**1402 people served** in non-enrollment events (family educational nights, cultural fairs, etc.)

#### **Outcomes**

74% of students increased benchmark scores in Reading \*61% of students increased benchmark scores in Math\*Average daily attendance of SUN CS students was 67%

\*due to changes in state testing these numbers are not available for this year

## **SUN Spotlight**

In the 2015-2016 fiscal year, The Madison Community Food Pantry served 551 households that included 2,570 individuals and 1,288 children. In partnership with Multnomah County, Oregon Food Bank and through donations from community gardens, Madison SUN distributes fresh produce, dairy, meat, eggs, client assistance products, and non-perishables weekly.

Clients attending the food pantry reflect every facet of Madison High School's population. Students and families attend regularly, as well as students in SUN community classes and some Madison staff. Access to the food pantry enables families to prioritize spending money on resources other than food, while ensuring their children have the nutrition and stability to be successful in school. Clients report that they struggle to make ends meet at the end of the month when their SNAP benefits run out, and the Madison Food Pantry helps them bridge the gap until the beginning of the month. For others, their relief is evident in the gratitude they express.

Certain innovations allow clients to feel comfortable and welcomed at the food pantry, including a childcare area and seating for people with limited mobility. These efforts are aimed at making the clients' experiences pleasant and more dignified than the distribution of many other social services.

The pantry operates with the help of a core group of high school student volunteers. The food pantry provides a valuable opportunity for these students to engage their translation skills, gain the confidence to take initiative, and reflect on the process of distributing services to clients with humanity and efficiency.
