New Developments

MHAAO's Queuing System and Referral Van

MHAAO has transformed the day center's community engagement, efficacy and capacity through new referral and time block systems. The participants get a referral ticket from an MHAAO outreach van on 5th and Glisan that gives them a same day time block during which they can enter the BHRC. Each time block allows for 25 participants, and there are 4 time blocks a day. The van's operations have increased outreach and the queuing system has increased the day center's capacity to effectively meet the needs of our participants.

Workforce Appreciation Event

In September, the BHRC held a celebration of unity and dedication at our Workforce Appreciation Event. This event was thoughtfully curated by our Events Planning intern. This occasion recognizes the heart and soul of BHRC – our incredible staff.

Equity Projects Underway

Dedicated to fostering inclusivity, our Equity Analyst intern is actively collaborating with the BHRC through a comprehensive perspective synthesis from staff and participants to develop a racial equity lens for BHRC, and help define what it means for the BHRC to lead with race.

Shawn's Journey

An account of a participant's journey to secure housing

In May 2023, Shawn Almond began receiving services at BHRC's day center managed by MHA AO. Shawn made an impression with staff for his proactive engagement in recovery and positive attitude.

His frequent presence at the day center led to MHA AO referring Shawn to BHRC's 3rd floor 30-day congregate shelter program with Do Good Multnomah. On 6/9/23 Shawn completed his intake beginning his stay at the BHRC. During his stay he immediately developed relationships with peer support staff, daily case managers and the behavioral health care team 7 days a week. In doing so, he successfully transitioned into the 4th floor 90 day Bridge Housing program.

Shawn maintained consistent attendance in the twice daily GOALS groups & the newly created Wellness group (WRAP) offered twice weekly in addition to attending on-line and in-person AA/NA meetings.

Shawn continually worked with the Navigation Specialist in securing stable housing earning his most recent transition to the Richard Harris Building in Portland, Oregon with *Central City Concern*. Mr. Almond is among one of our 1st Bridge Housing participants & the first to secure housing. It has been a pleasure witnessing Mr. Almond's growth and sharing in his journey.

MHA AO = Mental Health and Addiction Association of Oregon, **DGM** = Do Good Multnomah, **WPS** = Workplace Security (staffed by Northwest Enforcement Inc.)

Nursing Services are courtesy of a Multnomah County Early Assessment and Support Alliance (EASA) nurse.

* **Revivals** refer to the use of Naloxone to revive someone experiencing an overdose. Often times, more than one dose of naloxone is needed for a successful revival.

** **Exit** is used to describe when participants have left our programs for the time being.

Positive Exit is self-defined, but usually refers to the individual securing another form of housing through a referral.

A safe and welcoming day center, short-term shelter and bridge housing where anyone who is houseless and experiencing addiction or mental health challenges can rest, find support and get help.
