23.3 Jaggaer Release
New Features Impacting End Users

General Site Enhancement
Online Help User Interface Enhancements. The Online Help home page is simplified by removing the "Digital Mind" panel. The modules that were previously contained within this panel are now visible from the home page and accessible with a single click.
eProcurement
N/A
Supplier Management
UX Enhancement for Adding Suppliers. The user interface for adding suppliers has been updated with a better look and feel. **(Please note: Adding Suppliers is a business process that applies to Central Purchasing staff members only.)**
Sourcing
