## Library priorities

#### **Evolving library services**

- Centering community voices, race and culture in developing library services, collections, and resources
- Meeting and serving communities at their point of need
- Uplifting the voices of those who have not been heard

#### Supporting education and learning for all ages

- Serving youth, educators, parents, and caregivers in libraries and beyond
- Offering students and learners tools and resources to help online and in-person learning
- Providing tools and help for lifelong learning

#### Delivering technology training, access, and assistance for all

- Making technology available and useful for those who need it most
- Collaborating with partners to provide devices, internet access, and training
- Acting and advocating for digital equity and inclusion

#### Creating and maintaining safe and healthy spaces

- Serving people in buildings that are as safe and healthy as we can make them
- Striving to maintain inclusive library spaces that promote emotional health and safety
- Planning for future library spaces that support safety, health, and well-being

### **Community Budget Advisory Committee (CBAC)**

### Library Advisory Board

**Clare Wilkinson** 

**David Jarvis** 

**Hazel Burke** 

**Kate Fleming** 

**Lizzie Martinez** 

**Mabel Reed** 

Megan Parrott

**Rob Edmiston** 

### **CBAC budget feedback**

The library's CBAC (LAB) recommends adoption of the FY 2024 library budget and all program offers as proposed, with specific support for the Community Partnerships Manager position, fund balance priorities, and the new Library Special Projects program offer.

#### Additional recommendations for the future

- Continuing review of internal service rates for operations and maintenance
- Continuing the focus on equity-based budgeting
- Investigating models for and LAB involvement in CBAC

### A strategic budget approach

**Embed equity** in decision-making, and prioritize investments that center those in our community who need the library the most.

**Support investments** to mitigate service level impacts in the community during bond-related closures and meet library operational needs arising from bond work.

**Position the library** to adapt to changing programmatic and operational needs post-bond. This includes planning for programs and staffing in new spaces, anticipating how our post-bond operating landscape will change, and preserving capacity in our ongoing revenue stream to fulfill that vision.

## Applying an equity lens to the budget process

#### Embedding equity in the decision-making process

- All systemwide project proposals and new budget proposals are evaluated using a prioritization tool that includes weighted criteria to determine if the project will have a positive impact on Communities of Color
- Managers and staff are increasingly using equity lens tools in decision-making for programming, services, project management and evaluation, policies, and practices
- Identifying equity investments continues to grow as a foundation of equity work across the library

#### Program managers—with support of equity staff—identify how their work advances equity

Examples include:

- Community Learning will connect those facing barriers with culturally relevant services, resources, and learning opportunities
- Community Engagement—through relationships with community organizations, services providers, and public partners—will create opportunities for community members to collaborate with library staff, developing programs and services that are culturally and linguistically appropriate
- Integrated Library Services will track the percentage of the library collection that supports diversity, equity, and inclusion

### Supporting an increasingly diverse workforce

- Library Employees of Color hold 34% of all regular filled positions, compared with 27% (5 years ago) and 16% (10 years ago)
  - Managers of Color account for 29% of all regular filled non-represented positions
  - Staff of Color account for 35%
    of all regular filled
    represented positions
- Employees of Color comprise half (50%) of the regular workforce with Multnomah County Library for less than 5 years

# Strengthening the foundation to support workforce diversity

- Addition of Equity Analyst to engage in equity work and staff support across the system
- Time and space being developed across the system that focuses on Staff of Color and Managers of Color to connect, support, and provide feedback
- Educational tools and training opportunities for learning and development
- Ongoing and regularly scheduled meetings with managers to discuss equity issues

**EQUITY ASSESSMENT** 

Conducted with all locations; "pulse checks" are conducted every six months

**EQUITY PLAN** 

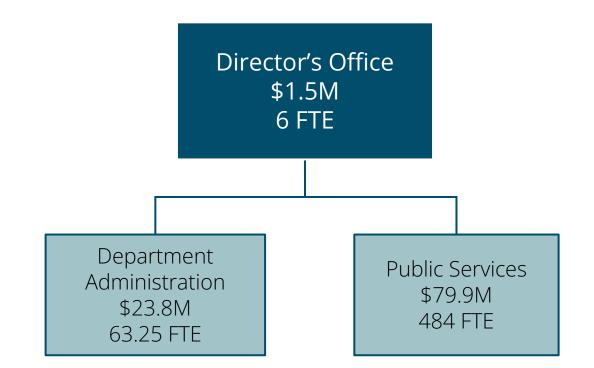

All library locations have an equity plan to support learning for staff

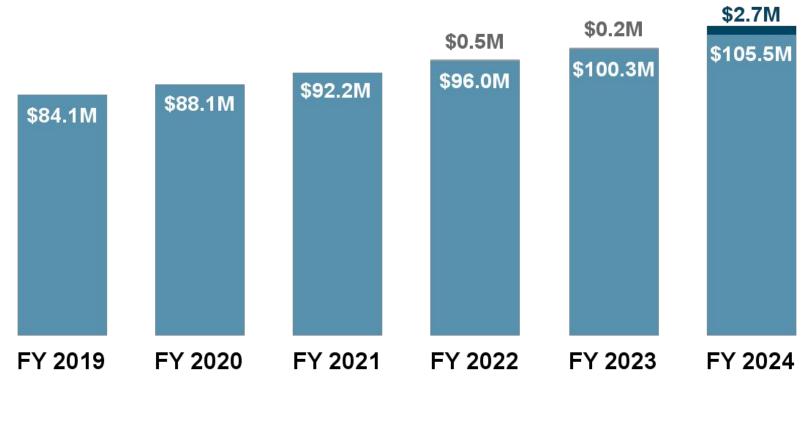

TRAINING

The library developed five self-guided, racial equity trainings that will be mandatory for all managers
