Agenda Item	Key Discussion Points	Next Steps/Action Items
Welcome/Introductions		
Director's update	REACH funded again 1 of 41 grantees nationally, Only 1 of 8 that was funded. Thank you for your letters of support, and patience!! We got most of the requested funds.  Working with partners around contracting, to have contracts finalized by December	
	Hiring a REACH program Supervisor soon. Please help us get the word out and sit on our hiring panels  CDC action Grant 1 of 5 grantees!!  Planning a community Celebration in February!  Looking forward to working with each of you to do more!!!	
Christina Bodamor American Heart	The lawsuit to overthrow the ban on flavored products was overturned!!  There may be an attempt to tie things up in the courts with appeals.	

## Association

Between legislative sessions a bill in 2023, was brought forth, but there was a 43 day walk out and the bill didn't make it into the legislative cycle.

Depoe Bay, Newport and Siletz all passed proclamations about the importance of the flavor restrictions like Multnomah County.

We are noticing the products replacing the banned products. Things such as pods you bite down on.

FDA looking at the restrictions as well. They missed their initial deadline and they missed their scheduled roll out.

Leaving it up to communities such as Multnomah County to move things forward.

Question: Vape pens that don't have nicotine and tobacco in them, are they included in the ban?

We are looking at products with Tobacco. Some products that claim not to have tobacco have come out after being tested to have tobacco in the products. Our ban is related specifically to tobacco products.

Question: Tobacco funding infrastructure, is there a state funded tobacco program. Are we reaching the populations

Is there a liaison who connects funds with CBO's who are hard to reach families and community pockets.

We raised the taxes on tobacco products and 10% of that money went into the schools (education) cessation. OHA, created a panel of CBO's, and now we are trying to create an oversight on these funds. Policy changes are being created, we are funding the CBO's to have them help us. A work in progress.

Question: Is there a higher prevalence in the African American community to autoimmune issues?

Not sure about this and its relation to sarcoidosis in the AA community.

Haoua	Black Smoke Hookah Pens: Out since 2021, highly advertised. They advertise to the black marketfruit flavors and no nicotine or tobacco in their products. In 9 hours they made over 1 million dollars. They have an entire smoker kit. They are being advertised as better for you.  They are advertising directly to a Black audience. There doesn't seem to be an ID check on the website.  How can we include the flavored nicotine and tobacco free vapes.  White people have profited off of this industry for years, are we just making it more difficult for AA who are entering into the market?  The baseline hasn't changed, it has been tweaked. Entertainers have been used to advertise. But we are doing a wonderful job in meeting and matching the efforts for the work around.	
Mossie Long Covid	Long Covid Seminars every Friday this month. 6.8% people have long covid issues. A disease of the blood vessels common: severe fatigue, post exertion malaise, chest and joint pain, brain fog and headache etc.  Dr. Aluko Hope is wanting to get the word out on this new disease. Free event REACH, OHSU, and CDC funds.  1st session this week Virtual time with Dr. Hope, facilitated by, Shalonda Menefee	

	They found blood markers that will show that you have Long Covid.	
	Layers of protection are important. The new vaccine is out.	
	At the event will there be opportunities to have the boosters?	
	The outreach plan? Internal Black Covid Call, Black Covid workgroup, ACHIEVE Coalition, please share with your community.	
	Open to the Black community.	
Annie Kirschner	Next week is National School Lunch Week Farm 2 School Month in October	
	Since March 2020 Pandemic EBT went out to all school aged children who go to a school that have this benefit.  About \$120 per student	
	PPS potential for a labor strike and schools may close. That will impact the students' access to food at the pantries and the meal plans. Nearest available pantries if the school closes to get the word out.	
	Access to SNAP benefits (work requirements) Able body adults without dependents. Many people are going to lose their access to SNAP benefits. Make sure that if you receive a letter to respond to make your case individual. This policy rollback will start in November	
	The Farm bill is open input	
	Food Security County Fact Sheet can be used for Grant Applications although dated 2022
