S-strengths W-weaknesses O-opportunities T-threats

Identifying what we do well: our locations, our communication

Weaknesses: what can we do better? Areas where we can move a weakness into a strength– for example, we work for a large government agency– that means we can't always act quickly,

**Opportunities: new markets** 

Threats: program stability, federal/state policy changes, political effects, sustaining inter capabilities, loss of staff, inflation

When putting together the budget, these are things we have to keep in mind.

Q: So we have fewer threats, or more strengths to balance them? A: We want the threats list to be as small as possible.

Comment: Would recommend adding competition and compliance to list of threats

Q: Are there other items we should add to these categories?A: Client dissatisfaction could be a threat, but improving client satisfaction could also be an opportunity.A: Innovation and program expansion should be added as opportunities.

Q: Under weaknesses, what is meant by bureaucratic paralysis? A: In a big organization, we can't always get things done as quickly as we would like to. There are a lot of rules that often guide how quickly we are able to get things done.

Q: What do you mean when you say innovation? A: New ideas, that either improve programs or the way we do things, i.e. we brought in a new company to do patient surveys, and in a way that was more innovative than before. It brings info from other sources, including other languages. Innovating is looking to do things in new and improved ways than we were before.

Q: How would this impact the budget? Would we be adding things? A: This means we are making a decision to change how we do the work. Sometimes this would impact the budget, sometimes it

#### wouldn't.

Budget questions: These are questions that are recommended for board members to think about when considering budget planning.

Q: Would we be able to edit these questions? A: Yes, this list is just for ideas. We can ask any question we want.

#### <u>Pharmacy:</u>

You'll notice these slides align with the strategic goals from the previous slide.

Financial Stewardship:

- Reinvestment of pharmacy revenue into direct pt care services
  - Identify alternate funding source for ICS laboratory
  - Expansion of the clinical pharmacy program

Optimize revenue

- Expansion of contract pharmacy agreements
- Increase pharmacy capture rate
- Expansion of mail and delivery services

**Operational Excellence:** 

- Leading with race
- Establish clinical quality metrics

Health center of choice

• New PCC/La Clinica pharmacy

Advance health equity

- Workforce shortage
  - Launch of WFD program for pharmacy technicians

Comment: Pharmacy bought the robot. It would be great to bring someone from pharmacy back to discuss the robot, because that's a great example of innovation.

Q: How would the robot help the PCC students or recruiting for new staff?

A: Many of our patients who get complex sets of medications, the robot does the filling of those prepackaged medications for us. This helps us stay competitive in the market. The humans do the work the humans need to do, which is interact with patients, while the robot

#### fills the medication.

We hope to increase the number of patients who use our pharmacy services.

#### Dental Program:

Operation excellence:

- Quality, Access, and Engagement • COD/ICS partnership
- Improve operational efficiency
  - Increase schedule utilization and decrease no-shows

Q: How do we decrease the no-shows?

A: We already do follow up with the patient. In FY24 we will bring advanced access to the dental program. This means decreasing time between when a patient is scheduled and when their appt is.

Financial Stewardship:

- Performance improvement
  - Increase collection rate

Advance Health Equity

- Workforce shortage
  - Launch PCC climbs to address EFDA and hygienists

Health center of choice:

• PCC/La Clinica

Primary Care:

Our People:

- workforce development
  - advanced practice clinician (APC) fellowship

Comment: Having a program like this (APC fellowship) lets people come into the program, learn, and make sure good people are doing good work. They can make sure for themselves if this is a good fit for them, and then they can get a panel of patients.

- provider retention
  - indirect patient care time
  - team anchor model
  - $\circ \quad \text{long visits for complex patients} \\$

Comment: Having longer visits for patients who need it is great. As someone who needs an interpreter, I would love to have longer visits.

Health center of choice:

- Optimize access
  - Advanced access scheduling- allows for patients to schedule sooner, less wait time before their appt
  - Practice management redesign

Advance health equity

- Supportive Programming
  - Hospital transitions of care (delayed because of the pandemic)
  - eReferrals (allows us to connect our patients more quickly to care)
  - RN Care Management and Standing Order (getting nurses closer to pts)
  - Growth of Clinical Pharmacy program (more participation of clinical pharmacists in team-based care)

Q: If we're referring patients somewhere else to see a specialist- is that every clinic?

A: I anticipate that most referrals will be managed virtually. The referral will be managed by a computer, and patients will get their results at their clinic. At every health clinic.

Comment: I would like every clinic to have every type of specialist referral. He was at Rockwood, and he had to travel far to reach that specialist. There isn't a specific person for patients to go to to get a specialist referral.

Integrated Behavioral Health:

Health Center of Choice:

- Increase Access
  - Mental health services expansion
  - Advanced Access Scheduling

Q: Why don't we provide more behavioral health services? A: It's a function of how we get paid. We don't get paid for these services, so we don't provide them as much. We are working with a specialist to figure out how to do this, and we go through Care Oregon / Integrated Behavioral Health.

Q: Is that because it's something they don't think needs to be covered by an FQHC? We have the worst access in the country. How does the federal program not supersede the state rules?A: States decide how, and how much, you get paid. The crisis is a function of the way the payment system is designed. The model is designed to reinforce the scarcity in the system.

The reimbursement rate is the majority of our revenue. We can't get paid, because we don't have an opportunity through OHA. Is that correct?

Q: Will these clinicians be available in all languages?A: Trying to recruit linguistically and culturally diverse clinicians. We are trying to change the way we recruit for these positions.

Q: Why does the organization do a bridge with PCC? A: We are hoping to do that with PCC when we move clinics, and we do that with dental assistants.

• Transitions of care

#### Student Health Centers:

Our People

• Maintain staffing status quo

Health Center of Choice

• Increase partnership with primary care

#### Medical Director's Office:

Our People:

- Recruitment
  - Development of provider support specialist (in languages our patients speak, shorten time for recruitments)
- Expansion of credentialing and enrollment
  - Advance payor enrollment
  - $\circ\quad$  Quarterly peer review for ICS clinicians and providers

Advancing health equity

• Advancement of leading with race

#### Bargaining

- Pharmacist -new unit (more to come)
- Dental -successor (more to come)

#### <u>Anirudh-</u>

Population Health Approach

Looks at how the things around us impacts care and care delivery

Population Health: Years ahead

- Transformative medicaid 1115 waiver
- Re-envision programs that are interoperable and connect different aspects of cre
- CoE 2.0

Allows for housing assistance for more than 6 months, allows for food assistance, care for children– looking at how these interact with how we deliver care.

Population health program: Centers of Excellence model– launched last fiscal year– re-envision this model, so we can try to get at care that is community-centered and community-driven. In the next year, we hope to look at where things intersect and interact, so we can do it differently and do it better.

#### Adrienne (filling in for Brieshon):

Quality and Compliance:

- Quality Improvement
- Quality Assurance
- Compliance
- Safety
- Privacy and Medical Records
- Patient Experience

Making sure care is high-quality, safe. Medicaid waiver changes the way we are paid, and is based on quality metrics. This is always important, but especially this year.

In the past, we have done this by

- co-led trainings
- shared communications
- standard tools
- equity as standard work
- process and system improvement

Looking at what we can do to be more efficient, innovating, and improve outcomes

Would like to focus on these in the next year as main points of

improvement in Quality:

- Lifting administrative burden (identified as a weakness)
- Quality improvement (continuing complaints and satisfaction work, Ryan White grant,
- Systems and technology (improving how we receive complaints investing in software so we can centrally analyze the data we collect on complaints)

Ryan White– lifts administrative burden from providers, improves quality

Comment: Providing mental health services is amazing. If you don't know how to access mental health services– this affects other aspects of your life, and the lives of people around you.

Comment: At our last meeting, there was a great question about customer service. Right now, we are looking at individual cases, but we also need to be looking at trends, so we can see at the programmatic level what we need to change.

Comment: Tamia has been asking everyone who provides us quarterly reports to also provide trends, so we can see how things are going in a visually simple way. That is something we'll see more of in the future, as we get more data year by year.

Comment: At quality, we're looking at how we can better look at social determinants of health and info we get from feedback surveys, and look at are we impacting SDHs? It is not fully formed yet, but we are hoping to take information from multiple sources.

Comment: We talked about programs to introduce more folks from the community to the health center. We've been in touch with PCC, Mt Hood, and other schools where our medical assistants get their education, so we can introduce them to our programs, get service hours, and want to continue to work with the county.

Call for feedback for next steps/alignment with budget planning:

Q: How often do we need to approve this budget? Every time there is a change?

A: The board needs to approve the budget annually. That is what we're doing now. The other time is when we submit to HRSA, because they are on the calendar year. That means it's the budget the board already approved, but 6 months in the past and 6 months in the future. The board does not need to approve the budget every

time there is a change to it. If you had to come together every did you did or did not hire someone. The board does need to approve bigger changes, i.e. if we are moving 25% of our resources somewhere else. They also need to approve new funding.

Q: What kind of help do you need from us board members to approve the budget?

A: We would like to know: Do the strategic goals and visions that we went over in this presentation feel like they still feel right for this year? Or should there be changes to our focus for this upcoming year for the board to do the work they want to do?

Comment: Like I mentioned before, I think we need to focus on having fewer threats and weaknesses so we can have more strengths and more opportunities.

Comment: Would like to call out some of these threats. Loss of staff. We have been strengthening the program to build up doctors to be good providers, so they're less likely to leave. I need to hear from board members if they see that as a threat that needs to be addressed, so we can keep/increase resources for that program.

Comment: I appreciate that we got this information in Spanish, because in our meeting last year, we did not have this info. Now, we can converse, and we can understand better what is going on.

Jeff: That's great feedback. Soon, we'll be seeing this presentation with numbers, so we can start to put this all together.

Comment: When we talked today about the loss of staff. What we talked about today would help keep staff longer. If doctors have less stress, and can stay longer with clients, that will help with keeping staff.

Comment: Every time we talk about the budget, it helps for us to all come together, learn about it. We need more board members to show up and participate.

Comment: Critical that we focus on pharmacy expansion, mail-in delivery services– expand revenue where revenue is occurring. For workforce program, we do not always have the ability to give staff competitive pay. These are all well-thought out and we are doing a good job at proactively addressing issues. There are a couple of things that need to be expanded in terms of priorities– PCC/La Clinica needs to be an effective transition. Would like expansion of that transition as a priority. I would also like to see concrete

community healt center board Multnomah County	th Budget Retreat Minutes December 5, 2022 6-8 PM, Southeast Health Center
	language around prioritizing value-based care, so we are able to optimize value-based care. Measuring success is a work in progress, so we know what we need to do to get paid. Board members are asking for more information about this.
	Q: Practice management redesign: does that have anything to do with how the appts are scheduled? A: Yes, we are working on that. We can present on this in the future. It's an exciting project, and I think we're going to get a lot of good responses from our patients.

Q: Does changing the word "patient" to "client" change who we are working with? We did not vote to change this term.	
A: We decided to make this change, maybe not in an official capacity, at the strategic board retreat in 2021.	
A: We are aiming for consistency, uniformity, to cover all the different types of care we provide at the health center. A client is more comprehensive of the services we provide, i.e. people who come in for services, but also preventive and supportive services.	
A: There is a big debate over whether we should say client or patient. One of the main arguments we have heard is that when we say the word patient, it can conjure a power imbalance. A "patient" listens to what they

Intended vacancies:	
Increases in total, duplicated inactive vacancies. No change in FTE	
associated revenue, slight increase in estimated sum of lost revenue.	
Q: When we talk about the number of vacant positions, would it be possible to send board members the highlights on the number of vacancies? They are still high. It might be helpful if you could break down those numbers by position, so we can see the larger trends in vacancies. We are getting into another fiscal year, what is being done to address this?	
A: Yes, I do address this in strategic updates. We got a new recruiter to address health center provider roles. Recruitment and advertising. There	

	was also a week-long event hosted by Kaizen, to look at the ways we waste time and effort. This will hopefully improve cycle times and hiring timelines. In the board packet, there is a full listing of the 147 positions that are currently vacant in the health center. I would be happy to highlight these vacancies, but would like to bring the board's attention to this in the board packet.

Q: Newer dental clinic, out of OHSU, is that impacting us in any way in terms of staff or any way we can anticipate in the future?

A: OHSU- Russell St Clinic. It is close-ish but on the other side of the river. I haven't heard of this clinic, but we can look into that but we have not seen impacts from OHSU-Russell St. Most of our patients from Billie Odegaard are in Old Town.

Q: When you talk about these two clinics with staffing, could you highlight more about that? Is that because of the environment in downtown Portland? A: We are competing for a small group of highly specialized staff. We recently hired two new staff members, but they gave feedback about safety issues, as well as high cost of parking. They did decide to leave. However, we serve safety net populations, and that means being where folks live work and play. But yes, location does impact staffing in some for some of our clinics.

Date of Presentation:	January 9, 2023	Program / Area:	Clinical Services	
Presenters:	Bernadette Thomas, Chief Clinical Officer			

### **Project Title and Brief Description:**

Updating policy ICS.01.29 Client Dismissal from Health Center Services

This policy ensures an equitable and just process for clients when a staff member requests client discharge/dismissal from services.

#### **Describe the current situation:**

Current process: Individual health centers or programs would discharge clients without applying a standard of ethical principles.

Proposed process: Interdisciplinary team of all stakeholder review all patient discharges/dismissals and propose a plan of care.

### Why is this project, process, system being implemented now?

This policy is due for routine review and update.

Briefly describe the history of the project so far (Please indicate any actions taken to address needs and cultures of diverse clients or steps taken to ensure fair representation in review and planning):

This policy update has had input from the Health Center REDI taskforce, managers, staff, and labor unions.

Update was informed by the Principles of Ethics (Kevin Irwin & Seddon Savage) and is guided by the following principles:

- Honor the unique and complex biopsychosocial nature of health and wellness
- Respect the human rights, cultural values, beliefs, and dignity of all people
- Are evidence-informed, pragmatic, non-coercive and non-discriminatory
- Are consumer-driven, strengths-based, solution-focused, and promote self-determination
- Are continuously improved with timely and reliable data
- Are trauma-informed, resilience & recovery oriented
- Are equally accessible to all
- Are informed by the wisdom of lived experience

List any limits or parameters for the Board's scope of influence and decision-making:

The CHCB is responsible for policy approval, but not generally responsible for operationalizing the approved policy.

Briefly describe the outcome of a "YES" vote by the Board (Please be sure to also note any financial outcomes):

A "yes" vote would approve the policy as presented.

Briefly describe the outcome of a "NO" vote or inaction by the Board (Please be sure to also note any financial outcomes):

A "no" vote would maintain the status quo.

Which specific stakeholders or representative groups have been involved so far?

Staff, patients, insurance case managers, security officer, REDI task force members.

Who are the area or subject matter experts for this project? (Please provide a brief description of qualifications)

#### **REFERENCES AND STANDARDS**

Joint Commission Standard PC.04.01.01

**POLICY STATEMENT** 

Termination of care decisions are made based upon established legal and ethical grounds which are communicated to the <u>patientclient</u>; and, when invoked, will allow sufficient notice and appropriate transition to arrange future care. The <u>patient's needs and rights are the foremost</u> consideration in any decision to discharge a patient from the clinical services offered by the Multnomah County Health Department.

For Primary Care, Health Center staff will bring all escalated concerns or incidents to site/program leadership for assistance and/or review. Any event or threat of physical violence or harm to clinic staff, other clients or visitors, or to the facility site must be reported immediately.

Each review outcome is determined on a case by case basis by the Primary Care Services Director and Medical Director, with input from clinical provider(s) and site leadership.

For Dental, each review outcome is determined on a case an interdisciplinary Incident Review Committee (IRC). A manager or supervisor may request an IRC review by case basis by completing the IRC Request form Dental Director or Dental Operations Manager.

**Discharging a patientDismissal** should be considered after other options, such as:

- Patient behavior agreement (see HAZ.02.01)
- Transfer to different <u>Health Center</u> provider within clinic or countylocation

A patient may be discharged from care for the following reasons:

- 1. The patient no longer meets eligibility requirements to receive services through the Multnomah County Health Department.
- 2. A change of residence to outside of Multnomah County is not necessarily reason for immediate discharge. Considerations for continuity of care may be made per department policy ICS.01.19 and ICS.01.45.
- The client presents a clear threat and/or exhibits disruptive or abusive behavior toward staff, other clients, or visitors at the facility where services are received.
- The patient habitually<u>client regularly</u> refuses to cooperate with the provider or staff, creating continual adverse outcomes in care or operational processes.
- The **patient** has committed fraudulent or illegal acts such as: altering a prescription, illegally selling or distributing medications they have received, theft, fraud, or other criminal acts related to clinical services.
- 3. The patient presents a clear and unmitigated threat to staff, other patients or visitors at the facility where services are received.

HEALTH DEPARTMENT EFFECTIVE DATE: 11/04/2019

#### A patient may NOT be discharged from care for the following reasons:

• Inability to pay for services.

If a patient's care is to be terminated for any of the reasons listed above, the patient:

- 1. Will have the right to respond to the alleged reasons for discharge to clinic site leadership.
- <u>Will always haveA change of residence outside of Multnomah County</u>

#### **Notice of Dismissal**

If a client's care is to be terminated, the Health Center will provide a Notice of Dismissal from Care letter (Attachment A), and review the content of the letter with the patient either by phone or in person. The letter will also be sent to the client's insurance care coordinator if applicable. The letter will inform the client of the following:

- The patient can still receive care for 30 days from the date of the Notice of Dismissal from Care letter. Care may be limited to telemed (phone or video) visits based on safety concerns.
- The reasons for dismissal and any transitional care information.
- 2. That a provider will review their health record to determine the current care needs.
- 3. Will be informed of how long their care will be continued while they find other services.
- Will be advised and advise the client of other resources that may be available for continued care elsewhere.
- 4. Will have the notice of discharge, the reasons for the action, and any transitional care information communicated in writing.
- Will be informed that That they have the right to request their health records or they can have all health records sent to their next service provider. (AGN.14.11 Client Right to Access Protected Health Information.
- <u>That they</u> will be furnished <u>with</u> a complete and reconciled list of their medications at the time of the dischargedismissal.
- <u>MayThat they will receive prescriptions for a 90-day supply of appropriate medications</u> to an external community pharmacy.
- <u>That they have a right to</u> submit an appeal request for review through their health insurance carrier (for CCO assignments) and/or directly to MCHD.the ICS Quality Team.

Clinic staff will bring all escalated concerns or incidents to site leadership for assistance and/or review. Any actual event or threat of physical violence or harm to clinic staff, other patients, or to the facility site must be reported immediately.

#### Corrections Health services are not included in the scope of this policy.

#### **Appeals**

The Quality and Compliance program will review appeals along with Health Center senior leadership and provide a response to the client within 45 days.

Date of Presentation:	January 9, 2023	Program / Area:	Primary Care	
Presenters:	Tony Gaines, Patient Access & Engagement Program Director			

#### **Project Title and Brief Description:**

#### **Renew ICS.01.19 Provider Assignment and Selection Policy**

This policy ensures the accurate and timely assignment of Primary Care patients to a Primary Care Provider (PCP). It aims to increase patient and provider satisfaction, improve continuity of care, to ensure care is both equitable and patient centered, and improve delivery of care.

This is a regular review and audit of this policy and minor edits were made in an effort to adhere to the Health Center's expectations, goals, and objectives.

#### Describe the current situation:

More specificity is needed in order to clarify the various scenarios in which a PCP needs to be added, updated, and/or removed.

#### Why is this project, process, system being implemented now?

This policy is being updated to ensure all staff adhere to the process and procedure surrounding the assignment of a PCP to new, established, and internal and external transferring patients. The enhancements being made to this policy should solidify our programmatic understanding and expectations, as well as meet the requirements for updating our system.

Briefly describe the history of the project so far (*Please indicate any actions taken to address needs and cultures of diverse clients or steps taken to ensure fair representation in review and planning*):

The historical practice has been to assign each Health Center patient a PCP. To also, value client choice in selecting a PCP.

List any limits or parameters for the Board's scope of influence and decision-making:

The CHCB is responsible for policy approval, but not generally responsible for operationalizing the approved policy or procedure.

Briefly describe the outcome of a "YES" vote by the Board (Please be sure to also note any financial outcomes):

A "Yes" vote would: 1.) Clarify expectations regarding PCP assignment system updates/documentation 2.) Ensure each patient is assigned a PCP, in a timely manner, based on their status or request with the Health Center. 3.) Would also approve the minor edits that were made to the policy

Briefly describe the outcome of a "NO" vote or inaction by the Board (Please be sure to also note any financial outcomes):

A "No" vote would: 1.) Make it more difficult to establish ongoing expectations on how PCPs should be assigned. 2.) Would keep the policy as is

Which specific stakeholders or representative groups have been involved so far?

Tony Gaines, Ashley Francois, Bernadette Thomas, and Brieshon D'Agostini are a few of the primary stakeholders that have contributed to the review of this policy. With each person having varying degrees of support or oversight of the policy itself.

Who are the area or subject matter experts for this project? (Please provide a brief description of qualifications)

**Tony Gaines** - Patient Access & Engagement Program Director (responsible for how patients access the Health Center and evaluates the ease and experience for patients to do so, while also eliminating barriers and other inequities)

**Ashley Francois** - Program Specialist Senior - ICS Training and Policy Coordinator (responsible for oversight and accuracy of the Health Center's policies)

**Bernadette Thomas** - Medical Director (ensures this policy and others are both sound and medically supported)

**Brieshon D'Agostini** - Quality and Compliance Officer (has oversight of the team/staff that monitors the Health Center's policies; works to ensure that our policies and procedures align and that they adhere to our quality standards)

What have been the recommendations so far?

<u>Remove/replace the following:</u>

- 1.) Remove references to Dental provider assignment and instead reference the Dental policy regarding Provider of Record
- 2.) PCP using the appropriate Epic Termination Code
- 3.) Remove ICS (where applicable)
- 4.) Unnecessary capitalization (i.e. such as the word "HAS")

#### Added the following:

- 1.) Added specific PCPCH (Patient-Centered Primary Care Home) and Joint Commission standards
- 2.) Added that every Health Center patient should be assigned a PCP
- 3.) Add "Health Center" in place of "ICS" (where applicable)

How was this material, project, process, or system selected from all the possible options?

Policy was due for a regular review and audit. Minor edits were made to align with current Health Center expectations, goals, and objectives as it relates to assigning PCPs.

### Community Health Center Board (CHCB) Authority and Responsibility

community health

center board Multnomah County

As the governing board of the Multnomah County Health Center, the CHCB is responsible for revising and approving changes in the health centers scope; availability of services, site locations, and hours of operations; and operating budget. Reviewing and approving the submission of continuation, supplemental, and competitive grant applications is part of this review and approval process.

An approval to submit a grant application will allow for budget revisions during the application development process within and between approved budget categories up to 25 percent without CHCB approval. All budget revisions that exceed the cumulative 25% budget revision cap will be presented to the CHCB for a vote prior to grant submission. Upon Notice of Award, the budget approved by the funder will be presented to the CHCB for a final approval.

Project Title and Brief Description:								

- Ryan White HIV/AIDS Program Part D Women, Infants, Children, and Youth (WICY) Grant Supplemental Funding
- The Health Resources and Services Administration (HRSA) is accepting applications for the fiscal year (FY) 2023 WICY Grant Supplemental Funding Competing Supplement. The purpose of this supplement is to strengthen organizational capacity to respond to the changing health care landscape and increase access to high quality family-centered HIV primary health care services for low income WICY with HIV.

What need is this addressing?:

The care and treatment of transgender and gender diverse people with HIV are a priority for HRSA HAB. In December 2021, HRSA HAB released a program letter, Gender Affirming Care in the Ryan White HIV/AIDS Program, to RWHAP service providers reaffirming the importance of providing gender-affirming health care and social services to the transgender community as a key component to improving the lives of transgender people with HIV and eliminating health disparities.

#### What is the expected impact of this project? (#of patients, visits, staff, health outcomes, etc.)

- Grant funds will support training related to Stigma and Discrimination and Gender-Affirming Medical Treatment.
- HHSC is committed to ensuring services are accessible to marginalized and hard-to-reach populations. HHSC's primary focus is on serving PLWH who are uninsured, underinsured, and low income, and as a result, slightly over one-fifth of these clients are homeless or unstably housed. MCHD conducts outreach and provides ancillary services, such as transportation assistance, to facilitate engagement in care. Case managers support engagement and retention in care, especially for clients dually or multiply diagnosed with mental illness and/or substance abuse disorders.
- Over the past several years, the number of low-income PLWH with complex medical and psychosocial needs has continued to increase, accompanied by an increase in the cost of care for these individuals and a decrease in insurance reimbursement. This has put an increased burden on the HHSC to provide more services with less funding. Ryan White funds are essential to ensure that low-income PLWH, especially those who are uninsured and underinsured, have access to comprehensive, quality medical care.

#### What is the total amount requested:

Please see attached budget

Up to \$150,000 for one year (8/1/2023-7/31/2024)

#### **Expected Award Date and project/funding period:**

The funding period is from 8/1/2023 -7/31/2024.

#### Briefly describe the outcome of a "YES" vote by the Board:

(Please be sure to also note any financial outcomes)

A "yes" vote means MCHD will submit the Ryan White Part D Supplemental Application to support efforts to enhance gender-affirming care strategies.

#### Briefly describe the outcome of a "NO" vote or inaction by the Board:

(Please be sure to also note any financial outcomes)

A "no" vote means the Health Center will not apply for this Ryan White Part D Supplemental opportunity currently available to support gender affirming care at our HHSC site. This would mean that the Health Center would either need to find alternate resources to support training for staff to provide gender affirming care for Ryan White clients, or not provide that training.

Current Health Center staffing would not be affected, as this is a one-time only opportunity focused on this specific initiative aimed at enhancing quality of gender affirming care.

#### **Related Change in Scopes Requests:**

(only applicable in cases in which project will represent a change in the scope of health center services, sites, hours or target population)

Proposed Budget – The budtool is not yet ready to be completed. If Nick Tipton, Regional Manager will have budget details by the full CHCB meeting, he can share at that time. If Nick is not able to share the details for the meeting, the full budget will be shared as soon as available and if the CHCB does not approve the application will be rescinded.

Part D Supplemental funds will cover (partial) FTE/fringe for staff, including funds to support providers attending training, training consultant contracts, education/training supplies.

Our current claims process is handled by Risk Management and the County Attorney's offices, with a Third Party Administrator (TPA) investigating the claims. Litigation is handled by the County Attorney. In general, paid claims up to \$1M comes out of County Risk Management funds, and additional eligible claims are covered by the excess policy.

## Why is this project, process, system being implemented now?

Application for FTCA insurance was identified as a priority by the CHCB in spring 2022.

FTCA Medical Malpractice coverage is provided at no cost to HRSA-designated Federally Qualified Health Centers. The Federal government would handle claims, litigation and paid claims instead of the County. The Health Center will need to purchase Gap insurance for claims not covered under FTCA. Together, FTCA and Gap insurance would replace the County's self-insured and excess policy.

We must have a policy and procedure for claims in order to apply for FTCA coverage. This policy is intended to meet this requirement.

With the application of Welcome Health as a 501c3, questions were asked about formal coverage for volunteer Board Members because the County cannot guarantee coverage for a separate entity. The Health Center explored whether FTCA could provide this coverage. FTCA would cover Medical Malpractice claims for clinical Board members who volunteer their time as clinicians at the Health Center, but does not cover Board-related activities. Welcome Health will need to purchase Directors and Officers coverage for the purpose of Board activities regardless of FTCA coverage for the Health Center.

Briefly describe the history of the project so far (*Please indicate any actions taken to address needs and cultures of diverse clients or steps taken to ensure fair representation in review and planning*):

#### **Progress updates:**

- Work done so far (see CHCB Presentation Summary from 11/14/22 for details)
  - Assessing current state/gaps
  - Education, skill building, best practices
  - System and process improvements
- Translated CHCB Presentation materials sent to CHCB members.
- CHCB members were asked for questions when materials were sent and at the 12/12 CHCB meeting

### List any limits or parameters for the Board's scope of influence and decision-making:

The CHCB is generally responsible for establishing and/or approving policies that govern health center operations, while the health center's staff is generally responsible for implementing and ensuring adherence to these policies (i.e. through procedures).

Briefly describe the outcome of a "YES" vote by the Board (Please be sure to also note any financial outcomes):

The Board will accept the policy as written and we move forward applying for FTCA coverage.

Briefly describe the outcome of a "NO" vote or inaction by the Board (Please be sure to also note any financial outcomes):

The policy will not be approved, and the Health Center cannot yet apply for FTCA coverage. Priorities and resources to dedicate to FTCA deeming will need to be reassessed.

#### Which specific stakeholders or representative groups have been involved so far?

Quality and Compliance Officer, Medical Director, Pharmacy Director, Dental Director, Lab Director, County Risk Management, the Health Center Executive Director, the Health Center Deputy Director, Health Center Division Operations Director, The CHCB Executive Committee, the County Attorney's office

## Who are the area or subject matter experts for this project? (Please provide a brief description of qualifications)

Jacqueline Chandler, Project Manager Quality and Compliance

Casey O'Donnell, Insurance Program Manager Finance and Risk management Division

Bernadette Thomas, Medical Director

Brieshon D'Agostini, Quality and Compliance Officer

Alex Lehr O'Conell, Senior Grants Management Specialist, HRSA SME

Robert Sinnot, Senior Assistant County Attorney

### What have been the recommendations so far?

Approve FTCA Claims Management Policy in order to be able to apply for FTCA insurance coverage.

### How was this material, project, process, or system selected from all the possible options?

We gathered claims policy examples from two other community health centers who are already deemed, worked with Risk Management and the County Attorney's office to review and document the current and future process, the policy was then edited and defined by the Medical Director.

Board Notes:

## Community Health Center Board (CHCB) Authority and Responsibility

community health

center board Multnomah County

As the governing board of the Multnomah County Health Center, the CHCB is responsible for revising and approving changes in the health centers scope; availability of services, site locations, and hours of operations; and operating budget. Reviewing and approving the submission of continuation, supplemental, and competitive grant applications is part of this review and approval process.

An approval to submit a grant application will allow for budget revisions during the application development process within and between approved budget categories up to 25 percent without CHCB approval. All budget revisions that exceed the cumulative 25% budget revision cap will be presented to the CHCB for a vote prior to grant submission. Upon Notice of Award, the budget approved by the funder will be presented to the CHCB for a final approval.

Date of Presentation:	January 9, 202	22	Program / Area:	Health Center Program

Project Title and Brief Description:							

- Health Resources and Services Administration (HRSA) Expanding COVID-19 Vaccination (ECV)
- The Health Center Program was awarded funds based on the following formula: Base Value of \$47,650 plus \$9 per patient reported in the Calendar Year 2021 Uniform Data System. A budget and activities table must be submitted to HRSA post award. These one-time funds are focused on increasing updated COVID-19 vaccinations among underserved populations. Allowable activities include outreach and education, working with community partners, vaccine administration, enabling services, personnel, hours and availability, training, and supplies.

What need is this addressing?:

The Health Center Program will use these funds to address needs related to outreach and education, vaccine administration, hours and availability, training, and supplies. Example activities include supporting communications staff and well campaigns focused on COVID-19 vaccination; immunization quality improvement projects and staff trainings; mobile van for outreach and expanded hours/availability; supplies for vaccine transportation and storage; facilities and IT costs needed to better provide immunizations in service sites; and Health Center Program staff who support vaccine administration work.

What is the expected impact of this project? (#of patients, visits, staff, health outcomes, etc.)

Grant funds will enable the Health Center Program to improve COVID-19 vaccination services, resulting in the following outcomes:

- Primary series and booster vaccination rates will be improved.
- Patient outreach will be expanded.
- Vaccination related errors will be reduced.

#### What is the total amount requested:

Please see attached budget

\$523,849

#### Expected Award Date and project/funding period:

The funding period is from 12/1/2022 - 5/31/2023.

#### Briefly describe the outcome of a "YES" vote by the Board:

(Please be sure to also note any financial outcomes)

A "yes" vote means MCHD will submit the required post award materials to HRSA and implement activities to support COVID-19 vaccination.

Briefly describe the outcome of a "NO" vote or inaction by the Board:

(Please be sure to also note any financial outcomes)

A "no" vote means the Health Center will not submit the required post award materials. This would mean that the Health Center would need to find alternate resources to support some COVID-19 vaccination activities.

Current Health Center staffing would not be affected, as this is a one-time only opportunity focused on increasing COVID-19 vaccination.

For Period Ending Nov ember 30, 2022 Percentage of Year Complete: 41.7%

#### **Community Health Center - Definitions**

**Budget:** Adopted budget is the financial plan adopted by the Board of County Commissioners for the current fiscal year. <u>Revised Budget</u> is the Adopted budget plus any changes made through budget modifications as of the current period.

**<u>Revenue</u>**: are tax and non-tax generated resources that are used to pay for services.

General Fund 1000: The primary sources of revenue are property taxes, business income taxes, motor vehicle rental taxes, service charges, intergovernmental revenue, fees and permits, and interest income.

Miscellaneous Revenue: Revenues from services provided from Pharmacy related activities, including: refunds fro outdated/recalled medications and reimbursements from the state for TB and STD medications.

Grants – PC 330 (BPHC): Federal funding from the Bureau of Primary Care (BPHC) at the Health Resources and Services Administration (HRSA). Funding is awarded to federally qualified health centers (FQHC) to support services to un-/under-insured clients. This grant is awarded on a calendar year, January to December. Sometimes called the 330 grant, the H80 grant or the HRSA grant. Invoicing typically occurs one month after the close of the period because this is a cost reimbursement grant.

Grants - COVID-19, Fund 1515: Accounts for revenues and expenditures associated with the County's COVID-19 public health emergency response. Expenditures are restricted to public health services, medical services, human services, and measures taken to facilitate COVID-19 public health measures (e.g., care for homeless population). Revenues are primarily from federal, state and local sources directed at COVID relief.

Grants - All Other, Federal/State Fund 1505: Accounts for the majority of grant restricted revenues and expenditures related to funding received from federal, state and local programs. The fund also includes some non-restricted operational revenues in the form of fees and licenses.

Quality & Incentives Payments (formerly Grants - Incentives): Payments received for serving Medicaid clients and achieving specific quality metrics and health outcomes

Grant Revenue Accrual: Accrual amounts for current and prior periods

Health Center Fees: Revenue from services provided in the clinics that are payable by insurance companies.

Self Pay Client Fees: Revenue from services provided in the clinics that are payable by our clients.

Beginning working capital: Funding that has been earned in a previous period but unspent. It is then carried over into the next fiscal year to cover expenses in the current period if needed. Current balances have been earned over multiple years.

Write-offs: A write-off is a cancellation from an account of a bad debt. The health department cancels bad debt when it has determined that it is uncollectible.

### Community Health Centers - Definitions cont.

Expenses: are what the County spends to provide services to the community. Expenditure categories include personnel, materials and supplies, internal services, contracted services, and capital.

Personnel: Costs of salaries and benefits. Includes the cost of temporary employees.

Contracts: professional services that are provided by non County employees: e.g., lab and x-ray services, interpretation services, etc.

Materials and Services: non personnel expenses the program needs to perform its mission: e.g., medical and dental supplies, repairs & maintenance, supplies, etc.

Internal Services	Allocation Method
Facilities/Building Mgmt	FTE Count Allocation
IT/Data Processing	PC Inventory, Multco Align
Department Indirect	FTE Count (Health HR, Health Business Ops)
Central Indirect	FTE Count (HR, Legal, Central Accounting)
Telecommunications	Telephone Inventory
Mai/Distribution	Active Mail Stops, Frequency, Volume
Records	Items Archived and Items Retrieved
Motor Pool	Actual Usage

Capital Outlay: Capital Expenditures- purchase of capital items that cost \$5,000 or more that have an expected useful life of more than one fiscal year: e.g., medical and dental equipment.

**<u>Unearned revenue</u>** is generated when the County receives payment in advance for a particular grant or program. The funding is generally restricted to a specific purpose, and the revenue will be earned and recorded when certain criteria are met (spending the funds on the specified program, meeting benchmarks, etc.) The unearned revenue balance is considered a liability because the County has an obligation to spend the funds in a particular manner or meet certain programmatic goals. If these obligations are not met, the funder may require repayment of these funds.

Modified Accrual Basis of Accounting: The County accounts for certain expenditures of the enterprise funds for budgetary purposes on the modified accrual basis of accounting. For financial reporting purposes, the accrual basis of accounting is used. The difference in the accounting basis used relates primarily to the methods of accounting for depreciation and capital outlay. Revenues are recognized when they are both measurable and available. Expenditures, however, are recorded on a full accrual basis because they are always measurable when they are incurred.

Pro Forma Financial Statement: A pro forma financial statement leverages hypothetical data or assumptions about future values to project performance over a period that hasn't yet occurred.

#### Vacancy Report: January 2023

Represents vacancies as of Dec 23, 2022

Total Vacant Positions, January 2023 153

Table 1: Vacant Positions without duplication	#	Increase or Decrease over previous month	Explanation / Definitions
Total non duplicated vacancies	134	Decrease	These are the total number of positions which are vacant and planned for recruitment.
Non duplicated: Not posted	49	Decrease	Of the total number of planned recruitments this represents the number of positions which have not been posted or started the recruitment process. It is measured by total budgeted roles. This includes new positions created for FV23
Non duplicated: Posted for recruitment	39	Increase	Total non duplicated roles which are in active recruitment. Active recruitment is measured by: posted on internal and / or external platforms for candidates to apply to or are in a review stage by HR or managers to evaluate qualifications for the role.
Non duplicated: Interview or final hire stage	46	Decrease	Total non duplicated roles which are in the final stages of recruitment. Final stage is measured by completing reference checks, issuing an offer letter, or completed offers with a future hire date.
Non Duplicated Vacancy Data	Days	Increase or Decrease over previous month	Explanation / Definition
Average vacancy length (days)	221	Increase	This represents the average time to fill a vacancy for all planned recruitments. The average time measures all time that a budgeted position is not filled, which means it includes vacancies not in current recruitment.
verage Time to Fill (days) 84 Increase		Increase	Average time to fill represents the time to complete a recruitment once posted through the final offer. It is an average of total active open positions it takes recruiting department and managers to fill a posted vacancy. The national average for healthcare organizations for the time to fill for registered nurses averages 89 days based on a recent report from the Organization of Nurse Leaders. Other organizations report an average of 132 days, approximately three times as long compared to pre-COVID19 operations.

Financial impact of non-duplicated vacancies	Days or \$\$	Increase or Decrease over previous month	Explanation / Definition
Total FTE associated with direct revenue vacancies	35.45	Decrease	This is the approximate number of vacancies which can directly bill for their services. Roles include: physicians, nurse practitioners, physician assistants, pharmacists, clinical pharmacists, registered nurses, community health workers and clinical specialists, denists, and dental hygenists.
Estimated sum of lost revenue	\$5,754,320	Increase	Estimation of lost revenue is calculated by the total days of a direct revenue vacancy compared to budgeted revenue from each position for the entire year.

Table 2: Duplicate, inactive vacancies	#	Increase or Decrease over previous month	Explanation / Definition
Total duplicated, inactive vacancies	19		This represents the number of vacancies which are recorded within our health center but are duplicated due to work out of class assignments, filled by temp staff, or under review based on operational need of the program. These positions are not currently considered active recruitments.

Financial impact of duplicated, inactive vacanc	ies	Increase or Decrease over previous month	Explanation / Definition
Total FTE associated with direct revenue, inactive vacancies	1	No Change	This is the approximate number of vacancies which can directly bill for their services but are inactive. Roles include: physicians, nurse practitioners, physician assistants, pharmacists, clinical pharmacists, registered nurses, community health workers and clinical specialists, denists, and dental hygenists.
Estimated sum of lost revenue	\$10,198	Increase	Estimation of lost revenue is calculated by the total days of a direct revenue vacancy compared to budgeted revenue from each position for the entire vear.

Total vacancies by position (includes duplication) Red box indicates a direct revenue vacancy that is inactive or is about to be filled.

## Reference Guide: Internal Services and Indirect Charges

The Health Department's total indirect rate is made up of two separate rates. The first establishes support costs internal to the Health Department and the other identifies countywide (Central) support costs:

**Departmental Indirect Cost Rates:** Each department pays a rate based on departmental administrative costs incurred within the organization. Only costs not charged directly to grants are included in the departmental rates. This is the **Health Department Indirect Rate**, and is calculated using a cost pool method:

HD Indirect Rate (%) x Division Payroll (\$)\* = Division pays to HD Indirect Cost Pool (\$)

<u>Central Service Cost Allocation</u>: The Cost Allocation Plan identifies and distributes the personnel cost of services provided by County support divisions to County departments (Health, Sheriff, etc.) as a flat county-wide central service rate. Central services include Internal Auditor, Central Budget Office, Workday ERP Support, Central Finance, Central Human Resources and Strategic Sourcing.

<u>Combined Indirect Cost Rates:</u> These are the indirect rates that each department may charge to grants. Indirect cost rates are applied to direct personnel expenditures only.

Separate from indirect rate are internal services, which includes Fleet Management, Information Technology, Mail & Distribution, Facilities, and Risk Management. Internal services are directly charged to departmental users. Charges to the County departments are calculated to recover costs and maintain capital. Below is a short description of each internal service. Rates for the internal service providers are posted on the County's public website at:
