Beginning |       |           |   |     | E       | nding   |       |

| Total           | \$           | 1,395  | \$     | 210    |  |  |

Future annual lease receivables as of June 30, 2022 are as follows:

## Lessee lease payables

A lease is defined as a contractual agreement that conveys control of the right to use another entity's nonfinancial asset, for a minimum contractual period of greater than one year, in an exchange-like transaction. The County leases a significant amount of non-financial assets such as land and buildings. The related obligations are presented in the amounts equal to the present value of lease payments, payable during the remaining lease term. As a lessee, a lease liability and the associated lease asset are recognized. All lessee leases are reported in governmental activities. The total amount of lease expense recognized in the current year was \$7,923 and interest expense of \$1,195 for a total of \$9,118.

The County has a variety of variable payment clauses, within its lease arrangements, which include payments dependent on indexes and rates (such as the Consumer Price Index and market interest rates). Components of variable payments that are fixed in substance, are included in the measurement of the lease liability presented in the table below. Variable payments related to lease agreements that are qualified as leases under GASB Statement No. 87, and are not fixed, are excluded in the measurement of the lease liability. The County did not incur expenses related to its leasing activities related to residual value guarantees, lease termination penalties or losses due to impairment. As a lessee there are currently no agreements that include sale-leaseback and lease-leaseback transactions.

The County has entered into 32 lease agreements as the lessee, that qualify both within the County capitalization threshold and under GASB Statement No. 87. The liability related to these leases was initially recognized on July 1, 2021 with the adoption of GASB Statement No. 87. These leases are for buildings, with periods covering various ranges and the latest expiring on June 14, 2111. Interest rates range from 2.05 to 2.84 percent. Annual payments for the current year range from \$3 to \$3,049.

Lease payables currently outstanding as of June 30, 2022 are as follows:

|                         | Beginning |           |            | Ending    |
|-------------------------|-----------|-----------|------------|-----------|
| Governmental Activities | Balance   | Additions | Reductions | Balance   |
| Buildings               | \$ 58,157 | \$-       | \$ 7,924   | \$ 50,233 |

Future annual lease commitments as of June 30, 2022 are as follows:

|                 | Governmental |          |  |  |  |  |
|-----------------|--------------|----------|--|--|--|--|

#### E. Interfund receivables, payables, and transfers

#### Due from / Due to other funds

The County records "due from" and "due to" transactions in order that individual funds will be able to meet cash flow needs at year end and prevent a fund from reporting a negative cash balance. The amount payable to the General Fund from the Federal/State Program Fund of \$29,920 and from the Coronavirus (COVID-19) Response Fund of \$19,088 is related to providing interim working capital financing. These balances are collected in the subsequent year.

## Interfund loans

On April 21, 2022, the Board of County Commissioners authorized by Resolution No. 2022-031, an internal loan: the Behavioral Health Resource Center Capital (BHRC) Fund received a \$7,062 loan from the Risk Management Fund. The loan was issued to provide interim funding for the BHRC capital project. The BHRC project is being funded by the County general fund, State of Oregon grant, and may receive additional federal funding at a later date. The funding (\$10,000) committed by the State of Oregon will be via video lottery bonds which will not occur until the spring of 2023. BHRC project expenditures attributed to State funding will be incurred before receipt of grant funds. The State of Oregon has approved project expenditures to be incurred priort to award date. The internal loan in the amount of \$7,062 will bridge the cash flow timing of State grant funds. The BHRC Capital Fund will repay the Risk Management Fund upon receipt of State grant funds, estimated at 12-14 months, there will be one principal and interest payment. Interest will accrue on the loan at the rate the County earns in the Local Government Investment Pool. Total interest costs are estimated at \$35 over the term of the loan. Repayment is expected to be repaid in full during the fiscal year ending June 30, 2023.

# Interfund transfers

The primary purposes of significant transfers include the following:

- The General Fund transferred \$300 to the Animal Control Fund for work related to the sale of Edgefield.
- The General Fund transferred to the Information Technology Capital Fund \$395 for the Long Term Care Eligibility tracking system, \$205 for the Non-Medical Transportation program, and \$245 for the SQL Server Improvement program.
- The General Fund transferred \$2,420 to the Asset Preservation Fund for the Southeast Health Center.
- The General Fund transferred \$13,700 to the Behavioral Health Resources Center Capital Fund to establish the FQHC (Federally Qualified Health Center) as a new Enterprise fund.
- Various other nonmajor funds transferred \$9,205 to the new FQHC Enterprise fund.
- The Animal Control Fund transferred \$1,171 to the General Fund for work related to the new animal shelter.
- The Library District Fund Transferred \$84,713 to the Library Fund to reimburse the County for library operations; however this transfer is reported as intergovernmental revenue and current expenditures on the *Schedule of Revenues, Expenditures and Changes in Fund Balances Budget and Actual.*
- The Health Headquarters Capital Fund transferred \$1,000 to the General Fund for the Health Department Headquarters Project remainder.
- The Facilities Management Fund transferred \$160 to the Capital Improvement Fund for CIP related to external tenant clients.
- The Facilities Management Fund transferred \$171 to the Asset Preservation Fund for external tenant capital.

In the governmental activities column of the *Statement of Activities*, transfers between governmental funds and between governmental and internal service funds have been eliminated; no interfund transfers were made for business-type activities during the year.

Interfund transfers and the reconciliation to the *Statement of Activities* for the year ended June 30, 2022, consisted of the following:

|   |                         |        |       |            | Busi      | ness-type |    |           |

#### F. Capital assets

During the fiscal year ended June 30, 2022 buildings of \$2,135 and accumulated depreciation of \$402, machinery and equipment of \$1,047 and accumulated depreciation of \$1,461, were transferred from governmental funds to the new enterprise fund: the Health Department FQHC Fund. Capital asset activity of the primary government, for the year ended June 30, 2022, is as follows:

|  | Beginning<br>Balance | Increases | Transfers  | Decreases   | Ending<br>Balance |
|--|----------------------|-----------|------------|-------------|-------------------|
| Governmental activities:                                 |                      |           |            |             |                   |
| Capital assets, not being depreciated or amortized:      |                      |           |            |             |                   |

#### Right-of-Use Assets

A lease is defined as a contractual agreement that conveys control of the right to use another entity's nonfinancial asset, for a minimum contractual period of greater than one year, in an exchange-like transaction. The County is party to a variety of lease contracts for which this right-of-use (ROU) has been recognized as an asset on the balance sheet. This recognition is new for the current fiscal year due to the implementation of GASB 87.

Right-of-use activities for leases for the year ended June 30, 2022 was as follows:

|  | Beginning<br>Balance |         | Increases Decreases |   | eases | Ending<br>Balance |    |         |
|--|----------------------|---------|---------------------|---|-------|-------------------|----|---------|
| Governmental activities:                     |                      |         |                     |   |       |                   |    |         |
| Buildings                                    | \$                   | 58,157  | \$                  | - | \$    | -                 | \$ | 58,157  |
| Less accumulated amortization                |                      | (9,286) |                     | - |       | -                 | \$ | (9,286) |
| Total leased assets, Governmental activities | \$                   | 48,871  | \$                  | - | \$    | -                 | \$ | 48,871  |

Fully depreciated or amortized capital assets at June 30, 2022 totaled \$457,541, all of which were available to be used in governmental type and business type activities. Capital assets are evaluated annually for impairment. Fully depreciated or amortized capital assets are comprised of:

|                                | A  | equisition<br>Value |
|--------------------------------|----|---------------------|
| Governmental:                  |    |                     |

#### G. Long-term debt

#### Full faith and credit bonds

On December 1, 1999, the County issued \$184,548 in taxable Revenue Pension Obligation Bonds with interest rates from 6.49 to 7.74 percent to fund the County's unfunded accrued actuarial liability (UAAL). Bonds were rated Aa2 by Moody's. The County estimates that by funding the actuarial liability, the County will receive a present value savings of \$35,776 between the amount calculated by the Oregon Public Employees Retirement System (OPERS) to retire the UAAL and the amount of the debt repayment. Payment of principal and interest, except for a term bond, are guaranteed by National Public Finance Guarantee. At June 30, 2022, \$36,968 of these bonds were outstanding.

On December 14, 2010, the County issued \$15,000 in Full Faith and Credit Obligations, Series 2010B, with interest rates from 4 to 5.05 percent. Bonds were rated Aa1 by Moody's. The proceeds from the sale of the obligations were used to finance the construction costs for the East County Courthouse (ECC). At June 30, 2022, \$12,270 of these bonds were outstanding.

On December 4, 2012, the County issued \$128,000 in Full Faith and Credit Obligations, Series 2012, at a premium of \$21,113, with interest rates from 3 to 5 percent. Bonds were rated Aa1 by Moody's and AA by Standard & Poor's. The obligations were issued to finance and refinance construction of the Sellwood Bridge. The obligations were issued to support construction of a new Sellwood Bridge along with upgrades to the east and west end approaches. On January 7, 2021, the County issued advance refunding bonds for a portion of the Series 2012 bonds. As a result, in the prior year, a portion of the refunded bonds was considered to be defeased, and \$84,250 of the bond liability and the premium, \$13,723, was removed from the governmental activities column of the Statement of Net Position. In the current year the remaining \$5,805 liability was paid off. (Additional information of the bond refunding is presented below.) At June 30, 2022, the outstanding balance on the Series 2012 bonds was \$0.

On December 14, 2017, the County issued \$164,110 in Full Faith and Credit Obligations, Series 2017, at a premium of \$16,715, with interest rates from 3 to 5 percent. Bonds were rated Aaa by Moody's and AAA by Standard & Poor's. The proceeds from the sale of the obligations were used to finance real or personal property related to the replacement of the Multnomah County Central Courthouse ("MCCH"), replacement of the Health Department administrative offices and downtown clinics ("HDHQ"), replacement of the Enterprise Resource Planning system ("ERP"), and improvements to County-owned facilities that house parole and probation services ("DCJ Campus"). At June 30, 2022, the outstanding balance on the Series 2017 bonds was \$126,221 and the balance on the unamortized premium was \$11,073.

On September 12, 2019, the County issued \$16,075 in Full Faith and Credit Obligations, Series 2019, with an interest rate of 1.74 percent. Multnomah County entered into a ten year direct bank placement with DNT Asset Trust, a wholly owned subsidiary of JPMorgan Chase Bank, N.A. The issue will finance real or personal property related to the National Environmental Policy Act (NEPA) review phase of the Burnside Bridge Project and pay costs of issuance related to the financing. At June 30, 2022, the outstanding balance on the Series 2019 bonds was \$11,843.

On January 7, 2021, the County issued \$89,580 in Full Faith and Credit Refunding Obligations, Series 2021, at a premium of \$552, with interest rates from 1 to 2 percent. Bonds were rated Aaa by Moody's and AAA by Standard & Poor's. The net proceeds of \$89,452, from the sale of the obligations were placed in an irrevocable escrow account to be used to refinance a portion of the outstanding full faith and credit backed borrowings (FF&C Obligations, Series 2012) that helped finance the construction of the Sellwood Bridge. The refunding resulted in a net gain on debt refunding of \$8,791, which was reported as a deferred inflow of resources for governmental activities. The economic gain at closing was a net present value savings of 11.25 percent, a savings of \$10,143 over the remaining term of the bonds. At June 30, 2022 the outstanding balance on the Series 2021 bonds was \$87,245, the balance on the unamortized premium was \$467, and the balance of the unamortized gain on refunding was \$8,058.

Total full faith and credit bond obligations, excluding unamortized premiums, outstanding at year-end are as follows:

| Purpose                 | Interest Rates | Amount     |
|-------------------------|----------------|------------|
| Governmental activities | 1.00-7.74%     | \$ 274,547 |

Annual debt service requirements to maturity for full faith and credit bonds are as follows:

| P  | Principal |   | Interest  |
|----|-----------|---|---|
| \$ |           | \$  | 31,878  |
|    | 25,690    |   | 32,967  |

No assets were pledged as collateral for the County's full faith and credit bonds. In the event of default, the lender may exercise any remedy available under the law. The outstanding amounts are not subject to acceleration.

## **General Obligation Bonds**

On January 12, 2021, the County issued \$154,680 in General Obligation Bonds, Series 2021A (Tax-Exempt), at a premium of \$50,507, with interest rates at 5 percent. Bonds were rated Aaa by Moody's and AAA by Standard & Poor's. The bonds were issued to finance capital costs to expand, modernize, rebuild and acquire land for library facilities, and to pay the costs of issuance of the bonds. At June 30, 2022 the outstanding balance on the Series 2021A bonds was \$154,680 and the balance on the unamortized premium was \$37,880.

On January 12, 2021, the County issued \$232,320 in General Obligation Bonds, Series 2021B (Federally Taxable), at a premium of \$232, with interest rates from 0.25 to 0.9 percent. Bonds were rated Aaa by Moody's and AAA by Standard & Poor's. The bonds were issued to finance capital costs to expand, modernize, rebuild and acquire land for library facilities, and to pay the costs of issuance of the bonds. At June 30, 2022 the outstanding balance on the Series 2021B bonds was \$194,725 and the balance on the unamortized premium was \$155.

General obligation bond obligations outstanding at year-end are as follows:

| Purpose                 | Interest Rates | Amount     |
|-------------------------|----------------|------------|
| Governmental activities | 0.25-5.00%     | \$ 349,405 |

Annual debt service requirements to maturity for general obligation bonds are as follows:

| Fiscal Year                |            |          |        |

## Loans payable

## Levee Ready Columbia Project Financing

In April 2016, the County entered into an interim financing agreement with the State of Oregon, through the Oregon Infrastructure Finance Authority (IFA) for financing the Multnomah County Levee Accreditation Evaluation for "Levee Ready Columbia (LRC)," a regional project. The financing will provide funding for Phase II of the project, engineering analysis on the levees along the Columbia River, which are maintained by the Sauvie Island Drainage Improvement Company (SIDIC), Multnomah County Drainage District No. 1 (MCDD) and Sandy Drainage Improvement Company (SDIC), with the goal of FEMA recertification and accreditation.

The County was named the borrower for the IFA Phase II funding which will enable the County to access a package of loans and grants from the IFA. The IFA determines whether disbursements will be drawn from the loan or grant funding available.

The County's obligations to make payments under the IFA financing contracts will be offset by revenues to be received by the County from the LRC project partners for over 95 percent of the amount borrowed. This will also provide one-time-only financing assistance to the Cities of Fairview and Troutdale in connection with their obligations to the LRC project, and pay a portion of expenses incurred by the LRC project for public outreach and facilitation.

The IFA extended the project, with a completion deadline of June 30, 2024. The IFA loan draws are not yet in repayment status; therefore, are excluded from the annual maturity schedule, except for SIDIC Loan Draws (C-1).

At June 30, 2022 the outstanding balance of the IFA is \$1,598. A prepayment of \$67 was made during the fiscal year ended June 30, 2020 as reflected in the accumulated prepayments column in the following table; no prepayments have been made during fiscal year ending June 30, 2022. SIDIC Loan Draws (C-1) entered into repayment status and one payment for \$16 was made during fiscal year ended June 30, 2022.

## Transportation Improvements Financing

In fiscal year 2009, the County entered into a loan agreement with the Oregon Department of Transportation's Financial Services (ODOT) for the purpose of making capital improvements to the County's transportation system. The loan was re-amortized in fiscal year 2017, reducing the principal balance owed by \$93. The total outstanding under this agreement was \$1,060 at June 30, 2022.

The ODOT loan obligations outstanding at year-end are as follows:

| Purpose                 | Interest Rates | Α  | mount |
|-------------------------|----------------|----|-------|
| Governmental activities | 3.98%          | \$ | 1,060 |

Annual debt service requirements to maturity for the ODOT long-term loan outstanding at year-end is follows:

| Fiscal Year     |     |        |     |       |
|-----------------|-----|--------|-----|-------|
| Ending June 30, | Pri | ncipal | Int | erest |
| 2023            | \$  | 250    | \$  | 42    |
| 2024            |     | 260    |     | 32    |
| 2025            |     | 270    |     | 22    |
| 2026            |     | 280    | _   | 11    |
| Total           | \$  | 1,060  | \$  | 107   |

In the event of an "Event of Default" for all loans payable, the lender may accelerate payment immediately of the entire loan principal amount and other amounts due on the loan. In the event of default, the investors may exercise any remedy available at law or in equity or in bankruptcy or otherwise.

# Line of Credit

In February 2021, the County entered into an interim financing agreement and issued a federally taxable non-revolving credit facility and bond (referred to as line of credit throughout the financial statements) of no more than \$15,000. This agreement provided interim financing for Pre-School for All program start-up costs. The County will pay a fee equal to the Daily Floating LIBOR Rate plus a spread of 49 basis points on the drawn amount and 0.35 percent on the actual daily unused amount of the facility. The was no outstanding balance under this agreement at June 30, 2022.

## **Compensated Absences**

The County's policy relating to compensated absences is described in Note I. D. Assets, deferred outflows, liabilities, deferred inflows, and net position or fund balances. The long-term portion of compensated absences was \$9,122. The total amount outstanding at June 30, 2022 was \$36,118.

The long-term portion of compensated absences is expected to be paid in future years from future resources. In prior years, compensated absences have been liquidated primarily by the governmental and proprietary funds for which the employees who earned the benefits were assigned. Compensated absences are liquidated by select governmental funds (General Fund, Federal/State Program Fund, Animal Control Fund Willamette River Bridges Fund, Library Fund, Land Corner Preservation Fund, Inmate Welfare Fund, Coronavirus (COVID-19) Response Fund, Justice Services Special Operations Fund, Preschool For All Program Fund, Information Technology Capital Fund, Asset Preservation Fund, and Multnomah County Library Capital Construction Fund) as well as the internal service funds and one business-type fund.

Balances of compensated absences for governmental and business-type activities for the year ended June 30, 2022 were as follows:

# Conduit financing

# Multnomah County Conduit Financing

On December 1, 1999, the County issued \$9,830 in Higher Education Variable Rate Demand Revenue Bonds. The proceeds of these bonds were used to provide funds to reimburse Concordia University for the costs of acquiring, constructing and improving the educational facilities of the University (the Project), fund a debt service reserve fund and pay the costs of issuing the bonds.

The Higher Education Revenue Bonds have not been recognized as a liability of the County because the bonds are secured solely by the provisions of the bond indenture and payments are made by Concordia University. The County is not responsible for the repayment of conduit debt. As the County does not own any of the assets constructed or assume any liabilities associated with the Project, there is no balance sheet disclosure or recognition of revenues and expenditures within the County's financial statements.

As of June 30, 2022, \$4,850 of the Higher Education Variable Rate Demand Revenue Bonds remained outstanding.

# Hospital Facilities Authority of Multnomah County Conduit Financing

On December 3, 1998, the County created a component unit, the Hospital Facilities Authority of Multnomah County, Oregon (the Authority). The Authority issues hospital revenue bonds for construction and improvements to health facilities in Multnomah County. The proceeds of these bonds were used by health care facilities to finance various capital projects and refund outstanding bonds.

The debt has not been recognized as a liability of the County or the Authority because the bonds are secured solely by the provisions of the bond indenture and payments are made by the health care facilities. The obligors have pledged the gross revenues of the health care facilities to secure payment of the bonds. The bonds shall not be payable from a charge upon any fund or asset, nor shall the County or the Authority be subject to any liability. No holder or holders of the bonds shall ever have the right to exercise the taxing power of the County to pay the bonds or the interest, nor to enforce payment against any property of the County.

Upon completion of the project, the assets constructed or purchased are owned by the respective health care facility. Since neither the County nor the Authority own any assets or assume any liabilities associated with the repayment, there is no balance sheet disclosure or recognition of revenues within the County's financial statements.

Original Balance at Obligor (Health Care Facility), Debt Issue, Terms Series Issue Date Amount June 30, 2022 Adventist Health System/West: Refunding Revenue Bonds, due March 1, 2040 2019 11/1/2019 \$ 52,535 \$ 52,535 Terwilliger Plaza: Revenue and Refunding Bonds, due serially through December 1, 2029 2012 1/1/2012 18,245 10,365 Odd Fellows Home-Friendship Health Center: Variable Rate Demand Revenue Refunding Bonds, due serially through September 15, 2022 2013A 7/12/2013 7,280 5,815 Parkview Christian Retirement Community Project: Variable Rate Revenue Refunding Bonds, due serially through November 1, 2034 2013 12/12/2013 7,315 5,268 Pacific Mirabella (at South Waterfront Project): Variable Rate Demand Revenue Refunding Bonds, due serially through October 1, 2049 2014A 9/30/2014 93,380 85,925 Terwilliger Plaza Inc.: Revenue Refunding Bonds, due serially through December 1, 2036 2016 6/15/2016 13,625 11,065 Terwilliger Plaza Inc - Parkview Project Revenue Refunding Bonds, due serially through December 1, 2056 2021A 8/1/2021 88,885 88,885 Terwilliger Plaza Inc - Parkview Project Revenue Refunding Bonds, due serially through June 1, 2028 2021B-1 8/1/2021 15,300 15,300 Terwilliger Plaza Inc - Parkview Project Revenue Refunding Bonds, due serially through June 1, 2027 2021B-2 42,600 42,600 8/1/2021 Terwilliger Plaza Inc - Parkview Project Revenue Refunding Bonds, due serially through June 1, 2026 2021C 8/1/2021 7,835 7,835 \$ 347,000 \$ 325,593

A summary of the Authority's conduit debt is as follows:

### H. Fund balances, governmental funds

On the *Balance Sheet* – *Governmental Funds*, the fund balances are reported in the aggregate in the classifications defined by GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. Fund balances by classification for the year ended June 30, 2022, were as follows:

\*Inventories included in the nonspendable classification exclude vaccine inventories, which are reported as part of the restricted fund balance.

## Note IV. Other information

#### A. Risk management

The County is exposed to various risks of loss related to torts and property damage including theft of, damage to, and destruction of assets, assertion of negligence, employee injury or illness, errors and omissions, and natural disasters. The County self-insures to \$1,000 and purchases excess insurance for large and catastrophic losses above the self-insurance for general liability, auto liability, medical malpractice, and workers' compensation liability. By self-insuring in areas that are fiscally cost effective, the County realizes savings by not paying overhead or profit margins that are built into insurance premium costs.

The County purchases a large deductible policy for property loss and specific policies for specialty coverage to cover losses where insurance is afforded. Motor vehicle property loss insurance coverage is only offered with a large deducible that historically, the majority of the County's loss costs do not reach.

Premiums are calculated on payroll expenses in all funds and are paid into the risk management fund, an internal service fund. The funds are available to pay claims, claim reserves, loss prevention efforts, and administrative costs. These interfund premiums are used to offset the amount of claims expenditures reported in the risk management fund. As of June 30, 2022, interfund premiums exceeded reimbursable expenditures.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are re-evaluated periodically to consider the effect of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Discount factors of 0.904 and 0.93 were used to estimate the year-end workers' compensation component and the liability component, respectively. Annually, the County submits workers' compensation fund liabilities to the State as per ORS 436-050-0185; surety bond exemption requirements for counties.

Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. The County's excess insurance coverage policies cover claims in excess of \$1,000 for workers' compensation and \$1,000 for all liability claims. Settlements have not exceeded coverages for each of the past three fiscal years. The County anticipates the balance in the claims liability account at year-end will be paid within the next fiscal year.

| Unpaid claims, end of fiscal year       | \$            | 9,352              | \$                   | 11,998        |  |  |

Changes in the balances of claims liabilities during the past two years are as follows:

# **B.** Commitments and contingent liabilities

## <u>Grants</u>

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

# <u>Lawsuits</u>

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County's legal counsel the resolution of these matters will not have a material adverse effect on the financial condition of the County.

## Construction contracts

The County has entered into various construction and non-construction contracts at fiscal year-end. The commitments noted below are evidenced by signed purchase orders or contracts that were entered into prior to June 30, 2022.

#### Labor agreements

There are twelve labor agreements between the County and its employees. Contracts may be viewed online at: <u>https://multco.us/employee-labor-relations/labor-contracts</u>. Of the seven of the agreements are currently expired at June 30, 2022, all are in active negotiations or are currently in ratification. All should have agreements in place in early fiscal year 2023.

## Pollution remediation obligations

Pollution remediation obligations address the current or potential detrimental effects of existing pollution by participating in pollution remediation activities, including pre-cleanup activities, cleanup activities, government oversight and enforcement-related activities, and post remediation monitoring. The calculation for pollution remediation obligations is an estimate determined by management using the expected cash flow techniques and applying probabilities to the pollution remediation activities. Estimates of pollution remediation obligations are subject to changes resulting from price increases, decreases, changes in technology as well as changes in applicable laws and regulations; any recoveries would reduce the liability.

The County continues to monitor a former landfill, where low amounts of methane gas have been detected in prior years. Liabilities for monitoring and cleanup of a former landfill site have been satisfied and it has been established that no cleanup action is required at this time. The County does not have a pollution remediation liability for fiscal year 2022.

## C. Postemployment benefits other than pensions

The other postemployment benefits (OPEB) for the County combines two separate plans. The County makes contributions to the State of Oregon's Public Employees Retirement System (OPERS) Retirement Health Insurance Account, and provides the Multnomah County Postretirement Medical and Life Insurance Plan (County Plan).

#### State of Oregon Public Employees Retirement System - Retirement Health Insurance Account

<u>Plan Description.</u> The County contributes to the OPERS Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. ORS 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by telephone (503) 598-7377 or by writing to OPERS, PO Box 23700, Tigard, OR 97281-3700, online: <a href="http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx">http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx</a>.

## Plan benefits

*Funding policy.* Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may only be amended by the Oregon Legislature. ORS requires that an amount equal to \$60 (dollars) or the total monthly cost of Medicare companion health insurance coverage, whichever is less, shall be paid from the RHIA established by the employers; and any monthly cost in excess of \$60 (dollars) shall be paid by the eligible retired member in the manner provided in ORS 238.410.

To be eligible to receive this monthly payment toward the premium cost, the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she is receiving a retirement benefit or allowance from OPERS, or was insured at the time the member died and the member retired before May 1, 1991.

Participating governments are contractually required to contribute to RHIA at a rate assessed each year by OPERS, currently 0.05 percent of annual covered payroll for Tier One, Tier Two and for OPSRP employees. The OPERS Board of Trustees sets the employer contribution rate. The rate is based on the annual required contribution (ARC) of the combined participant employers. This is an amount actuarially determined in accordance with the parameters of GASB Statement No. 75. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a closed period not to exceed 30 years.

Governmental funds that liquidate other postemployment benefits for RHIA include: the General Fund, Federal/State Program Fund, Coronavirus (COVID-19) Response Fund, Preschool for All Program Fund, Multnomah County Library Capital Construction Fund, Road Fund, Animal Control Fund, Willamette River Bridges Fund, Library Fund, Land Corner Preservation Fund, Inmate Welfare Fund, Justice Services Special Operations Fund, Video Lottery Fund, Supportive Housing Fund, Downtown Courthouse Capital Fund, Library Capital Construction Fund, Capital Improvement Fund, Information Technology Fund, Asset Preservation Fund, Health Headquarters Capital Fund, Sellwood Bridge Replacement Fund, Hansen Building Replacement Fund, and Burnside Bridge Fund.

<u>Contributions.</u> The County's contractually required contribution rate for the year ended June 30, 2022 was 0.05 percent of the covered payroll for Tier 1/Tier 2 employees, actuarially determined as an amount that is expected to finance the costs of the benefits earned by employees during the year. Employees are not required to contribute to the RHIA plan. Contributions by the County to the RHIA plan equaled the required contributions each year and were:

| Fiscal Year |               |
|-------------|---------------|
| Ended       | RHIA          |
| June 30,    | Contributions |
| 2017        | \$ 1,678      |
| 2018        | 1,641         |
| 2019        | 1,006         |
| 2020        | 856           |
| 2021        | 70            |
| 2022        | 89            |

## RHIA OPEB asset, expenses, deferred outflows (inflows) of resources

For the fiscal year ended June 30, 2022, the County reported an asset of \$8,991 for its proportionate share of the collective net RHIA OPEB asset. The collective net RHIA OPEB asset was measured as of June 30, 2021 and the total RHIA OPEB asset used to calculate the collective net RHIA OPEB asset was determined by an actuarial valuation as of December 31, 2019. The County's proportionate share of the collective net RHIA OPEB asset was based on a projection of the County's long-term share of contributions to the RHIA OPEB plan relative to the projected contributions of all participating employers, actuarially determined. The County's proportionate share at June 30, 2022 and June 30, 2021 was 2.618 and 11.987 percent respectively, resulting in a decrease of 9.369 percent.

For the year ended June 30, 2022, the County recognized expenses of \$201 for RHIA OPEB. At June 30, 2022, the County reported deferred outflows of resources and deferred inflows of resources related to RHIA OPEB from the following sources:

|  | Deferred<br>Outflows | Deferred<br>Inflows | Net Deferred<br>Outflows /<br>(Inflows) |
|--|----------------------|---------------------|---|
| Schedule of Deferred Outflows / (Inflows) of Resources | of Resources         | of Resources        | of Resources                            |
| Differences between expected and actual experience     | \$ -                 | \$ (250)            | \$ (250)                                |
| Changes of assumptions                                 | 177                  | (134)               | 43                                      |
| Net difference between projected and actual earnings   |                      |                     |   |
| on investments   | -                    | (2,136)             | (2,136)                                 |
| Changes in proportionate share                         | 11,524               | (4,810)             | 6,714                                   |
| Total (prior to post-measurement date contributions)   | 11,701               | (7,330)             | 4,371                                   |
| Contributions made subsequent to measurement date      | 89                   | -                   | 89                                      |
| Net deferred outflows / (inflows) of resources         | \$ 11,790            | \$ (7,330)          | \$ 4,460                                |

Deferred outflows of resources of \$89 were reported related to RHIA OPEB contributions subsequent to the measurement date and will be recognized as an increase of the collective net RHIA OPEB asset in the year ending June 30, 2023. Other amounts reported by the County as deferred outflows of resources and deferred inflows of resources related to RHIA OPEB will be recognized in RHIA OPEB expense in subsequent years as follows:

|             |      | erences<br>tween | Net Difference<br>Between  |         |                 | Net<br>Deferred |              |          |           |       |

## Actuarial methods and assumptions used in developing total RHIA OPEB asset

The total RHIA OPEB asset based on the December 31, 2019 valuation was determined using the following actuarial methods and assumptions:

| Valuation date                    | December 31, 2019                         |
|-----------------------------------|---|
| Measurement date                  | June 30, 2021                             |
| Experience study                  | 2018, Published July 24, 2019             |
| Actuarial cost method             | Entry Age Normal                          |
| Actuarial assumptions:            |   |
| Inflation rate                    | 2.4 percent                               |
| Long-term expected rate of return | 6.9 percent                               |
| Discount rate                     | 6.9 percent                               |

|                                   | the valuation.                            |
|                                   | Active Members:                           |
|                                   | Pub-2010 Employee, sex distinct,          |
|                                   | generational with Unisex, Social Security |
|                                   | Data Scale, with job category             |
|                                   | adjustments and set-backs as described in |
|                                   | the valuation.                            |
|                                   | Disabled retirees:                        |
|                                   |   |
|                                   | Pub-2010 Disable Retiree, sex distinct,   |
|                                   | generational with Unisex, Social Security |
|                                   | Data Scale, with job category             |
|                                   | adjustments and set-backs as described in |
|                                   | the valuation.                            |

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

## Discount rate

The discount rate used to measure the total RHIA OPEB asset was 6.9 percent. The projection of cash flows used to determine the discount rate assumed that contributions from County will be made at contractually required rates, actuarially determined. Based on this assumption, the RHIA OPEB plan's fiduciary net position was projected to be available to make all projected RHIA OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on RHIA OPEB plan investments was applied to all periods of projected benefit payments to determine the total RHIA OPEB asset.

GASB 74 generally requires that a blended discount rate be used to measure the total OPEB asset or liability. The long-term expected return on plan investments may be used to discount the related assets or liabilities to the extent that the plan's fiduciary net position (fair value of assets) is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/Aa or higher) municipal bond rate must be used for periods where fiduciary net position is not projected to cover benefit payments and administrative costs.

# Sensitivity analysis of the County's proportionate share of the net RHIA OPEB asset to changes in the discount rate

The following presents the County's proportionate share of the net RHIA OPEB asset calculated using the discount rate of 6.9 percent, as well as what the County's proportionate share of the net RHIA OPEB asset would be if it were calculated using a discount rate that is 1-percentage-point lower (5.9 percent) or 1-percentage-point higher (7.9 percent) than the current rate:

|                                   | Current |          |     |            |    |            |
|-----------------------------------|---------|----------|-----|------------|----|------------|

| of the net OPEB liability (asset) | \$      | (7,951)  | \$  | (8,991)    | \$ | (9,879)    |

#### Long-term expected rate of return

To develop an analytical basis for the selection of the investment return assumption, in June 2021, the OPERS Board reviewed long-term real return outlooks developed by Milliman's capital market outlook team for each of the asset classes in which the plan is invested based on the Oregon Investment Council's (OIC) long-term target asset allocation, and combined those real return outlooks with a 2.4 percent inflation assumption to develop nominal expected returns. Since the OIC uses broader asset classes than those for which Milliman's investment professionals develop long-term assumptions, Milliman received assistance from Meketa, OIC's primary consultant, to map each OIC asset class to the classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, including the inflation assumption. These assumptions are not based on average historical returns, but instead are based on a forward-looking capital market economic model. Based on the target allocation and investment return assumptions for each of the asset classes, the model's 50th percentile output is developed as follows:

|  |            | 20-Year<br>Annualized |
|--|------------|-----------------------|
|  | Target     | Geometric             |
| Asset Class                            | Allocation | Mean                  |
| Global Equity                          | 30.62%     | 5.85%                 |
| Private Equity                         | 25.50%     | 7.71%                 |
| Core Fixed Income                      | 23.75%     | 2.73%                 |
| Real Estate                            | 12.25%     | 5.66%                 |

## Multnomah County Postretirement Retiree Medical and Life Insurance Plan

<u>Plan description.</u> The County also administers a single-employer defined benefit healthcare and life insurance plan (the Plan) per the requirements of collective bargaining agreements. Benefit provisions are established through negotiations between the County and representatives of collective bargaining units. The Plan states the County shall pay 50 percent of the monthly medical insurance premium on behalf of a County retiree and his/her eligible dependents from the retiree's 58th birthday or date of retirement, whichever is later, until the retiree's 65th birthday, death or eligibility for Medicare, whichever is earlier. Retirees must have five years of continuous County service immediately preceding retirement at or after age 58, or ten years of continuous County service immediately preceding retirement prior to age 58. The Plan does not issue a publicly available financial report.

## Plan benefits

*Funding policy.* A trust fund has not been established to hold resources for the payment of benefits for the total OPEB obligation. Contribution requirements are negotiated between the County and union representatives. The Plan offers retirees a health benefit equal to half of their monthly premium; retirees are required to pay the other half. The County's regular health care benefit providers underwrite the retirees' policies. Retirees may not convert the benefit into an in-lieu payment to secure coverage under independent plans. The County is contractually obligated by collective bargaining agreements to cover 50 percent of the annual premium costs, which are two percent of annual covered payroll to fund the Plan.

Governmental funds that liquidate other postemployment benefits for the Plan include: the General Fund, Federal/State Program Fund, Coronavirus (COVID-19) Response Fund, Preschool for All Program Fund, Multnomah County Library Capital Construction Fund, Road Fund, Animal Control Fund, Willamette River Bridges Fund, Library Fund, Land Corner Preservation Fund, Inmate Welfare Fund, Justice Services Special Operations Fund, Video Lottery Fund, Supportive Housing Fund, Downtown Courthouse Capital Fund, Library Capital Construction Fund, Capital Improvement Fund, Information Technology Fund, Asset Preservation Fund, Health Headquarters Capital Fund, Sellwood Bridge Replacement Fund, Hansen Building Replacement Fund, and Burnside Bridge Fund.

At the date of the last valuation, January 1, 2021, there were 505 retirees enrolled in the OPEB medical benefit and 2,399 retirees with life coverage. Retirees with medical insurance noted excludes post-age 65 retirees who are not covering their pre-age 65 spouses and/or dependents, as the County does not incur any liability from those participants. In addition, retirees may enroll in dental insurance at their own cost; the County does not incur any liability for retiree dental coverage.

The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2022, the County contributed \$6,229 to the Plan, of which \$2,808 was explicitly contributed as part of the contractual obligation described above; the remaining \$3,421 represents the implicit subsidy derived from active employee contributions. In addition, administrative expenses of \$371 are considered explicit contributions.

Actuarial methods and assumptions used in developing total OPEB liability

The total OPEB liability based on the January 1, 2021 valuation was determined using the following actuarial methods and assumptions:

| Measurement date<br>Actuarial assumptions: | 1/1/2022  |
|--|---|
| Discount rate:                             |   |
| As of January 1, 2021                      | 2.12 percent  |
| As of January 1, 2022                      | 2.06 percent  |
|  | (Bond Buyer 20-Bond GO Index as of December 31, 2020 and        |
|  | December 30, 2021)  |
| Healthcare cost trends                     | Ranges from 6.2 percent in 2022 decreasing to 4 percent in 2040 |
| Wage inflation rate                        | 3.5 percent per year  |
| Salary merit increase rates                | Rates used in 2020 OPERS experience study                       |
| Mortality                                  | Rates used in 2020 OPERS experience study                       |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events into the future. Examples include assumptions about future employment, mortality and healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members), which includes the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liability (AAL) and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2021 actuarial valuation, the entry age normal actuarial cost method was used. Under this method, the actuarial present value of the projected benefits of each individual is allocated on a level basis over the earnings or service of the individual between date of hire and assumed retirement date.

#### Changes since the last valuation

The discount rate was changed to match the yield on a 20-year general obligation bond. Per-person health care cost trends from 2021 to 2022 were updated so that the projected 2022 premium amounts match the actual 2022 premiums. Any change in total OPEB liability due to benefit changes is recognized immediately.

## Changes in total OPEB liability

The table below shows the changes in the total OPEB liability during the measurement period ending on January 1, 2022.

| Changes in Total OPEB Liability                    | Total<br>OPEB Liability |         |  |  |
|--|-------------------------|---------|--|--|
| Balance at January 1, 2021                         | \$                      | 126,633 |  |  |
| Changes for the year:                              |                         |         |  |  |
| Service cost                                       |                         | 8,434   |  |  |
| Interest   |                         | 2,708   |  |  |
| Changes of benefits                                |                         | -       |  |  |
| Differences between expected and actual experience |                         | (8,861) |  |  |
| Changes of assumptions                             |                         | 477     |  |  |
| Benefit payments:                                  |                         |         |  |  |
| Explicit subsidy                                   |                         | (2,808) |  |  |
| Implicit subsidy                                   |                         | (3,421) |  |  |
| Net changes  |                         | (3,471) |  |  |
| Balance at January 1, 2022                         | \$                      | 123,162 |  |  |

During the measurement year, the total OPEB liability decreased by \$3,471. The service cost and interest cost increased the total OPEB liability by \$11,142 while benefit payments reduced the total OPEB liability by \$6,229.

There was a change in assumptions during the measurement year decreasing the discount rate, which increased the total OPEB liability by approximately \$477. There was a liability gain during the year due to actual health trend rates being lower than expected, which decreased the total OPEB liability by approximately \$8,861.

## Sensitivity analysis of the County's Plan for total OPEB liability to changes in the discount rate

Changes in the discount rate affect the measurement of the total OPEB liability. Lower discount rates produce a higher total OPEB liability and higher discount rates produce a lower total OPEB liability. The table below shows the sensitivity of the total OPEB liability to the discount rate.

|                      |    |                | Current<br>Discount |                     |
|----------------------|----|----------------|---------------------|---------------------|
|                      | 1% | Decrease 1.06% | Rate 2.06%          | 6 Increase<br>3.06% |
| Total OPEB liability | \$ | 131,378        | \$<br>123,162       | \$<br>115,453       |

A one percent decrease in the discount rate increases the total OPEB liability by approximately 6.7 percent and a one percent increase in the discount rate decreases the total OPEB liability by approximately 6.3 percent.

Sensitivity analysis of the County's Plan for total OPEB liability to changes in the healthcare trends

Changes in the healthcare trends also affect the measurement of the total OPEB liability. Lower healthcare trends produce a lower total OPEB liability and higher healthcare trends produce a higher total OPEB liability. The table below shows the sensitivity of the total OPEB liability to the healthcare trends.

|                      |    |          | Η  | ealthcare |             |         |  |
|----------------------|----|----------|----|-----------|-------------|---------|--|
|                      | 1% | Decrease |    | Trend     | 1% Increase |         |  |
| Total OPEB liability | \$ | 110,451  | \$ | 123,162   | \$          | 138,100 |  |

A one percent decrease in the healthcare trends decreases the total OPEB liability by approximately 10.3 percent and a one percent increase in the healthcare trends increases the total OPEB liability by approximately 12.1 percent.

#### OPEB deferred inflows and outflows of resources

The table below summarizes the current balances of deferred outflows and inflows of resources related to the Plan along with the net recognition over the next five years and the total recognition thereafter, if any.

|  |      |           |    |           | Ne        | t Deferred |
|--|------|-----------|----|-----------|-----------|------------|
|  | D    | eferred   | Ι  | Deferred  | 0         | utflows /  |
|  | 0    | utflows   |    | Inflows   | (Inflows) |            |
| Schedule of Deferred Outflows / (Inflows) of Resources | of F | Resources | of | Resources | of        | Resources  |
| Differences between expected and actual experience     | \$   | 1,136     | \$ | (15,909)  | \$        | (14,773)   |
| Changes in assumptions                                 |      | 7,389     |    | (2,850)   |           | 4,539      |
| Subtotal   |      | 8,525     |    | (18,759)  |           | (10,234)   |
| Contributions subsequent to the measurement date:      |      |           |    |           |           |            |
| Explicit subsidy                                       |      | 2,033     |    | -         |           | 2,033      |
| Implicit subsidy                                       |      | 1,579     |    | -         |           | 1,579      |
| Administrative expenses                                |      | 134       |    | -         |           | 134        |
| Total contributions subsequent to measurement date     |      | 3,746     |    | -         |           | 3,746      |
| Net deferred outflows / (inflows) of resources         | \$   | 12,271    | \$ | (18,759)  | \$        | (6,488)    |

Amounts reported as deferred outflows due to contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended June 30, 2023. Other amounts reported as deferred outflows and deferred inflows of resources will be recognized in OPEB expense (income) as follows:

|                 | Future Recognition |                 |  |  |  |  |
|-----------------|--------------------|-----------------|--|--|--|--|
| Fiscal Year     |                    | of OPEB         |  |  |  |  |
| Ending June 30, | E                  | xpense (Income) |  |  |  |  |
| 2023            | \$                 | (2,526)         |  |  |  |  |
| 2024            |                    | (2,526)         |  |  |  |  |
| 2025            |                    | (3,057)         |  |  |  |  |
| 2026            |                    | 66              |  |  |  |  |
| 2027            |                    | (994)           |  |  |  |  |
| Thereafter      |                    | (1,197)         |  |  |  |  |
| Total           | \$                 | (10,234)        |  |  |  |  |

The impacts of experience gains or losses and assumption changes on the total OPEB liability are recognized in expense over the average expected remaining service life of all active and inactive members of the Plan. As of the measurement date, this recognition period was seven years.

During the year, actual experience differed from assumed experience decreasing the total OPEB liability by \$8,861. Approximately \$1,266 is recognized in the current year and an identical amount will be recognized in each of the next six years. Unrecognized experience gains from prior years were \$10,935, of which \$2,622 is recognized in the current year.

Unrecognized experience losses from prior years was \$1,434, of which \$298 is recognized in the current year. As of January 1, 2022 unrecognized experience gains and losses from the current and prior years result in deferred inflows of resources of approximately \$15,909 and a deferred outflow of resources of approximately \$1,136.

In addition, changes in assumptions increased the total OPEB liability by approximately \$477. Approximately \$68 is recognized in the current year and an identical amount will be recognized in each of the next six years. Unrecognized assumption changes from prior years that increased the total OPEB liability by \$5,603, of which \$1,064 is recognized in the current year. As of January 1, 2022, unrecognized assumption changes from the current and prior years result in a deferred outflow of resources of approximately \$7,389 and a deferred inflow of resources of approximately \$2,805.

## Aggregated information on OPEB plans

For the year ended June 30, 2022, the County recognized a net OPEB expense of \$2,444. The aggregate balance of the County's total OPEB liability, deferred outflows of resources, deferred inflows of resources, and expense (income) related to other postemployment benefits for the County Plan and OPERS RHIA as of June 30, 2022 is as follows:

|                                | C  | ounty Plan |    | OPERS<br>RHIA |    | Totals     |

## D. Employee retirement systems, pension plans and deferred compensation plan

## State of Oregon Public Employees Retirement System

<u>Plan description.</u> The County is a participating employer in the Oregon Public Employee Retirement System (OPERS), a cost-sharing multiple-employer defined benefit public employee pension plan. The County also maintains a defined contribution plan for the purpose of individual retirement savings through OPERS: the Individual Account Program (IAP). Employees hired before August 29, 2003 belong to the Tier One/Tier Two Retirement Benefit Program (established pursuant to ORS Chapter 238), while employees hired on or after August 29, 2003 belong to the OPSRP Pension Program (established pursuant to ORS Chapter 238A). OPERS is administered under Oregon Revised Statutes Chapter 238 and Internal Revenue Service 401(a) by the Public Employees Retirement Board (OPERS Board).

OPERS, a fiduciary fund of the State of Oregon, issues an annual comprehensive financial report that can be obtained from Oregon Public Employees Retirement System, P.O. Box 23700, Tigard, Oregon 97281, or at: <u>https://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx</u>.

<u>Summary of significant accounting policies – basis of accounting and valuation of investments.</u> For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the OPERS plan and additions to/deductions from OPERS' fiduciary net position have been determined using the accrual basis of accounting, same as the OPERS plan. Plan member contributions are recognized in the period in which contributions are due, pursuant to legal (or statutory) requirements. The County's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. All plan investments are recognized at fair value as determined by OPERS.

## Plan Benefits

All benefits of the System are established by the legislature pursuant to ORS Chapters 238 and 238A.

## Tier One/Tier Two Retirement Benefits

Tier One/Tier Two Retirement Benefit plan is closed to new members hired on or after August 29, 2003.

<u>Pension benefits.</u> The OPERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2 percent for police and fire employees, 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at a minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

<u>Death benefits.</u> Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- The member was employed by an OPERS employer at the time of death,
- The member died within 120 days after termination of OPERS-covered employment,
- The member died as a result of injury sustained while employed in an OPERS-covered job, or
- The member was on an official leave of absence from an OPERS-covered job at the time of death.

<u>Disability benefits.</u> A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member for disability benefits regardless of the length of OPERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.

<u>Benefit changes after retirement.</u> Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the fair value of equity investments. Under ORS 238.360, monthly benefits are adjusted annually through cost-of-living adjustments (COLA). Under current law, the cap on COLA is 2 percent, blended based on service, and graded (1.25 percent/0.5 percent).

# **OPSRP** Pension Program

<u>Pension benefits.</u> The Pension Program (ORS Chapter 238A) provides benefits to members hired on or after August 29, 2003. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated by formula for members who attain normal retirement age.

• For general service members, 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit. For police and fire members, 1.8 percent is multiplied by the number of years of service and the final average salary.

• Normal retirement age for police and fire members are age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

A member of the OPSRP Pension Program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

<u>Death benefits.</u> Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse receives for life 50 percent of the pension that would otherwise have been paid to the deceased member. The surviving spouse or other person may elect to delay payment of the death benefit, but payment must commence no later than December 31 of the calendar year in which the member would have reached 70-1/2 years.

<u>Disability benefits.</u> A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

<u>Benefit changes after retirement.</u> Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living adjustments (COLA). Under current law, the cap on COLA is 2 percent, blended based on service, and graded (1.25 percent/0.5 percent).

# **Contributions**

<u>Funding policy.</u> OPERS funding policy provides for periodic member and employer contributions at rates established by the Public Employees Retirement Board, subject to limits set in statute. The rates established for member and employer contributions were approved based on the recommendations of the System's third-party actuary. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the OPERS defined benefit plan and the other postemployment plan.

Governmental funds that liquidate pension benefits include: the General Fund, Federal/State Program Fund, Coronavirus (COVID-19) Fund, Preschool for All Program Fund, Multnomah County Library Capital Construction Fund, Road Fund, Animal Control Fund, Willamette River Bridges Fund, Library Fund, Land Corner Preservation Fund, Inmate Welfare Fund, Justice Services Special Operations Fund, Video Lottery Fund, Supportive Housing Fund, Downtown Courthouse Capital Fund, Library Capital Construction Fund, Capital Improvement Fund, Information Technology Fund, Asset Preservation Fund, Health Headquarters Capital Fund, Sellwood Bridge Replacement Fund, Hansen Building Replacement Fund, and Burnside Bridge Fund.

Covered employees are required to contribute 6 percent of their salary to the Plan, but the employer is allowed to pay any or all of the employees' contribution in addition to the required employers' contribution. The County has elected to contribute the 6 percent "pick-up" or \$20,578 of the employees' contribution for the year ended June 30, 2022. This "pick-up" is allocated to each employee's Individual Account Program (IAP).

The County's employer contribution rates for the year ended June 30, 2022 were 20.91 percent for Tier One/Tier Two members, 15.26 percent for OPSRP General Service members, and 19.62 percent for OPSRP Police and Fire members. The County's total contributions, excluding the IAP 6 percent "pick-up," for the year ended June 30, 2022 were:

|                               | Cor | ntributions |
|-------------------------------|-----|-------------|
| Pension benefits              | \$  | 53,934      |
| OPSRP defined benefit         |     | 32,946      |
| Subtotal                      |     | 86,880      |
| Side account                  |     | -           |
| Side account amortization     |     | (12,589)    |
| Side account subtotal         |     | (12,589)    |
| Total defined benefit pension | \$  | 74,291      |
|                               |     |             |
| OPSRP IAP benefits            | \$  | 20,578      |

# Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions

For the fiscal year ended June 30, 2022, the County reported a liability of \$396,720 for its proportionate share of the collective OPERS net pension liability. The collective net pension asset/liability was measured as of June 30, 2021, using the actuarial valuation of December 31, 2019. The County's proportion of the collective net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The County's proportionate share at June 30, 2022 and June 30, 2021 was 3.315 and 3.336 percent respectively, resulting in a decrease of 0.0211 percent.

For the year ended June 30, 2022, the County recognized a total negative pension expense of \$6,833 which was reclassified as revenue. The balance of the County's net pension liability, deferred outflows of resources, deferred inflows of resources, and expense related to the pension as of June 30, 2022 is as follows:

|                                | Pension      |
|--------------------------------|--------------|
| Governmental activities:       |              |
| Net pension asset (liability)  | \$ (363,910) |
| Deferred outflows              | 222,298      |
| Deferred inflows               | (286,786)    |
| Expense related to pension     | (44,427)     |
| Total governmental activities  | (472,825)    |
| Business-type activities:      |              |
| Net pension asset (liability)  | (32,810)     |
| Deferred outflows              | 20,042       |
| Deferred inflows               | (25,857)     |
| Expense related to pension     | 37,594       |
| Total business-type activities | (1,031)      |
| Totals:                        |              |
| Net pension asset (liability)  | (396,720)    |
| Deferred outflows              | 242,340      |
| Deferred inflows               | (312,643)    |
| Expense related to pension     | (6,833)      |
| Totals                         | \$ (473,856) |

The County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  |    |            |              |           | Net       |
|--|----|------------|--------------|-----------|-----------|
|  |    |            |              | D         | eferred   |
|  | Ι  | Deferred   | Deferred     | Ou        | utflows / |
|  | Oı | utflows of | Inflows of   | (In       | flows) of |
| Schedule of Deferred Outflows / (Inflows) of Resources       | R  | esources   | Resources    | Resources |           |
| Differences between expected and actual experience           | \$ | 37,136     | \$ -         | \$        | 37,136    |
| Changes of assumptions                                       |    | 99,311     | (1,044)      |           | 98,267    |
| Net difference between projected and actual earnings on      |    |            |              |           |           |
| investments  |    | -          | (293,688)    | (         | (293,688) |
| Changes in proportionate share                               |    | 476        | (8,589)      |           | (8,113)   |
| Differences between employer contributions and proportionate |    |            |              |           |           |
| share of contributions                                       |    | 31,126     | (9,322)      |           | 21,804    |
| Total (prior to post-measurement date (MD) contributions)    |    | 168,049    | (312,643)    | (         | (144,594) |
| Contributions subsequent to the MD                           |    | 74,291     | -            |           | 74,291    |
| Net deferred outflows / (inflows) of resources               | \$ | 242,340    | \$ (312,643) | \$        | (70,303)  |

The total deferred outflows of resources of \$74,291, were reported related to pension contributions subsequent to the measurement date, and will be recognized as a reduction of the net pension liability in the year ending June 30, 2023.

Though the County has made side account payments in prior years, no side account payments were made during fiscal year ending June 30, 2022. Side accounts are treated as a deferred outflow for contributions in excess of the County's proportionate share of contributions in subsequent years and amortized. There was an amortization of OPERS side accounts for a reduction of \$12,589.

Other amounts reported by the County as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense and a reduction of the net pension liability/collective net pension liability in subsequent years as follows:

|             |     |           |     |                |             |             |     |            |             | ference<br>etween |                    |             |  |

| Total       | \$  | 37,136    | \$  | 98,267         | \$          | (293,688)   | \$  | (8,113)    | \$          | 21,804            | \$                 | (144,594)   |  |

## Actuarial methods and assumptions used in developing total pension liability

The total pension liability based on the December 31, 2019 actuarial valuation was determined using the following actuarial methods and assumptions:

| Valuation Date                    | December 31, 2019  |
|-----------------------------------|--|
| Measurement date                  | June 30, 2021  |
| Experience Study                  | 2018, published July 24, 2019  |
| Actuarial Cost Method             | Entry Age Normal   |
| Actuarial assumptions:            | Lindy rige i tormai  |
| Inflation rate                    | 2.4 percent  |
| Long-Term Expected Rate of Return | 6.9 percent  |
| Discount rate                     | 6.9 percent  |
| Projected salary increases        | 3.4 percent  |
| Cost of Living Adjustments (COLA) | Blend of 2.00% COLA and graded COLA<br>(1.25%/0.15%) in accordance with<br>Moro decision, blend based on service   |
| Mortality                         | Healthy retirees and beneficiaries:  |
|                                   | Pub-2010 Healthy Retiree, sex-distinct,<br>generational with Unisex, Social Security<br>Data Scale, with job category adjustments<br>and set-backs as described in the valuation.  |
|                                   | Active members:  |
|                                   | <ul> <li>Pub-2010 Employees, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.</li> <li><i>Disabled retirees:</i></li> <li>Pub-2010 Disabled Retiree, sex-distinct, generational with Unisex, Social Security Data Scale, with job category adjustments and set-backs as described in the valuation.</li> </ul> |

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2018 Experience Study, which reviewed the four year period ended on December 31, 2018.

## Discount rate

The discount rate used to measure the total pension liability of the Plan was 6.9 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

GASB 68 generally requires that a blended discount rate be used to measure the total pension liability. The long-term expected return on plan investments may be used to discount liabilities to the extent that the plan's fiduciary net position (fair value of assets) is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/Aa or higher) municipal bond rate must be used for periods where fiduciary net position is not projected to cover benefit payments and administrative costs.

# Sensitivity analysis of the County's proportionate share of the net pension liability to changes in the discount rate

The following presents the County's proportionate share of the net pension liability (asset) calculated using the discount rate of 6.9 percent, as well as what the County's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.9 percent) or 1-percentage-point higher (7.9 percent) than the current rate:

|                                     | 1%         | Current       | 1%        |
|-------------------------------------|------------|---------------|-----------|
|                                     | Decrease   | Discount Rate | Increase  |
|                                     | 5.9%       | 6.9%          | 7.9%      |
| County's proportionate share of the |            |               |           |
| net pension liability               | \$ 779,062 | \$ 396,720    | \$ 76,837 |

## Long-term expected rate of return

To develop an analytical basis for the selection of the investment return assumption, in July 2021, the OPERS Board reviewed long-term real return outlooks developed by Milliman's capital market outlook team for each of the asset classes in which the plan is invested based on the Oregon Investment Council's (OIC) long-term target asset allocation, and combined those real return outlooks with a 2.4 percent inflation assumption to develop nominal expected returns. Since the OIC uses broader asset classes than those for which Milliman's investment professionals develop long-term assumptions, Milliman received assistance from Meketa, OIC's primary consultant, to map each OIC asset class to the classes shown below.

Each asset class assumption is based on a consistent set of underlying assumptions, including the inflation assumption. These assumptions are not based on average historical returns, but instead are based on a forward-looking capital market economic model. Based on the target allocation and investment return assumptions for each of the asset classes, the model's 50th percentile output is developed as follows:

|  |            | 20-Year    |
|--|------------|------------|
|  |            | Annualized |
|  | Target     | Geometric  |
| Asset Class                            | Allocation | Mean       |
| Global Equity                          | 30.62%     | 5.85%      |
| Private Equity                         | 25.50%     | 7.71%      |
| Core Fixed Income                      | 23.75%     | 2.73%      |
| Real Estate                            | 12.25%     | 5.66%      |
| Master Limited Partnerships            | 0.75%      | 5.71%      |
| Infrastructure                         | 1.50%      | 6.26%      |
| Commodities                            | 0.63%      | 3.10%      |
| Hedge Fund of Funds - Multistrategy    | 1.25%      | 5.11%      |
| Hedge Fund Equity-Hedge                | 0.63%      | 5.31%      |
| Hedge Fund – Macro                     | 5.62%      | 5.06%      |
| US Cash                                | -2.50%     | 1.76%      |
| Portfolio - Net of Investment Expenses | 100.00%    | 6.31%      |
| Assumed Inflation - Mean               |            | 2.40%      |

## **OPSRP Individual Account Program**

The defined contribution pension plan (called the Individual Account Program or IAP) is provided to all members or their beneficiaries who are OPERS or OPSRP eligible. State statutes require covered employees to contribute 6 percent of their annual covered salary to the IAP plan effective January 1, 2004. Multnomah County has elected to pay all of the employees' required IAP contributions. Although OPERS members retain their existing OPERS account, all current member contributions are deposited into the member's IAP account. The liability outstanding at June 30, 2022 was \$1,070 for the amount associated with the final year-end payroll and is included in the net pension liability in the *Statement of Net Position*.

<u>Pension benefits.</u> The IAP member becomes vested on the date the employee account is established or on the date when the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

<u>Death benefits.</u> Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

<u>Record keeping.</u> OPERS contracts with VOYA Financial to maintain IAP participant records.

# **Deferred Compensation Plan**

<u>Plan description.</u> The County offers employees a voluntary deferred compensation plan (the Plan) administered by the County. The Plan is a defined contribution plan created in accordance with Internal Revenue Code Section 457. The County's deferred compensation committee has the authority to establish or amend the plan provisions. The Plan is available to any individual who is an elected official of the County or who is employed by the County in a regular position after completing 30 days of service, and permits them to defer a portion of their salary until future years.

Participation in the plan is voluntary. Contributions are made through salary withholdings from participating employees up to the amounts specified in the code. No contributions are required from the County.

Amounts deferred are not available to employees until termination, retirement, death, or unforeseeable emergency. All assets and income of the Plan are held in trust for the exclusive benefit of the participants and their beneficiaries. No Plan assets have been used for purposes other than the payment of benefits. At June 30, 2022, the amount deferred and investment earnings thereon, adjusted to fair value, amount to \$563,416. The amounts accumulated under the Plan including investment earnings, are excluded from the financial statements of the County. Though the Plan is unaudited, private rulings by the Internal Revenue Service have been positive.

## E. Tax abatements

## Tax abatements granted by other governments

Seven tax abatement programs administered by outside municipalities impact the County's property tax revenues.

## Low Income Rental Housing Program (ORS 307.540 to 307.548)

The State of Oregon's Low Income Rental Housing program (LIRH) provides property tax abatements to encourage nonprofit organizations to help fill the need for low-income housing. The LIRH program allows a city or county to abate property taxes for low-income rental housing owned or being purchased by a nonprofit corporation. The property must be in use as housing or must be held for that purpose. Qualifying nonprofit corporations must be exempt from federal income tax [Section 501(c)(3) or (4) of the Internal Revenue Code] and upon liquidation distribute remaining assets to other tax-exempt charitable organizations or the State of Oregon. The nonprofit corporation must certify that the income level of each renter is at or below sixty percent of area median income, which is determined by the State Housing Council based on information from the U.S. Department of Housing and Urban Development. In addition, the nonprofit corporation must describe how the abatement will benefit project residents. This program will sunset as of June 30, 2027 (ORS 307.541).

#### Enterprise Zone Programs (ORS 285C.050-.255)

The State of Oregon's Enterprise Zone Programs (EZ) allow for property tax abatements on qualified real and personal property owned or leased and newly placed into service by a qualified business in an enterprise zone. Property taxes on qualified property are abated for three years; however, the abatement period may be increased to a total of four or five consecutive years.

In order to qualify for the abatement, the business must meet all of the conditions outlined in ORS 285C.135 and 285C.200, such as engaging in eligible business operations and increasing zone employment by the greater of one additional job or 10 percent. In order to be eligible, property of the business must satisfy applicable timing, lease, location and minimal cost requirements, described in ORS 285C.180. Property is disqualified if it is used for an ineligible activity, such as retail operations, or if the business substantially curtails operations or closes during the abatement period. If property becomes disqualified, prior abated taxes are billed for payment.

## New Housing Homebuyer Opportunity Limited Tax Exemption (ORS 307.651 to 307.687)

The City of Portland, Oregon's Homebuyer Opportunity Limited Tax Exemption (HOLTE) program abates the real property taxes billed on the residential improvement value for a 10-year period, while the land remains taxable. At the end of the 10-year abatement period, the taxes due will reflect the full assessed value of the property. Homes approved for the HOLTE program must sell for less than the annually established price cap to homebuyers who will live in the homes and meet program income requirements. There is a 100-unit cap on the number of new applications approved each year, although the cap does not apply to applications for properties including long-term affordability covenants.

#### Core Area Multi-Unit & Transit Oriented Development-GR/PDX (ORS 307.600 to 307.637)

This State of Oregon's Core Area Multi-Unit program (CAMU) provides property tax abatements to stimulate the construction of rental housing in the core areas of Oregon's urban centers to improve the balance between the residential and commercial nature of those areas. The CAMU program also encourages city programs emphasizing the development of vacant or underused sites in the core areas with rental rates accessible to a broad range of the general public. The CAMU program provides property tax abatements for multiple family rental housing (excluding land) in core, light rail station, and transit oriented areas for up to ten successive years. The abatement does not include the land or any improvements not part of the multiple unit housing, but may include parking constructed as part of the multiple unit housing construction, addition or conversion. In the case of a structure to which improvements are added or the structure is converted, only the addition or conversion value is abated. This program will sunset as of June 30, 2032.

#### Residential Rehabilitation Property (ORS 308.450 to 308.481)

The Residential Rehabilitation Housing Program (RRH) encourages the rehabilitation of existing units in substandard condition and the conversion of transient accommodations to permanent residential units. The RRH program also supports the conversion of nonresidential structures to permanent residential units in order to make these units sound additions to the housing stock of the state.

A city or county may abate property taxes on any value that is attributed to the rehabilitation of housing or conversion of buildings for housing (single or multifamily) for 10 years. If the housing is at least 25 years old at the time of application, it may qualify if it has undergone rehabilitation during or after September 13, 1975, and before January 1, 2017. The rehabilitation must have cost at least five percent of the assessed value of the property before rehabilitation. Regardless of the age of the housing, it may qualify if it has undergone rehabilitations that cost at least 50 percent of the assessed value of the property before rehabilitation.

In addition, the property must satisfy these four conditions:

- Before rehabilitation, fail to comply with one or more standards of applicable building or housing codes
- Be residential units of which at least 50 percent are for non-transient occupants
- If owner-occupied, be in a distressed area as designated by the city or county
- Approved for abatement by the city or county.

A property's value is frozen at its value before rehabilitation for 10 years. However, if the owners of the property enter into in a low-income rental assistance contract with a government agency during this time, and if the contract expires after the ten-year period, the property value remains frozen through the term of the contract. Generally, only city or county taxes on qualified property are abated. However, if districts representing at least 51 percent of the taxes on the property pass resolutions supporting the abatement, then the abatement applies to the taxes of all districts. This program will sunset as of June 30, 2027, however there are currently no properties under this program.

## Historic Property (ORS 358.475 to 358.565)

The Historic Property Program allows qualified historic property to be specially assessed at a frozen value for 10 years. The specially assessed value is the assessed value at the time of application for abatement. The assessed value cannot exceed the assessed value at the time of application; increased value from improvements or inflation is exempt for 10 years. Applications for special assessment must be approved by the State Historical Preservation Officer. Applicants must pay a fee and file a plan for proposed rehabilitation and maintenance.

Property is dropped from this special assessment at the end of the 10-year period, but can qualify for a second 10-year period if reapplication is approved and the local government (city, or county if not located in a city) does not prohibit it (by resolution). Approval of reapplication requires plans for significant investment in seismic upgrades, energy conservation, or disability access. Following the second 10-year period, the property can no longer qualify.

If, during the course of a special assessment term, the historic property is disqualified, either at the owner's request or from failure to meet the requirements, the tax savings from having a frozen value must be repaid. The additional tax and interest is equal to the sum of the tax benefit received for each year of special assessment as historic property. In addition, a penalty of 15 percent of the back taxes and interest owed is levied upon the disqualified property owner. However, if the property is destroyed or substantially altered by acts of nature or other events for which the owner is not responsible, or transferred to a tax-exempt owner, or transferred to a new owner who expressly assents to and continues to implement the preservation plan in effect, no additional tax or penalty is charged.

Senate Bill 192, passed in 2009, made several changes to the historic property tax special assessment program including:

- Special assessment period reduced from 15 years to 10;
- As part of a submitted preservation plan, applicants must commit to expending ten percent of the property's real market value (at time of first year's special assessment) within the first five years of special assessment;
- Property owners must now submit progress reports concerning the original preservation plan to the State Historic Preservation Officer in the third, sixth, and ninth years of special assessment;
- The application fee was reduced from one-third of one percent of real market value to one-tenth of one percent of the assessed value of the property at time of application;
- Qualifying properties no longer have to be open to public sight-seeing at least one day per year;
- Restricted tax benefits for converting historic property to condominium use.

## Riparian Habitat Land (ORS 308A.350 to 308A.383)

The State of Oregon Riparian Habitat Land program specifies that property taxation for property designated as riparian land by the State Department of Fish and Wildlife is abated. Designated riparian land must be privately owned streambeds, and the land under adjacent vegetation influenced by the proximity to water, but which does not extend more than 100 feet from the stream bank.

The following types of designated riparian land qualify for the abatement:

- Lands located outside urban growth boundaries (UGB) and zoned as forest or agricultural (including range land) in compliance with statewide planning goals.
- Lands that were outside a UGB and zoned as forest or agricultural (including range land) as of July 1, 1997, but are no longer outside a UGB or so zoned, qualify. The landowner must apply for riparian designation within five years of the change.
- Lands within city and urban growth boundaries may qualify if the city and county authorize the abatement (ORS 308A.360).

The Department of Fish and Wildlife can designate land as riparian habitat land if the owner has developed and implemented a plan for continued protection of the land using approved rehabilitation techniques. The department cannot approve more than 200 miles (increased from 100 miles in 1997) of private stream bank in any one county per year.

The abatement continues until withdrawn by the owner or use is incompatible with riparian use. Upon withdrawal or disqualification, an additional tax equal to the sum of the tax benefit for each year abated (up to five years) is due.

The abatement value is based on farm use assessed value as the alternative to riparian abatement. When land is specially assessed as farm, forest, or open space before riparian designation, any additional tax for a change in designation to riparian is abated.

For the fiscal year ended June 30, 2022, Multnomah County abated property taxes totaling \$19,651 under these programs:

| Tax Abatement Programs                                   | F    | cal Year<br>Ended |

#### F. Subsequent events

#### **Debt Issuance Activity**

On September 30, 2022, Multnomah county closed on a Full Faith and Credit Financing Agreement, Series 2022 in the amount of \$25,095. The Financing Agreement was a direct bank placement loan and will fully mature in ten years (June 1, 2032). Interest rate on the agreement will be 3.13 percent per annum. Multnomah County Board of County Commissioners approved financing on August 4, 2022 through Resolution 2022-074. The financing will fund 30 percent of the design and right-of-way phase of the Earthquake Ready Burnside Bridget Project. The Earthquake Ready Burnside Bridge Project will create a seismically resilient Burnside Street lifeline crossing of the Willamette River that would remain operational and accessible immediately following the next Cascadia Subduction Zone earthquake. A seismically resilient Burnside Bridge would support the region's ability to provide rapid and reliable emergency response. The project includes the following phases: National Environmental Policy Act (NEPA), Design, Right-of-Way, Utility, and Construction. Debt service on the obligation will be completely supported by revenues from existing vehicle registration fees.

#### Paid Leave Oregon

On January 1, 2023, the State of Oregon is rolling out a new paid leave program ("Paid Leave Oregon") for employers. The program allows employees in Oregon to take paid time off for certain events (health and safety) that happen in an individual's life, or in a family member's life, that keeps them from working. The program rules and administration are run through the State of Oregon. Starting in September 2023, Paid Leave Oregon will serve most employees in Oregon by providing paid leave for events that qualify:

Family Leave - to care for a family member with a serious illness or injury, or to bond with a new child after birth, adoption or foster care placement.

Medical Leave - during one's own serious health condition.

Safe Leave - for survivors of sexual assault, domestic violence, harassment, or stalking.

The program will be funded by contributions from both the employer and employees. Payments will be made by Multnomah County to the Oregon Employment Department. Employees and employers will pay contributions to support Paid Leave Oregon starting on January 1, 2023. Contributions will be used to pay for paid leave benefits for employees, grants to help small employers when their employees use paid leave, and program administration. Employees pay 60 percent of the set contribution rate and employers pay 40 percent. Contributions are a payroll tax and will be included in combined payroll forms starting in January 2023. Employers will deduct employees' paid leave contributions from paychecks. Employers will then report wages and pay both the employee and employer contributions through the combined payroll reporting process. Contributions are required for employees who primarily work in Oregon, even if employees live in another state or occasionally work in another state. The only exceptions are employees that live and work 100 percent in another state.

#### Oregon Public Employees Retirement System (OPERS) – Employer Incentive Fund (EIF)

Multnomah County participated in the Oregon PERS EIF match program. Under the program established by SB1049, PERS side accounts established after June 2, 2018 qualified for a 25 percent match up to fund availability (limited balance). The County established two \$25 million side accounts after June 2, 2018. The County received a full match of \$6.25 million in a prior fiscal year but more recently received a full match on the second side account in the amount of \$6.25 million effective July 1, 2022. The latest match payment will provide rate offset beginning July 1, 2024.

#### Labor Agreement Status

Seven labor contracts expired on June 30, 2022, below is a status of each contract as of November 2022. All seven contracts have tentative agreements pending ratification or have been ratified by County Board as of November 2022.

| Labor Contract  | <b>Current Status</b>  | <b>Effective Dates</b>       |
|---|--|------------------------------|
| Oregon Nurses Association (ONA)   | Agreement reached, County Board  | July 1, 2022 - June 30, 2025 |

\*This schedule is presented to illustrate the requirements to show information for 10 years. However, until a full 10-year trend had been compiled, information is presented only for years for which the required supplementary information is available.

\*\*As of the measurement date, which is one year in arrears.

#### Notes to the Schedule:

There are no assets accumulated in a trust that meets the criteria of GASB codification P22.101 or P52.101 to pay related benefits for the County's other postemployment plan.

<u>Changes in assumptions.</u> The discount rate was changed to match the yield on a 20-year general obligation bond.

Per-person health care cost trends from 2021 to 2022 were updated so that the projected 2022 premium amounts match the actual 2022 premiums.

The amounts presented for each fiscal year were actuarial determined at December 31 and rolled forward to the measurement date.

\*The schedule is presented to illustrate the requirements to show information for 10 years. However, until a full 10-year trend has been compiled, information is presented only for the years for which the required supplementary information is available.

\*\* Excess contributions represent contributions to side accounts which provide rate relief.

## **III.** Notes to required supplementary information - Employee retirement systems, pension plan:

#### State of Oregon Public Employees Retirement System:

#### Changes in acturarial methods and assumptions

A summary of key changes implemented since the December 31, 2019 valuation are described briefly below. Additional details and a comprehensive list of changes in methods and assumptions can be found in the 2018 Experience Study for the System, which was published in July 2019, and can be found at: https://www.oregon.gov/pers/Documents/Financials/Actuarial/2021/2020-Experience-Study.pdf

#### Allocation of liability for service segments:

For purposes of allocating Tier One/Tier Two members' actuarial accrued liability among multiple employers, the valuation uses a weighted average of the Money Match methodology and the Full Formula methodology used by PERS when a member retires. The weights are determined based on the prevalence of each formula among the current Tier One/Tier Two population. For the December 31, 2018 and December 31, 2019 valuations, the Money Match was weighted 10 percent for general service members and zero percent for police and fire members. For the December 31, 2020 valuation, this weighting has been adjusted to 9 percent for general service members and 1 percent for police and fire members, based on a projection of the proportion of the liability attributable to Money Match benefits at those valuation dates.

#### Changes in economic assumptions:

<u>Administrative expenses</u>. The administrative expense assumptions were updated to \$59 million per year combined for Tier 1/Tier 2 and OPSRP. Previously these were assumed to be \$32.5 million per year and \$8 million per year, respectively.

<u>Healthcare cost inflation</u>. The healthcare cost inflation for the maximum RHIPA subsidy was updated based on analysis performed by Milliman's healthcare actuaries. This analysis included the consideration of the excise tax scheduled to be introduced by the Affordable Care Act. The Further Consolidated Appropriations Act passed in December 2019 repealed the excise tax, and as a result no adjustment is required for the proposed trend assumption. It is possible that the COVID-19 pandemic could have a material impact on the projected costs.

#### Changes in demographic assumptions:

There were no changes in demographic assumptions.

## NONMAJOR SPECIAL REVENUE FUNDS

These funds are used to account for and report the proceeds of specific revenue sources that are restricted, committed or assigned to expenditures for specified purposes other than debt service or capital projects. A special revenue fund can be used if 30 percent or more of the resources recorded in the fund are either restricted or committed as defined in the adopted Financial and Budget Policies. Funds included are:

- **Road Fund** accounts for revenues primarily received from the State of Oregon motor vehicle fees and County gasoline taxes. Expenditures consist of construction, repair, maintenance, and operation of County highways and roads.
- **Bicycle Path Construction Fund** accounts for revenue and expenditures for bicycle paths. Revenue is one percent of State motor vehicle fees.
- **Recreation Fund** accounts for State revenues and the pass-through disbursements to Metro for the operation of parks.
- **County School Fund** accounts for forest reserve yield revenues from the State of Oregon which are apportioned to the County school districts.
- Animal Control Fund accounts for revenues from dog and cat licenses, control fees and transfers to the General Fund which are utilized for animal control activities.
- Willamette River Bridges Fund accounts for capital grants and contributions for County bridges, motor vehicle fees, and gasoline tax proceeds transferred from the Road Fund for bridge inspections and maintenance.
- Library Fund accounts for the public library operations. Principal source of revenue is reimbursement from library district.
- Special Excise Tax Fund accounts for transient lodging tax and motor vehicle tax collections to be used for convention center expenditures.
- Land Corner Preservation Fund accounts for the collection of fees on all recordings of real property transactions and surveying activity. The fund makes expenditures to maintain public land corners.
- Inmate Welfare Fund accounts for the proceeds from the sale of commissary items. Expenditures are made for supplies for inmates in County jails.
- Justice Services Special Operations Fund accounts for revenues and expenditures dedicated to justice services in the community justice department, district attorney's office, and sheriff's office.
- **Oregon Historical Society Levy Fund** accounts for the five-year local option levy revenues collected on behalf of the Oregon Historical Society and four East County Historical Societies. The funding is passed through to support the history library, museum and educational programs.
- Video Lottery Fund accounts for revenues received from the Oregon State Lottery. Expenditures are restricted to furthering economic development per House Bill 3188 passed during the Regular Session of the 76th Oregon Legislative Assembly.
- Library District Fund accounts for the revenues and expenditures of the Multnomah Library District. The primary source of revenue is property tax collections related to the permanent rate passed by the voters of Multnomah County for the creation of the Multnomah County Library District on July 1, 2013. Additional sources of revenue include fines and grants. The expenditures are made pursuant to an intergovernmental agreement for library services provided to Multnomah County Library. Library operations will continue out of the Library Fund, with periodic reimbursements from the Library District Fund to the Library operations fund per the intergovernmental agreement.
- **Supportive Housing Fund** accounts for proceeds from the disposition of the Wapato Facility. Funds are earmarked for use in providing housing services and funding comprehensive housing stabilization strategies.

### **DEBT SERVICE FUNDS**

These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for the principal, interest, and fees associated with servicing debt. Debt service funds should be used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds. Upon the repayment of principal and interest, any receipts remaining in the fund are returned to the original jurisdiction or County General Fund. Funds included are:

- Capital Debt Retirement Fund accounts for loans and full faith credit principal and interest payments for buildings and major pieces of equipment acquired by the issuance of Certificates of Participation or other financing arrangements. Revenues consist of service reimbursements and cash transfers from other County funds.
- General Obligation Bond Fund accounts for the payment of principal and interest on General Obligation (GO) Bonds. The GO Bond Fund accounts for Series 2021 Library Bonds to expand, renovate, construct library branches/facilities, and improve safety. Proceeds are derived from property taxes and interest earned on the cash balances.
- **PERS Bond Sinking Fund** accounts for payment of principal and interest payments on pension obligation bonds that were issued to fund the County's unfunded actuarial liability with OPERS. Revenues are derived from charge backs to departments based on the departmental payroll costs.

# **CAPITAL PROJECTS FUNDS**

These funds account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities or other capital assets. Capital outlays financed from general obligation bond proceeds should be accounted for in capital project fund. Upon completion of a capital project that required financing, any remaining cash is transferred to the Debt Service Fund to retire debt associated with the construction or acquisition of the designated capital assets or to the originating source of the funds. Funds included are:

#### **Major Fund**

• Multnomah County Library Capital Construction Fund - accounts for expenditures for the planning, renovation, and construction of certain library facilites as approved by Multnomah County voters on November 3, 2020, as Ballot Measure 26-211. Resources are derived from debt issuance. (Major funds are reported in Fund Financial Statements).

#### **Nonmajor Funds**

- **Downtown Courthouse Capital Fund** accounts for the planning, land acquisition, and construction of a new County courthouse. Construction will be funded by a combination of County General Fund and debt issuance proceeds.
- Asset Replacement Revolving Fund accounts for expenditures for small capital assets/equipment that might otherwise need to be acquired through the issuance of debt. Resources in the fund are derived from one-time revenue. Expenditures will be reimbursed over time by loan payments charged to the budgets of programs for which the assets are purchased.
- Financed Projects Fund accounts for purchases and construction of capital acquisition by entering into lease/purchase agreements.
- Library Capital Construction Fund accounts for the capital improvement project fees collected from County libraries to provide for needed capital projects for the Library District.
- **Capital Improvement Fund** accounts for the proceeds from the sale of County property and expenditures made to improve County property.
- Information Technology Capital Fund accounts for the expenditures for information technology capital projects. Resources are derived from transfers from the Information Technology Internal Service and General Funds.
- Asset Preservation Fund accounts for the expenditures for building scheduled maintenance projects such as boiler replacement, carpet replacement, roof replacement, etc. Resources are derived from an asset preservation fee that is part of the facilities charges assessed to building tenants.
- Health Headquarters Capital Fund accounts for the construction and relocation of current Department operations to a new location. The location has been strategically selected to better serve the vulnerable citizens of the County. Funding sources are expected to be met by a combination of County General Fund, Prosper Portland, and issuance of debt.
- Sellwood Bridge Replacement Fund accounts for expenditures for construction and replacement of the Sellwood Bridge. Resources are derived from Vehicle Registration Fees, City of Portland, Clackamas County, the State of Oregon, and a request for federal funds, debt issuance or other financing proceeds.
- Hansen Building Replacement Fund accounts for planning, relocation, and construction of a new County Sheriff's Office operation facility. Resources are derived from debt issuance or other financing proceeds.
- Library District Capital Construction Fund accounts for revenues transferred from the Multnomah County Library District General Fund. Revenues are transferred according to financial policies adopted by the Multnomah County Library District Board. Expenditures are dedicated to Library District capital projects, as defined by the Library District adopted financial policies. Normal Library Operations will continue out of the Library Fund.
- **Burnside Bridge Fund** accounts for expenditures for rehabilitating or replacing the Burnside Bridge. Resources are derived from Vehicle Registration Fees. It is anticipated that a consortium of federal, state, and regional agencies, including Multnomah County, will fund the future environmental study, final design, and construction efforts.
- Behavioral Health Resource Center Capital Fund accounts for expenditures for the planning and construction of a behavioral health resource center. The principal resources in the fund are derived from County General Fund.
- Justice Center Capital Fund accounts for expenditures for various capital projects within the Justice Center over a 5-7 year period. Initial expenditures will be associated with duct and electrical system work/upgrades. Resources are derived from County General Fund and other local government support.

# NONMAJOR INTERNAL SERVICE FUNDS

These funds account for activities and services performed primarily for other organizational units within the County. Charges to the County agencies are calculated to recover costs and maintain capital. The County accounts for certain expenditures of the Internal Service Funds for budgetary purposes on the modified cash basis of accounting. For financial reporting purposes, the accrual basis of accounting is used. Such differences relate to the methods of accounting for depreciation and capital outlay. Funds included are:

- **Risk Management Fund** accounts for internal service reimbursements, revenues and expenses associated with the County's insurance requirements and administration of workers' compensation, general liability, tort, auto, property, employee medical, dental, vision, life and long-term disability claims and insurance, employee benefits, health promotion, other postemployment benefit obligations, and unemployment insured and self-insured programs pursuant to MCC 7.101.
- Fleet Management Fund accounts for internal service reimbursements, revenues and expenses associated with the administration and operation of the County's motor vehicle fleet.
- Fleet Asset Replacement Fund -accounts for internal service reimbursements, revenues and expenses associated with the replacement of County owned vehicles and equipment.
- Information Technology Fund accounts for internal service reimbursements, revenues and expenses associated with the administration and operation of the County's data processing and telephone service operations. This fund includes replacement and upgrade of personal computers, standard software suite common to all County users and telephone equipment.
- Mail Distribution Fund accounts for internal service reimbursements, revenues and expenses associated with the administration and operation of the County's U.S. Mail, internal distribution and delivery, and records management.
- Facilities Management Fund accounts for internal service reimbursements, revenues and expenses associated with the administration and operation of the County's property management, custodial, maintenance and leasing of all County-owned and leased property.

## COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES FIDUCIARY FUNDS

#### **Custodial Funds**

These funds account for resources received and held by the County in a purely custodial capacity. Disbursements from these funds are made in accordance with the agreement or applicable legislative enactment for each particular fund. The accrual basis of accounting is used to record transactions in the custodial funds. The custodial funds are:

- Client Custodian Funds accounts for receipts and disbursements for individuals who are not capable of handling their own financial affairs.
- **Property Tax Funds** accounts for the collection and disbursement various property tax accounts for governmental entities located in Multnomah County.
- **Department of County Management Custodial Funds** accounts for the collection and disbursement of various monies held by Multnomah County in a fiduciary capacity.
- Multnomah County Sheriff Custodial Funds accounts for receipts and disbursements for individuals who are incarcerated.
- Visitors' Facilities Trust Fund accounts for collection and disbursement of motor vehicle rental tax and transient lodging tax used for visitor facilities.
- MCSO Criminal Forfeitures Fund accounts for cash transactions subject to forfeiture under 1989 Oregon Law, Chapter 791.

## STATISTICAL INFORMATION SECTION (UNAUDITED)

This part of Multnomah County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health. This section contains the following tables and information:

- **Financial Trends** These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.
- **Revenue Capacity** These schedules contain information to help the reader assess the County's most significant local revenue sources: personal income tax, property tax, and business income tax.
- **Debt Capacity** These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.
- **Demographic and Economic Information** These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.
- **Operating Information** These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

**Sources:** Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial report for the relevant year.

(1) The overlapping debt calculation was performed by Municipal Debt Advisory Commission as of June 30, 2022.

(2) Gross Property-tax Backed Debt includes all General Obligation (GO) bonds and Full Faith & Credit bonds, including premiums, lease obligations, and loans payable.

(3) Net Property-tax Backed Debt is Gross Property-tax Backed Debt less Self-supporting Unlimited Tax GO and less Self-supporting Full Faith & Credit debt.

(4) Percent overlapping equals the RMV of the overlapping area of the overlapping district divided by the RMV of the County.

(a) Community Service general elections are held in November on even years.

(b) Total circulation as of 2012.

(c) Cardholder count is lower due to correction of a long-standing overcount.

(d) Library satisfaction is from a patron survey beginning in 2012 (not taken in 2020 or 2021). Satisfaction rating is percent of respondents that found library materials of interest starting in fiscal year 2004.

(e) Website visits 2015 and prior include catalog visits

# AUDIT COMMENTS AND DISCLOSURES

• Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Oregon Minimum Audit Standards* 

(This page intentionally left blank.)

# **Report of Independent Auditors Required by Oregon State Regulations**

The Board of Commissioners Multhomah County, Oregon

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, the aggregate remaining fund information, and the respective budgetary comparisons for the General Fund, the Federal/State Program Fund, the Coronavirus (COVID-19) Response Fund, and the Preschool for All Program Fund of Multnomah County, Oregon (Multnomah County) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Multnomah County's basic financial statements, and have issued our report thereon dated December 2, 2022. Our report includes a reference to other auditors who audited the financial statements of The Library Foundation, a discretely presented component unit, as described in our report on Multnomah County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

## Compliance

As part of obtaining reasonable assurance about whether Multnomah County's basic financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, including provisions of Oregon Revised Statutes (ORS) as specified in Oregon Administrative Rules (OAR) 162-010-0000 to 162-010-0330, of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to, the following:

- Accounting records and internal control
- Public fund deposits
- Indebtedness
- Budget
- Insurance and fidelity bonds
- Programs funded from outside sources

- Highway funds
- Investments
- Public contracts and purchasing

In connection with our testing, nothing came to our attention that caused us to believe Multnomah County was not in substantial compliance with certain provisions of laws, regulations, contracts, and grant agreements, including the provisions of ORS as specified in OAR 162-010-0000 through 162-010-0330 of the Minimum Standards for Audits of Oregon Municipal Corporations.

## **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Multnomah County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Multnomah County's internal control. Accordingly, we do not express an opinion on the effectiveness of Multnomah County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that here is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

# **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of the Board of Commissioners and management of Multhomah County and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* 

The Board of Commissioners Multnomah County, Oregon

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, the aggregate remaining fund information and the respective budgetary comparisons for the General Fund, the Federal/State Program Fund, the Coronavirus (COVID-19) Response Fund, and the Preschool for All Program Fund of Multnomah County, Oregon (Multnomah County) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Multnomah County's basic financial statements, and have issued our report thereon dated December 2, 2022. Our report includes a reference to other auditors who audited the financial statements of The Library Foundation, a discretely presented component unit, as described in our report on Multnomah County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

## **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Multnomah County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Multnomah County's internal control. Accordingly, we do not express an opinion on the effectiveness of Multnomah County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Multnomah County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Report of Independent Auditors on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

The Board of Commissioners Multnomah County, Oregon

#### **Report on Compliance for Each Major Federal Programs**

#### **Opinion on Each Major Federal Program**

We have audited Multnomah County, Oregon's (Multnomah County) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Multnomah County's major federal programs for the year ended June 30, 2022. Multnomah County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Multnomah County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

#### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Multnomah County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Multnomah County's compliance with the compliance requirements referred to above.

#### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Multnomah County's federal programs.

## Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Multnomah County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Multnomah County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards,* and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Multnomah County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Multnomah County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Multnomah County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control Over Compliance**

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that weaknesses. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a significant deficiency.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, in internal control over compliance is a deficiency, or a combination of deficiencies, in corrected, or a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2022-001 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Multnomah County's response to the internal control over compliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. Multnomah County's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## Note A – General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all Federal awards programs of Multnomah County, Oregon (the County) for the year ended June 30, 2022. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of the Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal awards* (Uniform Guidance). The County's reporting entity is defined in Note 1 to the County's June 30, 2022 basic financial statements.

## Note B – Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the modifiedaccrual basis of accounting, as described in Note 1 to the County's basic financial statements. Expenditures reported on this schedule are recognized following the cost principles in the Uniform Guidance, where certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available. The County has elected not to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

The Highway Planning and Construction grant, Federal Assistance Listing Number 20.205, was reported on the cash basis due to the nature of this award. The Schedule provides the summary of expenditures of federal awards by program or program cluster (Federal Assistance Listing Number), by State Agency, if applicable, and by detailed pass through agency, if applicable. Federal Assistance Listing Numbers are from the Catalog of Federal Domestic Assistance published by the Office of Management and Budget and the General Services Administration.

# Note C – Relationship to Basic Financial Statements

Federal financial assistance revenues reported in the County's basic financial statements are included with operating grants and contributions.

# Note D - Non-cash and Non-federal Awards

The accompanying Schedule of Expenditures of Federal Awards includes two non-cash awards.

An award from the Oregon Department of Education provides food donations (ALN #10.555 - Commodity Supplemental Food Program) for the Juvenile Detention Center. The value of the food is determined by the grantor: \$11,587. This amount is included in the total program value reported on the Schedule of Expenditures of Federal Awards of \$70,797.

An additional award from the Department of Health and Human Services is in the form of immunization vaccines (ALN #93.268 – Childhood Immunization Grants). The value of the non-cash portion of the Childhood Immunization Grant award was determined by the granting agency and was determined as non-federal funds. The amount expended and advanced at June 30, 2022 is calculated on a proportionate basis; \$2,341,167. This amount is disclosed only and is not included in the Schedule of Expenditures of Federal Awards.

## Section II - Financial Statement Findings

None noted.

## Section III – Federal Award Findings and Questioned Costs

#### FINDING 2022-001 – Allowable Costs – Significant Deficiency in Internal Controls over Compliance

| CFDA   | Federal Agency/Pass-through                       | Award Number | Award | Questioned       |
|--------|---|--------------|-------|------------------|
| Number | Entity - Program Name                             |              | year  | Costs            |
| 21.023 | COVID-19 – Emergency Rental<br>Assistance Program | N/A          | 2022  | None<br>Reported |

*Criteria or specific requirement:* Performance and financial monitoring and reporting done post federal award must comply with the post federal award requirements at 45 CFR part 75, subpart D.

*Condition:* We were unable to obtain evidence supporting the timely submission of monthly special reporting required under the program. This did not extend to the quarterly reporting required under the program.

**Context:** Of the 12 monthly reports available for testing, we randomly selected three reports filed during fiscal year 2022 noting there was no support available to substantiate that the reports were submitted timely by the County.

*Effect:* There could have been delays in required monthly reporting to Treasury.

Cause: There is currently no system in place to track monthly reporting deadlines and submissions.

Repeat finding: No.

**Recommendation:** We recommend the County work to establish an internal tracking system to memorialize reporting deadlines and track the submission of required reports under the program.

Views of responsible officials: Management agrees with the finding and auditor recommendation.

December 2, 2022

As required by OMB Uniform Guidance, we have provided below our response and corrective action plan addressing the findings in the "Report on Federal Awards in Accordance with the OMB Uniform Guidance" for the year ended June 30, 2022.

# Management's View and Corrective Action Plan to Current Year Audit Findings and Questioned Costs

# Finding #2022-001: Allowable Costs - Significant Deficiency in Internal Controls over Compliance

Management agrees with the finding and auditor's recommendation. Going forward an internal control will be in place to retain a copy of each report submitted with evidence of required submission date when it is not maintain within the third party reporting system. This will be resolved by June 30, 2023.

The Deputy CFO will be responsible for ensuring that the correcting actions take place as described. If you have any questions of require additional information, please feel free to contact me at (503-988-7966) or at <u>cora.bell@multco.us</u>.

Sincerely,

Bel

Cora Bell Deputy CFO

# Summary Schedule of Prior Audit Findings For the Fiscal Year Ending June 30, 2021

## Finding #2021-001: Allowable Costs – Significant Deficiency in Internal Controls over Compliance

Federal Agency: Department of Health and Human Services

Federal Program: COVID-19 HIV Emergency Relief Project Grants

**Condition:** An instance was identified in which a grant was overcharged for an employee's premium pay in July 2020. This was a repeat finding. As a result of the identification of the finding in the 2020 audit, the County worked to implement a fix within Workday to correct this issue which was completed in October 2020.

**Recommendation:** It was recommended that the County work with Workday to identify a solution removing the duplicate premium pay.

**Status of Finding**: Resolved, the County's HCM Workday Support team discovered this error in October 2020 and worked with Workday to identify a solution to remove the duplicate premium pay. No other instances were discovered after October 2020.

## Finding #2021-002: Allowable Costs – Significant Deficiency in Internal Controls over Compliance

Federal Agency: Department of Treasury

Federal Program: COVID-19 Coronavirus Relief Fund

**Condition:** An instance was identified in which a grant was charged more hours than paid to the employee tested.

**Recommendation:** It was recommended that the County develop an internal policy to ensure hours coded by non-exempt employees in any given pay period do not exceed the hours paid.

**Status of Finding**: Resolved, the County has implemented additional trainings to non-exempt employees and human resource representatives to ensure that grants are not charged more them the paid hours by period. The County is continuing to work with Workday to find a solution that would further prevent salaried employees from coding more than 86.67 hours.
