December 17, 2001

Honorable County Chair, Board of County Commissioners and Citizens of Multnomah County, Oregon

INTRODUCTION

We are pleased to submit the Comprehensive Annual Financial Report of Multnomah County, Oregon, for the fiscal year ended June 30, 2001, together with the opinion thereon of our independent certified public accountants, Grant Thornton LLP.

This report, required by State law, Oregon Revised Statutes 297.425, is prepared by the Finance Division and is organized into three primary sections: Introductory, Financial and Statistical. The Introductory Section includes this letter of transmittal, the County's and Finance Division's organizational charts and a list of principal officers. This section is intended to inform the reader of the organization, services, scope and financial activities of the County. The Financial Section includes the General Purpose Financial Statements, the related notes and additional information. The additional information contains the combining and individual fund and account group statements and schedules, and other schedules. This section provides summary and more detailed financial statements and schedules of County activities. The Statistical Section contains historical financial and statistical information, generally presented on a multi-year basis. The Statistical Section provides broader financial data for a more comprehensive understanding of the County.

This report also includes Audit Comments and Disclosures required under the Minimum Standards for Audits of Oregon Municipal Corporations Section of the Oregon Administrative Rules.

In addition, the County is required to have a comprehensive single audit of its Federal Assistance Programs in accordance with the Single Audit Act of 1984, OMB Circular A-133 and the provisions of <u>Government Auditing Standards</u> promulgated by the U.S. Comptroller General as they pertain to financial and compliance audits. A report on the County's compliance with applicable Federal laws and regulations related to the Single Audit Act of 1984 has been issued under separate cover.

Multnomah County management is responsible for the information in this report and we believe that the information presented is accurate in all material respects and is organized in a manner to clearly present the financial position and results of the operations of the County's various funds and account groups. Further, all necessary disclosures have been included to enable the reader to gain maximum understanding of the financial affairs of the County.

The dollar amounts shown in this transmittal letter and the dollar amounts in the financial report, unless indicated otherwise, are expressed in thousands.

REPORTING ENTITY

This report includes all funds, account groups, agencies, boards, commissions and authorities that are controlled by or dependent on the County as defined by GASB. The financial statements include the Dunthorpe-Riverdale Service District No. 1 and Mid County Service District No. 14. The Board of County Commissioners is the governing board of these entities and Multnomah County is responsible for their financial activities. These districts provide sewer and lighting services, are reported as enterprise activities and are presented as blended component units in the financial statements.

ECONOMY AND FINANCIAL OUTLOOK

Economy: Multnomah County is located in northwestern Oregon at the confluence of the Columbia and Willamette rivers, approximately 110 river miles and 80 highway miles from the Pacific Ocean. The County covers 465 square miles, most of which lies in the Willamette Valley, between the Tualatin Mountains west of the Willamette River and the Cascade Mountains to the east. The elevation ranges from 77 feet above sea level in Portland to 322 feet in Gresham and 1,224 feet at Big Bend Mountain in the Cascade foothills.

Multnomah County is the most populous county in the state with a July 1, 2000, population of 662,400. The cities of Portland, with a population of 531,600, and Gresham, with a population of 90,835, are the largest incorporated cities located in the County.

The Portland metropolitan area is the financial, trade, transportation and service center for Oregon, southwest Washington state and the Columbia River basin. Its manufacturing base includes electronics, machinery, transportation equipment and fabricated metals.

The Portland-Vancouver, OR-WA PMSA's (Primary Metropolitan Statistical Area), which includes Multnomah, Clackamas, Washington, Columbia and Yamhill counties in Oregon and Clark County in Washington, economy declined during fiscal year 2001. Over the last 12 months the Portland PMSA's payrolls have added 5,400 jobs. The Portland PMSA's total nonfarm payroll employment rose from 963,400 employees at June 30, 2000, to 968,800 employees at June 30, 2001. However, the nonfarm payroll employment declined to 958,200 at July 31, 2001. The area's unemployment rate was 5.2% at June 30, 2001, compared to a rate of 4.2% at June 30, 2000. The Portland-Vancouver Consumer Price Index (CPI) (1982-84 = 100) was 179.5 at June 30, 2001, and represents a 2.9% increase from June 30, 2000.

Financial outlook: The financial outlook for the County's General Fund over the next five years is expected to decline.

The regional economy is not expected to grow and a recovery before 2002 is questionable. The State of Oregon's recent forecast also suggests downturn of business activity.

The sluggish economy is impacting the County's revenue stream. Local government revenues in Oregon have been constrained in the 1990's by two citizen initiated property tax limitation measures. Measure 5 passed in 1990, and Measure 47 passed in 1996 and was enacted into law under the provisions of Measure 50. Property tax revenues account for about 55% of total discretionary revenue and, under Measure 50, is generally limited to 3% annual growth. New construction can be added to the assessed values and will raise the property tax growth slightly over the 3% limitation. We expect our property taxes to grow at between 3.5% to 4%. We are expecting our Business

Income Tax to remain constant with little or no growth and Motor Vehicle Rental Tax to also remain flat. Overall revenue growth is forecast between 3% to 3.5% over the next few years. Even if inflation remains at its current low levels, the level of revenue growth will not be sufficient to provide funding at current service levels. To address this shortfall the County will be making budgetary cuts of approximately \$11,000 during fiscal year 2002 to maintain priority programs and adequate reserves.

COUNTY STRUCTURE AND SERVICES PROVIDED

Multnomah County, Oregon, was incorporated in 1854 and is governed according to its Home Rule Charter, which became effective January 1967. The County's charter adopted in 1967 has had several subsequent amendments. The County is governed by a Board of County Commissioners consisting of four non-partisan members elected from designated districts within the County and the Chair of the Board, elected at large. The Board of County Commissioners conducts all legislative business of the County in one formal Board meeting per week. It also holds informal meetings during the week for the purpose of hearing informational briefings from staff, departments and outside agencies. The Board also holds other hearings as required by State law or County Charter. The County organization and the basic services provided are as follows:

MAJOR INITIATIVES

In fiscal year 2001. The County continued the RESULTS campaign. RESULTS stands for Reaching Excellent Service Using Leadership and Team Strategies and is Multnomah County's program for redesigning government. The goals of RESULTS are to build our capacity to meet our community and county benchmarks, to make sure we use tax dollars efficiently and to ensure quality services.

Enterprise Resource Planning System (ERP). During the year, the County began using an ERP system named "MERLIN", that replaced the legacy financial, payroll, procurement and human resource systems. The integrated system was implemented during a ten month period at a cost of about \$10,000 and this financial report was prepared form this system.

Multnomah County Employee Benefits Board. During the year, the County established a Multnomah County Employee Benefits Board made up of labor and management employees to work together to reach agreement on the level of benefits and a governing structure of the Benefits Board. This Board was established to help control the County's escalating costs of medical and dental benefits. All bargaining groups and management representatives have a member on the board and the agreements reached will be the basis of defining our benefit plans for the various bargaining and management groups. The level of benefits and charter were agreed to during fiscal year 2001.

Multnomah County Mental Health System. Community members, providers and County staff have been working together since 1999 to design an improved Mental Health system for people in Multnomah County. In September 2000, the Board of County Commissioners adopted values and principles for a "Consumer and Family Centered Mental Health System." And in November of 2000 County staff started to plan and implement the changes needed to achieve these goals in three phases:

- Phase I creates a County-run 24 hour Call Center, providing easy access to services, crisis care coordination, and member services. This phase puts services in place to replace the functions of the Crisis Triage Center, including new Walk-In Centers and Mobile Crisis Teams.
- Phase II implements Clinical Accountability for Providers, including new alternatives to Acute Care. It will complete planning for the next stage of redesign.
- Phase III, beginning July 2002, will focus on full implementation of a seamless service system for all people, including children, who need Mental Heath or Addiction services. This will include coordination with related State, County and community services.

The Redesign Plan is based on developmental and recovery models. The central goal is to assist each adult or child receiving services to achieve his or her full potential. Individuals and families will empower themselves to become less in need of support from the Mental Health or Addiction systems, and more successful in their lives, through functional interdependence with natural support systems.

Elected Official changes. In February 2001, Beverly Stein resigned as Chair of the Board of County Commissioners to run for the office of the Governor. In addition, Diane Linn, County Commissioner of District #1 also resigned to run for the Office of County Chair. County charter requires that an elected official must resign from office if they elect to run for another elected office. Also in accordance with the County charter, Bill Farver, Executive to Chair Beverly Stein became acting County Chair. In May of 2001, Diane Linn was elected County Chair and Maria Rojo de Steffey was elected as County Commissioner of District #1.

Bond Issues. On November 1, 2000, the County issued Revenue Bonds Series 2000 A, in the amount of \$2,000, and B, in the amount of \$3,500 to finance the costs construction, renovation, improvements of certain County owned properties. The 2000A issue is for the Port City Development project and the 2000B issue is for the Oregon Food Bank Inc. The County has pledged its Motor Vehicle Rental Tax as a source of repayment of the bonds. The total interest cost on the bonds is 5.12%. At June 30, 2001, \$5,500 was outstanding. The bonds are guaranteed by MBIA.

For the future. The County continues to use the three long-term benchmarks adopted September 16, 1996, as a factor in developing the fiscal year 2001 budget. During the budget process the County added a fourth long-term benchmark that charged County agencies to work with community experts, analyze research data and determine the most cost effective ways to deliver community related services. The Departments will also work to align programs and services around common strategies.

The County is also continuing to work with the Public Safety Council to develop programs for an alcohol and drug treatment relapse program, mental health treatment for dual diagnosis individuals and drug-free housing.

The mental health system redesign implementation will continue to be a high priority for the County.

The Library local option tax levy will be up for renewal and operating funds for the new Wapato jail and secure alcohol and drug treatment center will need to come from a local option levy.

FINANCIAL AND ACCOUNTING POLICIES

This report is prepared in conformance with the guidelines for financial reporting developed by the Government Finance Officers Association of the United States and Canada and the principles established by Governmental Accounting Standards Board (GASB), including all effective GASB pronouncements. It presents fairly the financial position of the various funds and account groups of the County at June 30, 2001, and the results of operations of such funds and the cash flows of the proprietary fund types for the year then ended in conformity with generally accepted accounting principles (GAAP).

The County budgets a total of forty-one funds, of which thirty-two are governmental fund types and nine are proprietary fund types. The County also maintains five fiduciary fund types, of which four are agency funds and one is a pension trust fund. The Governmental fund types and agency funds are maintained on a modified accrual basis, with revenues being recorded when measurable and available and expenditures being recorded when the goods or services are received. The proprietary funds and pension trust fund are maintained on the accrual basis of accounting.

INTERNAL ACCOUNTING CONTROLS AND BUDGETARY PROCESS

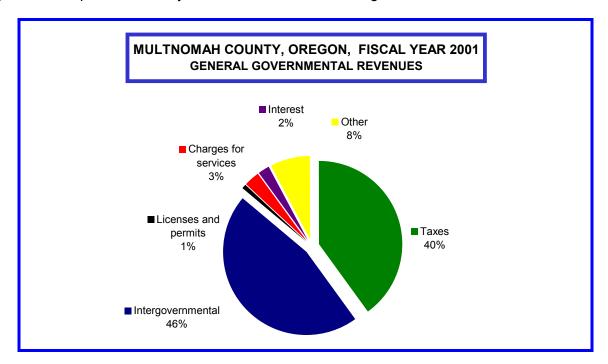

Multnomah County maintains, and management relies upon, a system of internal controls designed to provide reasonable assurance that assets are safeguarded, and that accounting transactions are executed and properly recorded so that financial statements can be prepared in accordance with GAAP and the County's budgetary requirements. The internal control structure also ensures that federal and state financial assistance funds are expended in compliance with applicable laws and regulations related to those programs. In establishing the internal control system, management considers the inherent limitations of various control procedures and weighs their cost against the benefit derived. To assure that reliable and timely information is prepared in the most efficient

manner possible, accounting policies, procedures and systems, together with related internal controls, are constantly monitored and revised, where necessary, to meet changing requirements.

The County's budget is prepared on the modified accrual basis of accounting. In accordance with State statutes, the County budgets all funds except trust and agency funds. The County budget is adopted by the Board of County Commissioners by department for each fund. The expenditure appropriations lapse at the end of the fiscal year. Additional resources and corresponding appropriations may be added to the budget during the fiscal year through a supplemental budget process. The original and supplemental budgets require budget hearings before the public, publications in newspapers and final adoption by the Board of County Commissioners. Original and supplemental budgets may be modified during the fiscal year by the use of appropriation transfers between categories. The appropriation transfers must be approved by the Board of County Commissioners in public meetings. During the fiscal year, one supplemental budgets was adopted.

FINANCIAL SUMMARY OF GENERAL GOVERNMENT FUNCTIONS

Governmental Fund Type Revenues: Revenues accounted for in the Governmental Fund Types totaled \$667,484 for the fiscal year 2001. The revenues, percent of total revenue by source and changes from the previous fiscal year are shown in the following chart and table:

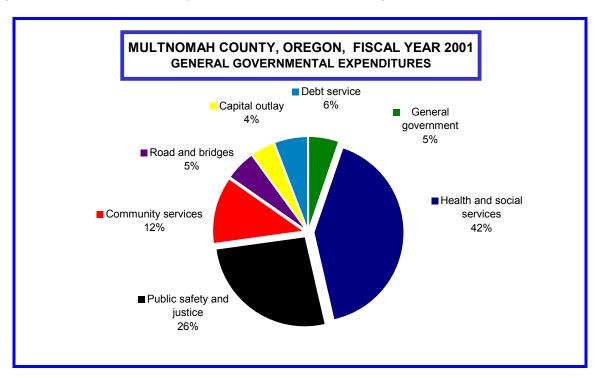

1 marint

			А	mount	Percent
	2001	2000	In	crease	Increase
	Amount	Amount	(De	ecrease)	(Decrease)
Taxes	\$ 266,466	\$ 254,514	\$	11,952	4.7%
Intergovernmental	308,993	242,966		66,027	27.2%
Licenses and permits	5,037	2,734		2,303	84.2%

Total	\$ 667,484	\$ 576,998	\$	90,486	15.7%

The major increases are:

- The increase of taxes is due to an increase in property tax collections.
- The increase of intergovernmental revenues is due to an increase in federal and state funded programs.
- Increase in other is related to internal services charged to other departments.
- Increase in interest is due to higher yields on investments.

Governmental Fund Type Expenditures: Expenditures accounted for in the Governmental Fund Types totaled \$697,210 for fiscal year 2001. The expenditures, percent of total by function and changes from the previous fiscal year are shown in the following chart and table.

Total	\$ 697,210	\$ 810,779	\$ (113,569)	-14.0%

The major increases (decreases) are:

 General government decreased due to the pass through payments made to PERS in fiscal year 2000 to fund the County's unfunded liability.

- Health and social services and public safety and justice increased due to cost of living increases and an increase in state funded programs.
- Community services increased due to cost of living increases and an increase in state funded programs.
- Capital outlay decreased due to the completion of several capital projects in fiscal year 2000.
- Debt service increased due to the PERS bonds and other new debt issues.

PROPRIETARY OPERATIONS

Operating revenues accounted for in the Proprietary Funds, exclusive of the pension trust fund, for the fiscal year ended June 30, 2001, were \$117,871, an increase of \$6,915 from fiscal year 2000. Operating expenses totaled \$126,109 for the fiscal year ended June 30, 2001, an increase of \$19,125 from fiscal year 2000. The net loss for the year ended June 30, 2001, was \$5,610 compared to the net income of \$4,044 for fiscal year 2000.

FIDUCIARY OPERATIONS

Multnomah County manages and accounts for monies received from various sources in a fiduciary capacity. Such monies are reported in the Agency Funds within the Fiduciary Fund Types. Disbursements are made in accordance with the agreement or applicable legislative enactment for each fund.

The County also administers the Library Retirement Fund, a pension trust fund. This fund was created as a result of the Library Association of Portland and Multnomah County Transfer Agreement effective July 1, 1990. This pension plan was frozen as a result of the transfer agreement.

Substantially all other County employees participate in the statewide Oregon Public Employees Retirement System. More detailed information on the County's retirement systems and deferred compensation is disclosed in the Pension Plans and Deferred Compensation notes.

RISK MANAGEMENT

Risk Management's purpose is to protect the human, physical, and financial assets of the County and is responsible for identification of potential causes of loss.

The County is partially self-insured for employee medical, dental and vision benefits, unemployment, workers' compensation, property, tort and general liability claims. The Risk Management Fund, an Internal Service Fund, is governed by an ordinance adopted by the Board of County Commissioners. The ordinance requires that a financial status report be submitted to the Board of County Commissioners on an annual basis. Every two to three years an actuarial valuation is performed on the workers' compensation and liability programs to evaluate the County's incurred but not reported (IBNR) claims. The medical and dental IBNR claims are based on projected monthly claims costs, projected enrollment and the number of days it takes an average claim to clear the claims paying system. All IBNR claims are recorded as an expense in the year they are incurred and a corresponding liability is recorded in the Risk Management Fund. The most recent actuarial valuation was performed in the summer of 2001.

The Risk Management Fund allocates the cost of providing claims servicing and claims payment by charging a premium to the various County programs based on the actuarial estimates or actual insurance premiums paid.

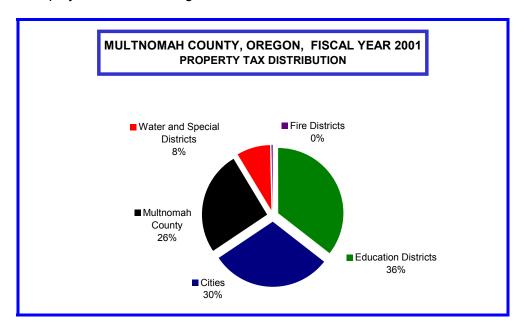

The County also funds post retirement benefits for a portion of medical insurance benefits for retirees between the ages of 58 to 65. Every three years an actuarial valuation is performed on the program to evaluate the unfunded liability and funding requirements. The most recent actuarial valuation was performed in the summer of 2001.

GENERAL FIXED ASSETS

The general fixed assets of the County are those fixed assets used in the performance of general governmental functions and exclude fixed assets of the Enterprise and Internal Service Funds. At June 30, 2001, the general fixed assets of the County amounted to \$380,277. This amount represents the original or estimated cost of the assets and is considerably less than the estimated replacement cost.

PROPERTY TAXES

Multnomah County serves as the property tax assessor and collector for all taxing bodies located in the County. The total levy for all entities within the County, as extended by the assessor, was \$800,299 for fiscal year 2001. The major levying entities, amounts, and changes from the previous fiscal year are displayed in the following chart and table:

			Amount	Percent

CASH AND INVESTMENTS

To obtain maximum return on investments, Multnomah County pools most funds for investment purposes. Multnomah County's investment transactions are governed by a written Investment Policy. The Investment Policy, which is reviewed and adopted annually by the Board of County

Commissioners, regulates the County's investment objectives, diversification, limitations and reporting requirements. The County also utilizes an independent Investment Advisory Board to review the County's investment plan and investment performance.

The average daily balance of investments for all funds, including trust funds, for fiscal year 2001 was \$281,210 and the average yield on these investments was 6.15%, as compared to the fiscal year 2000 average balance of \$264,552 and average yield of 5.66%. Investment interest earnings on all funds, excluding trust funds, for the fiscal year 2001 was \$16,606. The fair value of Cash and Investments at June 30, 2001, totaled \$235,850. The County recorded \$1,707 of unrealized gains as a result of marking its investments to fair value.

The investments are displayed in a note to the financial statements disclosing the fair values. The note also discloses the "level of credit risk" associated with the investment types. The following table and chart represents the various cash and investment types, at fair value, changes from the previous fiscal year and percent of total:

INDEPENDENT AUDIT

Oregon State law requires that an annual audit of the financial records and transactions of all County functions be performed by an independent certified public accountant. This requirement has been complied with and the general purpose financial statements have been audited by Grant Thornton LLP, our independent auditors. See the Financial Section for the full text of our auditors' report.

CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to Multnomah County, Oregon, for its comprehensive annual financial report for the fiscal year ended June 30, 2000. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. Multnomah County has received a Certificate of Achievement award for seventeen consecutive years. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

SUMMARY

Report of Independent Certified Public Accountants

The Board of County Commissioners Multnomah County, Oregon

We have audited the accompanying general purpose financial statements of Multnomah County, Oregon as of June 30, 2001 and for the year then ended, as listed in the table of contents. These general purpose financial statements are the responsibility of Multnomah County, Oregon's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of Multnomah County, Oregon as of June 30, 2001 and the results of its operations and the cash flows of its proprietary fund types and the changes in plan net assets for its pension trust fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we issued our reports dated December 4, 2001 on our consideration of Multnomah County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Audit Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of Multnomah County, Oregon. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements, and in our opinion, is fairly presented, in all material respects, in relation to the general purpose financial statements taken as a whole.

The statistical section listed in the table of contents is not a required part of the basic financial statements. We did not audit or apply limited procedures to such information and do not express any assurance on such information.

NOTE 1. Summary of Significant Accounting Policies:

The financial statements of Multnomah County (the County) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of significant accounting policies used by the County in the preparation of the accompanying combined financial statements:

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

The governmental and agency fund types are accounted for and presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available. "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when related fund liabilities are incurred.

Significant revenues which are measurable and available under the modified accrual basis of accounting are as follows:

- Property taxes collected within sixty days of year end.
- Federal and state financial assistance (to the extent that related expenditures which are eligible for reimbursement have been incurred).
- Intergovernmental revenues.
- Motor fuel use taxes.
- Motor vehicle rental and transient lodging taxes.

The measurement focus for all governmental fund types is on current financial resources. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The proprietary fund types and the pension trust fund are accounted for and presented on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded at the time they are earned and expenses are recorded at the time liabilities are incurred. The measurement focus of the proprietary funds and the pension trust fund is on a flow of economic resources. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets. The proprietary fund types have applied all Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins of the Committee on Accounting Procedures issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

(amounts expressed in thousands)

The County's agency funds are purely custodial (assets equal liabilities) and do not involve the measurement of operations. These funds are used to account for assets that the County holds for others in an agency capacity.

Governmental Reporting Entity

Based on Governmental Accounting Standards Board Statement No. 14, the combined financial statements of the reporting entity include those of the County (primary government) and its component units. Based upon criteria set forth in GASB No. 14, the component units are included in the reporting entity because of the significance of their operational or financial relationships with the County.

The County believes the financial data of all component units included in the financial reporting entity meet the criteria for blended presentation due to the fact that the Multnomah County Board of Commissioners is the governing body of each of the component units. Brief descriptions of blended component units are as follows:

- Dunthorpe-Riverdale Service District No. 1 was organized in 1964 under the provisions of ORS
 451. The District's purpose was to finance the construction and operation of sanitary sewer
 systems in the southwest areas of the County, bordering the Willamette River, and a small
 portion of northern Clackamas County. The principal funding source is charges for sanitary
 services provided.
- Mid County Service District No. 14 was organized in 1968 as Tulip Acres Lighting District under the provisions of ORS Chapter 451. The District now provides street lighting to the unincorporated urban areas of Multnomah County and the cities of Maywood Park, Troutdale, and Fairview. The principal funding source is charges for lighting services provided.

Complete financial statements for each of the individual component units may be obtained at the following address:

Multnomah County, Oregon Finance Division 501 SE Hawthorne, 4th floor PO Box 14700 Portland, OR 97293-0700

There are many other governmental agencies, including certain school districts and various special service districts, which provide services within the boundaries of Multnomah County. These agencies have independently elected or appointed governing boards and are fiscally independent of the County. Therefore, financial information for these agencies is not included in the accompanying combined financial statements.

Cash and Investments

General County investments, included in cash and investments in the combined balance sheet, are carried at fair value including the investments in the Library Retirement Pension Trust Fund. The composition of the County's investments is controlled by the County's investment policy which is adopted by the County Commissioners.

For purposes of the statement of cash flows for the proprietary fund types, cash and cash equivalents include all assets in the cash and investment pool. The cash and investment pool has the general characteristic of a demand deposit account for the Enterprise and Internal Service Funds in that these

(amounts expressed in thousands)

funds may deposit additional cash at any time and also effectively may withdraw cash at any time without prior notice or penalty. In general, interest earned from pooled investments is allocated to each fund based on the average earnings rate and daily cash balance of each fund.

Receivables

Uncollected property taxes receivable for the governmental fund types which are collected within sixty days following year end are considered measurable and available and are recognized as revenues in the funds. All other uncollected property taxes receivable for the governmental fund types are offset by deferred revenues and, accordingly, have not been recorded as revenue. Property taxes receivable in the Agency Funds are recorded as assets and liabilities.

Assessments receivable which are collected within sixty days following year end are recognized as revenues. Assessments receivable not considered measurable and available are offset by deferred revenues and, accordingly, have not been recorded as revenue.

Receivables for federal and state financial assistance are recorded as revenue in all funds as earned.

Receivables of the Enterprise Funds are recorded as revenue when earned, including charges for services rendered but not billed, net of any required allowance for doubtful accounts.

Inventories

Inventories of materials and supplies in the General Fund and Special Revenue (Road, Tax Title, and Federal and State Program) Funds are valued at average cost and are offset by a reservation of fund balance. Expenditures are recorded as inventories are used.

Internal Service Fund inventories are valued at the lower of average cost or market and are expensed when used.

Prepaid Items

Payments in excess of \$10 made to vendors for items or services that will benefit periods beyond June 30 are recorded as prepaid items. The fund balances in the governmental fund types have been reserved for amounts equal to the prepaid expenditures.

Prepayments to vendors are recorded as prepaid items in the Enterprise Funds.

Insurance premiums in excess of \$10 paid for insurance coverage beyond June 30 and prepayments made to vendors are recorded as prepaid items in the Internal Service Funds.

Foreclosed Properties

Foreclosed property is recorded at the value of the assessments for which it was foreclosed, or fair market value as indicated by the County's Assessment and Taxation Division at the date of foreclosure, whichever is less and is offset by a reservation of fund balance. Any interest on foreclosed taxes, that may be collected upon the ultimate disposal of the foreclosed property, is recognized at the time of sale or as received, whichever is later.

Fixed Assets

General fixed assets are stated at cost or estimated historical cost. Fixed assets valued at estimated historical cost are minor. Donated fixed assets are recorded at the estimated fair market value at the date of donation. Fixed assets are charged to expenditures in the governmental fund types as purchased and capitalized in the General Fixed Assets Account Group. Minor expenditures below

(amounts expressed in thousands)

established limits, most routine remodeling costs and infrastructure assets such as road, curb, gutter, sidewalk, and drainage systems are not capitalized. Upon disposal of fixed assets, the cost or estimated cost is removed from the General Fixed Assets Account Group and any proceeds are recorded as other financing sources in the appropriate fund. Depreciation is not computed on fixed assets in the General Fixed Assets Account Group. Interest incurred during construction is not capitalized on general fixed assets.

Fixed assets of the Enterprise and Internal Service Funds are stated at cost, net of accumulated depreciation, computed using the straight-line method over the estimated useful lives as follows:

- Motor vehicles 3 years
- Equipment, including software 3 to 10 years
- Sewer systems 50 years

- Buildings and improvements 50 years
- Street lighting 10 to 30 years

Six months depreciation is taken in the year the assets are acquired or retired. Normal maintenance and repairs are charged to operations as incurred. Outlays for major additions, improvements and replacements are capitalized. Amortization of capitalized leases is included in depreciation expense. Depreciation expense on contributed capital is charged to retained earnings. Transfers of fixed assets from the General Fixed Assets Account Group are recorded at the net book value calculated as if depreciation had been recognized on the asset since acquisition. Gains or losses from sales or retirements are included as non-operating revenues or expenses.

Long-term Obligations

Long-term obligations, including capital lease obligations, general obligation bonds, full faith and credit bonds, revenue bonds, loans payable, and vacation and compensatory time pay liabilities, are accounted for in the General Long-term Obligations Account Group. Long-term obligations of proprietary fund types are accounted for in the respective funds. For governmental fund types, bond premiums and discounts, as well as issuance costs, are recognized during the current period. Interest on long-term obligations is recorded when paid. Bond proceeds are reported as other financing sources net of the applicable premium or discount. Issuance costs, whether or not withheld from the actual net proceeds received, are reported as debt service expenditures.

Self Insurance

The County is partially self-insured for employee medical, dental and vision benefits, workers' compensation, property, tort and general liability claims. The County purchases stop loss insurance protection for self-insured medical claims, per individual, that exceed \$250. The County purchases all risk property insurance with deductibles of \$100 per occurrence, \$250 for earthquakes, and \$250 for flood. The County also has an excess insurance policy for individual workers' compensation claims over \$500. The County currently provides for estimated losses to be incurred from pending claims and for incurred but not reported (IBNR) claims for medical, dental, vision, tort and general liability and workers' compensation claims, based on actuarial valuations. IBNR claims are claims that are incurred through the end of the fiscal year but not reported until after that date.

The operations and activities of the self insurance program are accounted for in the Risk Management Fund. Premiums are charged to various County funds based on periodically adjusted rates.

(amounts expressed in thousands)

Contributed Capital

The following transactions are recorded as contributed capital in the proprietary fund types:

- Receipts from federal and state financial assistance restricted to acquiring fixed assets.
- Fixed assets contributed from other funds or the General Fixed Assets Account Group.

Assistance Receipts Unapplied

Amounts received for grant programs in excess of expenditures are shown as assistance receipts unapplied in the combined balance sheet.

Fund Balances Reserved

Portions of the fund balance of the General Fund, which represent inventory and prepaid items, have been segregated from unreserved fund balance to indicate these amounts are not available expendable resources.

Portions of the fund balances of the Special Revenue Funds, which represent inventory, foreclosed properties, and prepaid items, have been segregated from unreserved fund balance to indicate that these amounts are not available expendable resources.

The fund balances of the Debt Service Funds have been segregated from unreserved fund balance for amounts legally required to be set aside to pay debt service on general obligation bonds, revenue bonds, or capital leases in accordance with the lease purchase or financing agreements and for additional debt service amounts as designated by County management.

The fund balances of the Capital Projects Funds, which represent prepaid items, mortgages receivable, general obligation bond proceeds, revenue bond proceeds, and loan proceeds to be used for designated capital projects, have been segregated from unreserved fund balance to indicate that these amounts do not represent available expendable resources.

The fund balance of the Pension Trust Fund is reserved for employees' retirement benefits and administrative costs.

Compensated Absences

Vacation and compensatory time pay expected to be liquidated with expendable available resources is reported as expenditures and fund liabilities in the governmental fund types when earned. Other vacation and compensatory pay for governmental fund types which has been earned but is not expected to be liquidated with expendable available resources is recorded in the General Long-term Obligations Account Group. The amount of accumulated vacation and compensatory time pay is considered normal. Vacation and compensatory time pay is recorded as an expense in the proprietary fund types when earned. Sick pay is charged when leave is taken because it does not vest when earned.

Totals (Memorandum only) Columns

The "Totals (Memorandum only)" columns on the combined financial statements represent an aggregate of the columnar statements by fund type and account group and are presented only to facilitate financial analysis. Amounts in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Such amounts do not represent consolidated financial information as interfund eliminations have not been made in the aggregation of this data.

(amounts expressed in thousands)

Budgets

In accordance with Oregon Revised Statutes, the County budgets all funds except Trust and Agency Funds. The Board of County Commissioners adopts a Board Order authorizing appropriations for each fund and establishes the level by which expenditures cannot legally exceed appropriations. Total expenditures by department are the levels of control for each fund established by the Board Order. The detail budget document, however, is required to contain more specific detailed information for the above mentioned expenditure categories. Appropriations lapse at the end of each fiscal year.

Unexpected additional resources may be appropriated through the use of a supplemental budget and Board of County Commissioner's action. The original and supplemental budgets require budget hearings before the public, publications in newspapers and approval by the Board of County Commissioners. Original and supplemental budgets may be modified during the fiscal year by the use of appropriation transfers between the legal categories. Such transfers require approval by the Board of County Commissioners. The County made numerous appropriation transfers between categories during the fiscal year. The County budgets all fund types, except fiduciary fund types, on the modified accrual basis of accounting.

NOTE 2. Organization and Operations:

Multnomah County, Oregon is governed under its home rule charter, effective January 1, 1967 and subsequent amendments, adopted under Article VI, Section 10 of the Oregon State Constitution. Its boundaries are established by ORS 201.260. The County is governed by a nonpartisan, independently elected Chair of the Board, and by the Board of County Commissioners consisting of four nonpartisan independent members elected from districts within the County. The County's financial operations are accounted for in the following funds:

Governmental Fund Types

General Fund: Accounts for the financial operations of the County which are not accounted for in any other funds. The principal sources of revenues for this fund are property taxes, business income taxes, federal and state shared revenue and billings for interfund services.

Special Revenue Funds: Account for revenue derived from specific taxes or other earmarked revenue sources, including federal and state financial assistance awards, which are legally restricted to finance particular functions or activities. When a Special Revenue Fund is not an operating fund, transfers are made from the Special Revenue Fund to the operating funds authorized to make expenditures. Funds included in this fund category are:

- Strategic Investment Program Fund
- Road Fund
- Emergency Communications Fund
- Assessment and Taxation Fund
- Bicycle Path Construction Fund
- Federal and State Program Fund
- County School Fund
- Corner Preservation Fund
- Tax Title Land Sales Fund

- Animal Control Fund
- Willamette River Bridges Fund
- Recreation Fund
- Library Fund
- Justice Services Special Operations Fund
- Inmate Welfare Fund
- Special Excise Tax Fund
- Public Safety Levy Fund

Debt Service Funds: Account for the retirement of general obligation bonds from the collection of property taxes and for the retirement of certificates of participation (capital leases), for the retirement of revenue bonds and other lease purchase arrangements. The unmatured outstanding general obligation

(amounts expressed in thousands)

bonds, full faith and credit bonds, certificates of participation and other outstanding lease purchases are accounted for in the General Long-term Obligations Account Group. Funds included are:

- Capital Lease Retirement Fund
- PERS Pension Bond Fund

- General Obligation Bond Fund
- Revenue Bond Sinking Fund

Capital Projects Funds: Account for expenditures on major construction projects or equipment acquisition. The principal sources of revenues are proceeds from certificates of participation issued to finance capital acquisitions, proceeds from the sale of County owned property, general obligation bond proceeds, full faith and credit bonds, and revenue bonds. Funds included are:

- Justice Bond Project Fund
- Revenue Bond Fund
- SB 1145 Fund
- Equipment Acquisition Fund
- Deferred Maintenance Project Fund
- Library Construction Fund/1996 Bonds
- Capital Improvement Fund
- Capital Acquisition Fund
- Building Project Fund
- Asset Preservation Fund

Proprietary Fund Types

Enterprise Funds: Account for the operations of predominantly self-supporting activities which render services to the public on a user charge basis. Funds included are:

- Dunthorpe-Riverdale Service District No. 1 Fund (blended component unit of Multnomah County)
- Mid County Service District No. 14 Fund (blended component unit of Multnomah County)
- Behavioral Health Managed Care Fund

Internal Service Funds: Account for activities and services performed primarily for other organizational units within the County. Funds included are:

- Risk Management Fund
- Fleet Management Fund
- Telephone Fund

- Data Processing Fund
- Mail/Distribution Fund
- Facilities Management Fund

Fiduciary Fund Types

Trust and Agency Funds: Account for resources received and held by the County in a fiduciary capacity. Disbursements from these funds are made in accordance with the trust agreement or applicable legislative enactment for each particular fund. Funds included are:

- Sundry Taxing Bodies Fund
- Visitor's Facility Trust Fund
- Department and Offices Agency Fund
- Public Guardian Fund
- Library Retirement Fund (Pension Trust Fund)

Account Groups

General Fixed Assets Account Group: Accounts for the County's investment in fixed assets with the exception of those assets held by the proprietary fund types. Expenditures for the acquisition of general fixed assets are recorded in the various governmental fund types; the costs of such assets are capitalized in this account group. As fixed assets are disposed, the original cost or estimated original cost is removed from this account group; any receipts from the sale of general fixed assets is accounted for as other financing sources in the appropriate fund depending on the original funding source.

(amounts expressed in thousands)

General Long-term Obligations Account Group: Accounts for long-term obligations of the County resulting from capitalized lease transactions, certificates of participation lease transactions, vacation and compensation time pay liabilities, general obligation bonds, full faith and credit bonds, revenue bonds, loans, and other long-term obligations, which will be financed from resources of the governmental fund types.

NOTE 3. Cash and Investments:

Multnomah County pools virtually all funds for investment purposes. All appropriate funds are allocated interest based on the average daily cash balance of the fund and the average monthly yield of the County's investment portfolio. Each fund type's portion of this pool is displayed on the combined balance sheet as "Cash and Investments."

Fair Value of Investments

Pursuant to GASB Statement No. 31, investments are reported at fair value as of June 30, 2001. The total fair value of deposits and investments is \$235,850 and the total adjusted cost basis is \$234,832. During the fiscal year 2000-2001, the County realized a net gain of \$184 from the sale of investments. The calculation of realized loss is independent of the calculation of the net change in the fair value of investments. The net decrease in the fair value of investments during fiscal year 2000-2001 was \$34,635. This amount takes into account all changes in fair value (including purchases and sales) that occurred during the year. The unrealized gain on investments held at year end was \$1,018. The difference between fiscal year 1999-2000's year end unrealized loss of \$689 and fiscal year 2000-2001's year end unrealized gain of \$1,018, is an unrealized gain of \$1,707. Fair value of the County's investments is provided by the County's third-party custodian and by an independent broker/dealer.

Deposits with Financial Institutions

At year end, the carrying amount of the County's deposits was \$7,287 and the bank balance was \$7,170. The bank balance was covered by federal depository insurance or by collateral held by one or more of the State's authorized collateral pool managers in the name of the County as the County's agent. The balance of \$117 was uninsured and uncollateralized. State law requires that collateral be deposited with a value of 25% of the balances above federal deposit insurance, but in some instances, the State Banking Commission can require banks to provide more than 25% of the balances of municipal corporations' deposits as collateral. The County cannot, however, determine which, if any, institutions have been required to meet a collateral requirement larger than 25%. The County independently monitors its depository institutions for indications that could potentially cause loss of County funds. At all times during the year ended, and at June 30, 2001, the County was fully collateralized under State requirements.

Investments

Oregon Revised Statutes, Chapter 294, authorizes the County to invest in obligations of the U.S. Treasury, U.S. Government agencies and instrumentalities, bankers' acceptances guaranteed by a qualified financial institution, commercial paper, repurchase agreements, State of Oregon Local Government Investment Pool (LGIP), and various interest-bearing bonds of Oregon municipalities. The County's investment policy requires that the market value plus accrued interest of the securities collateralizing repurchase agreements exceeds the face amount of the repurchase agreement by margins prescribed in writing by the Oregon Short-Term Fund Board, providing the County with a margin against a decline in the market value of the securities. Daily marking-to-market also protects the County against declines in market value.

The market value plus accrued interest of the securities purchased under repurchase agreements did

(amounts expressed in thousands)

not fall below the required level during the year. State statutes and County policy permit the County to enter into reverse repurchase agreements, which are the sale of securities to a broker/dealer with a simultaneous agreement to repurchase them at a specified time in the future at a specified price, plus a contracted rate of interest. Any interest accruing on the sold securities belongs to the County. The market value of the securities underlying reverse repurchase agreements normally exceeds the cash received by 102%, providing the broker/dealer with a margin against a decline in the market value of the securities. Daily marking-to-market protects the County against increases in the market value.

If a broker/dealer defaults on its obligation to re-sell the securities at the maturity of the agreement, the County could suffer an economic loss equal to the difference between the market value of the securities and the amount of the reverse repurchase agreement less the contracted interest. The County did not enter into any reverse repurchase agreements at any time during the fiscal year ended June 30, 2001.

The County is authorized to invest in the LGIP, an external investment pool, within prescribed limits. The investments are booked at fair value and are the same as the value of the pool shares. The LGIP investments are governed by a written investment policy that is reviewed annually by the Oregon Short-Term Fund Board. The Oregon Short-Term Fund Board is comprised of members of local government and private investment professionals, who are appointed by the Governor of the State of Oregon.

The County's investments are governed by a written investment policy that is reviewed annually by both the Oregon Short-Term Fund Board and the Multnomah County Investment Advisory Board, and is adopted annually by the Board of County Commissioners. The policy specifies the County's investment objectives, benchmarks, required diversification by security type and by maturity, and the reporting requirements.

The County's cash deposits and investments are categorized below to give an indication of risk assumed by the County at June 30, 2001. Category 1 includes investments that are insured or registered, or for which the securities are held by the County or its third-party custodian in the County's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the bank's trust department in the County's name. Category 3 includes uninsured and unregistered investments for which the securities are held by counterparties or a trust department, but not in the County's name. The level of risk indicated below at June 30, 2001, is generally reflective of the level of risk assumed by the County during the year. For reporting purposes, adjusted cost basis is the amortized or accreted value of investments.

NOTE 5. Property Taxes:

The County reviews, bills, collects and distributes property taxes for all taxing jurisdictions within its boundaries in accordance with State law. Property taxes collected by the County are distributed to the other taxing districts on a monthly basis except for the period from November 1 through November 30, when the distribution is made weekly. Uncollected taxes, including delinquent amounts, are deemed to be substantially collectible or recoverable through foreclosure. Accordingly, no allowance for doubtful tax accounts is deemed necessary. Property taxes are levied and become a lien on July 1. Property taxes are assessed in October and tax payments are due November 15th of the same year. Under the partial payment schedule, the first one-third of taxes are due November 15, the second one-third on February 15 and the remaining one-third on May 15. A three-percent discount is allowed if full payment is made by November 15 and a two-percent discount is allowed if two-thirds payment is made by November 15. Taxes become delinquent if not paid by the due date and interest accrues after each trimester at a rate of one percent per month. Property foreclosure proceedings are initiated four years after the tax due date. Property taxes are recorded on the date levied.

The Oregon Constitution limits property taxes for local governments. Local governments must share no more than one percent of the value of real property as current year property taxes. The maximum rate

(amounts expressed in thousands)

for all local governments is \$10 per thousand of assessed value. This limit applies to the local government tax base as well as special levies. Property taxes to support voter approved debt service are exempt from the limitation. Educational districts do not fall within the definition of local governments.

On May 20, 1997, the voters approved Ballot Measure 50. Measure 50 cut or reduced property taxes imposed statewide by 17% from fiscal year 1997-98 levels unless such taxes were exempt. Measure 50 rolled back the assessed value of each unit of property for the tax year 1997-98 to its 1995-96 "real market value," less 10%. The new resulting tax rates became the new constitutional limits for each jurisdiction replacing the levy based tax system with a rate based tax system. The measure limits any increase in assessed value to 3% per year for tax years after 1997-98. There are special exemptions for property that is substantially improved, rezoned, subdivided, or annexed, or when property ceases to qualify for a property tax exemption. In addition to limiting the amount of property taxes that can be collected, the measure requires a double majority voter approval, except at a general election, for new or increased property taxes, restricts the use of general obligation bond proceeds on certain capital maintenance and equipment outlays, and restricts other means by which the State and local governments can raise revenue in lieu of property taxes. The full text of Ballot Measure 50 should be read to gain a better understanding of the limitation.

NOTE 6. Assessments Receivable:

Assessments receivable represent uncollected amounts levied against benefited property for the cost of street lighting and sewer improvements. An allowance for uncollectible amounts is not deemed necessary as substantially all amounts, including delinquent assessments, should be recoverable through liens. Substantially all assessments are payable over a period of ten years or less. Assessments bear interest at 6% to 10%. The Assessment District Operating Fund, a Special Revenue Fund, was closed to the General Fund in fiscal year 1996 because the outstanding receivables were considered to be immaterial.

NOTE 10. Deficit Fund Balance and Budgetary Over Expenditures:

Assessment and Taxation, a Special Revenue Fund, has a deficit fund balance of \$144. In fiscal year 2002, the County will make a transfer from the General Fund to correct this deficit.

Dunthorpe-Riverdale Service District No. 1, an Enterprise Fund, has negative retained earnings of \$339. However, the Fund has positive total fund equity.

Data Processing, an Internal Service Fund, has negative retained earnings of \$2,810. However, the Fund has positive fund equity.

Facilities Management, an Internal Service Fund, has negative retained earnings of \$5. However, the Fund has positive fund equity.

The following funds had overexpenditures. These overexpenditures were funded by available fund balances.

NOTE 12. Long-Term Obligations:

General Obligation Bonds

Bonded debt recorded in the General Long-term Obligations Account Group are general obligation bonds issued for the rehabilitation of the Central Library, construction of the Midland Library facilities, construction and acquisition of other library facilities and equipment, and construction and acquisition of certain public safety facilities and equipment. The general obligation bonds are direct obligations and pledge the full faith and credit of Multnomah County. The original total issue amounts were \$22,000, \$9,000, \$29,000 and \$79,700 respectively. On February 1, 1999 the County advance refunded a portion of the above general obligation bonds by issuing \$66,115 in new general obligation bonds.

General obligation bonds outstanding at year end are as follows:

<u>Purpose</u>	<u>Interest Rates</u>	<u>Amount</u>

Revenue Bonds

On October 1, 1998 the County issued \$3,155 of revenue bonds to finance the construction, renovation, improvement and equipping County owned facilities, and entered into a public/private partnership with the Regional Children's Campus (RCC), a 501(c)(3) non profit agency. The revenue bonds are recorded in the General Long-term Obligations Account Group.

On November 1, 2000, the County issued \$3,500 of revenue bonds to finance the costs of acquiring land and constructing, renovating, improving and equipping certain facilities to be used as a vocational training center for developmentally disabled residents of Multnomah County. The County entered into a public/private partnership with Port City Development, a 501(c)(3) non-profit agency. The revenue bonds are recorded in the General Long Term Obligations Account Group.

On November 1, 2000, the County issued \$2,000 of revenue bonds to re-finance the costs of acquisition of real property and constructing facility improvements related to the Oregon Food Bank. The revenue bonds are recorded in the General Long Term Obligations Account Group.

Full Faith & Credit Bonds

On December 1, 1999, the County issued \$184,548 in taxable Revenue Pension Obligation Bonds to fund the County's accrued actuarial liability (UAAL). The County estimates that by funding the actuarial liability, the County will receive a present value savings of about \$35,776 between the amount calculated by PERS to retire the UAAL and the amount of the debt repayment. The total interest cost is 7.67%. Payment of principal and interest, except for a term bond, will be guaranteed by MBIA. The term bonds are rated Aa2 by Moody's Investor Service, Inc.

On April 1, 2000, the County issued \$61,215 in full faith and credit bonds to finance the costs of acquiring and installing the integrated enterprise computer system, acquire land, acquire facilities and construct other County facilities and structures. Full faith and credit bonds are direct obligations and pledge the full faith and credit of the government.

On April 1, 1999, the County issued \$36,125 in Certificates of Participation at a net interest cost of 4.71% to finance the costs of acquiring land and facilities. Full faith and credit bonds are direct obligations and pledge the full faith and credit of the government.

Full faith and credit bond obligations outstanding at year end are as follows:

Long Term Capital Lease Obligations

The County has entered into various lease/purchase agreements to acquire property and equipment. The lease obligations of the General Fixed Assets Account Group are recorded as liabilities in the General Long-term Obligations Account Group. All other lease obligations are related to the Data Processing Fund, an Internal Service Fund, and are recorded as capitalized lease obligations. These leases have been capitalized in accordance with generally accepted accounting principles.

Long term capital lease obligations outstanding at year end are as follows:

<u>Purpose</u>	Interest Rates	<u>Amount</u>
Governmental activities	3.75-7.25%	\$ 37,158

Defeased General Obligation Bonds

In prior years, the County defeased certain general obligation bond issues by placing the proceeds of the new bonds in irrevocable trusts to provide for all future debt service on the old bonds. Accordingly, the trust account assets and related liability for the defeased bonds are not included in the County's financial statements. At June 30, 2001, the amount of these bonds outstanding totaled \$62,180.

Defeased Certificates of Participation

In prior years, the County defeased certain certificates of participation issues by placing the proceeds of the new certificates in irrevocable trusts to provide for all future debt service on the old certificates. Accordingly, the trust account assets and related liability for the defeased certificates are not included in the County's financial statements. At June 30, 2001, the amount of these certificates outstanding totaled \$26,020.

Conduit Financing

On November 1, 1997, the County issued \$31,600 in Educational Facilities Revenue Bonds which have not been recorded in the County's financial statements. The proceeds of these bonds were assigned to the University of Portland (the University) to finance capital improvements to the University, pay issue costs and advance refund \$17,750 of the Series 1994 issue. On April 1, 2000, the County issued \$17,160 in Conduit Educational Revenue Bonds for the University to finance the construction of a student housing facility, parking garage and street lighting. These bonds are not recorded on the books of the County but are assigned to the University. The responsibilities of the County in this bond transaction were limited to adopting the resolution authorizing the issuance of the bonds, executing the bonds and the bond documents to which it is a party, issuing and delivering the Bonds, assigning certain of its rights to the Trustee as provided in the indenture, and directing the Trustee as to the application of monies received from the University to pay the bonds in accordance

(amounts expressed in thousands)

with the indenture. The County has no obligation to take any other action relating to the bonds. Since the County does not own any of the assets constructed or assume any liabilities associated with repayment, there is no balance sheet disclosure or recognition of revenues and expenditures within the County's financial statements. As of June 30, 2001, \$ 44,490 of Educational Facilities Revenue Bonds were outstanding.

On December 3, 1998, the County created the Hospital Facilities Authority of Multnomah County, Oregon (the Authority). On March 1, 1999, the Authority issued Hospital Revenue Bonds (Terwilliger Plaza), which have not been recorded as a liability for generally accepted accounting principles purposes. The proceeds of these bonds are used by health care facilities to finance various capital projects and refund outstanding bonds. The Hospital Revenue Bonds have not been recognized as a liability of the County because the bonds are secured solely by the provisions of the Bond indenture and payments are made by the health care facility. Terwilliger Plaza has pledged the gross revenues of the health care facility making up Terwilliger Plaza to secure payment of the bonds. The bonds shall not be payable from a charge upon any funds, assets, nor shall the County be subject to any liability. No holder or holders of the bonds shall ever have the right to exercise the taxing power of the County to pay the bonds or the interest, nor to enforce payment against any property of the County. Upon completion of the project, the assets constructed or purchased are owned by Terwilliger Plaza. Since the County does not own any of the assets or assume any of the liabilities associated with the repayment, there is no balance sheet disclosure or recognition of revenues within the County's financial statements. As of June 30, 2001, \$25,500 of these bonds were outstanding.

NOTE 13. Arbitrage Payable:

Under certain conditions, the Tax Reform Act of 1986 requires governmental units to remit excess arbitrage earnings arising from invested bond proceeds to the Internal Revenue Service. At June 30, 2001, the County recorded a liability of \$1,341 in the combined financial statements for such estimated excess arbitrage earnings.

NOTE 14. Risk Management:

Multnomah County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Multnomah County has established an internal service fund to account for risk management activities, including payment of insurance policy premiums, payment of claims, loss control and prevention activities, including risk assessment, training and consultation to reduce the frequency and severity of loss, and to finance its uninsured risks of loss. Under this program the Risk Management Fund provides risk of loss coverage as follows:

- General liability, bodily injury and property damage of third parties resulting from the negligence of Multnomah County or its employees and errors and omissions risks;
- Property damage to County-owned facilities with deductibles of \$50 per occurrence, \$250 for earthquakes, and \$250 for flood;
- Workers' compensation, bodily injury or illness to the employees while in the course of employment: Individual workers' claims up to \$500 are covered by the Risk Management Fund. The County has an insurance policy for any claim that exceeds \$500;
- Employee medical, dental, vision, life insurance, and disability benefits: The County has a
 portion of these benefits covered by insurance and the remaining benefits are covered by the
 Risk Management Fund. On the portion covered by the Risk Management Fund, the County
 has stop loss protection for medical claims per individual that exceed \$250; and

(amounts expressed in thousands)

 Unemployment insurance: All unemployment claims are covered by the Risk Management Fund.

Multnomah County did not have any significant reduction in insurance coverage from the prior year. The County has not experienced settlements in excess of insurance coverage in prior years. An actuarial valuation and estimates of liabilities for unpaid liability and workers' compensation claims were prepared by an independent actuary in July 2001. Multnomah County monitors claims administration to ensure that proper reserves are maintained. The Risk Management Fund allocates the cost of providing claims administration and claims payment by charging a "premium" to the various funds based upon actuarial estimates of the amounts needed to pay prior and current year claims and to establish sufficient reserves. The Risk Management Fund is funded on an actuarially sound basis as required by state law for self-insureds in Oregon. Tort claims against governmental entities are limited under the Oregon Tort Claims Act to a maximum loss of \$500 per occurrence. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims, other economic and social factors, and specific, incremental claim adjustment expenses. The estimated claims liability of \$8,712 reported in the Risk Management Fund at June 30, 2001 was established in accordance with the requirements of Governmental Accounting Standards Board (GASB) Statement No. 10, which requires a liability for claims to be reported if information prior to issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The estimated claims liability at fiscal year end does not include the Risk Management Fund's operational accounts payable in the sum of \$666. A portion of the loss reserves have been discounted, with the actuary using the estimated payout pattern for liability and workers' compensation and an assumed investment rate of 5.5% in preparing estimates. Multnomah County does not purchase annuity contracts from commercial insurers to pay any aggregate amount of outstanding claims liability. Changes in the Risk Management Fund self insured claims liability, including an estimate of the ultimate cost of the claims and incurred but not reported claims, for fiscal years 1999. 2000 and 2001 were:

		Current		
	Balance at	Year Claims		Balance at
	Beginning	and		End of

2000	7,817	9,926	9,889	7,854
2001	7,854	18,716	17,858	8,712

NOTE 15. Fund Equity and Contributed Capital:

Contributed capital is recorded in proprietary funds that have received capital grants or contributions from developers, customers or other funds. Reserves represent those portions of fund equity not available for expenditures or legally segregated for a specific future use.

(amounts expressed in thousands)

During the year, contributed capital in the Enterprise and Internal Service Funds changed as follows:

		Internal
	Enterprise	Service
	Funds	Funds
Balance, June 30, 2000	\$3,455	\$11,102
Deduct:		
Disposals	(5)	-
Balance, June 30, 2001	\$3,450	\$11,102

The County adopted GASB No. 33, Accounting and Financial Reporting for Nonexchange Transactions, effective July 1, 2000. Accordingly, the County began recognizing capital contributions to proprietary funds as revenues instead of contributed capital.

NOTE 16. Post Retirement Health Care Benefits:

In addition to providing pension benefits, the County provides certain health care and life insurance benefits for retired County employees. Substantially all of the County's employees are eligible for life insurance benefits when they reach normal retirement age.

The County provides a portion of health care benefits to substantially all County employees. The County pays one-half (50%) of the monthly medical insurance premium from the retiree's fifty-eighth birthday or date of retirement, whichever is later, until the retiree's sixty-fifth birthday. These health care benefit obligations are required by labor bargaining agreements and the exempt employee ordinance. The cost of retiree health care and insurance benefits is recognized as an expense in the Risk Management Fund as claims are incurred. For fiscal year 2001, those costs totaled \$198, net of payments made by retirees. The County funds the actuarially determined amount of medical benefits that will be payable in the future for retirees' health insurance.

The accrued costs of all benefits are measured by the projected "unit credit actuarial cost method." The unfunded actuarial liability created is amortized as a level percentage of salary over a thirty-year period.

Significant actuarial assumptions used in the valuation include (a) a rate of return on the investment of present and future assets of 6.0%, (b) projected salary increases starting at 6.0% at age 20 and gradually declining to 4.0% at age 60; and (c) trend rate increases starting at 7.5% in year one and gradually declining to 6.0%. The actuarial calculation used to determine the post-retirement benefit obligation assumed two costs for the insurance claims. The County is using retiree costs that are 150% of the average costs for all covered participants. This cost is more in line with actual costs.

The applicable funding rate established by an actuarial review for fiscal year 2001 is .88% of the County's payroll, and the County's contribution has met the actuarial requirements. Following is the activity and the funding status of the post retirement health care benefits for the last three years.

NOTE 17. Pension Plans and Deferred Compensation:

State of Oregon Public Employees Retirement System (PERS) Plan Description

Substantially all County employees are participants in PERS, an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for governmental units in the State of Oregon. PERS issues a publicly available financial report that includes financial statements and required supplementary information. Those reports may be obtained by writing:

PERS PO Box 23700 Tigard, OR 97281-3700

The County's payroll for employees covered by PERS for the year ended June 30, 2001, was \$200,956. The County's total payroll was \$211,977. All full-time County employees are eligible to participate in PERS. Benefits generally vest after five years of continuous service. Retirement is allowed at age 58 (Tier 1) or at age 60 (Tier 2) with unreduced benefits, but retirement is generally available after age 55 with reduced benefits. Tier 1 applies to employees hired or vested prior to January 1, 1996. Compulsory retirement age is 70. Tier 2 applies to employees hired on or after January 1, 1996. Retirement benefits are based on salary and length of service, are calculated using a formula and are payable in a lump sum or monthly using several payment options. PERS also provides death and disability benefits. These benefit provisions and other requirements are established by state statutes. The information for retirees, beneficiaries or terminated employees entitled to benefits but not yet receiving them is not presented because PERS pools the risk related to such employees among all employers. PERS fully funds these obligations at the time of retirement or separation from service. Accordingly, the following information covers only current employees.

Funding Policy and Annual Pension Cost-PERS

The County is required by the rules applicable to PERS employers to contribute a percentage of covered employees' salaries to PERS. The contribution rate is determined based on actuarial valuations which are performed by PERS at least every two years. The contribution rate was 12.28% on July 1, 1999, and was reduced to 9.21% on January 1, 2000. The County's contribution rate decreased to 8.12% effective July 1, 2001. As required by labor agreements, the County contributes the required 6% employee contribution on behalf of all employees.

⁽²⁾ Actuarial valuation done every two to three fiscal years.

(amounts expressed in thousands)

PERS' policy provides for actuarially determined periodic contributions that are sufficient to pay benefits when due. Based on the assumptions of the December 31, 1999 actuarial valuation, the County's required contribution, including employees' contributions, was equal to the annual pension cost of \$31,607.

	Annual		Percentage	Net
	Pension		of APC	Pension
Year Ended	Cost (APC)		Contributed	Obligation
6/30/99	\$29,411		100%	0
6/30/00	32,339	(1)	100%	0
6/30/01	31,607		100%	0

⁽¹⁾ Does not include lump-sum payment of \$180,000 to fund the estimated unfunded liability.

Significant actuarial assumptions used in the most recent valuation (December 31, 1999) include (a) a rate of return on the investment of present and future assets of 8% per year, (b) projected salary increases of 4.25% per year attributable to general wage adjustments, (c) additional increases for promotion and longevity that may vary by age and service, (d) projected automatic cost-of-living benefit increases of 2% per year (the maximum allowable), and (e) demographic assumptions that have been chosen to reflect our emerging experience of the members of the system, and are the same as those used to compute the actuarially required contributions. The entry age actuarial cost method and level percentage amortization method are used. A thirty year amortization period with a closed group fixed term method is used. The actuarial value of assets is based on market value.

Multnomah County Library Retirement Plan

The Multnomah County Library Retirement Plan (the Plan) is a single employer defined benefit Plan. Prior to July 1, 1990, the Plan was administered by the Library Association of Portland (LAP) which was a not-for-profit organization. Effective July 1, 1990, the County Board of Commissioners is responsible for amending Pension Plan provisions. The Principal Mutual Life Insurance Company (Insurance Company) is contracted by the County to be the trustee of the Plan. The County Finance Director is the plan administrator. All employees transferred are now covered by PERS. The Plan does not issue a stand alone financial report. All related financial data is contained in this report.

All former LAP full-time and part-time employees who were 21 years of age or older and had completed two years of service were eligible to participate in the Plan. Benefits vested after two years of continuous service. Retirement is allowed at age 65 with unreduced benefits, but retirement is generally available after age 55 with reduced benefits. Retirement benefits are based on salary and length of service, are calculated using a formula, and are payable in a lump sum or monthly using several payment options. The Plan also provides death benefits.

(amounts expressed in thousands)

Current employees consist of 138 participants who are fully or partially vested in their accrued monthly benefits and 0 participants who are only vested in their accumulated employee contributions. Current employees have an annual covered payroll of \$5,008. The total payroll and covered payroll are the same because the plan is frozen. There are 116 retired participants currently receiving benefits.

The benefits for retired participants are guaranteed by the Insurance Company with investments in Immediate Participation Guarantee Contracts. As a result the related assets and liabilities are excluded for funding purposes.

Funding Policy and Annual Pension Cost-Library Retirement Plan

The Board of County Commissioners establishes and may amend the contribution requirements of the Plan. There are no contribution requirements for employees. The annual required contribution (ARC) of the employer was \$64, based on a contribution rate of 1.8%. The actual contribution was \$128. The actuarial assumptions and methods used in the most recent valuation (January 1, 2000) were as follows:

Actuarial cost method: Projected unit credit Amortization method: Level dollar, closed

Amortization period: 6 years, weighted average

Asset valuation method: Contract value

Investment rate of return: 7.25%

Projected salary increase: 5.88 - 9.10%

Cost of living adjustments: Consumer Price Index (limited to 2%)

Inflation Rate: 4%

Summary of Significant Accounting Policies - Library Retirement Plan

The assets of the plan consist of unallocated insurance contracts and therefore are appropriately valued at contract value. Employer contributions to the plan and benefits are recognized when due.

Deferred Compensation Plan

The County offers its employees a deferred compensation plan (the Plan) created in accordance with Internal Revenue Code Section 457. During fiscal year 1998, the County adopted GASB Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, and entered into trust agreements with the Plan providers in order to comply with the

(amounts expressed in thousands)

requirements of subsection (g) of IRC Section 457. The Plan, available to all permanent County employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or an unforeseeable emergency.

All assets and income of the Plan are held in trust for the exclusive benefit of participants and their beneficiaries.

The amount deferred, adjusted to fair market value at June 30, 2001, and investment earnings thereon amount to \$89,282. The amounts accumulated under the deferred compensation plan, including investment earnings, are excluded from the financial statements of the County.

No plan assets have been used for purposes other than the payment of benefits.

It is the opinion of the County Attorney that the County has no fiduciary responsibilities under the Plan.

NOTE 18. Commitments and Contingent Liabilities:

Additional commitments under contracts at June 30, 2001 are as follows:

\$ 1,891
32,608
3,712
2,349
20,235
\$60,795
\$

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, could become a liability of the County.

Various claims and lawsuits against the County are pending. These claims are either covered by insurance would be paid by the Risk Management Fund as described in footnote 14. County management believes the total amount of liability, if any, which may arise from such claims and lawsuits beyond that which is covered by insurance would not have a material effect on the County's financial condition or its ability to carry on its activities substantially as now conducted.

NOTE 19. Segment Information for Enterprise Funds:

The County's Enterprise Funds account for the financing of predominantly self-supporting activities to the public on a user charge basis including lighting and sewer services, and mental health care claims administration.

(amounts expressed in thousands)

Segment information at June 30, 2001 and for the year then ended is as follows:

NOTE 20. Subsequent Events:

On July 2, 2001, the County issued \$20,000 in Tax and Revenue Anticipation Notes to meet anticipated cash flow requirements prior to the collection of property taxes in November and other revenues received after November. The stated interest rate is 3.50% with a yield of 2.60%. The notes mature on June 28, 2002, and are rated MIG1 by Moody's Investors Service, Inc.

GENERAL FUND The General Fund accounts for the financial operations of the County which are not accounted for in any other fund. The principal sources of revenues are property taxes and business income taxes. Primary expenditures in the General Fund are made for general government, public safety, and health and social services. The modified accrual basis of accounting is used to record revenues and expenditures.

SPECIAL REVENUE FUNDS

These funds account for revenue derived from specific taxes or other earmarked revenue sources, including state gas tax, grants, and charges for services which are legally restricted to finance particular functions or activities. When a special revenue fund is not an operating fund, transfers are made from the special revenue fund to the operating funds authorized to make the expenditures. The modified accrual basis of accounting is used to record revenues and expenditures. Funds included are:

- Strategic Investment Program Fund accounts primarily for monies received from corporations receiving property
 tax abatements and paying fees for specific purposes as a part of the reduced tax agreement to be used for
 community service.
- Road Fund accounts for revenues primarily from State motor vehicle fees and County gasoline taxes.
 Expenditures consist of construction, repair, maintenance, and operation of County highways and roads.
- Emergency Communications Fund accounts for monies received from the State which are designated for an
 emergency communication network in conjunction with the City of Portland.
- Assessment and Taxation Fund accounts for revenues and expenditures for property assessment and tax collection.
- Bicycle Path Construction Fund accounts for revenue and expenditures for bicycle paths.
- Federal and State Program Fund accounts for the majority of revenues and expenditures related to Federal and State financial assistance programs.
- County School Fund accounts for transfers from the General Fund and forest reserve yield revenues from the State of Oregon which are apportioned to the County school districts.
- Corner Preservation Fund accounts for the collection of fees on all recordings of real property transactions and surveying activity. The fund makes expenditures to maintain public land corners.
- Tax Title Land Sales Fund accounts for the receipt and sale of real property foreclosed upon by the County because of unpaid property taxes. Proceeds are subsequently distributed to all taxing districts.
- Animal Control Fund accounts for revenues from dog and cat licenses, control fees and transfers to the General Fund which are utilized for animal control activities.
- Willamette River Bridges Fund accounts for motor vehicle fees and gasoline tax proceeds transferred from the Road Fund for bridge inspections and maintenance.
- Recreation Fund accounts for the collection and disbursement of park revenues from various funding sources on a pass through basis.
- Library Fund accounts for the public library operations.
- Justice Services Special Operations Fund accounts for revenues and expenditures dedicated to justice services in the community corrections department, district attorney's office, and sheriff's office.
- Inmate Welfare Fund accounts for the proceeds from the sale of commissary items. Expenditures are made for supplies for inmates in County jails.
- Special Excise Tax Fund accounts for a transient lodging tax collected from all hotels and motels in the County to be used for convention center expenditures.
- Public Safety Levy Fund accounts for operation of the Inverness Jail and related corrections programs.

DEBT SERVICE FUNDS

These funds account for the retirement of general obligation bonds, certificates of participation (capitalized leases) and other lease-purchase arrangements. The modified accrual basis of accounting is used. Funds included are:

- Capital Lease Retirement Fund accounts for lease-purchase principal and interest payments for buildings and major pieces of equipment acquired by the issuance of certificates of participation or other lease-purchase arrangements. Revenues consist of certificates of participation proceeds, service reimbursements and cash transfers from other County funds.
- PERS Pension Bond Fund accounts for payment of principal and interest payments on pension obligation bonds that were issued to fund the County's PERS unfunded liability. Revenues consist of charges to departments and interest.
- General Obligation Bond Fund accounts for payment of principal and interest on general obligation bonds. Revenue is derived from property taxes.
- Revenue Bond Sinking Fund accounts for payment of principal and interest on bonds to be issued to
 construct the Edgefield Children's Center. The revenues are derived from lease of the facility to the
 Edgefield Children's Center, Inc. Due to project delay, the bonds were not issued and the lease was not
 executed.

CAPITAL PROJECTS FUNDS

These funds account for expenditures on major construction projects, proceeds from certificates of participation issued to finance capital acquisitions, proceeds from the sale of County property, revenue bond proceeds and library and public safety general obligation bond proceeds. The modified accrual basis of accounting is used to record revenues and expenditures. Funds included are:

- Justice Bond Project Fund accounts for projects to expand Inverness Jail, construct new jail facilities, upgrade other jail facilities and pay for data processing linkages in the Corrections system.
- Edgefield Children's Center Fund accounts for the construction of an expanded Edgefield Children's Center. The proceeds will be from the issue of revenue bonds. Due to project delay the bonds were not issued.
- SB1145 Fund accounts for State revenue to build jail beds to house convicted felons with sentences under twelve months.
- Equipment Lease/Purchase Fund accounts for long-term lease purchases of equipment.
- Lease/Purchase Project Fund accounts for purchases and construction of capital acquisition by entering into lease/purchase agreements.
- Library Construction Fund/1996 Bonds accounts for the renovation of branch libraries and upgrades to Library computer systems and linkages.
- Capital Improvement Fund accounts for the proceeds from the sale of County property and expenditures made to improve County property.
- Capital Acquisition Fund accounts for purchase of personal computers and capital purchases with economic payoffs of less than five years.
- Deferred Maintenance Projects Fund accounts for expenditures for building deferred maintenance projects. Resources re derived from certificates of participation or other financing projects.
- Asset Preservation Projects Fund accounts for the expenditures for building scheduled maintenance
 projects such as boiler replacement, carpet replacement, roof replacement, etc. Resources are
 derived from an asset preservation fee that is part of the facilities charges assessed to building
 tenants.

ENTERPRISE FUNDS

These funds are used to finance and account for the acquisition, operation and maintenance of sewage treatment facilities, street lighting facilities, improved library services, health care and childrens mental health claims administration, which are supported by user charges. The County accounts for certain expenditures of the enterprise funds for budgetary purposes on the modified accrual basis of accounting. For financial reporting purposes the accrual basis of accounting is used. The difference in the accounting basis used relates primarily to the methods of accounting for depreciation, debt and capital outlay. Funds included are:

- Dunthorpe-Riverdale Service District No. 1 Fund accounts for the operation of the sanitary sewer system in southwest unincorporated Multnomah County. (A blended component unit of Multnomah County.)
- Mid County Service District No. 14 Fund accounts for the operation of street lights throughout unincorporated Multnomah County. (A blended component unit of Multnomah County.)
- Behavioral Health Managed Care accounts for all financial activity associated with the State required behavioral health capitated services.

INTERNAL SERVICE FUNDS

These funds account for activities and services performed primarily for other organizational units within the County. Charges to the County agencies are calculated to recover costs and maintain capital. The County accounts for certain expenditures of the Internal Service Funds for budgetary purposes on the modified accrual basis of accounting. For financial reporting purposes the accrual basis of accounting is used. Such differences relate primarily to the methods of accounting for depreciation and capital outlay. Funds included are:

- Risk Management Fund accounts for the County's risk management activities including insurance coverage.
- Fleet Management Fund accounts for the County's motor vehicle fleet operations.
- Telephone Fund accounts for the County's telephone operations.
- Data Processing Fund accounts for the County's data processing operations.
- Mail/Distribution Fund accounts for the County's mail/distribution operations.
- Facilities Management Fund accounts for the management of all County owned and leased property.

GENERAL FIXED ASSETS ACCOUNT GROUP

CENERAL FIXED AGGETG AGGGGTT GROOT
The General Fixed Assets Account Group is a self-balancing account group used to record the fixed assets of the County except for the assets recorded in the Enterprise and Internal Service funds. Expenditures for the acquisition of general fixed assets are recorded in the various governmental fund types; the costs of such assets are capitalized in this account group. As fixed assets are disposed, the original cost or estimated original cost, is removed from this account group; any receipt from the sale of
general fixed assets is accounted for as revenue in the appropriate fund depending on the original funding source.

The Board of County Commissioners Multnomah County, Oregon

We have audited the general purpose financial statements of Multnomah County, Oregon as of and for the year ended June 30, 2001, and have issued our report thereon dated December 4, 2001. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the provisions of the Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State, and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

Compliance with laws, regulations, contracts and grants applicable to Multnomah County, Oregon is the responsibility of the County's management. As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of the County's compliance with certain provisions of laws, regulations, contracts and grants. However, our objective was not to provide an opinion on overall compliance with such provisions. Accordingly, we do not express such an opinion. Certain areas covered, as required by Oregon Administrative Rules 162-10-230 through 162-10-320, included but were not limited to the following:

Accounting and Internal Control Structure - Our report on the accounting and internal control structure is presented separately under this cover.

Programs Funded from Outside Sources - Reports related to such programs are presented separately under separate cover.

Financial Reporting Requirements - Whether financial reports and related data filed with other governmental agencies in conjunction with programs funded wholly or partially by such agencies were in agreement with or supported by the accounting records.

Compliance with Legal or Other Requirements -

Accounting Records - Pertaining to condition and adequacy of accounting records.

Collateral - Pertaining to the amount and adequacy of collateral pledged by depositories to secure the deposit of public funds (see requirements for public fund deposits as specified in Oregon Revised Statutes (ORS) 295)

Indebtedness - Relating to debt and the limitation on the debt amount, liquidation of debt within the prescribed period of time, and compliance with provisions of indentures or agreements, including restrictions on the use of moneys available to retire indebtedness

The result of our tests indicate that, with respect to the items tested, Multnomah County, Oregon complied, in all material respects, with the provisions referred to above except as follows: 1) the County's cash deposits with banks were undercollateralized for one day during the year ended June 30, 2001; 2) the County had overexpenditures as listed in Note 10 of Notes to the Combined Financial Statements; and, 3) the County did not publish the budget committee meeting notice for Multnomah County in the newspaper for a second time. With respect to items not tested, nothing came to our attention that caused us to believe that the County had not complied, in all material respects, with those provisions.

This report is intended solely for the information and use of management, the Board of County Commissioners and the Secretary of State, Division of Audits, of the State of Oregon and is not intended to be and should not be used by anyone other than these specified parties.

Report of Independent Certified Public Accountants on the County's Compliance and on Internal Control Over Financial Reporting Based on an Audit of General Purpose Financial Statements Performed in Accordance with Government Auditing Standards

The Board of County Commissioners Multnomah County, Oregon

We have audited the general purpose financial statements of Multnomah County, Oregon as of and for the year ended June 30, 2001, and have issued our report thereon dated December 4, 2001. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Multnomah County, Oregon's general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Multnomah County, Oregon's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weakness.
