

COMPREHENSIVE ANNUAL FINANCIAL REPORT Fiscal Year Ended June 30, 2006

About the Cover

Pictured on the cover is the first Multnomah County Public Health Nurse, Ruth Young Gould. The Oregon Legislature authorized the appointment of County Health Nurses in 1917 and Multnomah County appointed Gould in late 1920. According to the February (1921) Rural Public Health Nurses' Monthly Report, Ruth drove her car 898 miles throughout rural east Multnomah County, visiting "Gresham, Park Rose, Troutdale, Pleasant Valley, Multnomah, Riverdale and Latourell, and school districts #3, 15, Jt. and 51." During the month she managed 73 cases, made 109 visits, gave 2 talks, and distributed 227 pieces of literature. The activities of the County Public Health Nurse continue today in a variety of Department of Health Programs.

INTRODUCTORY SECTION

501 SE Hawthorne, Suite 531 Portland, Oregon 97214 (503) 988-3312 phone (503) 988-3292 fax

December 15, 2006

Honorable County Chair, Board of County Commissioners and Citizens of Multnomah County, Oregon

INTRODUCTION

We are pleased to submit the Comprehensive Annual Financial Report of Multnomah County, Oregon, for the fiscal year ended June 30, 2006, together with the opinion thereon of our independent certified public accountants, Moss Adams LLP. This report, required by State law, Oregon Revised Statutes 297.425, is prepared by the Department of County Management. Also included are Audit Comments and Disclosures required under the Minimum Standards for Audits of Oregon Municipal Corporations Section of the Oregon Administrative Rules.

In addition, the County is required to have a comprehensive single audit of its Federal Assistance Programs in accordance with the Single Audit Act, Office of Management and Budget (OMB) Circular A-133 and the provisions of <u>Government Auditing Standards</u> promulgated by the U.S. Comptroller General as they pertain to financial and compliance audits. A report on the County's compliance with applicable Federal laws and regulations related to the Single Audit Act, OMB Circular A-133 is included with this report beginning on page 188.

This report is prepared in conformance with the guidelines for financial reporting developed by the Government Finance Officers Association of the United States and Canada and the principles established by the Governmental Accounting Standards Board (GASB), including all effective GASB pronouncements. It presents fairly the financial position of the various funds of the County at June 30, 2006, and the results of operations of such funds and the cash flows of the proprietary fund types for the year then ended in conformity with accounting principles generally accepted in the United States of America (US GAAP). The report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, County management has established a comprehensive internal control framework that is designed both to protect the County's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

US GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Multnomah County's MD&A can be found immediately following the independent auditors' report. Unless otherwise noted, dollar amounts are expressed in thousands.

PROFILE OF MULTNOMAH COUNTY, OREGON

Multnomah County, incorporated in 1854, is located in northwestern Oregon at the confluence of the Columbia and Willamette rivers, approximately 110 river miles and 80 highway miles from the Pacific Ocean. The County covers 465 square miles, and serves a population of 692,825 citizens. The cities of Portland and Gresham are the largest incorporated cities in the County.

Multnomah County is governed according to its Home Rule Charter, which became effective January 1967. The County's charter adopted in 1967 has had several subsequent amendments. The County is governed by a Board of County Commissioners consisting of four non-partisan members elected from designated districts within the County and the Chair of the Board, elected at large. The Board of County Commissioners conducts all legislative business of the County.

Multnomah County provides a full range of services, including public safety protection; corrections and probation; construction and maintenance of roads, highways, bridges and other infrastructure; health and social services; library and community enhancement; and internal business support. Certain sanitary and lighting services are provided as legally separate Service District Authorities, which function, in essence, as departments of the County and therefore are included in the County's financial statements as component units. The County also maintains a Hospital Facilities Authority whose primary purpose is to issue conduit debt for health care facilities. The Hospital Facilities Authority is also considered a component unit but it is not included in the County's financial statements. Additional information on these legally separate entities can be found in note 1 of the notes to the financial statements.

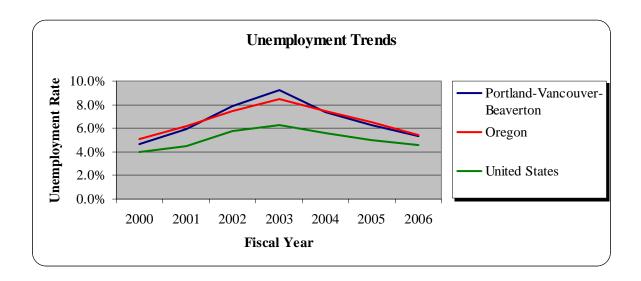

The County's budget is prepared on the modified accrual basis of accounting. In accordance with State statutes, the County budgets all funds except trust and agency funds. The County budget is adopted by the Board of County Commissioners by department for each fund. The expenditure appropriations lapse at the end of the fiscal year. Additional resources and corresponding appropriations may be added to the budget during the fiscal year through a supplemental budget process. Original and supplemental budgets may be modified during the fiscal year by the use of appropriation transfers between categories. The appropriation transfers must be approved by the Board of County Commissioners in public meetings. During the fiscal year, two supplemental budgets were adopted.

Budget to actual comparisons are provided in this report for each individual governmental and proprietary fund for which an appropriated annual budget has been adopted. For the General fund, the Federal State Program special revenue fund and the Willamette River Bridges fund the budget to actual comparisons are provided on pages 35-37 as part of the basic financial statements for the governmental funds. For all other governmental funds with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 80.

FACTORS AFFECTING FINANCIAL CONDITION

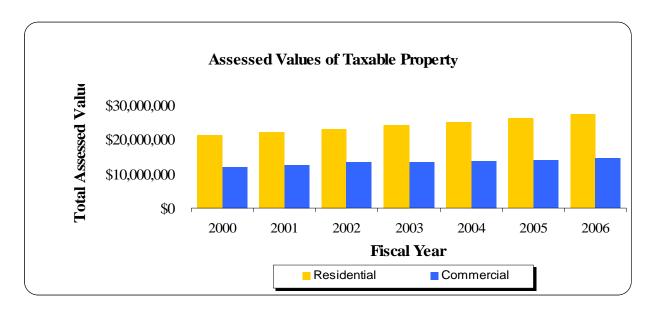

Local Economy: The Portland metropolitan area is the financial, trade, transportation and service center for Oregon, southwest Washington State and the Columbia River basin. Its manufacturing base includes electronics, machinery, transportation equipment, and fabricated metals.

The Portland-Vancouver-Beaverton PMSA's (Primary Metropolitan Statistical Area) economy improved throughout fiscal year 2006. The area's unemployment rate had improved to 5.3% at June 30, 2006, compared to a rate of 6.2% at June 30, 2005. However the unemployment rate for the area is still higher than the national average of 4.6% for June of 2006 compared to 5.0% for June 2005. The chart below compares the area's unemployment rate to the State's and the Nation's.

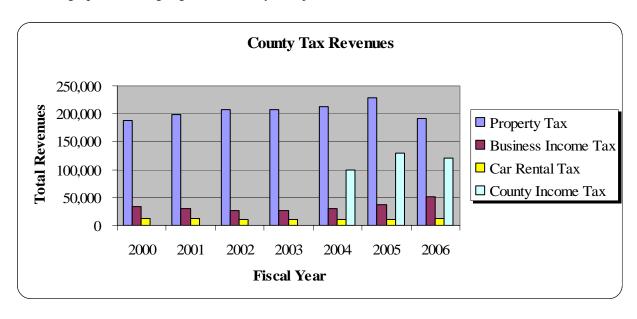

Financial outlook: The financial outlook for the County's general fund over the next five years is somewhat stronger than previous forecasts primarily due to gradual increases in economic conditions in the area. The regional economy is approaching a period of sustainable growth, but given the depth of our recession it will take longer for the region to experience a sizable employment and revenue growth. The State of Oregon has been making a strong push for recovery, but in order to catch up with the nation this trend must continue.

The region's slow but steady growth will impact the County's revenue stream. Property taxes are expected to grow at 2.8% over the next year and new residential and commercial construction will continue to have a major impact on the County in upcoming years. The following chart measures the County's total residential and commercial assessed property tax values over the past seven years. Residential properties have experienced a 29% increase in taxable property values over a seven year period compared to a 22% increase for commercial property values over the same period. The steady increase in residential property is primarily due to new construction in the Portland area, but this increase is expected to level off somewhat due to the slowdown of the housing market.

Business income tax is the second largest source of revenue for the County and it has been set at a rate of 1.45% of net income. Business income tax collections parallel the business cycle. Increased business income tax collections in fiscal year 2006 suggest that we are seeing continued growth after four years of declining revenues, and we expect this trend to continue in the upcoming years. In addition, motor vehicle rental taxes which have decreased over the past three years are expected to grow by 2.5% as travelers gain confidence and we see an increase in air traffic and car rentals in Portland. Overall revenue growth is forecast between 2.5% to 3.5% over the next five years. Expenditures are expected to grow between 4.5% and 6.0% annually, taking into account the normal rate of inflation, employee benefits and long term fixed costs.

During 2003 Multnomah County voters approved a temporary personal income tax of 1.25% for residents to fund services for fiscal years 2004, 2005, and 2006. The tax primarily provides support to the schools in the County but also provides support to the County's health, human services, and public safety programs. Fiscal year 2006 was the final year the tax would be imposed, and the County's general fund recognized \$120,919 as compared to \$130,187 in tax revenue in fiscal year 2005. In fiscal year 2006 the County began planning for the end of the three year personal income tax. The graph below highlights the County's major tax revenues sources.

Financial and budget policies. As a guideline for the budget process the County has established financial and budget policies which have been reviewed and adopted by the Board of County Commissioners in connection with the budget process. Some of the goals of the financial policies include preserving capital through prudent budgeting and financial management, achieving a stable balance between the County's ongoing financial commitments and the continuing revenues available to the County, and to leverage local dollars with Federal and State funding grants. These financial policies ensure the County has appropriately recorded and accounted for transactions in our financial statements.

The County's adopted financial and budget policies include the use of one-time only resources because in the short run it appears more beneficial to allocate such resources to the highest priority public service that would otherwise be unfunded than to restrict them to costs that will not recur in following years. However, the result of this practice is to expand operational levels and public expectations beyond the capacity of the organization to generate continuing funding which can lead to future budget shortfalls. As mentioned earlier, fiscal year 2006 was the last year of the three year temporary personal income tax measure and the County has begun to establish necessary general fund reserves to lessen the impact of the sunset of the personal income tax revenues. The 2007 adopted budget includes approximately \$16,000 of one-time only funds. These one-time only funds include \$6,000 for public safety programs, \$2,755 for health and social services programs, and \$2,474 for programs offered in the schools. In preparing the 2008 budget, the County will be in the position of identifying programs that will no longer receive funding due to a lack of ongoing resources.

The County's financial and budget policies also state the Board acknowledges that to avoid financial instability, continuing requirements should be insulated from temporary fluctuations. Therefore one of the goals of the Board is to fund and maintain two general fund reserves designated as unappropriated fund balance and funded at approximately 5% each of total budgeted revenues of the general fund. These reserves are to be used for periods where revenues experience significant declines or used for non-recurring extreme emergencies such as disaster relief. Maintaining an appropriate reserve also helps the County maintain its favorable bond rating, which is currently Aa1 from Moody's Investors Services.

Long-term financial planning. The County Chair has an Executive Committee that includes the Board Chair's Chief Operating Officer, Department Directors, and the Chief Financial Officer. The Executive Committee holds ongoing planning sessions to develop short-term and long-term goals and to address the financial stability of the County. The County's Chief Financial Officer also meets with City of Portland Financial and Budget Officers and with representatives from the City of Gresham to confer on financial issues that either overlap or impact each entity.

Major initiatives. The construction on the County's new 525-bed Wapato jail and secure alcohol and drug treatment facility was completed during fiscal year 2005. Currently there are insufficient funds to operate this facility and as a result the jail remains empty. The Chair and the Sheriff are in discussions with State of Oregon corrections officials about leasing the facility or renting jail beds to the State or to other jurisdictions. Other capital project initiatives include addressing the County's bridge rehabilitation and replacement needs. Thus far the County has been successful in obtaining \$25,000 in State and Federal awards for current bridge projects but an estimated long-term shortfall of \$215,000 still exists between identified needs and identified funds over the next twenty years. The County is currently engaged in a project to replace the Sauvie Island bridge. The total cost for the Sauvie Island bridge project is estimated to be completed in 2009.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report (CAFR) for the year ended June 30, 2005. This was the twenty-first year that the County has received this prestigious award. In order to be awarded a Certificate of Achievement, the County published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the employees in the Department of County Management who maintained the records and assisted in the preparation of this report. Special thanks are extended to the General Ledger Staff who were instrumental in preparing this report. Appreciation is also extended to the Chair of the Board, Board of County Commissioners, Department Directors, and other County personnel for their assistance and support in planning and conducting the financial operations of the County in a prudent manner.

Respectfully Submitted,

Mundy Hams Mindy Harris

INDEPENDENT AUDITOR'S REPORT

Board of Commissioners Multnomah County, Oregon

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Multnomah County, Oregon as of and for the year ended June 30, 2006, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Multnomah County, Oregon's management. Our responsibility is to express opinions on these financial statements based on our audit. The financial statements of Multnomah County, Oregon as of June 30, 2005, were audited by other auditors whose report dated November 4, 2005, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Multnomah County, Oregon, as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 8, 2006, on our consideration of Multnomah County, Oregon's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

MOSS-ADAMS LIP

CERTIFIED PUBLIC ACCOUNTANTS I BUSINESS CONSULTANTS

The management's discussion and analysis, budgetary comparison, and OPERS information on pages 14 through 27, 35 through 37, and 79 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures to the management's discussion and analysis on pages 14 through 27 which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it. The schedules of revenues, expenditures, and changes in fund balance – budget and actual, on pages 35 through 37 and the schedule of OPERS funding progress on page 79, have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Multnomah County, Oregon's, basic financial statements. The introductory section, combining and individual fund statements and schedules, other schedules, statistical information, and schedule of expenditures of federal awards which is required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules, other schedules, and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements taken as a whole. The introductory section and statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Multnomah County, Oregon, we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2006. We encourage readers to consider the information presented here in conjunction with the additional information that we have furnished in our letter of transmittal, which can be found on pages 1-6 of this report. All dollar amounts, unless otherwise indicated, are expressed in thousands.

Financial Highlights

- Multnomah County's assets exceeded its liabilities at June 30, 2006, by \$544,274 (*net assets*). Of this amount, \$4,244 is restricted for bridge rehabilitation projects, \$8,797 is restricted for capital improvement projects, \$7,293 is restricted for various community support programs and \$51,054 is restricted for future years' debt service.
- Total net assets decreased by \$102,989 or 16% in fiscal year 2006. The primary reason for the decrease is the recording of a loss on the transfer of approximately 50 miles of County roads to a neighboring jurisdiction, the City of Gresham. The total loss recognized in the Statement of Activities on the road transfer agreement was \$108,555.
- In fiscal year 2006, the County early implemented Governmental Accounting Standards Board Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Early adoption of this accounting standard had a cumulative effect to increase beginning of the year net assets by \$21,091. The current year's expense for the net other postemployment benefits obligation was \$10,643 recorded in the governmental activities general government line item and the related long-term liability at June 30, 2006 is recorded in the amount of \$44,742 in the Statement of Net Assets.
- In governmental activities, business income tax revenues increased by \$14,517 or 40% over the prior year. The County's business income tax revenues are directly linked to the increase in the local economy. Also in recent years County management have made collection efforts on business income taxes a higher priority leading to increased revenues.
- Property tax revenues continue to increase steadily each year and were up by 6% or \$12,356 over the prior year due to new construction and a stronger overall economy.
- The County's capital grants and contributions for governmental activities decreased by \$28,887 or 85% due to the one time \$25,000 grant revenue recognized in fiscal year 2005 from the Oregon Transportation Investment Act to help revitalize the County's aging bridges.
- General government expenses for governmental activities decreased by \$14,493 or 11% from fiscal year 2005. The decrease in expenses is directly related to the decrease in the County's distribution of personal income tax collections. The temporary personal income tax ended with calendar year 2005 and as a result the County's revenues and distributions related to the temporary tax decreased during fiscal year 2006.
- The overall decrease in net assets is also directly affected by the County's three-year 1.25% personal income tax for residents of Multnomah County. The County's personal income tax revenues and related distributions have significantly decreased in 2006 as compared to 2005. Calendar year 2005 was the last year for the three year temporary personal income tax. In fiscal year 2006 personal income tax revenues are down by \$64,813 or 52% from 2005 with related distributions down by \$34,907 or 40%. In 2006, only the remaining half of calendar year 2005 personal income tax revenues were recognized resulting in lower overall revenues during fiscal year 2006.

- Business-type activities net assets increased by \$1,226 or 27% in fiscal year 2006. The increase is primarily recorded in the net assets of the Behavioral Health Managed Care fund. This increase is a direct result of the State's redesign of the population served by the Oregon Health Plan. During 2006 children's intensive mental health services which were previously administered by the State were transferred to the County's Verity member plan, a mental health organization, recorded in the Behavioral Health Managed Care fund. This change in the Verity population increased the permember premium resulting in increased revenues and related expenses in the Behavioral Health Managed Care fund.
- Business-type activities total assets increased by \$3,617 or 56% over the prior year and total liabilities increased by \$2,391 or 125% from fiscal year 2005. The increase is in the Behavioral Health Managed Care fund. The fund's incurred but not reported liability increased significantly over the prior year due to a change in the Verity plan members as discussed previously along with a change in the process to provide mental health services on a fee for service basis rather than a capitated services model.
- Total assets of the County decreased by \$142,039 or approximately 12%. Most of this decrease is noted in capital assets, net of accumulated depreciation for governmental activities. In fiscal year 2006, capital assets net of accumulated depreciation for governmental activities reported \$534,008 which was a decrease of \$128,141 or 19% from prior year as a result of the transfer of approximately 50 miles of County roads to the City of Gresham.
- As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$166,185, an increase of \$30,587 in comparison with the prior year's increase of \$49,507. The decrease in the net change in governmental fund balances is primarily due to the \$25,000 grant revenue recognized in fiscal year 2005 from the Oregon Transportation Investment Act to help revitalize the County's aging bridges. The County did not receive any additional capital grant contributions in fiscal year 2006 from the Oregon Transportation Investment Act.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$54,441, or approximately 14% of total General Fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Multnomah County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, health and social services,

public safety and justice, community services, roads and bridges, and libraries. The business-type activities of the County include sanitary sewer and street lighting districts, and a behavioral health managed care operation.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also a legally separate sanitary sewer district and a legally separate street lighting district, for which the County is financially accountable. Financial information for these two *blended component units* is reported separately from the financial information presented for the County itself.

The government-wide financial statements can be found on pages 28-30 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains 27 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Federal State Program Fund, and the Willamette River Bridges Fund, all of which are considered to be major governmental funds. Data from the remaining governmental funds (non-major governmental funds) are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual appropriated budget for all funds. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

The basic governmental fund financial statements and respective reconciliations can be found on pages 31-34 of this report.

Proprietary funds. The County maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its sewer and lighting operations, and for behavioral health managed care services. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses *internal service funds* to account for its risk management activities, fleet operations, telephone and data processing systems, mail distribution, facilities management operations, and business services operations. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The enterprise fund financial statements provide aggregate information for the sewer and lighting districts and the behavioral health fund. The internal service funds are also combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the proprietary and internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 38-40 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support County programs. The accounting used for fiduciary funds is similar to that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 41-42 of this report. The combining balance sheet for agency funds and combining statement of changes in assets and liabilities for agency funds can be found on pages 131-132 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the financial data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 43 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the notes to the basic financial statements. Combining and individual fund statements and schedules can be found beginning on page 80 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. The County's assets exceeded liabilities by \$544,274 at the close of the most recent fiscal year.

Multnomah County's Net Assets

	Governmental Activities		Business- Type Activities		Total	
		2005				2005
	2006	(Restated)	2006	2005	2006	(Restated)
Current and other assets	\$ 457,974	\$ 493,898	\$7,136	\$3,927	\$ 465,110	\$ 497,825
Capital assets	617,298	727,030	2,985	2,577	620,283	729,607
Total assets	1,075,272	1,220,928	10,121	6,504	1,085,393	1,227,432
Long-term liabilities outstanding	399,447	412,055	38	10	399,485	412,065
Other liabilities	137,366	166,199	4,268	1,905	141,634	168,104
Total liabilities	536,813	578,254	4,306	1,915	541,119	580,169
Net assets:			·			
Invested in capital assets, net of						
related debt	434,866	523,606	2,985	2,577	437,851	526,183
Restricted	71,388	100,156	-	-	71,388	100,156
Unrestricted	32,205	18,912	2,830	2,012	35,035	20,924
Total net assets	\$ 538,459	\$ 642,674	\$5,815	\$4,589	\$ 544,274	\$ 647,263

The largest portion of the County's net assets, approximately 81%, reflects investment in capital assets (land, work in progress, buildings, improvements, machinery and equipment, bridges and infrastructure), net of accumulated depreciation, and the outstanding debt used to acquire the assets in the amount of \$437,851 as compared to \$526,183 a year ago. The decrease in the investment in capital assets net of related debt is related

to the transfer of approximately 50 miles of County roads to the City of Gresham. During fiscal year 2006 the County paid approximately \$14,280 in debt related to capital assets. The County uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The County's restricted net assets in the amount of \$71,388 or approximately 13% are restricted for capital projects, debt service, various community support programs and bridge rehabilitation. Restricted net assets represent resources that are subject to external restrictions on how they may be used. The remaining balance is unrestricted net assets of \$35,035 or approximately 6%. At the end of the current year, the County is able to report positive balances in all categories of net assets for the government as a whole.

Total net assets decreased by \$102,989 during the current fiscal year. This decrease is primarily attributable to the transfer of approximately 50 miles of County roads to the City of Gresham, resulting in a loss of \$108,555 on disposal of capital noted as a special line item in Statement of Activities.

The following is a summary of the County's changes in net assets for fiscal years 2005 and 2006.

Governmental activities. Governmental activities decreased the County's net assets by \$104,215; key elements of this decrease are highlighted below:

- Included in special items is the loss on disposal of capital assets of \$108,555 as a result of transferring ownership of County roads within to the City of Gresham. In January 2006, the County transferred approximately 50 miles of County roads to the City of Gresham. A feasibility study determined that due to flat revenues, binding intergovernmental agreements and rising costs of maintenance, the County Road fund was no longer in a position to continue providing financial resources or a specific service level to roads transferred to another jurisdiction without compromising service levels to other County transportation responsibilities. Therefore, the partners agreed that it was in the best interest of the County and the City of Gresham to transfer jurisdiction of County roads within the City of Gresham to the City.
- General government expenses decreased by \$14,493 or approximately 11%, due to a decrease in the County's distributions for personal income tax collections. Total distributions were down by \$34,907 in 2006 compared to 2005. Personal income tax distributions also parallel personal income tax revenues. The decrease from 2005 in personal income taxes is due to the sunset of the temporary tax, with calendar year 2005 being the final year of the tax. Half of the income tax revenues for calendar year 2005 were recorded in fiscal year 2005, resulting in only the remaining half of the revenues recorded in fiscal year 2006. This resulted in a decrease of \$64,813 or 52% from the prior year.
- Also included in the general government activities line item is \$10,643 representing the current year effect to record the net other postemployment benefits obligation as a result of early implementing GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.
- Capital grants and contributions decreased by \$28,877 or 85% from 2005 due to the \$25,000 one-time capital grant award recorded in fiscal year 2005 from the Oregon Transportation Investment Act to help fund repair and replacement of deteriorating County bridges.
- General County revenues for business income taxes were higher by \$14,517 or 40% in 2006 compared to 2005 due to a significant commercial real estate transaction. In 2006 a building in the County sold for approximately \$123,000, resulting in a significant increase in business income tax due by the commercial real estate firm handling the transaction.

The graphs on the following page show the County's Governmental Activities expenses and revenues by program area and revenue by sources.

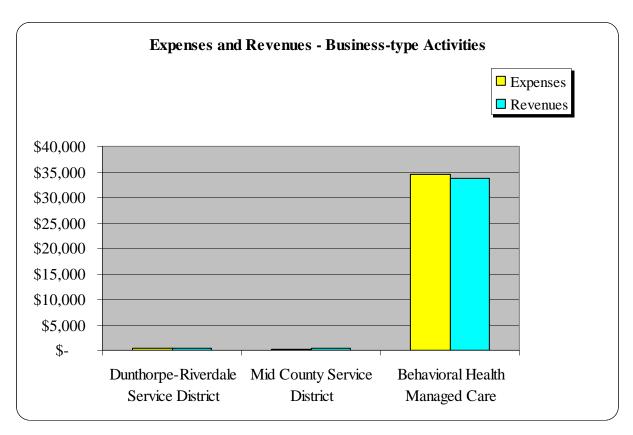

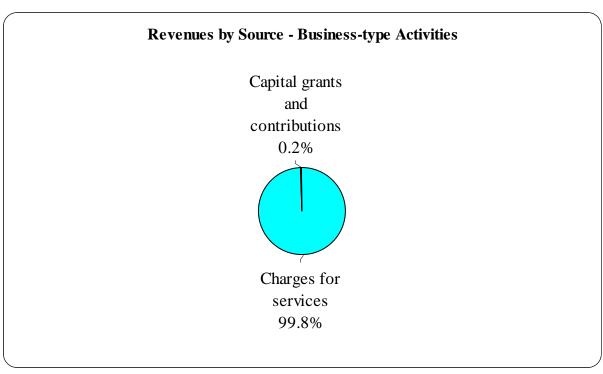

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services. Additionally, where expenses decreased from prior years, this can be directly attributed to the decrease in revenues in the governmental activities.

Business-type activities. Business-type activities increased the County's net assets by \$1,226, compared to an increase of \$194 in the prior year. The primary reasons for the current year's increase are:

- Interest revenue increased by \$130, or approximately 107% from the prior year due to improved economic conditions and higher cash balances in 2006.
- The Mid County Service District's revenue source is primarily street lighting assessments collected through property taxes. During fiscal year 2006 the District collected \$294 in fines, fees and charges for services which is an increase over the prior year by \$5 or 2%.
- The Dunthorpe-Riverdale Service District's revenue source is primarily sewer assessments collected through property taxes. During fiscal year 2006 the District collected \$455 in fines, fees and charges for services which is an increase over the prior year by \$32 or 8%.
- The Behavioral Health Managed Care fund manages the insurance for Medicaid and Oregon Health plan enrolled members within Multnomah County. Revenues in the Behavioral Health Managed Care fund are up by \$5,047 or 17% from 2005 and expenses increased by \$4,160 or 14% over 2005 as a result the State's redesign of the population served by the Oregon Health Plan. During 2006 children's intensive mental health services which were previously administered by the State were transferred to the County's Verity member plan, a mental health organization. This change in the Verity population increased the per-member premium resulting in increased revenues and related expenses in the Behavioral Health Managed Care fund.

The following graphs show the County's Business-type Activities expenses and revenues by program area and revenue by sources.

Financial Analysis of the Government's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$166,185, an increase of \$30,587 over the prior year. Approximately 67% or \$111,698 of this total amount constitutes *unreserved fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is *reserved* to indicate that it is not available for discretionary spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior period (\$6,049), 2) to pay debt service (\$37,172), or 3) to pay for ongoing capital projects (\$11,266).

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unreserved fund balance was \$54,441 in the General Fund or approximately 99% of the total fund balance of \$54,964. This indicates a high degree of liquidity of the General Fund.

The fund balance of the County's General Fund increased by \$12,548 during the current fiscal year. The primary factors for this increase can be attributed to increased business income tax revenues combined with additional property tax revenues as a result of a stronger economy and additional urban growth.

The Federal and State Program Special Revenue Fund has a total fund balance of \$4,544, of which \$4,480 is reserved for prepaid items and inventories. The remaining \$64 is unreserved. The fund balance increased over the prior year by \$4,544 primarily due to the biennium settlement for the State Mental Health Grant for mental health services. Settlement funds from the State Mental Health Grant can be carried forward for use in future fiscal years.

The Willamette River Bridges Special Revenue Fund has a total fund balance of \$28,277, all of which is unreserved. The fund balance decreased from the prior year by \$2,441 as a result of planning and design construction costs for future County bridge rehabilitation and replacement.

Proprietary funds. The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the proprietary funds at year end amounted to:

- Dunthorpe-Riverdale Service District Fund, \$65
- Mid County Service District Fund, \$357
- Behavioral Health Managed Care Fund, \$2,408

The total change in net assets for all proprietary funds was \$1,226. Other factors concerning the finances of these three funds have already been addressed in the discussion of the County's business-type activities.

General Fund Budgetary Highlights

The significant differences between the original budget and the final amended General Fund budget related to business income tax and personal income tax revenues. Budget modifications to the original budget included adjustments to increase the budget for personal income tax revenues and business income tax revenues. The budget for business income tax revenue was increased to reflect the stronger economy and higher collections realized throughout fiscal year 2006. Personal income tax was increased as calendar year 2005 was the final

year for the temporary tax and fiscal year 2006 noted stronger collections in the final year of the tax. Also, budgeted expenditures in Nondepartmental agencies were increased to allow for distributions related to these increases in budgeted revenues. Additionally, the County aggressively managed expenditures during the year in all program areas.

Capital Projects and Debt Administration

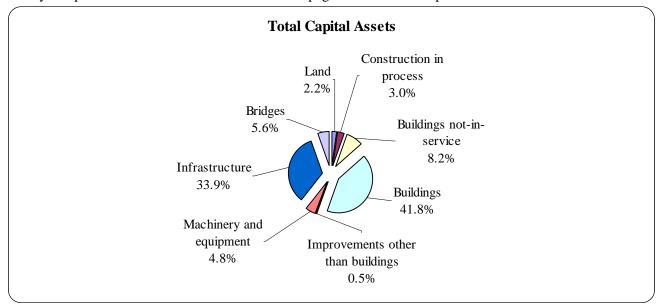

Capital assets. The County's investment in capital assets for its governmental and business-type activities as of June 30, 2006, amounts to \$620,283 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, roads and bridges, sewer and street lighting systems, and motor vehicles. The total overall change in the County's investment in capital assets for the current fiscal year was a decrease of \$109,324 or approximately 15%. The primary reason for the decrease in capital assets during the year is the transfer of approximately 50 miles of County roads to the City of Gresham. The road disposition removed \$108,555 of net book value in infrastructure from the County's capital assets.

Multnomah County's Capital Assets

The following chart indicates the County's capital assets as of June, 30, 2006. Additional information on the County's capital assets can be found in note 4.C on pages 60-61 of this report.

Long-term debt. At the end of the current fiscal year, the County had total debt outstanding of \$359,568. Of this amount, \$75,340 comprises debt backed by the general obligation bonds; \$257,915 represents debt backed by the full faith and credit bonds; \$449 comprises long term lease obligations; and the remainder of the County's debt represents bonds secured solely by specified sources (e.g., revenue bonds, capitalized leases). Both general obligation bonds and full faith and credit bonds are direct obligations pledging the full faith and credit of the County.

Multnomah County's Outstanding Debt

	Govern	mental	Busine	ess- Type			
	Activ	rities	Act	ivities	Total		
	2006	2005	2006	2005	2006	2005	
General obligation bonds	\$ 75,340	\$ 81,025	\$ -	\$ -	\$ 75,340	\$ 81,025

Capital leases	19,444	27,971	-	-	19,444	27,971	
Loans	449	542			449	542	
Total outstanding debt	\$ 359,568	\$ 383,698	\$ -	\$ -	\$ 359,568	\$ 383,698	

The County's total debt decreased by \$24,130 or approximately 6% during the current fiscal year. Significant changes to the County's long-term debt during 2006 include recording a capital lease in the amount of \$1,093 and reclassifying a capital lease in the amount of \$6,890 to an operating lease.

The County maintains an "Aa1" rating from Moody's for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may issue to two percent of the real market value of all taxable property within the government's boundaries. The current debt limitation for the County for general obligation debt is \$1,561,961, which is significantly in excess of the County's outstanding general obligation debt. State statutes also limit the amount of full faith and credit obligations to one percent of the real market value of all taxable property within the government's boundaries. The current debt limitation for the County for full faith and credit obligations is \$780,980, which is in excess of the County's outstanding full faith and credit debt.

The following chart indicates the County's long-term liabilities as of June 30, 2006. Additional information on the County's long-term liabilities can be found in note 4.G on pages 63-71 of this report.

Key Economic Factors and Budget Information for Next Year

- The unemployment rate for the Portland-Vancouver-Beaverton PMSA (Primary Metropolitan Statistical Area) at the close of the fiscal year was approximately 5.3% which is an improvement over the unemployment rate of 6.2% a year ago. The rate is not expected to change significantly before the end of the next fiscal year.
- In 2003 Multnomah County voters approved a three year temporary income tax of 1.25%. The tax generated \$100,114, \$130,187 and \$120,919 in fiscal years 2004, 2005, and 2006, respectively. As the temporary income tax effectively ended in calendar year 2005, future collections will be significantly lower and efforts will be concentrated on non-filers.
- It is anticipated that business income tax revenues will be approximately \$8,000 or 15% higher in the coming year than the 2007 budgeted amount due to continuously improving economic conditions in the region.
- Property tax revenues are not expected to be significantly different than the original budget estimates.

All of these factors were considered in preparing the County's budget for fiscal year 2006-2007.

During the current fiscal year, unreserved fund balance in the General Fund increased to \$54,441. This increase should also enable the County to maintain fully funded reserves at the levels recommended by bond rating agencies.

Requests for Information

This financial report is designed to provide a general overview of Multnomah County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for separately issued component unit reports should be directed to the following address:

Internal service funds are used by management to charge the costs of certain activities to individual funds. The change in net assets of the internal service funds is reported with governmental activities.			1,360
		ф.	
Change in net assets of Governmental Activities		Þ	(104,215)

MAJOR GOVERNMENTAL FUNDS

Major governmental funds are defined as those funds whose revenues, expenditures/expenses, assets or liabilities (excluding extraordinary items) are at least 10 percent of corresponding totals for all governmental funds for the same item. The general fund is always classified as a major fund. The modified accrual basis of accounting is used to record revenues and expenditures.

- General Fund accounts for the financial operations of the County which are not accounted
 for in any other fund. The principal sources of revenues are property taxes, personal income
 taxes, and business income taxes. Primary expenditures in the General Fund are made for
 general government, public safety, and health and social services.
- **Federal and State Program Fund** a special revenue fund that accounts for the majority of revenues and expenditures related to Federal and State financial assistance programs.
- Willamette River Bridges Fund a special revenue fund that accounts for capital grants and contributions for County bridges, motor vehicle fees, and gasoline tax proceeds transferred from the Road Fund for bridge inspections and maintenance.

PROPRIETARY FUNDS

The County utilizes ten Proprietary Funds made up of three Enterprise Funds and seven Internal Service Funds. Internal Service Funds' statements begin on page 119.

Enterprise Funds:

These funds are used to finance and account for the acquisition, operation and maintenance of sewage treatment facilities, street lighting facilities and mental health claims administration, which are supported by user charges. The County accounts for certain expenditures of the enterprise funds for budgetary purposes on the modified accrual basis of accounting. For financial reporting purposes the accrual basis of accounting is used. The difference in the accounting basis used relates primarily to the methods of accounting for depreciation and capital outlay. Funds included are:

- **Dunthorpe-Riverdale Service District No. 1 Fund** accounts for the operation of the sanitary sewer system in southwest unincorporated Multnomah County. (A blended component unit of Multnomah County.)
- Mid County Service District No. 14 Fund accounts for the operation of street lights throughout unincorporated Multnomah County. (A blended component unit of Multnomah County.)
- **Behavioral Health Managed Care Fund** accounts for all financial activity associated with the State required behavioral health services.

FIDUCIARY FUNDS

These funds account for resources received and held by the County in a fiduciary capacity. Disbursements from these funds are made in accordance with the trust agreement or applicable legislative enactment for each particular fund. The modified accrual basis of accounting is used to record transactions in the agency funds. The accrual basis of accounting is used in the Library Retirement Pension Trust Fund. The funds included are:

- **Agency Funds** account for resources held by the County in a purely custodial capacity (assets equal liabilities).
- **Library Retirement Pension Trust Fund** provides pension benefits for former employees of the Library Association of Portland.

Note 1. Summary of Significant Accounting Policies

A. Reporting entity

Multnomah County (County) is a municipal corporation governed by an elected Board of Commissioners, comprised of a Board Chair and four commissioners. The accompanying financial statements present the County and its component units, entities for which the County is considered to be financially accountable. Financial accountability is defined as the appointment of a voting majority of the organization's governing board and where (1) the County is able to significantly influence the programs or services performed or provided by the organization or (2) the County is legally entitled to or can otherwise access the organization's resources. Blended component units, although legally separate entities, are, in substance, part of the County's operations. Component units may also include organizations which are fiscally dependent on the County in that the County approves the budget, the issuance of debt or levying of taxes. Multnomah County has two blended component units which are included in this report.

Blended component units. The Dunthorpe-Riverdale Sanitary Service District and the Mid County Street Lighting Service District serve residents within each district's geographical boundaries and are governed by a board comprised of the County's elected Board. The rates for user charges for both districts are approved by the Board. Each District is reported as an enterprise fund. Complete financial statements for each of the individual component units may be obtained at the County's administrative offices.

The County also maintains a Hospital Facilities Authority (Authority) that issues conduit debt for health care facilities. The Authority is considered to be a blended component unit of the County because the board for the Authority consists of board members from the County. There are no balances or activity of the Authority and therefore the financial statements of the County do not include the Authority. The County is not fiscally accountable for the Authority, nor does there exist any financial benefit or burden relationship between the County and the Authority.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the County (the primary government) and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the County is financially accountable. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that

June 30, 2006

(dollar amounts expressed in thousands)

are clearly identifiable with a specific function or segment. In addition, functional expenses on the statement of activities include allocated indirect expenses. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement preparation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial* resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, excise taxes, personal income taxes, business income taxes, intergovernmental revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the County.

June 30, 2006

(dollar amounts expressed in thousands)

The County reports the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Federal State Program Fund* accounts for the majority of revenues and expenditures related to federal and state financial assistance programs.

The Willamette River Bridges Fund accounts for motor vehicle fees, gasoline tax proceeds transferred from the Road Fund and other intergovernmental grant revenues and expenditures related to inspection, maintenance and construction projects for various bridges along the Willamette River.

The County reports the following major proprietary funds:

Proprietary Funds account for the operations of predominantly self-supporting activities. Proprietary funds are classified as either enterprise or internal service. *Enterprise Funds* account for services rendered to the public on a user charge basis. The following are the County's major enterprise funds:

The *Dunthorpe-Riverdale Service District No. 1 Fund* accounts for the operation of the sanitary sewer system in southwest unincorporated Multnomah County.

The Mid County Service District No. 14 Fund accounts for the operation of the street lighting system throughout unincorporated Multnomah County.

The Behavioral Health Managed Care Fund accounts for all financial activity associated with the State required behavioral health capitated services.

Additionally, the County reports the following fund types:

Special revenue funds are primarily operating funds that account for revenue derived from specific taxes or other revenue sources, which are legally restricted to finance particular functions or activities. When a special revenue fund is not an operating fund, transfers are made from the special revenue fund to the operating funds authorized to make expenditures.

Debt service funds account for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

Capital projects funds account for expenditures on major construction projects or equipment acquisition. The principal sources of revenues are proceeds from certificates of participation issued to finance capital acquisitions, proceeds from the

June 30, 2006

(dollar amounts expressed in thousands)

sale of County-owned property, general obligation bond proceeds, full faith and credit bonds, and revenue bonds.

Internal Service funds account for activities and services performed primarily for other organizational units within the County. The County reports six internal service funds: Risk Management Fund, Fleet Management Fund, Information Technology Fund, Mail/Distribution Fund, Facilities Management Fund and the Business Services Fund.

Fiduciary Funds reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four categories: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the County under a trust agreement or applicable legislative enactment for individuals, private organizations or other governments and are therefore, not available to support the County's own programs. The County maintains a Library Retirement Pension Trust Fund that accounts for the pension benefits for former employees of the Library Association of Portland. Agency funds are custodial in nature (i.e. assets equal liabilities) and do not measure the results of operations. The County's agency funds are primarily established to account for the collection and disbursement of various taxes and to account for receipts and disbursements for individuals who are not capable of handling their own financial affairs.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's sewer and lighting functions and various other functions of the County. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

June 30, 2006

(dollar amounts expressed in thousands)

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer and lighting districts, of the Behavioral Health Managed Care fund, and of the County's internal service funds are charges to customers for sales and services. The sewer district also recognizes as operating revenue the portion of connection fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, liabilities, and net assets or equity

1. Cash and investments

The County's cash and cash equivalents are comprised of cash on hand, demand deposits, and investments with original maturities of three months or less from the date of acquisition. For purposes of the statement of cash flows, each fund's share of pooled cash is treated as cash and equivalents.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, municipal bonds, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP). Investments for the County, as well as for its component units, are reported at fair value. The LGIP operates in accordance with appropriate state laws and regulations.

The County reports cash with fiscal agent and cash and investments with special restrictions imposed by grantors or regulations from other governments as restricted cash and investments.

2. Receivables and payables

Activities between funds that are representative of lending / borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to / from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Property tax receivables are deemed to be substantially collectible or recoverable through foreclosure. Accordingly, no allowance for doubtful tax accounts is deemed necessary. All other receivables are shown net of an allowance for uncollectibles.

June 30, 2006

(dollar amounts expressed in thousands)

Property taxes are levied and become a lien on July 1. Property taxes are assessed in October and tax payments are due November 15th of the same year. Under the partial payment schedule, the first one-third of taxes are due November 15th, the second one-third on February 15th, and the remaining one-third on May 15th. A three percent discount is allowed if full payment is made by November 15th and a two percent discount is allowed if two-thirds payment is made by November 15th. Taxes become delinquent if not paid by the due date and interest accrues after each trimester at a rate of one percent per month. Property foreclosure proceedings are initiated four years after the tax due date.

Multnomah County residents approved a personal income tax effective from calendar year 2003 through calendar year 2005. The tax is a 1.25% levy on the Oregon taxable income of Multnomah County residents reduced by an exemption amount. The tax has generated an estimated \$120,000 for each calendar year the tax is in effect. The revenues generated from the tax provide funding for public school districts within Multnomah County in addition to funding for elderly, disabled and mentally ill persons, and programs for public safety and health. Included in the financial statements is an allowance for uncollectible accounts of \$6,981 for personal income taxes. This amount is shown net with taxes receivable on both the fund financial statements and the statement of net assets. In the statement of activities the reduction is recorded to the related income tax revenues, and on the fund financial statements the offset is recorded in deferred revenues.

3. Inventories and prepaid items

Inventories of materials and supplies in the governmental funds are valued at average cost and are offset by a reservation of fund balance. Inventories of materials and supplies in the internal service funds are valued at the lower of average cost or market. All inventories are recorded as expenditures when consumed rather than when purchased.

Payments in excess of \$10 to vendors which reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

4. Fund balances and net assets

In the financial statements, assets in excess of liabilities are presented in one of two ways depending on the measurement focus used in the reporting fund.

On the *Balance Sheet – Governmental Funds*, assets in excess of liabilities are reported as fund balances and are segregated between reserved and unreserved amounts. Reserves are legal requirements that make funds unavailable for appropriation by segregating them for a specific use. Conversely, unreserved balances are generally unavailable for appropriation by segregating them for a specific use. However management may also make designations of unreserved fund balance that define management's intent that certain fund balance

June 30, 2006

(dollar amounts expressed in thousands)

amounts are currently unavailable for appropriation. Designated unreserved fund balances are not legally segregated.

On the government-wide *Statement of Net Assets*, the proprietary funds' *Statement of Net Assets*, and the fiduciary funds' *Statement of Fiduciary Net Assets*, net assets are segregated into restricted and unrestricted balances. Restrictions are limitations on how the net assets may be used. Restrictions may be placed on net assets by an external party that provided the resources, by enabling legislation or by the nature of the asset.

Certain revenues derived from specific taxes or other earmarked revenue sources are considered restricted assets. Such revenues include dedicated property taxes, temporary personal income tax, state gas tax, intergovernmental grants, and charges for services which are legally restricted to finance particular functions or activities. In addition, proceeds from general obligation bonds, revenue bonds, and full faith and credit bonds are restricted to support the specific purpose for which the debt was issued. Such net assets are reported as restricted on the Statement of Net Assets and are recorded in separate funds supporting the specific function or operation.

5. Capital assets

Capital assets, which includes property, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, sewers, street lighting, and similar items), and their improvements, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5 for equipment and \$10 for infrastructure with an estimated useful life of at least three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction phases of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. During the year, the County incurred no interest expense for capital assets for business-type activities.

June 30, 2006

(dollar amounts expressed in thousands)

Property, plant, and equipment of the County, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

•	Motor vehicles	3 to 10 years
•	Sewer systems	50 years
•	Street lighting	30 years
•	Equipment, including software	3 to 20 years
•	Roads and bridges	40 years
•	Buildings and improvements	40 years

6. Other assets

Included in other assets are unamortized bond issuance costs and the unamortized pension asset. In governmental fund types, bond issuance costs are recognized in the current period. In the government-wide financial statements bond issuance costs are capitalized and amortized over the term of the bond using the straight-line method, which approximates the effective interest method. The net pension asset in the Statement of Net Assets has been recognized in connection with the debt issued by the County in 1999 to fund the County's Public Employees Retirement System (PERS) unfunded accrued actuarial liability (UAAL). The pension asset is amortized over the life of the debt or thirty years. Amortization expense on the pension asset and the bond issuance costs are included in the general government line item on the Statement of Activities.

7. Unearned / Deferred revenues

Unearned revenues will be recognized as revenue in the fiscal year they are earned in accordance with the accrual basis of accounting. Deferred revenues reported in the governmental fund financial statements represent unearned revenues or revenues which are measurable but not available. In accordance with the modified accrual basis of accounting, these items are reported as deferred revenues.

8. Compensated absences

It is the County's policy to permit employees to accumulate earned but unused vacation, compensatory and sick leave benefits. There is no liability for unpaid accumulated sick leave since the County does not have a policy to pay any amounts when employees separate from service with the County. All vacation pay and compensatory time is accrued when incurred in the government-wide statements and proprietary funds statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements at June 30. Liabilities for compensated absences are liquidated as employees separate from service and receive payment for accumulated leave benefits. Expenditures for liquidating the liabilities are

June 30, 2006

(dollar amounts expressed in thousands)

recorded in the General, Special Revenue, Capital Projects, Enterprise, and Internal Service Funds.

9. Long-term obligations

In the government-wide financial statements and for proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. When incurred, bond premiums and discounts are deferred and amortized over the life of the bonds using a method that approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. The difference between the reacquisition price (funds required to refund the old debt) and the net carrying value of the refunded debt is an economic gain or loss, and is treated as a deferred charge on refunding. This deferred charge is reported as a reduction to the bonds payable on the Statement of Net Assets and is being amortized as a component of interest expense.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Certain facility leases contain fluctuating or escalating payments, where the rent expense is recorded on a straight-line basis over the lease term. This liability is recorded on the Statement of Net Assets as a deferred lease obligation representing the cumulative difference between rent expense and rent payments.

10. Net other post-employment benefits obligation (Net OPEB Obligation)

The County has early implemented Governmental Accounting Standards Board (GASB) Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The County used a five year look-back approach to compute its net OPEB obligation. The net OPEB obligation is recognized as a long-term liability in the government-wide financial statements. The liability reflects both the lump sum payments to employees and the present value of expected future payments. The net other post employment benefits liability and expenditure in the governmental fund financial statements are limited to amounts that become due and payable as of the end of the fiscal year.

11. Contributions

Contributions of cash, property or equipment received from other governments are credited directly to the contribution accounts recorded in the government wide financial statements.

June 30, 2006

(dollar amounts expressed in thousands)

12. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2. Stewardship, compliance, and accountability

A. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except the trust funds. All annual appropriations lapse at fiscal year end.

During the month of February each year, all agencies of the County submit requests for appropriations to the County Chair so that a budget may be prepared. By May 15, the proposed budget is presented to the County Board of Commissioners for approval. The Board holds public hearings and a final budget must be prepared and adopted no later than June 30.

The adopted budget is prepared by fund and department. The County's department managers may make transfers of appropriations within a department and fund. Transfers and changes (increases) of appropriations between departments or funds require the approval of the Board. The legal level of budgetary control, (i.e., the level at which expenditures may not legally exceed appropriations) is the fund and department level. The Board approved two supplemental budgets and several other budgetary appropriations throughout the year.

Note 3. Accounting changes

A. Change in accounting principle

During fiscal year 2006, the County early implemented Governmental Accounting Standards Board (GASB) Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. This statement establishes standards for the measurement, recognition, and display of other postemployment benefits expenses and related liabilities (assets) in financial reports of state and local governmental employers. These accounting policies represent a change to those applied in prior years. GASB Statement No. 34, paragraph 17 addresses changes in accounting principles. The County adhered to the relevant GASB guidance in adopting GASB Statement No. 45. Previous policy was to recognize a liability in relation to the unfunded

June 30, 2006

(dollar amounts expressed in thousands)

accumulated pension benefit obligation based on actuarial reports. The new policy more closely recognizes the cost of other postemployment benefits in periods when the related services are received by the County. In addition, the new guidance provides information about the actuarial accrued liabilities for promised postemployment benefits associated with past services and whether and to what extent those benefits have been funded.

The cumulative effect of the change in accounting principle on fiscal year 2006 was to increase the County's beginning net assets for governmental activities in the Statement of Activities by \$21,091. The effect of implementing GASB Statement No. 45 is also reflected in the restatement of net assets in Note 3.B. below.

B. Restatement of net assets

During fiscal year 2006, the County implemented GASB Statement No. 46, *Net Assets Restricted by Enabling Legislation*. This statement is an amendment of GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. GASB Statement No. 46 clarifies that a legally enforceable enabling legislation restriction is one that a party external to the government, such as citizens or public interest groups, can compel a government to honor.

As a result of implementing this statement, the following restrictions were identified for the County's governmental activities beginning of the year net assets, June 30, 2005.

	As	Restated,
	Previously	June 30,
Net Assets:	Reported	2005
Invested in capital assets, net of related debt	\$ 523,606	\$ 523,606
Restricted for:		
Bridge rehabilitation	-	21,043
Capital projects	8,701	8,701
Community support programs	-	2,501
Debt service	67,911	67,911
Unrestricted	21,365	18,912
Total net assets	\$ 621,583	\$ 642,674

Note 4. Detailed notes on all funds

A. Cash and investments

Multnomah County pools virtually all funds for investment purposes. All appropriate funds are allocated interest based on the average daily cash balance of the fund and the average monthly yield of the County's investment portfolio. Each fund's portion of this pool is displayed as "Cash and Investments."

June 30, 2006

(dollar amounts expressed in thousands)

State law requires that collateral be deposited with a value of 25% of the balances above federal deposit insurance, but in some instances, the Oregon State Treasury can require banks to provide more than 25% of the balances of municipal corporations' deposits as collateral. The County cannot, however, determine which, if any, institutions have been required to meet a collateral requirement larger than 25%. The County independently monitors its depository institutions for indications that could potentially cause loss of County funds. Funds deposited with fiscal agents for the purpose of meeting the payment of principal or interest on bonds or like obligations are not required to be collateralized per Oregon Revised Statutes, Chapter 295.005.

Oregon Revised Statutes, Chapter 294, authorizes the County to invest in obligations of the U.S. Treasury, U.S. Government agencies and instrumentalities, bankers' acceptances guaranteed by a qualified financial institution, commercial paper, corporate bonds, repurchase agreements, State of Oregon Local Government Investment Pool (LGIP), and various interest-bearing bonds of Oregon and other municipalities.

The County's investments are governed by a written investment policy that is reviewed annually by both the Oregon Short-Term Fund Board and the Multnomah County Investment Advisory Board, and is adopted annually by the Board of County Commissioners. The policy specifies the County's investment objectives, benchmarks, required diversification by security type and by maturity, and the reporting requirements.

The County's investment policy requires that a third party be used for safekeeping of investment instruments. Investment securities purchased or sold pursuant to the County's investment policy are delivered versus payment by book entry or physical delivery to a third party custodian.

The County's investment policy also requires that the market value plus accrued interest of the securities collateralizing repurchase agreements exceeds the face amount of the repurchase agreement by margins prescribed in writing by the Oregon Short-Term Fund Board, providing the County with a margin against a decline in the market value of the securities. The market value plus accrued interest of the securities purchased under repurchase agreements did not fall below the required level during the year.

The County is authorized to invest in the LGIP, an external investment pool, within prescribed limits. The investments are booked at fair value and are the same as the value of the pool shares. The LGIP investments and all other investments are governed by a written investment policy that is reviewed annually by the Oregon Short-Term Fund Board. The Oregon Short-Term Fund Board is comprised of members of local government and private investment professionals, who are appointed by the Governor of the State of Oregon. LGIP is not rated by any national rating service.

At year-end, the carrying amount of the County's deposits was \$53,618 and the bank balance was \$53,584. The bank balance was covered by federal depository insurance or

June 30, 2006

(dollar amounts expressed in thousands)

by collateral held by one or more of the State's authorized collateral pool managers in the name of the County as the County's agent. The remaining balance of \$34 represents petty cash accounts that were uninsured and uncollateralized.

As a means of limiting its exposure to fair value losses resulting from rising interest rates, the County's investment policy limits maturities as follows:

Maturity	Cumulative Constraint
Less than 30 days	10%
Less than 90 days	25%
Less than 270 days	50%
Less than 1 year	70%
Less than 3 years	100%

If the goals of maturity limits are exceeded by 5% or more for ten successive business days, prompt notification to the County's Chief Financial Officer and the County's Investment Advisory Board is required. In addition, to limit its exposure to losses due to asset concentration, the County's investment policy and Oregon Revised Statutes limit asset concentration as follows:

- 1. Corporate indebtedness must be rated on the settlement date A-1 or AA or better by Standard and Poor's Corporation or P-1 or Aa by Moody's Investors Service, or the equivalent rating by any nationally recognized statistical rating organization.
- 2. Notwithstanding item one, corporate indebtedness must be rated A-2 or A by Standard & Poor's and P-2 or A by Moody's, or the equivalent rating by any nationally recognized statistical rating organization when issued by a business enterprise that has its headquarters in Oregon, employs more than 50% of its permanent workforce in Oregon, or has more than 50% of its tangible assets in Oregon.
- 3. Purchase of commercial paper and other corporate debt up to 25% of the total investment portfolio is allowed, but may exceed that limit up to 30% for a period not to exceed ten consecutive business days.
- 4. U.S. Government Agencies are limited to 75% of the investment portfolio.

Additionally, to limit its exposure to asset concentration risk, the County restricts the total investment that can be made in the corporate indebtedness of a single corporate entity and its affiliates and subsidiaries to 5% of the total investment portfolio. The County did not have any investments that exceeded this limit during the year.

Multnomah County manages custodial credit risk for deposits and investments in accordance with Oregon Revised Statutes and the County's investment policy. Deposits of public funds are collateralized at 25% of balances above federal deposit insurance

June 30, 2006

(dollar amounts expressed in thousands)

pursuant to ORS 295. As of June 30, 2006, \$4,084 of the County's bank balance of \$53,584 was exposed to custodial credit risk because it was uninsured and uncollateralized.

As of June 30, 2006, the County had the following unrestricted cash and investments:

Investment Type	Fair Value	Weighted Average Yield	Risk Concentration	Weighted Average Maturity (in months)
US Agencies	\$ 67,339	4.95%	30%	2
Corporate Debt	16,916	4.57%	8%	< 1
Commercial Paper	37,758	5.15%	17%	< 1
US Treasuries	4,971	4.68%	2%	< 1
Local Government				
Investment Pool	42,041	4.90%	19%	< 1
Cash and Equivalents	52,769	4.70%	24%	< 1
Total unrestricted cash and investments	\$ 221,794		100%	

Portfolio weighted average maturity

3

As of June 30, 2006, the County had the following restricted cash and investments. All restricted cash and investments maintained a weighted average maturity of less than one month.

		Weighted	
	Fair	Average	Risk
Investment Type	Value	Yield	Concentration
Cash with Fiscal Agent	\$ 2,558	4.90%	100%

The County maintains cash with fiscal agent accounts to set aside for debt service requirements per the trustees and bond indentures.

The County's unrestricted and restricted cash and investments are reported in governmental activities, business-type activities, and in fiduciary funds.

	Unrestricted	Restricted	Total
Governmental Activities	\$ 200,423	\$ 1,709	\$ 202,132
Business-type Activities	7,104	-	7,104
Fiduciary Funds	14,267	849	15,116
Total Cash and Investments	\$ 221,794	\$ 2,558	\$ 224,352

June 30, 2006

(dollar amounts expressed in thousands)

Revenues of Dunthorpe-Riverdale and Mid County Service Districts are reported net of uncollectible amounts. Total uncollectible amounts related to revenues are all for prior periods.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue reported in the governmental funds were as follows:

	Unavailable		Unearned		Total	
Personal income tax receivable	\$	15,428	\$	-	\$	15,428
Allowance for doubtful accounts – personal income tax		(6,981)		-		(6,981)
Property taxes receivable (General Fund)		7,510		-		7,510
Property taxes receivable (other governmental funds)		1,407		-		1,407
Grant draws prior to meeting all eligibility requirements		-		8,072		8,072
Contracts receivable		-		7,308		7,308
Contract revenue received in advance		-		467		467
Loans receivable		-		800		800
Tax title land sales inventory		-		211		211
Special assessments receivable		-		10		10
Total deferred revenue for governmental funds	\$	17,364	\$	16,868	\$	34,232

Amounts reported above as unearned are reported as unearned revenue in governmental activities on the Statement of Net Assets. Governmental activities also include Internal Service Funds, which report \$107 in unearned revenue, resulting in total unearned revenue on the Statement of Net Assets of \$16,975.

June 30, 2006

(dollar amounts expressed in thousands)

C. Capital assets

Capital asset activity for the year ended June 30, 2006 was as follows:

Primary Government

·	Beginning			Ending
	Balance	Increases	Decreases	Balance
Governmental activities:				
Capital assets, not being depreciated:				
Land	\$ 13,717	\$ 434	\$ (364)	\$ 13,787
Construction in process	-	18,339	-	18,339

June 30, 2006

(dollar amounts expressed in thousands)

During fiscal year 2005 the County finalized the construction of the Wapato Jail. The total cost of the jail was \$51,164 and is included in the above capital asset schedule. Currently the County has not approved an operating budget for the jail and therefore the jail has not been placed into service and is not being depreciated. When the jail becomes operational it will be depreciated over forty years. The County is currently considering various plans to operate the Wapato Jail.

Depreciation expense was charged to functions / programs of the primary government as follows:

Governmental activities:	
General government	\$ 14,170
Health services	47
Public safety & justice	1,044
Community services	64
Library	3,306
Roads and bridges	 17,204
Total depreciation expense – governmental activities	\$ 35,835
Business-type activities:	
Sewer	\$ 48
Lighting	 54
Total depreciation expense – business-type activities	\$ 102

D. Other assets

Other assets, net of accumulated amortization at June 30, 2006 consist of the following:

Bond issuance costs	\$	426
Negative net pension asset		44,050
	\$ 1	44,476

Amortization expense in the statement of activities on bond issuance costs and the negative net pension asset were \$32 and \$6,152, respectively for the year ended June 30, 2006.

June 30, 2006

(dollar amounts expressed in thousands)

E. Interfund receivables, payables, and transfers

The County records "due to" and "due from" transactions in order that individual funds will be able to meet cash flow needs at year end and prevent a fund from reporting a negative cash balance. The composition of interfund balances as of June 30, 2006 is as follows:

Due to / from other funds:

Receivable Funds	Payable Funds	Amount
General Fund	Federal State Fund	\$ 15,630
General Fund	Emergency Communications Fund	50
Bridge Fund	Road Fund	1,350
		\$ 17,030

Interfund Transfers:

Following are the County's interfund transfers for the year ended June 30, 2006. The general fund transfers to nonmajor governmental funds include transfers for various construction projects in the capital project funds in addition to a large transfer to the Library special revenue fund to provide for various County Library upgrades and projects.

	Transfers in:				
Transfers out:	General Fund	Willamette River Bridges Fund	Nonmajor Governmental Funds	Internal Service Funds	Total
General Fund Nonmajor	\$ -	\$ 8,000	\$ 28,654	\$ 642	\$37,296
Governmental Funds Internal Service	1,352	5,295	62	-	6,709
Funds			3,641		3,641
Total transfers out:	\$1,352	\$ 13,295	\$ 32,357	\$ 642	\$47,646

June 30, 2006

(dollar amounts expressed in thousands)

F. Short-term debt

Tax Revenue Anticipation Note

The County issues short-term debt in order to meet current operational needs during months when property tax collections are slow. On July 1, 2005 the County issued \$20,000 in short-term debt, Series 2005. The County received \$300 in June 2005 as a good faith deposit and the remaining \$19,700 in tax revenue anticipation notes were issued on July 1, 2005. The notes carried an interest rate of 4.0% and were due at June 30, 2006. On July 1, 2006 the County issued short-term debt Series 2006 in the amount of \$20,000 with \$400 received prior to year-end as a good faith deposit. The remaining funds were received on July 1, subsequent to year-end. The 2006 Series debt has an interest rate of 4.5%. Short-term liability activity for the year-ended June 30, 2006 was as follows:

	Begi	nning					Enc	ding	Due V	Within
Governmental Activities	Bal	ance	A	dditions	Re	ductions	Bala	ance	One	Year
Tax revenue anticipation note,										
Series 2005	\$	300	\$	19,700	\$	20,000	\$	-	\$	-
Tax revenue anticipation note,										
Series 2006		-		400		-		400		400
Totals	\$	300	\$	20,100	\$	20,000	\$	400	\$	400

G. Long-term debt

General Obligation Bonds

The County issues general obligation bonds to provide funds for the rehabilitation, construction and acquisition of various library and public safety facilities and related equipment. General obligation bonds have been issued for these governmental activities. The original amount of general obligation bonds issued in prior years was \$139,700. The 1996 general obligation issue in the amount of \$108,700 is subject to Federal arbitrage regulations. In February 1999, the County advance refunded a portion of these general obligation bonds by issuing \$66,115 in new general obligation bonds.

General obligation bonds are direct obligations, pledge the full faith and credit of the County and are backed by the County's authority to levy property taxes. These bonds are generally issued as 20-year serial bonds with equal amounts of principal and interest maturing each year. General obligation bonds currently outstanding are as follows:

June 30, 2006

(dollar amounts expressed in thousands)

Purpose	Interest Rates	Amount
Governmental activities	3.70-5.65%	\$ 75,340

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending June 30	Principal	Interest
2007	\$ 5,960	\$ 3,256
2008	6,255	2,972
2009	6,555	2,677
2010	6,860	2,387
2011	7,160	2,093
2012 - 2016	35,905	5,576
2017	6,645	158
Total	\$ 75,340	\$ 19,119

Revenue Bonds

The County also issues bonds where the government pledges specific revenue sources or income derived from the acquired or constructed assets to pay debt service. In October 1998, the County issued \$3,155 of revenue bonds to finance constructing, renovating, improving and equipping County-owned facilities, and entered into a public / private partnership with the Regional Children's Campus (RCC), a 501(c)(3) non profit agency. In November 2000, the County issued \$2,000 of revenue bonds to finance the costs of acquiring land and constructing, renovating, improving and equipping certain facilities to be used as a vocational training center for developmentally disabled residents of Multnomah County. This debt issue is subject to Federal arbitrage regulations. The County entered into a public / private partnership with Port City Development, a 501(c)(3) non profit agency. Also in November 2000, the County issued \$3,500 of revenue bonds to refinance the costs of acquiring real property and constructing facility improvements related to the Oregon Food Bank. The total original amount of bonds issued in prior years was \$8,655.

Revenue bonds outstanding at year-end are as follows:

Purpose	Interest Rates	Amount
Governmental activities	4.00-5.20%	\$ 6,420

June 30, 2006

(dollar amounts expressed in thousands)

Annual debt service requirements to maturity for revenue bonds are as follows:

Year Ending June 30	Principal		Int	erest
2007	\$	540	\$	291
2008		560		267
2009		585		243
2010		620		215

2012 - 2016		3,470		424
Total	\$	6,420	\$	1,626

Full Faith and Credit Bonds

On April 1, 1999, the County issued \$36,125 in Certificates of Participation with interest rates from 4.00% to 4.75% to finance the costs of acquiring land and facilities. In October 2004, the County advance refunded \$22,015 of the 1999 Certificates of Participation by issuing \$54,235 in full faith and credit bonds. Certificates of Participation are direct obligations and pledge the full faith and credit of the County. At June 30, 2006, \$6,340 of the 1999 Certificates of Participation were outstanding.

On December 1, 1999, the County issued \$184,548 in taxable Revenue Pension Obligation Bonds with interest rates from 6.49% to 7.74% to fund the County's unfunded accrued actuarial liability (UAAL). The County estimates that by funding the actuarial liability, the County will receive a present value savings of about \$35,776 between the amount calculated by the Oregon Public Employees Retirement System (PERS) to retire the UAAL and the amount of the debt repayment. Payment of principal and interest, except for a term bond, will be guaranteed by MBIA. At June 30, 2006, \$175,203 of these bonds were outstanding.

On April 1, 2000, the County issued \$61,215 in Full Faith and Credit Bonds with interest rates from 5.00% to 5.50% to finance the costs of acquiring and installing the integrated enterprise computer system, acquire land, acquire facilities and construct other County facilities and structures. In October 2004, the County advance refunded \$27,985 of these full faith and credit bonds by issuing \$54,235 in full faith and credit bonds. Full faith and credit bonds are direct obligations and pledge the full faith and credit of the County. At June 30, 2006, \$13,165 of these bonds were outstanding.

On May 15, 2003, the County issued \$9,615 in Full Faith and Credit Refunding Obligations, Series 2003 with interest rates from 1.50% to 3.25%. At June 30, 2006, \$7,890 of these bonds were outstanding.

June 30, 2006

(dollar amounts expressed in thousands)

On October 1, 2004, the County issued \$54,235 in Full Faith and Credit Refunding Obligations, Series 2004 at a premium of \$5,089, with interest rates from 3.00% to 5.00%. At June 30, 2006 the unamortized premium on the debt was \$4,580. This issue was used to refund \$27,985 of outstanding Full Faith and Credit Bonds, Series 2000 with interest rates from 5.00% to 5.50%, \$22,015 of outstanding Certificates of Participation, Series 1999 with interest rates from 4.00% to 4.75%, and \$4,960 of outstanding Certificates of Participation, Series 1998 with interest rates from 3.75% to 4.90%. The difference between the present value of the old debt service requirements and the present value of the new debt service requirements is a deferred charge of \$3,887, which is amortized as a component of interest expense over the life of the new debt. At June 30, 2006 the deferred charge was \$3,498. The entire amount of this debt issue was outstanding at June 30, 2006.

Full faith and credit bond obligations outstanding at year-end are as follows:

Purpose	Interest Rates	Amount
Governmental activities	1.50-7.74%	\$ 256,833

Annual debt service requirements to maturity for full faith and credit bonds are as follows:

Year Ending June 30	Principal	Interest
2007	\$ 10,420	\$ 11,490
2008	11,725	10,914

Capital Leases

The County has entered into various lease/purchase agreements to acquire property and equipment. These lease agreements qualify as capital leases for accounting purposes and have been capitalized in accordance with accounting principles generally accepted in the United States of America. On June 30, 2005 the County entered into a new building lease which met the criteria for a capital lease. The

June 30, 2006

(dollar amounts expressed in thousands)

building was capitalized at \$6,890 and the related debt was recorded to capital leases at June 30, 2005. During 2006 the County reevaluated this capital lease as more accurate property values and related information became available and management determined the lease should be accounted for as an operating lease. Accordingly, during 2006 the County appropriately reclassified the lease from a capital to an operating lease. Also, during 2006 the County noted an existing building lease for residential and commercial properties which had been recorded as an operating lease but upon further review, the lease was determined to be a capital lease. The building and capital lease were recorded during 2006 at a value of \$1,093. Total assets acquired through capital leases are as follows:

	GOVE	ernmentai
Asset	Ac	tivities
Buildings	\$	68,086
Less: Accumulated depreciation		(21,095)
Total	\$	46,991

Capital lease obligations outstanding at year-end are as follows:

Purpose	Interest Rates	Amount
Governmental activities	2.50-7.25%	\$ 19,444

Future minimum lease payments are as follows:

	Governmental Activities		
Year Ending June 30	Principal	Interest

June 30, 2006

(dollar amounts expressed in thousands)

Defeased General Obligation Bonds

On February 1, 1999, the County defeased certain general obligation bond issues by placing the proceeds of the new bonds in irrevocable trusts to provide for all future debt service on the old bonds. Accordingly, the trust account assets and related liability for the defeased bonds are not included in the County's financial statements. At June 30, 2006, the amount of these bonds outstanding totaled \$62,180.

Defeased Full Faith and Credit Bonds

On October 1, 2004 the County defeased certain full faith and credit bonds by placing the proceeds of the new bonds in irrevocable trusts to provide for all future service on the old bonds. Accordingly, the trust account assets and related liability for the defeased bonds are not included in the County's financial statements. At June 30, 2006, Series 2000A and Series 1999A were outstanding in the amount of \$27,985 and \$22,015, respectively.

Defeased Certificates of Participation

On October 1, 2004 the County defeased certain Certificates of Participation by placing the proceeds of the new Full Faith and Credit bonds in irrevocable trusts to provide for all future service on the old debt. Accordingly, the trust account assets and related liability for the defeased debt are not included in the County's financial statements. At June 30, 2006, the amount of these bonds outstanding totaled \$4,960.

Conduit Financing

Multnomah County Conduit Financing

On November 1, 1997, the County issued \$31,600 in Educational Facilities Revenue Bonds which have not been recorded in the County's financial statements. The proceeds of these bonds were assigned to the University of Portland (the University) to finance capital improvements to the University, pay issue costs and advance refund \$17,750 of the Series 1994 issue. On April 1, 2000, the County issued an additional \$17,160 in Conduit Educational Revenue Bonds for the University to finance the construction of a student housing facility, parking garage and street lighting. These bonds are not recorded on the books of the County but are assigned to the University. The responsibilities of the County in this bond transaction were limited to adopting the resolution authorizing the issuance of the bonds, executing the bonds and the bond documents to which it is a party, issuing and delivering the Bonds, assigning certain of its rights to the Trustee as provided in the indenture, and directing the Trustee as to the application of monies received

June 30, 2006 (dollar amounts expressed in thousands)

from the University to pay the bonds in accordance with the indenture. The County has no obligation to take any other action relating to the bonds. Since the County does not own any of the assets constructed or assume any liabilities associated with repayment, there is no balance sheet disclosure or recognition of revenues and expenditures within the County's financial statements. As of June 30, 2006, \$36,590 of Educational Facilities Revenue Bonds were outstanding.

On December 1, 1999, the County issued \$9,830 in Higher Education Variable Rate Demand Revenue Bonds. The proceeds of these bonds were used to provide funds to reimburse Concordia University for the costs of acquiring, constructing and improving the educational facilities of the University (the Project), fund a debt service reserve fund and pay the costs of issuing the bonds. The Higher Education Revenue Bonds have not been recognized as a liability of the County because the bonds are secured solely by the provisions of the Bond indenture and payments are made by Concordia University. As the County does not own any of the assets constructed or assume any liabilities associated with the Project, there is no balance sheet disclosure or recognition of revenues and expenditures within the County's financial statements. As of June 30, 2006, \$8,695 of the Higher Education Variable Rate Demand Revenue Bonds were outstanding.

The County's total conduit debt at June 30, 2006 was \$45,285. The County is not responsible or obligated for the repayment of conduit debt.

Hospital Facilities Authority of Multnomah County Conduit Financing

On December 3, 1998, the County created a component unit, the Hospital Facilities Authority of Multnomah County, Oregon (the Authority). On March 1, 1999, the Authority issued \$26,000 in Hospital Revenue Bonds (Terwilliger Plaza). On December 4, 2003, the Authority issued an additional \$17,200 in Hospital Revenue Bonds (Holladay Park Plaza). On July 13, 2004, the Authority issued an additional \$100,000 in Hospital Revenue Bonds (Providence Health Systems). The proceeds of these bonds were used by health care facilities to finance various capital projects and refund outstanding bonds. The Hospital Revenue Bonds have not been recognized as a liability of the County or the Authority because the bonds are secured solely by the provisions of the Bond indenture and payments are made by the health care facilities. Terwilliger Plaza, Holladay Park Plaza, and Providence Health Systems have pledged the gross revenues of the health care facilities to secure payment of the bonds. The bonds shall not be payable from a charge upon any fund or asset, nor shall the County or the Authority be subject to any liability. No holder or holders of the bonds shall ever have the right to exercise the taxing power of the County to pay the bonds or the interest, nor to enforce payment against any property of the County. Upon completion of the project, the assets constructed or purchased are owned by Terwilliger Plaza, Holladay Park Plaza, and Providence Health Systems. Since neither the County nor the Authority own any

June 30, 2006

(dollar amounts expressed in thousands)

assets or assume any liabilities associated with the repayment, there is no balance sheet disclosure or recognition of revenues within the County's financial statements. As of June 30, 2006, \$140,685 of these bonds were outstanding.

Note 5. Other information

A. Risk management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the County carries commercial insurance. The County established risk management programs for liability and workers' compensation, whereby premiums are calculated on payroll expenses in all funds and are paid into the risk management fund. The funds are available to pay claims, claim reserves, and reduce administrative costs of the program. These interfund premiums are used to offset the amount of claims expenditure reported in the risk management fund. As of June 30, 2006, interfund premiums exceeded reimbursable expenditures.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are re-evaluated periodically to consider the effect of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. An excess liability coverage insurance policy covers claims in excess of \$750 for workers' compensation and \$1,000 for all other claims. Settlements have not exceeded coverages for each of the past three fiscal years. The County anticipates the balance in the claims liability account at year-end will be paid within the next fiscal year.

Changes in the balances of claims liabilities during the past two years are as follows:

	Fiscal Year	Fiscal Year
	Ended 6/30/06	Ended 6/30/05
Unpaid claims, beginning of fiscal year	\$ 10,240	\$ 10,590
Incurred claims (including IBNRs)	17,559	15,522
Claim payments	(17,172)	(15,872)
Unpaid claims, end of fiscal year	\$ 10,627	\$ 10,240

June 30, 2006

(dollar amounts expressed in thousands)

B. Special Item

The County classifies special items as significant transactions or events within the control of management that are either unusual in nature or infrequent. The County has recorded the loss on the transfer of County roads in the amount of \$108,555 as a special item in the Statement of Activities. This loss is the result of an intergovernmental agreement to transfer approximately 50 miles of County roads to the City of Gresham.

C. Subsequent events

On July 1, 2006, the County issued \$20,000 in Tax and Revenue Anticipation Notes to meet current cash flow needs of the County, prior to the receipt of property tax revenues in November. The County received \$400 of these notes in June prior to year-end as a good faith deposit. This amount has been included in short-term debt; see note 4.F on page 60 for further detail. The interest rate on the notes is 4.5% and the yield is 3.7%. The notes mature on June 30, 2007.

On December 19, 2006, the Hospital Facilities Authority of Multnomah County issued \$39,765 in Hospital Revenue Bonds. The Hospital Revenue Bonds have not been recognized as a liability of the County or the Authority because the bonds are secured solely by the provisions of the Bond indenture and payments are made by the health care facility.

D. Commitments and contingent liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County's legal counsel the resolution of these matters will not have a material adverse effect on the financial condition of the County.

The following is a schedule by years of future minimum rental payments required under operating leases for certain land, buildings and equipment used in governmental operations that have initial or remaining noncancelable lease terms in excess of one year as of June 30, 2006:

June 30, 2006

(dollar amounts expressed in thousands)

Year ended June 30	
2007	1,899
2008	1,687
2009	1,501
2010	1,028
2011	915
2012 - 2016	3,851
2017 - 2021	21
2022 - 2026	15
Total minimum payments	\$ 10,917

The County recorded \$2,855 in rent expense for the year ended June 30, 2006.

E. Post employment benefits other than pensions

Plan description. The County administers a single-employer defined benefit healthcare plan per the requirements of collective bargaining agreements. The plan provides postretirement healthcare insurance for eligible retirees and their spouses through the County's group health insurance plans, which cover both active and retired participants. Benefit provisions are established through negotiations between the County and representatives of collective bargaining units. The County's post employment medical plan does not issue a publicly available financial report. The County has adopted early implementation (effective June 30, 2006) of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. At the June 30, 2006 implementation date an initial net OPEB obligation was established based on the estimated cumulative effect if GASB 45 had been in effect for the previous five fiscal years.

Funding policy. The County has not established a trust fund to supplement the costs for the net OPEB obligation. Contribution requirements also are negotiated between the County and union representatives. In general, the County pays 50% of the premiums of health care coverage for retirees from age 58 to age 65. The County's regular health care benefit providers underwrite the retirees' policies. Retirees may not convert the benefit into an in-lieu payment to secure coverage under independent plans. The County is contractually obligated by collective bargaining agreements to contribute 0.9% of annual covered payroll. At June 30, 2006, there were 528 retirees that were receiving the post employment healthcare benefit. The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2006, the County contributed \$2,073 to the plan or approximately 43% of total premiums. Plan members receiving benefits contributed \$2,778 or approximately 57% of the total premiums during fiscal year 2006.

June 30, 2006

(dollar amounts expressed in thousands)

Annual OPEB cost and net OPEB obligation. The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the guidance of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the fiscal year ending June 30, 2006, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

\$ 13,412
1,193
(1,889)
12,716
(2,073)
10,643
34,099
\$ 44,742

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2006 and the two preceding years were as follows:

		Percentage of	
Fiscal	Annual	Annual OPEB	Net OPEB
Year Ended	OPEB Cost	Cost Contributed	Obligation
6/30/04	\$ 9,165	20%	\$ 23,335
6/30/05	12,438	18%	34,099
6/30/06	12,716	16%	44,742

Funded status and funding progress. As of January 1, 2005, the actuarial accrued liability for benefits was \$109,895, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$109,895. The covered payroll (annual payroll of active employees covered by the plan) was \$228,597 for fiscal year 2006 and the ratio of the UAAL to the covered payroll was 48%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates

June 30, 2006

(dollar amounts expressed in thousands)

are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial methods and assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and historical pattern of sharing of benefit costs between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the most recently conducted, actuarial valuation (as of January 1, 2005), the unit credit method actuarial cost method was used. This method attempts to track the actual economic pattern of benefit accrual over an employee's working lifetime. The discount rate is selected based on historical and expected returns on the County's short-term investment portfolio. A discount rate of 3.5% was used in the most recent actuarial valuation for the closed period. The report states health care costs rates are trending down from 10.0% in 2005 to 5.25% in 2012 for the major medical component, which is representative for the overall plan. Both rates include a 2.5% inflation rate assumption. The County's unfunded actuarial accrued liability is being amortized using the level-dollar method with a closed group rolling 30 year amortization methodology. The remaining amortization period at June 30, 2006 is 30 years.

F. Employee retirement systems, pension plans and deferred compensation plan

Pension plans

The County participates in the Oregon Public Employees Retirement System, a cost-sharing multiple-employer defined benefit public employee pension plan that covers substantially all employees; maintains a single employer defined benefit plan for employees transferred to the County from the former Library Association of Portland; and maintains a defined contribution plan for substantially all County employees for the purpose of individual retirement savings.

Oregon Public Employees Retirement System (PERS)

Plan description. The County participates in PERS, a cost-sharing, multiple-employer defined benefit pension plan administered by the PERS Pension board. PERS provides retirement, disability, and death benefits to plan members and their beneficiaries. State statutes authorize the State to establish and amend all plan

June 30, 2006

(dollar amounts expressed in thousands)

provisions. PERS issues a publicly available financial report that includes financial statements and required supplementary information. The reports may be obtained by writing:

PERS PO Box 23700 Tigard, OR 97281-3700

Summary of significant accounting policies – basis of accounting and valuation of investments. The financial statements of PERS are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The County's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. All plan investments are reported at fair market value.

Funding policy. The contribution requirements of the County are established and may be amended by the State. The County is contractually obligated by collective bargaining agreements to pay the required employee contribution of 6.0% of annual covered payroll. The County is also required to contribute at an actuarially determined rate; the current rate is 6.78% of annual covered payroll. In addition to the funding requirements, the County also charges an internal rate of 5.25% of payroll to departments to fund the repayment of the pension obligation bonds issued in 1999.

Annual pension cost. For 2006, the County's annual pension cost of \$41,616 for PERS was equal to the County's required and actual contributions. The required contribution was determined as part of the December 31, 2003 actuarial valuation using the entry age normal actuarial cost method. This actuarial valuation is the most recent available at the time of printing this report. The actuarial assumptions included (a) 8.0% investment rate of return (net of administrative expenses), (b) projected salary increases due to inflation of 3.5% per year, and (c) projected wage growth, excluding seniority / merit raises, of 4.25% per year. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The County's unfunded actuarial accrued liability is being amortized using the closed group fixed term method. The remaining amortization period at December 31, 2003, was 24 years.

The actuarial information included in the above table was prepared using the recently enacted amendments to PERS. The amendments made changes to the actuarial equivalency factors affecting retirement benefit amounts and calculation methods.

Multnomah County Library Retirement Plan

Plan description, summary of significant accounting policies, and funding requirements. The Multnomah County Library Retirement Plan was a single employer defined contribution plan. Prior to July 1, 1990, the Plan was administered by the Library Association of Portland (the Association), a not-for-profit association. Effective July 1, 1990, the Association was transferred to the County, and the County Board of Commissioners became responsible for amending Plan provisions. The Principal Financial Group was contracted by the County to be the trustee of the Plan, and the County's Chief Financial Officer was the Plan administrator. The Plan was closed upon transfer of the Association and all employees transferred are covered by PERS. The Plan did not issue a stand alone financial report. Effective April 7, 2006, the Plan was liquidated and all assets

June 30, 2006

(dollar amounts expressed in thousands)

were transferred to individual retirement accounts or annuities. The County has no further liability for this plan.

Deferred Compensation Plan

Plan description. The County offers employees a deferred compensation plan (the Plan) administered by the County. The Plan is a defined contribution plan created in accordance with Internal Revenue Code Section 457. The Plan is available to all represented and non-represented County employees, and permits them to defer a portion of their salary until future years. Amounts deferred are not available to employees until termination, retirement, death, or unforeseeable emergency. All assets and income of the Plan are held in trust for the exclusive benefit of the participants and their beneficiaries. No Plan assets have been used for purposes other than the payment of benefits.

At June 30, 2006, the amount deferred and investment earnings thereon, adjusted to fair market value, amount to \$142,839. The amounts accumulated under the Plan including investment earnings, are excluded from the financial statements of the County.

NONMAJOR SPECIAL REVENUE FUNDS

These funds account for revenue derived from specific taxes or other earmarked revenue sources, including state gas tax, grants, and charges for services which are legally restricted to finance particular functions or activities. When a special revenue fund is not an operating fund, transfers are made from the special revenue fund to the operating funds authorized to make the expenditures. The modified accrual basis of accounting is used to record revenues and expenditures. Funds included are:

- Strategic Investment Program Fund accounts primarily for monies received from corporations receiving property tax abatements and paying fees for specific purposes as a part of the reduced tax agreement to be used for community service.
- **Road Fund** accounts for revenues primarily from State motor vehicle fees and County gasoline taxes. Expenditures consist of construction, repair, maintenance, and operation of County highways and roads.
- **Emergency Communications Fund** accounts for monies received from the State which are designated for an emergency communication network in conjunction with the City of Portland.
- **Bicycle Path Construction Fund** accounts for revenue and expenditures for bicycle paths. Revenue is one percent of State motor vehicle fees.
- **County School Fund** accounts for forest reserve yield revenues from the State of Oregon which are apportioned to the County school districts.
- General Reserve Fund accounts for a reserve maintained separate from the General Fund at approximately 5% of the total budgeted revenues of the General Fund, to be used only for extreme emergencies related to disaster relief or public life and safety issues.
- Land Corner Preservation Fund accounts for the collection of fees on all recordings of real property transactions and surveying activity. The fund makes expenditures to maintain public land corners.
- Tax Title Land Sales Fund accounts for the receipt and sale of real property foreclosed upon by the County because of unpaid property taxes. Proceeds are subsequently distributed to all taxing districts.
- Animal Control Fund accounts for revenues from dog and cat licenses, control fees and transfers to the General Fund which are utilized for animal control activities.
- **Recreation Fund** accounts for State revenues and the pass through disbursements to Metro for the operation of parks.
- **Library Fund** accounts for the public library operations.
- **Justice Services Special Operations Fund** accounts for revenues and expenditures dedicated to justice services in the community justice department, district attorney's office, and sheriff's office.
- **Inmate Welfare Fund** accounts for the proceeds from the sale of commissary items. Expenditures are made for supplies for inmates in County jails.
- **Special Excise Tax Fund** accounts for a transient lodging tax and motor vehicle tax collection to be used for convention center expenditures.

NONMAJOR DEBT SERVICE FUNDS

These funds account for the retirement of general obligation bonds, certificates of participation (capitalized leases) and other lease-purchase arrangements. The modified accrual basis of accounting is used. Funds included are:

- Capital Debt Retirement Fund accounts for lease-purchase and full faith and credit principal and interest payments for buildings and major pieces of equipment acquired by the issuance of certificates of participation, lease-purchase arrangements and full faith and credit bonds. Revenues consist of certificates of participation proceeds, bond proceeds, service reimbursements and cash transfers from other County funds.
- **General Obligation Bond Fund** accounts for payment of principal and interest on general obligation bonds. Revenue is derived from property taxes and interest.
- **PERS Pension Bond Fund** accounts for payment of principal and interest payments on pension obligation bonds that were issued to fund the County's PERS unfunded liability. Revenues consist of charges to departments and interest.
- **Revenue Bond Fund** accounts for payment of principal and interest on bonds to be issued to construct various facilities. The revenues are derived from the lease payments on the facilities and interest.

NONMAJOR CAPITAL PROJECTS FUNDS

These funds account for expenditures on major construction projects, proceeds from certificates of participation issued to finance capital acquisitions, proceeds from the sale of County property, revenue bond proceeds and library and public safety general obligation bond proceeds. The modified accrual basis of accounting is used to record revenues and expenditures. Funds included are:

- Justice Bond Project Fund accounts for projects to expand Inverness Jail, construct new jail
 facilities, upgrade other jail facilities and pay for data processing linkages in the Corrections
 system.
- **Building Project Fund** accounts for purchases and construction of capital acquisition by entering into lease/purchase agreements.
- **Library Construction / 1996 Bonds Fund** accounts for the renovation of branch libraries and upgrades to Library computer systems and linkages.
- Capital Improvement Fund accounts for the proceeds from the sale of County property and expenditures made to improve County property.
- Capital Acquisition Fund accounts for purchase of personal computers and capital purchases with economic payoffs of less than five years.
- **Asset Preservation Fund** accounts for the expenditures for building scheduled maintenance projects such as boiler replacement, carpet replacement, roof replacement, etc. Resources are derived from an asset preservation fee that is part of the facilities charges assessed to building tenants.

INTERNAL SERVICE FUNDS

These funds account for activities and services performed primarily for other organizational units within the County. Charges to the County agencies are calculated to recover costs and maintain capital. The County accounts for certain expenditures of the Internal Service Funds for budgetary purposes on the modified accrual basis of accounting. For financial reporting purposes the accrual basis of accounting is used. Such differences relate primarily to the methods of accounting for depreciation and capital outlay. Funds included are:

- **Risk Management Fund** accounts for the County's risk management activities including insurance coverage.
- **Fleet Management Fund** accounts for the County's motor vehicle fleet operations and electronics.
- Information Technology Fund accounts for the County's data processing operations.
- Mail / Distribution Fund accounts for the County's mail / distribution operations.
- **Facilities Management Fund** accounts for the management of all County owned and leased property.
- **Business Services Fund** accounts for the internal service reimbursements, revenues and expenses associated with the administration and operation of the County's human resource operations, financial operations and enterprise support system.

AGENCY FUNDS

These funds account for resources received and held by the County in a purely custodial capacity. Disbursements from these funds are made in accordance with the trust agreement or applicable legislative enactment for each particular fund. The modified accrual basis of accounting is used to record transactions in the agency funds. The funds included are:

- Sundry Taxing Bodies Fund accounts for the collection of property taxes for all governmental entities located in Multnomah County and the disbursement of the collections to such entities.
- **Department and Offices Agency Fund** accounts for the collection and disbursement of various monies held by Multnomah County in a fiduciary capacity.
- **Public Guardian Fund** accounts for receipts and disbursements for individuals who are not capable of handling their own financial affairs.
- Visitors' Facilities Trust Fund accounts for collection and disbursement of Motor Vehicle Rental Tax and Transient Lodging Tax used for visitor facilities.

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2006

Note A – General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal awards programs of Multnomah County, Oregon (the County) for the year ended June 30, 2006. The County's reporting entity is defined in Note 1 to the County's June 30, 2006 basic financial statements.

Note B – Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using a basis of accounting which is consistent with the basic financial statements, as described in Note 1 to the County's basic financial statements.

Note C – Relationship to Basic Financial Statements

As described in Note 2 to the County's basic financial statements, federal financial assistance revenues reported in the County's basic financial statements are included with intergovernmental revenues.

Note D – Noncash Awards

The accompanying Schedule of Expenditures of Federal Awards includes two noncash awards.

An award from the State Department of Education provides food donations (CFDA 10.550 – Food Donation) for the Juvenile Detention Center. The value of the food is determined by the Grantor.

An award from the Department of Health and Human Resources is in the form of vaccines (CFDA #93.268 – Childhood Immunization Grants). The value of the Childhood Immunization Grant award was determined by the granting agency. The amount expended and advanced at June 30, 2006 is calculated on a proportionate basis.

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2006

NOTE E - SUBRECIPIENTS

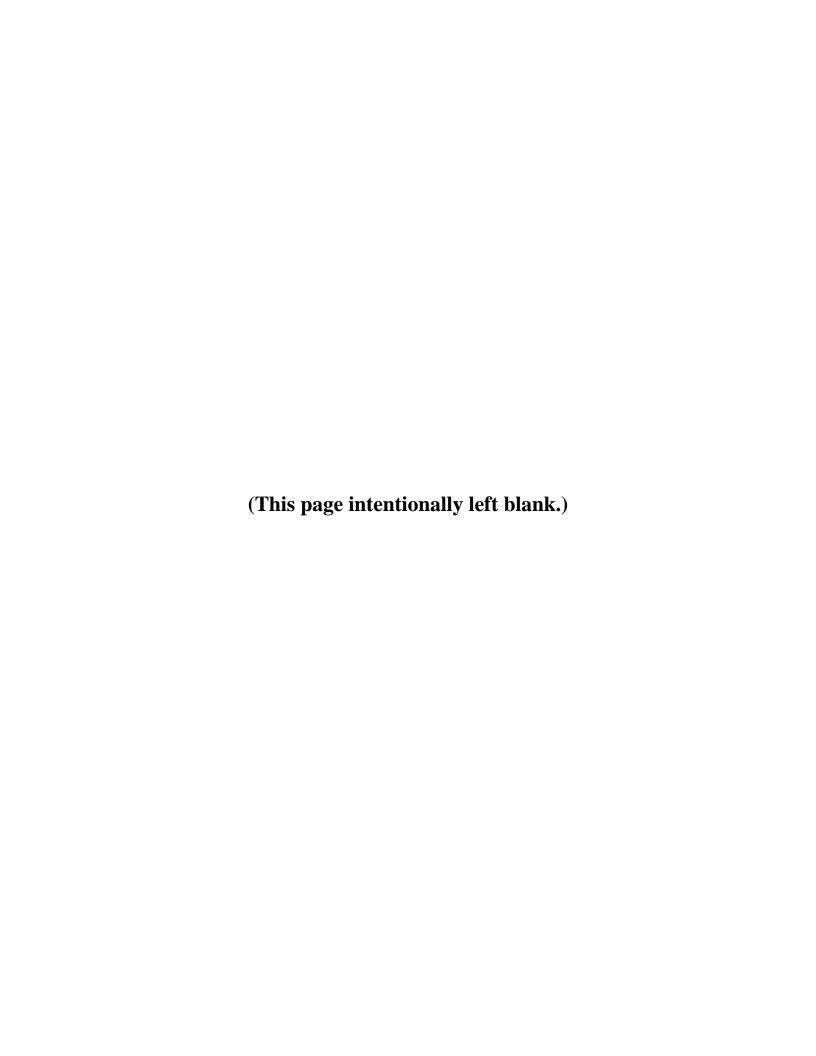

Of the federal expenditures presented in the schedule, Multnomah County provided federal awards to subrecipients as follows:

Program Title	Federal CFDA number	Amount provided to subrecipients

STATISTICAL INFORMATION SECTION (UNAUDITED)

This part of Multnomah County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health. This section contains the following tables and information:

- **Financial Trends** These schedules contain trend information to help the reader understand how the county's financial performance and well-being have changed over time.
- **Revenue Capacity** These schedules contain information to help the reader assess the County's most significant local revenue sources: personal income tax, property tax, and business income tax.
- **Debt Capacity** These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the County's ability to issue additional debt in the future.
- **Economic and Demographic Information** These schedules offer economic and demographic indicators to help the reader understand the environment within which the County's financial activities take place.
- **Operating Information** These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report for the relevant year. Note that the County implemented Governmental Accounting Standards Board Statement No. 34 in 2002; therefore schedules presenting government-wide information include only information beginning in that fiscal year and going forward.

⁽¹⁾ Prior to the passage of Measure # 50 in 1997, assessed value equaled real market value.

Source: Multnomah County Division of Assessment and Taxation

⁽²⁾ Under Measure #50, assessed value is used for computation of taxes.

⁽³⁾ Prior to 2000 amounts did not include urban renewal excess in taxable real market value.

		\$ 517,636	\$ 417,598

- (1) The overlapping debt calculation was performed by Municipal Debt Advisory Commission as of May 1, 2006.
- (2) Gross Direct Debt includes all Unlimited General Obligation bonds and Limited Tax General Obligation bonds.
- (3) Net Direct Debt includes Gross Direct Debt less self-supporting General Obligation and Limited Tax debt.

Note: Full faith and credit obligations (such as pension obligations), revenue bonds, urban renewal and special assessment bonds, certificates of participation and short-term obligations are not included in the calculation of overlapping debt by the Oregon State Treasury. Overlapping debt amounts may differ significantly from previous reports due to changes in calculations because overlapping debt reports prepared prior to July 2005 included pension obligations in Gross and Net Debt calculations.

- Schedule of Findings and Questioned Costs

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH OREGON AUDITING STANDARDS

Board of Commissioners Multnomah County, Oregon

We have audited the basic financial statements of Multnomah County, Oregon as of and for the year ended June 30, 2006 and have issued our report thereon dated December 8, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the provisions of the Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement.

Compliance

As part of obtaining reasonable assurance about whether the County's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, grants, including provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules OAR 162-10-000 to 162-10-330, as set forth below, noncompliance with which could have a direct and material effect on the determination of financial statement amounts:

- The accounting records and related internal control structure.
- The amount and adequacy of collateral pledged by depositories to secure the deposit of public funds.
- The requirements relating to debt.
- The requirements relating to the preparation, adoption and execution of the annual budgets for fiscal years 2006 and 2007.
- The requirements relating to insurance and fidelity bond coverage.
- The appropriate laws, rules and regulations pertaining to programs funded wholly or partially by other governmental agencies.
- The requirements pertaining to the use of revenue from taxes on motor vehicle use fuel funds.
- The statutory requirements pertaining to the investment of public funds.
- The requirements pertaining to the awarding of public contracts and the construction of public improvements.

MOSS-ADAMS ILP

CERTIFIED PUBLIC ACCOUNTANTS | BUSINESS CONSULTANTS

However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our test disclosed no instances of noncompliance that are required to be reported under Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State, except those noted below.

The results of our tests disclosed one instance of noncompliance relating to collateral pledged by depositories to secure the deposit of public funds.

We also found that the County had instances of interfund borrowings that were not approved by resolution or ordinance as required by ORS 294.460.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and not to provide assurance on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect Multnomah County's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. During our documentation of internal controls, we discovered that the software being used in the library system to record fines and fees is not being reconciled with the County's financial accounting software that is used to produce the financial statements. In addition, the fines and fees due from library patrons are recorded in the library's software, but have not been recorded in the financial accounting system. The County is tracking these revenues using the cash basis of accounting, which is contrary to accounting principles generally accepted in the U.S.

Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the of risk that misstatements in amounts that would be material in relation to the basic financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, the matter disclosed above is not considered to be a material weakness.

This report is intended solely for the information of the County Commissioners, management, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of County Commissioners Multnomah County, Oregon

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Multnomah County, Oregon (the County) as of and for the year ended June 30, 2006, which collectively comprise the County's basic financial statements and have issued our report thereon dated December 8, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit, we considered the County's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the County's ability to initiate, record, process, and report financial data consistent with the assertions of management in the financial statements. The reportable condition is described in the accompanying schedule of findings and questioned costs as item 2006-1.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that the reportable condition described above is not a material weakness.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

MOSS-ADAMS LLP

CERTIFIED PUBLIC ACCOUNTANTS | BUSINESS CONSULTANTS

We also noted certain additional matters that we reported to management of the County in a separate letter dated December 8, 2006.

This report is intended solely for the information and use of the audit committee, management, the Board of County Commissioners and the Secretary of State, Divisions of Audits, of the State of Oregon and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

The Board of County Commissioners Multnomah County, Oregon

COMPLIANCE

We have audited the compliance of Multnomah County, Oregon (the County) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2006. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, the County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006.

INTERNAL CONTROL OVER COMPLIANCE

The management of the County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Dollar threshold used to distinguish between type A and type B programs:	\$ 1,605,854				
Auditee qualified as low-risk auditee?	X yes no				

MULTNOMAH COUNTY, OREGON SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2006

Section II - Financial Statement Findings

2006-1

Library cash receipts recording and reconciliation

Criteria: U.S. generally accepted accounting principles (US GAAP) require that revenues be recorded on the accrual basis. In addition, subsidiary records should tie to the general ledger.

Statement of Condition: In the library system, bank deposits are not being reconciled with the Library's circulation and patron account tracking system, Millennium, nor is the Millennium system being reconciled with the general ledger system, SAP. In addition, the fines and fees due from library patrons are recorded in the Millennium system, but have not been recorded in the financial accounting system. The County is tracking these revenues using the cash basis of accounting.

Context: We found that a reconciliation of actual bank deposits with cash receipts per Millennium was not performed for any month in the fiscal year ended June 30, 2006.

Cause: The accounting department and the library do not have written procedures regarding the recording of library revenue and the reconciliation between the two systems.

Effect: The library runs the risk that errors (both inadvertent and intentional) could go undetected and corrected for months.

Recommendation: We recommend that the library revenue be recorded on the accrual basis of accounting to be in compliance with U.S. generally accepted accounting principles. In addition, we recommend that the Millennium system be reconciled with SAP on a monthly basis and that the fines and fees receivable be recorded in the financial accounting system along with a reasonable estimate for the allowance of uncollectible amounts.

View of Responsible Officials: General Ledger management will be working with Library management and finance staff in order to develop procedures to properly reconcile the Library's cash collections per the Millennium system to the County's financial accounting system, SAP, on a regular basis. In addition, we will evaluate the Library's unrecorded fines and fees and any allowance for uncollectible accounts to ensure we are complying with US GAAP.

There were no prior year financial statement findings.

Section III - Federal Award Findings and Questioned Costs

There were no current year or prior year findings and questioned costs reported.
