December 17, 2002

Honorable County Chair, Board of County Commissioners and Citizens of Multnomah County, Oregon

INTRODUCTION

We are pleased to submit the Comprehensive Annual Financial Report of Multnomah County, Oregon, for the fiscal year ended June 30, 2002, together with the opinion thereon of our independent certified public accountants, Grant Thornton LLP. This report, required by State law, Oregon Revised Statutes 297.425, is prepared by the Finance Program Area. Also included are Audit Comments and Disclosures required under the Minimum Standards for Audits of Oregon Municipal Corporations Section of the Oregon Administrative Rules.

In addition, the County is required to have a comprehensive single audit of its Federal Assistance Programs in accordance with the Single Audit Act of 1984, OMB Circular A-133 and the provisions of <u>Government Auditing Standards</u> promulgated by the U.S. Comptroller General as they pertain to financial and compliance audits. A report on the County's compliance with applicable Federal laws and regulations related to the Single Audit Act of 1984 has been issued under separate cover.

With these statements the County is implementing the requirements of Governmental Standards Board (GASB) Statement 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* issued in June 1999. This statement establishes new financial reporting requirements. The format and purpose of these changes are addressed in Management's Discussion and Analysis.

This report is prepared in conformance with the guidelines for financial reporting developed by the Government Finance Officers Association of the United States and Canada and the principles established by GASB, including all effective GASB pronouncements. It presents fairly the financial position of the various funds and account groups of the County at June 30, 2002, and the results of operations of such funds and the cash flows of the proprietary fund types for the year then ended in conformity with accounting principles generally accepted in the United States of America (GAAP). The report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, County management assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements. Because the cost of internal controls has been designed to provide reasonable assurance that the financial statements

will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Multnomah County's MD&A can be found immediately following the independent auditors' report.

PROFILE OF MULTNOMAH COUNTY, OREGON

Multnomah County, incorporated in 1854, is located in northwestern Oregon at the confluence of the Columbia and Willamette rivers, approximately 110 river miles and 80 highway miles from the Pacific Ocean. The County covers 465 square miles, and serves a population of 662,400 citizens. The cities of Portland and Gresham are the largest incorporated cities in the County.

Multnomah County is governed according to its Home Rule Charter, which became effective January 1967. The County's charter adopted in 1967 has had several subsequent amendments. The County is governed by a Board of County Commissioners consisting of four non-partisan members elected from designated districts within the County and the Chair of the Board, elected at large. The Board of County Commissioners conducts all legislative business of the County.

Multnomah County provides a full range of services, including public safety protection; corrections and probation; construction and maintenance of roads, highways, bridges and other infrastructure; health and social services; library and community enhancement; and internal business support. Certain sanitary and lighting services are provided as legally separate Service District Authorities, which function, in essence, as departments of the County and therefore have been included as integral parts of the County's financial statements. Additional information on these legally separate entities can be found in note 1 of the notes to the financial statements.

The County's budget is prepared on the modified accrual basis of accounting. In accordance with State statutes, the County budgets all funds except trust and agency funds. The County budget is adopted by the Board of County Commissioners by department for each fund. The expenditure appropriations lapse at the end of the fiscal year. Additional resources and corresponding appropriations may be added to the budget during the fiscal year through a supplemental budget process. Original and supplemental budgets may be modified during the fiscal year by the use of appropriation transfers between categories. The appropriation transfers must be approved by the Board of County Commissioners in public meetings. During the fiscal year, one supplemental budget was adopted.

Budget to actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund and the federal state program fund – this comparison is provided on pages 29-30 as part of the basic financial statements for the governmental funds. For all other governmental funds with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 63.

FACTORS AFFECTING FINANCIAL CONDITION

Local Economy: The Portland metropolitan area is the financial, trade, transportation and service center for Oregon, southwest Washington State and the Columbia River basin. Its manufacturing base includes electronics, machinery, transportation equipment and fabricated metals.

The Portland-Vancouver, OR-WA PMSA's (Primary Metropolitan Statistical Area) economy declined during fiscal year 2002. The area's unemployment rate was 7.5% at June 30, 2002, compared to a rate of 5.8% at June 30, 2001. The Portland-Vancouver Consumer Price Index (CPI) (1982-84 = 100) was 183.5 at June 30, 2002, and represents a 2.2% increase from June 30, 2001.

Financial outlook: The financial outlook for the County's General Fund over the next five years is expected to decline. The regional economy is not expected to grow and a recovery before 2003 is questionable. The State of Oregon's recent forecast also suggests a continued downturn of business activity.

The region's sluggish economy is impacting the County's revenue stream. Property taxes are expected to grow at between 2% to 3%. Business Income Tax is expected to remain constant with little or no growth and Motor Vehicle Rental Tax is also expected to remain flat. Overall revenue growth is forecast between 3% to 3.5% over the next few years. Even if inflation remains at its current low levels, the level of revenue growth will not be sufficient to provide funding at current service levels. To address this shortfall the County will be making budgetary cuts of approximately \$20,000 for fiscal year 2003 to maintain priority programs and adequate reserves.

Financial planning. The County Chair has created a Cabinet that consists of the Board Chair's Chief Operating Officer, Department Directors, District Attorney, Sheriff, Chief Financial Officer, Chief Budget Officer, Chief Personnel Officer, Chief Information Officer, Facilities Director and Union Presidents. The Cabinet has begun to have planning sessions to develop short-term and long-term goals and to address the financial stability of the County. The County's Financial and Budget Officers also meets with City of Portland Financial and Budget Officers to confer on financial issues that either overlap or impact each entity. The Library local option tax levy will be up for renewal and operating funds for the new Wapato jail and secure alcohol and drug treatment center will need to come from a local option levy.

Cash management policies and practices. To obtain maximum return on investments, the County pools most funds for investment purposes with the State Treasurer's investment pool. Other cash temporarily idle during the year was invested in US Treasury notes, repurchase agreements, municipal bonds, bankers' acceptances, commercial paper, and certificates of deposits. Investment transactions are governed by a written Investment Policy, which regulates the County's investment objectives, diversification, limitations and reporting requirements, and which is reviewed and adopted annually by the Board of County Commissioners. The County also utilizes an independent Investment Advisory Board to review the County's investment plan and investment performance.

The maturities of the investments range from one day to three years with an average maturity of six to nine months. The average yield on investments was 3.65%. Investment income includes appreciation in the fair value of investments. Increases in fair value during the current year, however, do not necessarily represent trends that will continue, nor is it always possible to realize such amounts, especially in the case of temporary changes in the fair value of investments that the County intends to hold to maturity.

Risk management. The County has established an internal service fund to account for risk management activities and to protect the human, physical, and financial assets of the County. As part of the County's plan for risk management, resources are accumulated in the Risk Management fund to meet potential losses. In addition, various control techniques, including loss prevention training and consultation, have been implemented to minimize losses. The County is partially self-insured for employee health benefits, unemployment, workers' compensation, property, tort and general liability claims. Third party coverage is currently maintained for individual workers' compensation claims in excess of \$500, and for other claims in excess of \$250. Additional information on the County's risk management activity can be found in note 4.A of the notes to the financial statements, beginning on page 57.

3

÷

Pension and other post-employment benefits. Substantially all County employees are participants in the State of Oregon Public Employees' Retirement System (PERS). Every other year, an independent actuary engaged by PERS calculates the amount of the annual contribution rate that member employers must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. Benefits for retirees, beneficiaries and terminated employees not yet receiving benefits are not presented, because PERS pools the risk related to these employees among all member employers and fully funds benefit obligations at time of separation from service. Accordingly, information presented in this report relates only to current employees, and shows that the retirement obligations are not fully funded.

Multnomah County also provides postretirement health and dental benefits for retirees and their dependents. At the end of the current fiscal year, there were 428 retired employees receiving these benefits, which are financed by contribution rates charged to departments. These rates are based on an actuarial valuation that is performed every two to three years. GAAP does not require governments to report a liability in the financial statements in connection with an employer's obligation to provide these benefits.

Additional information on the County's pension and post-employment benefits can be found in note 4.D of the notes to the financial statements.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report (CAFR) for the year ended June 30, 2001. This was the eighteenth year that the County has received this prestigious award. In order to be awarded a Certificate of Achievement, the County published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the employees in the Finance Program Area who maintained the records and assisted in the preparation of this report. Special thanks are extended to the General Ledger Staff who were instrumental in preparing this report. Appreciation is also extended to the Chair of the Board, Board of County Commissioners, Department Managers, Budget & Service Improvement and other County personnel for their assistance and support in planning and conducting the financial operations of the County in a prudent manner.

Respectfully Submitted,

Boyer

David A. Boyer Finance Director

Report of Independent Certified Public Accountants

The Board of County Commissioners Multnomah County, Oregon

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Multnomah County, Oregon, as of and for the year ended June 30, 2002, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Multnomah County, Oregon's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Multnomah County, Oregon, as of June 30, 2002, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons for the General Fund and Federal and State Program Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 11 through 21 and the schedules of funding progress on page 62 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Multhomah County, Oregon's basic financial statements. The introductory section and supplementary information section as listed in the table of contents, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Multnomah County, Oregon, we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2002. We encourage readers to consider the information presented here in conjunction with the additional information that we have furnished in our letter of transmittal, which can be found on pages 1-4 of this report. All dollar amounts, unless otherwise indicated, are expressed in thousands.

Financial Highlights

- Multnomah County's assets exceeded its liabilities at June 30, 2002, by \$413,561 (*net assets*). Of this amount, \$60,776 is restricted for capital improvement projects and \$14,197 is restricted for future years' debt service.
- The County's total net assets decreased by \$24,058. Approximately 75% of this decrease is attributable to declines in Business Income and tourism taxes, and federal and state revenues.
- As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$109,334, a decrease of \$49,720 in comparison with the prior year. Of this amount, \$33,707 or 32% is available for spending at the County's discretion (*unreserved fund balance*).
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$9,144, or 6% of total General Fund expenditures.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Multnomah County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the

change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, health and social services, public safety and justice, community services, roads and bridges, and libraries. The business-type activities of the County include sanitary sewer and street lighting districts, and a behavioral health managed care operation.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also a legally separate sanitary sewer district and a legally separate street lighting district, for which the County is financially accountable. Financial information for these two *blended component units* is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 22-24 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains 31 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Federal State Program Fund, and the Justice Bond Capital Project Fund, all of which are considered to be major governmental funds. Data from the remaining governmental funds (non-major governmental funds) are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual appropriated budget for all funds. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

The basic governmental fund financial statements and respective reconciliations can be found on pages 25-28 of this report.

Proprietary funds. The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its sewer and lighting operations, and for behavioral health capitated services. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses *internal service funds* to account for its risk management activities, fleet operations, telephone and data processing systems, mail distribution and facilities management operations. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The enterprise fund financial statements provide aggregate information for the sewer and lighting districts and the behavioral health fund. The internal service funds are also combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the proprietary and internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 31-33 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support County programs. The accounting used for fiduciary funds is similar to that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 34-35 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the financial data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 36 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the County's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 62 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found beginning on page 63 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. The County's assets exceeded liabilities by \$413,561 at the close of the most recent fiscal year.

At June 30, 2002, the County had \$474,538 invested in capital assets, net of related debt. Directly related to the amount invested in capital assets, net of debt, is the unrestricted operating deficit of \$135,950. The deficit is due to changes in accounting requirements mandated by Governmental Accounting Standards Board Statement No. 34 (GASB 34), implemented this year. GASB 34 required that the County record all outstanding debt in the current year in the Statement of Net Assets, when in fact the proceeds and expenses of the debt had been recognized in prior years.

During fiscal year ending June 30, 2000, the County issued Pension Obligation Bonds (PERS Bond) in the amount of \$184,548 to fund the County's unfunded accrued actuarial liability (UAAL). The total outstanding

debt at June 30, 2002 was \$425,113. Of this amount, \$184,018, or 43%, reflects the outstanding debt for the PERS Bond. All remaining debt is related to capital assets. Had the PERS debt been included in the calculation of capital assets net of related debt, the County's unrestricted net assets would have been a positive balance of \$44,942. The recording of the County's long-term debt, including the PERS Bonds, has had a negative impact on the County's unrestricted net assets. The deficit in the County's unrestricted net assets will continue in future years, providing the County's capital assets do not substantially decrease and the long-term debt continues to be a liability for the County on the Statement of Net Assets.

The ratio of the County's capital assets, net of related debt, as compared to total net assets is 116%. This ratio reduces to 70% when including the PERS Bonds of \$184,018 in the debt portion related to capital assets.

By far the largest portion of the County's net assets is the investment in capital assets (e.g., land, buildings, machinery and equipment), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Multnomah County's Net Assets June 30, 2002

	Governmental Activities	Business- Type Activities	Total
Current and other assets	\$ 242,674	\$ 8,009	\$ 250,683
Capital assets	708,754	2,405	711,159
Total assets	951,428	10,414	961,842
Long-term liabilities outstanding	425,113		425,113
Other liabilities	118,295	4,873	123,168
Total liabilities	543,408	4,873	548,281
Net assets:			
Invested in capital assets, net of related debt	472,133	2,405	474,538
Restricted	74,973	-	74,973
Unrestricted	(139,086)	3,136	(135,950)
Total net assets	\$ 408,020	\$ 5,541	\$ 413,561

An additional portion of the County's net assets (18 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets (\$(135,950)) does not include the debt of \$184,018 related to the PERS Bonds; to include the debt related to the PERS Bonds results in unrestricted net assets of \$44,942 and provides a more realistic depiction of the County's ability to meet its ongoing obligations to citizens and creditors.

The County realizes the unrestricted net asset deficit provides for a negative outlook. However, considering the County's long-term obligations in the Statement of Net Assets, the County recognizes the necessity to be able to meet current financial obligations and has no reason to believe that liabilities will not be met in future periods.

At the end of the current fiscal year, the County is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

There was no change in restricted net assets reported in connection with the County's business-type activities.

The government's net assets decreased by \$24,064 during the current fiscal year. This decrease is primarily due to decreases in tax revenues and intergovernmental funding for governmental activities and related programs and services.

Governmental activities. Governmental activities decreased the County's net assets by \$22,332, thereby accounting for 93% of the total decline in the net assets of the County. Key elements of this decrease are as follows:

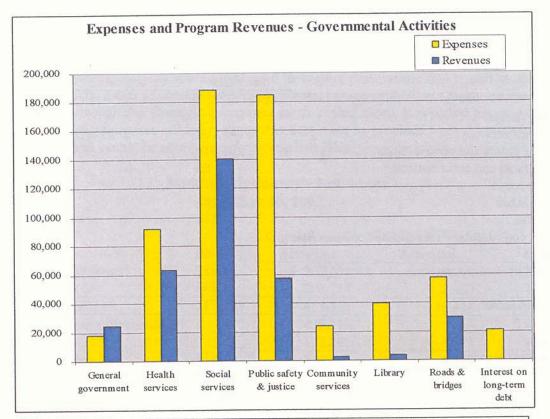

Multnomah County's Changes in Net Assets

	Governmental activities	Business-type activities	Total
Revenues:			
Program revenues:			
Charges for services	\$ 43,902	\$ 33,265	\$ 77,167
Operating grants and contributions	277,418	337	277,755
Capital grants and contributions	86	-	86
General revenues:			
Property taxes	206,244	-	206,244
Other taxes	61,544	-	61,544
Grants and contributions not restricted to specific			
programs	60	-	60
Interest and investment earnings	7,982	339	8,321
Other	4,496	(65)	4,431
Total revenues	601,732	33,876	635,608
Expenses:			
General government	17,673	-	17,673
Health services	92,109	-	92,109
Social services	188,043	-	188,043
Public safety and justice	184,213	-	184,213
Community services	23,877	-	23,877
Library services	39,529	-	39,529
Roads and bridges	57,478	-	57,478
Interest on long-term debt	21,139	•	21,139
Dunthorpe-Riverdale Service District Number 1	, -	306	306
Mid County Service District Number 14	-	348	348
Behavioral Health Managed Care	-	34,951	34,951
Total expenses	624,061	35,605	659,666
Decrease in net assets before transfers	(22,329)	(1,729)	(24,058)
Transfers	(3)	3	(,000)
Decrease in net assets	(22,332)	(1,726)	(24,058)
Net assets - 6/30/01	430,352	7,267	437,619
Net assets - 6/30/02	\$ 408,020	\$ 5,541	\$ 413,561

- Operating grants and contributions consist primarily of federal and state revenues. Due to the lagging economy in the region and at the national level, intergovernmental revenues declined from the prior year by \$31,489, or 10%.
- Due to market conditions and lower cash balances, interest earnings were down by \$6,439, or 47%, from the prior year, contributing to the County's decrease in net assets.

- Due to market conditions and lower cash balances, interest earnings were down by \$6,439, or 47%, from the prior year, contributing to the County's decrease in net assets.
- The County reduced expenditures and implemented a number of cost-cutting strategies in several program areas, resulting in savings of \$23,840, which is a reduction of approximately 4% from the previous year.

The following graphs show the County's Governmental Activities expenses and revenues by program area and revenue by sources.

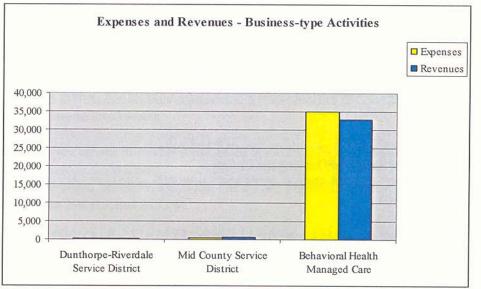

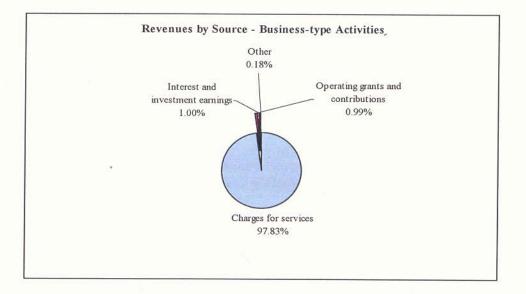

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services. Additionally, where expenses decreased from prior years, this can be directly attributed to the decrease in revenues in the governmental activities.

Business-type activities. Business-type activities decreased the County's net assets by \$1,726, accounting for 7.20% of the total decline in the government's net assets. The primary reasons for this decrease are:

- An increase of 41% from the prior year in administrative expenses in all three enterprise funds. Included in administrative costs are payroll expenses and consulting costs associated with a redesign in the mental health service model in the Behavioral Health Managed Care Fund.
- Interest revenue in each of the enterprise funds declined 42% from the prior year, as a result of poor market conditions.
- A loss of \$71 on disposal of capital assets was recorded in the Mid County Service District.

The following graphs show the County's Business-type Activities expenses and revenues by program area and revenue by sources.

Financial Analysis of the Government's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$109,334, a decrease of \$49,720 in comparison with the prior year. Approximately 31% of this total amount (\$33,707) constitutes *unreserved fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior period (\$1,315), 2) to pay debt service (\$13,526), or 3) to pay for ongoing capital projects (\$60,786).

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unreserved fund balance of the General Fund equaled the total fund balance, in the amount of \$9,144, indicating a high degree of liquidity of the General Fund.

The fund balance of the County's General Fund decreased by \$6,615 during the current fiscal year. Key factors in this reduction are:

- A decrease in Business Income Tax collections of \$3,442 from the previous year, due to poor economic conditions and to major employers leaving the County.
- A decrease in interest income resulted of \$3,126 from the previous year, due to poor economic conditions in the region.

The Justice Bond Capital Project Fund has a total fund balance of \$30,418, all of which is reserved for capital projects. The fund balance decreased from the prior year by \$22,448, due to the beginning of construction of the new Wapato Jail facility.

Proprietary funds. The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the proprietary funds at year end amounted to:

- Dunthorpe-Riverdale Service District Fund, \$454;
- Mid County Service District Fund, \$842; and
- Behavioral Health Managed Care Fund, \$1,840.

The total change in net assets for all funds was \$1,726. Other factors concerning the finances of these three funds have already been addressed in the discussion of the County's business-type activities.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were primarily due to the mid-year budget reduction. In order to answer the problems that arose as a result of major revenue shortfalls, the County implemented various cost saving measures resulting in a total savings of approximately \$14,000. The budget shortfall was addressed by reducing appropriations in the following areas:

(

- A transfer from the General Fund to the County School fund of \$1,575 was eliminated;
- The budgeted transfer from the General Fund to the Asset Preservation fund, in the amount of \$2,286, was eliminated;
- Vacant positions were not filled and other personnel reductions were implemented, resulting in savings of \$2,395;
- Various health and social service programs were reduced or eliminated, which resulted in savings of \$8,075.

Capital Projects and Debt Administration

Capital assets. The County's investment in capital assets for its governmental and business type activities as of June 30, 2002, amounts to \$711,159 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, roads and bridges, sewer and street lighting systems, and motor vehicles. The total increase in the County's investment in capital assets for the current fiscal year was 82%, which represents an 83% increase for governmental activities and an 8% increase for business-type activities.

Major capital asset events during the current fiscal year included the following:

- The County added the roads and related land to the inventory of fixed assets, to answer the fixed asset requirements of GASB 34. This represented a total addition of \$807,682, and accounts for 86% of the overall increase in fixed assets.
- The County added the library materials to the inventory of fixed assets, again to answer the fixed asset requirements of GASB 34. This represented a total addition of \$61,093, and accounts for 6% of the overall increase in fixed assets.
- Construction began on the Wapato Jail site in NE Portland. Construction in progress at the close of the fiscal year had reached \$15,081.

Multnomah County's Capital Assets

(net of depreciation)

	Governmental activities	Business-type activities	Total
Land	\$ 14,219	\$ -	\$ 14,219
Buildings and systems	254,847	-	254,847
Improvements other than			
buildings	302	2,400	2,702
Machinery and equipment	24,988	5	24,993
Infrastructure	384,049	-	384,049
Construction in progress	16,866	-	16,866
Roads and Bridges	13,483	-	13,483
Total	\$ 708,754	\$ 2,405	\$ 711,159

Additional information on the County's capital assets can be found in note 3.C on pages 47-49 of this report.

Long-term debt. At the end of the current fiscal year, the County had total debt outstanding of \$425,113. Of this amount, \$96,535 comprises debt backed by the general obligation bonds; \$272,833 represents debt backed by the full faith and credit bonds; \$797 comprises long term lease obligations; and the remainder of the County's debt represents bonds secured solely by specified sources (e.g., revenue bonds, capitalized leases).

Both general obligation bonds and full faith and credit bonds are direct obligations pledging the full faith and credit of the County.

Multnomah County's Outstanding Debt
General Obligation, Revenue and Full Faith and Credit Bonds
Capital leases, and Loans

	Governmental activities	Business-type activities	Total
General Obligation Bonds	\$ 96,535	\$ -	\$ 96,535
Revenue Bonds	8,335	-	8,335
Full Faith and Credit Bonds	272,833	-	272,833
Capital Leases	46,613	-	46,613
Loans	797	-	797
Total	\$ 425,113	\$ -	\$ 425,113

The County's total debt decreased by \$21,387, or 5% during the current fiscal year. This change was due to debt payments made during the year. The County issued no new debt during the year.

The County maintains an "Aa1" rating from Moody's for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may issue to two percent of the real market value of all taxable property within the government's boundaries. The current debt limitation for the County for general obligation debt is \$1,224,426, which is significantly in excess of the County's outstanding general obligation debt.

State statutes also limit the amount of full faith and credit obligations to one percent of the real market value of all taxable property within the government's boundaries. The current debt limitation for the County for full faith and credit obligations is \$612,213, which is in excess of the County's outstanding full faith and credit debt.

Additional information on the County's long-term debt can be found in note 3.E on pages 50-57 of this report.

Key Economic Factors and Budget Information for the Future

- The unemployment rate for the Portland-metropolitan area at the close of the fiscal year was 7.5%. At the time of preparation of this report, the unemployment rate had dropped to 7.0%. The rate is not expected to significantly improve before the end of the next fiscal year.
- It is anticipated that the costs of providing medical insurance coverage to employees will continue to rise, by approximately 10% in the next fiscal year.
- State General Fund revenues are expected to decrease by more than \$1,800,000 statewide. The County receives approximately one-third of its' funding from state and federal revenues, and it is unknown at this time how much these intergovernmental revenues will decrease.
- Due to economic conditions the County's Business Income Tax is estimated to decline by approximately \$2,000.
- Members of the Oregon Public Employees' Retirement System are expected to be faced with increases in retirement contributions as early as July 1, 2003. The increases will likely increase the overall personnel expenses between 3.5% to 5%.

All of these factors were considered in preparing the County's budget for fiscal year 2002-2003.

During the current fiscal year, unreserved fund balance in the General Fund decreased to \$9,144. This amount is reserved and will not be available for program resources in fiscal year 2002-2003.

Requests for Information

This financial report is designed to provide a general overview of Multnomah County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be directed to the following address:

MULTNOMAH COUNTY, OREGON Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities Governmental Funds For the Year Ended June 30, 2002 (amounts expressed in thousands)

Net change in fund balances - Governmental Funds	\$	(49,720)
Amounts reported for governmental activities in the statement of net assets are different because:		
Governmental funds report capital outlay as expenditures. However in the statement of activities, the cost of those assets is depreciated over their estimated useful lives		
Expenditures for capital assets Less current year depreciation	45,790 (30,375)	15,415
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.		
Change in deferred revenues		147
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which bonds issued exceeded repayments Principal payments (including capital leases)		18,711
Some expenses reported in the statement of activities do not require the use of current financial resouces and therefore are not reported as expenditures in governmental funds Long-term compensated absences		(10,440)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net income of the internal service funds is reported with governmental activities.		3,555
Change in Net Assets of Governmental Activities	\$	(22,332)

MAJOR GOVERNMENTAL FUNDS

Major governmental funds are defined as those funds whose revenues, expenditures/expenses, assets or liabilities (excluding extraordinary items) are at least 10 percent of corresponding totals for all governmental funds for the same item. The general fund is always classified as a major fund.

- **General Fund** accounts for the financial operations of the County which are not accounted for in any other fund. The principal sources of revenues are property taxes and business income taxes. Primary expenditures in the General Fund are made for general government, public safety, and health and social services. The modified accrual basis of accounting is used to record revenues and expenditures.
- Federal and State Special Revenue Fund accounts for the majority of revenues and expenditures related to Federal and State financial assistance programs.
- Justice Bond Capital Project Fund accounts for projects to expand Inverness Jail, construct new jail facilities, upgrade other jail facilities and pay for data processing linkages in the Corrections system. See page 105 for budget and actual comparison.

PROPRIETARY FUNDS

The County utilizes nine Proprietary Funds made up of three Enterprise Funds and six Internal Service Funds. Internal Service Funds' statements are noted at pages 112-126.

Enterprise Funds:

These funds are used to finance and account for the acquisition, operation and maintenance of sewage treatment facilities, street lighting facilities and children's mental health claims administration, which are supported by user charges. The County accounts for certain expenditures of the enterprise funds for budgetary purposes on the modified accrual basis of accounting. For financial reporting purposes the accrual basis of accounting is used. The difference in the accounting basis used relates primarily to the methods of accounting for depreciation, debt and capital outlay. Funds included are:

- **Dunthorpe-Riverdale Service District No. 1 Fund** accounts for the operation of the sanitary sewer system in southwest unincorporated Multnomah County. (A blended component unit of Multnomah County.)
- Mid County Service District No. 14 Fund accounts for the operation of street lights throughout unincorporated Multnomah County. (A blended component unit of Multnomah County.)
- Behavioral Health Managed Care Fund accounts for all financial activity associated with the State required behavioral health capitated services.

FIDUCIARY FUNDS

These funds account for resources received and held by the County in a fiduciary capacity. Disbursements from these funds are made in accordance with the trust agreement or applicable legislative enactment for each particular fund. The modified accrual basis of accounting is used to record transactions in the agency funds. The accrual basis of accounting is used in the Library Retirement Fund (Pension Trust). The funds included are:

- Agency Funds –account for resources held by the County in a purely custodial capacity (assets equal liabilities).
- Library Retirement Pension Fund provides pension benefits for former employees of the Library Association of Portland.

Note 1. Summary of Significant Accounting Policies

A. Reporting entity

Multnomah County (County) is a municipal corporation governed by an elected Board of Commissioners, comprised of a Board Chair and four commissioners. The accompanying financial statements present the County and its component units, entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the County's operations.

Blended component units. The Dunthorpe-Riverdale Sanitary Service District and the Mid County Street Lighting District serve residents within each district's geographical boundaries and are governed by a board comprised of the County's elected Board. The rates for user charges for both districts are approved by the Board. Each District is reported as an enterprise fund.

Complete financial statements for each of the individual component units may be obtained at the County's administrative offices.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the County (the primary government) and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the County is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even thought the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement preparation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, excise taxes, business income taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the County.

The County reports the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Federal State Program Fund* accounts for the majority of revenues and expenditures related to federal and state financial assistance programs.

The *Justice Bond Capital Project Fund* accounts for revenues and expenditures related to construction projects which upgrade or expand existing jail facilities, construct new jail facilities, and pay for data processing linkages in the corrections system.

Additionally, the County reports the following fund types:

Special revenue funds are primarily operating funds that account for revenue derived from specific taxes or other revenue sources, which are legally restricted to finance particular functions or activities. When a special revenue fund is not an operating fund, transfers are made from the special revenue fund to the operating funds authorized to make expenditures.

Debt service funds account for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

Capital projects funds account for expenditures on major construction projects or equipment acquisition. The principal sources of revenues are proceeds from certificates of participation issued to finance capital acquisitions, proceeds from the sale of County owned property, general obligation bond proceeds, full faith and credit bonds, and revenue bonds.

Proprietary funds account for the operations of predominantly selfsupporting activities. Enterprise funds account for services rendered to the public on a user charge basis, and internal service funds account for services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis.

Fiduciary funds account for resources received and held by the County in a fiduciary capacity. Disbursements from these funds are made in accordance with the trust agreement or applicable legislative enactment for each particular fund.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's sewer and lighting functions and various other functions of the County. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer and lighting districts, of the Behavioral Health fund, and of the County's internal service funds are charges to customers for sales and services. The sewer district also recognizes as operating revenue the portion of connection fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, liabilities, and net assets or equity

1. Deposits and investments

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and investments with original maturities of three years or less from the date of acquisition.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, municipal bonds, banker's acceptances,

repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

Investments for the County, as well as for its component units, are reported at fair value. The LGIP operates in accordance with appropriate state laws and regulations. The fair value of the County's position in the LGIP at June 30, 2002 was 100.1% of the value of the County's shares.

2. *Receivables and payables*

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to / from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Property tax receivables are deemed to be substantially collectible or recoverable through foreclosure. Accordingly, no allowance for doubtful tax accounts is deemed necessary. All other receivables are shown net of an allowance for uncollectibles.

Property taxes are levied and become a lien on July 1. Property taxes are assessed in October and tax payments are due November 15th of the same year. Under the partial payment schedule, the first one-third of taxes are due November 15th, the second one-third on February 15th, and the remaining one-third on May 15. A three percent discount is allowed if full payment is made by November 15 and a two percent discount is allowed if two-thirds payment is made by November 15. Taxes become delinquent if not paid by the due date and interest accrues after each trimester at a rate of one percent per month. Property foreclosure proceedings are initiated four years after the tax due date.

3. Inventories and prepaid items

Inventories of materials and supplies in the governmental funds are valued at average cost and are offset by a reservation of fund balance. Inventories of materials and supplies in the internal service funds are valued at the lower of average cost or market. All inventories are recorded as expenditures when consumed rather than when purchased.

Payments in excess of \$10 to vendors which reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted amounts

Certain revenues derived from specific taxes or other earmarked revenue sources are considered restricted assets. Such revenues include dedicated property taxes, state gas tax, intergovernmental grants, and charges for services which are legally restricted to finance particular functions or activities. In addition, proceeds from general obligations bonds, revenue bonds, and full faith and credit bonds are restricted to support the specific purpose for which the debt was issued. Such net assets are classified as restricted on the Statement of Net Assets and they are recorded in separate funds supporting the specific function or operation.

5. *Capital assets*

Capital assets, which includes property, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, sewers, street lighting, and similar items), and their improvements, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 (amount not in thousands) and an estimated useful life of at least three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The total interest expense incurred by the County during the current fiscal year was \$21,050. Of this amount, \$12,658 was included as part of the cost of capital assets under construction in connection with current construction projects.

Property, plant, and equipment of the County, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

٠	Motor vehicles	3 years
٠	Sewer systems	50 years
٠	Street lighting	10 to 30 years
٠	Equipment, including software	3 to 10 years
٠	Buildings and improvements	50 years

6. *Compensated absences*

It is the County's policy to permit employees to accumulate earned but unused vacation, compensatory and sick leave benefits. There is no liability for unpaid accumulated sick leave since the County does not have a policy to pay any amounts when employees separate from service with the County. All vacation pay and compensatory time is accrued when incurred in the government-wide and proprietary funds. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements at June 30.

7. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over that life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund equity

In the fund financial statements, governmental funds report reservation of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Note 2. Stewardship, compliance, and accountability

A. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except the trust funds. All annual appropriations lapse at fiscal year end.

During the month of February each year, all agencies of the County submit requests for appropriations to the County Chair so that a budget may be prepared. By May 15, the proposed budget is presented to the County Board of Commissioners for approval. The Board holds public hearings and a final budget must be prepared and adopted no later than June 30.

The appropriated budget is prepared by fund and department. The County's department managers may make transfers of appropriations within a department and fund. Transfers of appropriations between departments or funds require the approval of the Board. The legal level of budgetary control, (i.e., the level at which expenditures may not legally exceed appropriations) is the fund and department level. The Board approved several supplemental budgetary appropriations throughout the year, none of which were material.

B. Excess of expenditures over appropriations

For the year ended June 30, 2002, expenditures exceeded appropriations in the Sheriff's Office by \$53. The appropriation was budgeted in the General fund, but should have been appropriated in the Federal State Program fund. Accurate categorization of expenses resulted in the excess of expenditures over appropriations. Expenditures also exceeded appropriations in the Emergency Communications fund, in the Sheriff's Office, by \$10, and in the Animal Control fund, in Environmental Services, by \$1. All overexpenditures were funded by available fund balances, except in the case of the Emergency Communications fund, which had a deficit fund balance of \$1. The Emergency Communications fund is a pass-through fund, where all revenues are transferred to other entitities. In fiscal year 2003, pass-through amounts will be reduced to offset and correct the negative fund balance.

Note 3. Detailed notes on all funds

A. Deposits and investments

Multnomah County pools virtually all funds for investment purposes. All appropriate funds are allocated interest based on the average daily cash balance of

the fund and the average monthly yield of the County's investment portfolio. Each fund type's portion of this pool is displayed on the Combined Balance Sheet as "Cash and investments."

At year-end, the carrying amount of the County's deposits was \$8,005 and the bank balance was \$7,954. The bank balance was covered by federal depository insurance or by collateral held by one or more of the State's authorized collateral pool managers in the name of the County as the County's agent. The balance of \$51 represents petty cash accounts that were uninsured and uncollateralized. State law requires that collateral be deposited with a value of 25% of the balances above federal deposit insurance, but in some instances, the State Banking Commission can require banks to provide more than 25% of the balances of municipal corporations' deposits as collateral. The County cannot, however, determine which, if any, institutions have been required to meet a collateral requirement larger than 25%. The County independently monitors its depository institutions for indications that could potentially cause loss of County funds.

Oregon Revised Statutes, Chapter 294, authorizes the County to invest in obligations of the U.S. Treasury, U.S. Government agencies and instrumentalities, bankers' acceptances guaranteed by a qualified financial institution, commercial paper, corporate bonds, repurchase agreements, State of Oregon Local Government Investment Pool, and various interest-bearing bonds of Oregon municipalities.

The County's investment policy requires that the market value plus accrued interest of the securities collateralizing repurchase agreements exceeds the face amount of the repurchase agreement by margins prescribed in writing by the Oregon Short-Term Fund Board, providing the County with a margin against a decline in the market value of the securities. Daily marking-to-market also protects the County against declines in market value. The market value plus accrued interest of the securities purchased under repurchase agreements did not fall below the required level during the year.

The County's investments are governed by a written investment policy that is reviewed annually by both the Oregon Short-Term Fund Board and the Multnomah County Investment Advisory Board, and is adopted annually by the Board of County Commissioners. The policy specifies the County's investment objectives, benchmarks, required diversification by security type and by maturity, and the reporting requirements.

The County is authorized to invest in the LGIP, an external investment pool, within prescribed limits. The investments are booked at fair value and are the same as the value of the pool shares. The LGIP investments are governed by a written investment policy that is reviewed annually by the Oregon Short- Term Fund

Board. The Oregon Short-Term Fund Board is comprised of members of local government and private investment professionals, who are appointed by the Governor of the State of Oregon.

Investments are categorized into these three categories of credit risk:

- 1) Insured or registered, or securities held by the County or its agent in the County's name.
- 2) Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the County's name.
- 3) Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent, but not in the County's name.

At year end, the County's investment balances were as follows:

	0	Category		Reported
	1	2	3	Amount / Fair Value
US Government Agencies	\$ 99,129	\$ 277	\$ -	\$ 99,406
Repurchase Agreements	1,400	-	-	1,400
Bankers' Acceptances	10,980	-	-	10,980
Corporate Debt / Commercial				
Paper	39,802	-	-	39,802
Pension Trust Investments:				
General Investment Account	-	-	11,391	11,391
Principal Financial Group Stock			2,399	2,399
Total	<u>\$151,311</u>	<u>\$277</u>	<u>\$13,790</u>	\$165,378
Investments not subject to categorization	on:			
Local Government Investment Pool				7,439
Cash Deposits and Certificates of De	eposit			8,005
Total Cash and Investments				<u>\$180,822</u>

Due to higher cash flows at certain times during the year, the government's investment in overnight repurchase agreements for which the underlying securities were held by the dealer increased significantly. As a result, the amounts that were in category 3 at those times were substantially higher than at year-end.

B. Receivables

Receivables as of year-end for the County's individual major funds and nonmajor, internal service, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

MULTNOMAH COUNTY Accounts Receivable

Receivables:	General	Federal State Program	Justice Bond Project	Dunthorpe Riverdale Service District	Mid County Service District	Behavioral Health Managed Care	Internal Service Funds	Nonmajor and Other Funds	Total
	¢12.966	¢	\$ -	¢	¢	¢	¢	¢ 2047	¢17.012
Taxes	\$13,866	ъ -	э -	\$ -	\$ -	р -	э -	\$ 3,947	\$17,813
Accounts	4,693	41,634	6	1	-	112	799	6,462	53,707
Loans	-	1,206	-	-	-	-	-	-	1,206
Interest	2,015	-	-	-	-	-	-	-	2,015
Special assessments	11	-	-	16	15	-	-	-	42
Contracts	2,304	-	-	-	-	-	-	12,928	15,232
Gross receivables	22,889	42,840	6	17	15	112	799	23,337	90,015
Less: allowance for uncollectibles Net total receivables	\$22,889	\$42,840	\$ 6	(1) \$16	<u>(1)</u> \$14	\$112	\$799	\$23,337	(2) \$90,013

Revenues of Dunthorpe Riverdale and Mid County Service Districts are reported net of uncollectible amounts. Total uncollectible amounts related to revenues are all for prior periods.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Government funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue reported in the governmental funds were as follows:

т.

.1 1 1

	<u>Unavailable</u>
Delinquent property taxes receivable (general fund)	\$ 9,376
Delinquent property taxes receivable (other governmental funds)	1,757
Grant draw downs prior to meeting all eligibility requirements	7,129
Contracts receivable	15,232
Contract revenue received in advance	413
Loans receivable	1,206
Tax title land sales inventory	355
Special assessments receivable	11
Total deferred revenue for governmental funds	\$35,479

C. Capital assets

Capital asset activity for the year ended June 30, 2002 was as follows:

Primary Government

Primary Government				
	Beginning			Ending
	Balance	Increases	Decreases	Balance
Governmental activities:				
Capital assets, not being depreciated:				
Land	\$ 14,090	\$ 129	\$ -	\$ 14,219

Business-type activities capital assets, net	\$2,234	\$242	\$(71)	\$2,405

Depreciation expense was charged to functions / programs of the primary government as follows:

Governmental activities:	
General government	\$ 5,466
Health services	662
Social services	1,509
Public safety & justice	2,864
Community services	32
Library	3,327
Roads and bridges	20,680
Total depreciation expense – governmental activities	\$34,540
Business-type activities:	
Sewer	\$ 39
Lighting	90
Behavioral Health Managed Care	14
Total depreciation expense – business-type activities	\$143

D. Interfund receivables, payables, and transfers

The composition of interfund balances as of June 30, 2002 is as follows:

Due to / from other funds:

Receivable Fund	Payable Funds	
(Internal Service fund)	(Governmental funds)	Amount
Risk Management	Emergency Communications	\$ 50,000
Risk Management	Special Excise Tax	135,000
Risk Management	Assessment and Taxation	775,000
Total transfers in		<u>\$960,000</u>

			Transfers	In:		
- Transfers Out:	General Fund	Federal State Program Fund	Nonmajor Governmental Funds	Enterprise Type Funds	Internal Service Funds	Total
General fund	\$ -	\$60,772	\$54,679	\$3	\$1,191	\$116,645
Federal State Program fund Nonmajor governmental	-	-	3,077	-	-	3,077
funds	975	-	8,938	-	539	10,452
Internal service funds Total transfers			241			241
out	\$975	\$60,772	\$66,935	\$3	\$1,730	\$130,415

Interfund Transfers:

E. Long-term debt

General Obligation Bonds

The County issues general obligation bonds to provide funds for the rehabilitation, construction and acquisition of various library and public safety facilities and related equipment. General obligation bonds have been issued for both governmental activities. The original amount of general obligation bonds issued in prior years was \$139,700. In February 1999, the County advance refunded a portion of the above general obligation bonds by issuing \$66,115 in new general obligation bonds.

General obligation bonds are direct obligations and pledge the full faith and credit of the County and are backed by the County's authority to levy property taxes. These bonds are generally issued as 20-year serial bonds with equal amounts of principal and interest maturing each year. General obligation bonds currently outstanding are as follows:

Purpose	Interest Rates	<u>Amount</u>
Governmental activities	3.70-6.00%	\$34,355
Governmental activities - refunding	3.90-5.65%	<u>62,180</u>
		\$ <u>96,535</u>

Year Ending June 30	Principal	Interest
2003	\$ 4,925	\$ 4,263
2004	5,165	4,033
2005	5,420	3,787
2006	5,685	3,525
2007	5,960	3,256
2008-2012	34,300	11,909
2013-2017	35,080	<u>3,954</u>
Total	<u>\$96,535</u>	<u>\$34,727</u>

Annual debt service requirements to maturity for General obligation bonds are as follows:

Revenue Bonds

The County also issues bonds where the government pledges specific revenue sources or income derived from the acquired or constructed assets to pay debt service. In October 1998, the County issued 33,155 of revenue bonds to finance the construction, renovation, improvement and equipping County owned facilities, and entered into a public / private partnership with the Regional Children's Campus (RCC), a 501(c)(3) non profit agency. In November 2000, the County issued 2,000 of revenue bonds to finance the costs of acquiring land and constructing, renovating, improving and equipping certain facilities to be used as a vocational training center for developmentally disabled residents of Multnomah County. The County entered into a public / private partnership with Port City Development., a 501(c)(3) non profit agency. Also in November 2000, the County issued 3,500 of revenue bonds to re-finance the costs of acquisition of real property and constructing facility improvements related to the Oregon Food Bank. The total original amount of bonds issued in prior years was 8,655. Revenue bonds outstanding at year-end are as follows:

<u>Purpose</u>	Interest Rates	<u>Amount</u>
Governmental activities	4.00-5.20%	\$ 8,335

Year Ending June 30	Principal	Interest
2003	\$ 445	\$ 377
2004	465	357
2005	490	337
2006	515	314
2007	540	291
2008-2012	3,090	1,066
2013-2016	<u>2,790</u>	<u>269</u>
Total	\$8,335	<u>\$3,011</u>

Annual debt service requirements to maturity for revenue bonds are as follows:

Full Faith and Credit Bonds

On December 1, 1999, the County issued \$184,548 in taxable Revenue Pension Obligation Bonds to fund the County's unfunded accrued actuarial liability (UAAL). The County estimates that by funding the actuarial liability, the County will receive a present value savings of about \$35,776 between the amount calculated by the Oregon Public Employees Retirement System (PERS) to retire the UAAL and the amount of the debt repayment. The total interest cost is 7.67%. Payment of principal and interest, except for a term bond, will be guaranteed by MBIA. The term bonds are rated Aa2 by Moody's Investor Service, Inc.

On April 1, 2000, the County issued \$61,215 in full faith and credit bonds to finance the costs of acquiring and installing the integrated enterprise computer system, acquire land, acquire facilities and construct other County facilities and structures. Full faith and credit bonds are direct obligations and pledge the full faith and credit of the County.

On April 1, 1999, the County issued \$36,125 in Certificates of Participation at a net interest cost of 4.71% to finance the costs of acquiring land and facilities. Certificates of Participation are direct obligations and pledge the full faith and credit of the County.

Full faith and credit bond obligations outstanding at year-end are as follows:

<u>Purpose</u>	Interest Rates	<u>Amount</u>
Governmental activities	4.00-7.74%	\$272,833

Year Ending June 30	Principal	Interest
2003	\$ 5,685	\$ 12,695
2004	6,560	12,400

Annual debt service requirements to maturity for full faith and credit bonds are as follows:

Capital Leases

The County has entered into various lease/purchase agreements to acquire property and equipment. The County also has capital lease obligations recorded in the Data Processing Fund, an Internal Service Fund. These lease agreements qualify as capital leases for accounting purposes and have been capitalized in accordance with generally accepted accounting principles.

Assets acquired through capital leases are as follows:

	<u>Governmental</u>
Asset	Activities
Buildings	\$63,638
Less: Accumulated depreciation	(14,202)
Total	<u>\$49,436</u>

Capital lease obligations outstanding at year-end are as follows:

<u>Purpose</u>	Interest Rates	<u>Amount</u>
Governmental activities	3.75-7.25%	\$35,098
Governmental activities – refunding	2.75-7.50%	<u>11,515</u>

Long-term liability activity for the year ended June 30, 2002 was as follows:

Defeased General Obligation Bonds

In prior years, the County defeased certain general obligation bond issues by placing the proceeds of the new bonds in irrevocable trusts to provide for all future debt service on the old bonds. Accordingly, the trust account assets and related liability for the defeased bonds are not included in the County's financial statements. At June 30, 2002, the amount of these bonds outstanding totaled \$62,180.

Defeased Certificates of Participation

In prior years, the County defeased certain certificates of participation issues by placing the proceeds of the new certificates in irrevocable trusts to provide for all future debt service on the old certificates. Accordingly, the trust account assets and related liability for the defeased certificates are not included in the County's financial statements. At June 30, 2002, the amount of these certificates outstanding totaled \$24,865.

Conduit Financing

On November 1, 1997, the County issued \$31,600 in Educational Facilities Revenue Bonds which have not been recorded in the County's financial statements. The proceeds of these bonds were assigned to the University of Portland (the University) to finance capital improvements to the University, pay issue costs and advance refund \$17,750 of the Series 1994 issue. On April 1, 2000, the County issued an additional \$17,160 in Conduit Educational Revenue Bonds for the

University to finance the construction of a student housing facility, parking garage and street lighting. These bonds are not recorded on the books of the County but are assigned to the University. The responsibilities of the County in this bond transaction were limited to adopting the resolution authorizing the issuance of the bonds, executing the bonds and the bond documents to which it is a party, issuing and delivering the Bonds, assigning certain of its rights to the Trustee as provided in the indenture, and directing the Trustee as to the application of monies received from the University to pay the bonds in accordance with the indenture. The County has no obligation to take any other action relating to the bonds. Since the County does not own any of the assets constructed or assume any liabilities associated with repayment, there is no balance sheet disclosure or recognition of revenues and expenditures within the County's financial statements. As of June 30, 2002, \$42,995 of Educational Facilities Revenue Bonds were outstanding.

On December 3, 1998, the County created the Hospital Facilities Authority of Multnomah County, Oregon (the Authority). On March 1, 1999, the Authority issued \$26,000 in Hospital Revenue Bonds (Terwilliger Plaza), which have not been recorded as a liability for generally accepted accounting principles purposes. The proceeds of these bonds were used by health care facilities to finance various capital projects and refund outstanding bonds. The Hospital Revenue Bonds have not been recognized as a liability of the County because the bonds are secured solely by the provisions of the Bond indenture and payments are made by the health care facility. Terwilliger Plaza has pledged the gross revenues of the health care facility making up Terwilliger Plaza to secure payment of the bonds. The bonds shall not be payable from a charge upon any funds, assets, nor shall the County be subject to any liability. No holder or holders of the bonds shall ever have the right to exercise the taxing power of the County to pay the bonds or the interest, nor to enforce payment against any property of the County. Upon completion of the project, the assets constructed or purchased are owned by Terwilliger Plaza. Since the County does not own any of the assets or assume any of the liabilities associated with the repayment, there is no balance sheet disclosure or recognition of revenues within the County's financial statements. As of June 30, 2002, \$25,200 of these bonds were outstanding.

On December 1, 1999, the County issued \$9,830 in Higher Education Variable Rate Demand Revenue Bonds. The proceeds of these bonds were used to provide funds to reimburse Concordia University for the costs of acquiring, constructing and improving the educational facilities of the University (the "Project), fund a debt service reserve fund and pay the costs of issuing the bonds. The Higher Education Revenue Bonds have not been recognized as a liability of the County because the bonds are secured solely by the provisions of the Bond indenture and payments are made by the University. As the County does not own any of the assets constructed or assume any liabilities associated with the project, there is no balance sheet disclosure or recognition of revenues and expenditures within the County's

financial statements. As of June 30, 2002, \$9,390 of the Higher Education Variable Rate Demand Revenue Bonds were outstanding.

Note 4. Other information

A. Risk management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the County carries commercial insurance. The County established risk management programs for liability and workers' compensation, whereby premiums are calculated on payroll expenses in all funds and are paid into the risk management fund. The funds are available to pay claims, claim reserves, and reduce administrative costs of the program. These interfund premiums are used to offset the amount of claims expenditure reported in the risk management fund. As of June 30, 2002, interfund premiums exceeded reimbursable expenditures.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as is depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are re-evaluated periodically to consider the effect of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. An excess coverage insurance policy covers individual workers' compensation claims in excess of \$500. Settlements have not exceeded coverages for each of the past three fiscal years. Changes in the balances of claims liabilities during the past two years are as follows:

Fiscal year	Fiscal year
ended 6/30/02	ended 6/30/01
\$ 8,712	\$ 7,854
15,775	18,716
(15,224)	(17,858)
\$ 9,263	\$ 8,712
	ended 6/30/02 \$ 8,712 15,775 (15,224)

B. Subsequent events

On July 1, 2002, the County issued \$20,000 in Tax and Revenue Anticipation Notes to meet current cash flow needs of the County, prior to the receipt of property tax revenues in November. The interest rate on the notes is 2.50% and the yield is 1.58%. The notes mature on June 30, 2003.

On October 7, 2002, a summary judgment was issued in favor of the County and other local governments. The lawsuit was brought by the County and other local governments against the Oregon Public Employees' Retirement System (PERS), and alleged that PERS had set employer contribution rates at an improperly high level as a result of the pension board's failure to follow various statutory directives of the state legislature. Negotiations for implementation of the court order began in late October and are expected to continue until 2003. The outcome of the negotiations and their effect on the County's employer contribution rate are unknown at this time.

C. Contingent liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County's legal counsel the resolution of these matters will not have a material adverse effect on the financial condition of the County.

D. Other postemployment benefits

The County provides postretirement health care benefits, as per the requirements of collective bargaining agreements, for certain retirees and their dependents. The benefits vary by agreement, and depending upon a retiree's years of service. In general, the County pays 50% of the premiums of health care coverage for retirees from age 58 to age 65. The County's regular health care benefit providers underwrite the retiree's policies. Retirees may not convert the benefit into an in-lieu payment to secure coverage under independent plans.

At June 30, 2002, there were 457 retirees that were receiving the postemployment health care benefit. The County finances the plan by creating a reserve account that

meets the actuarially determined amount of benefits that will be payable in the future. For the year ended June 30, 2002, the County paid \$1,027 for these benefits, which was net of \$1,328 of retiree contributions.

E. Employee retirement systems and pension plans

Pension plans

The County participates in the Oregon Public Employees Retirement System (PERS), a cost-sharing multiple-employer defined benefit public employee pension plan that covers substantially all employees; maintains a single employer defined benefit plan for employees transferred to the County from the former Library Association of Portland; and maintains a defined contribution plan for substantially all County employees.

Oregon Public Employees Retirement System (PERS)

Plan description. The County participates in PERS, a cost-sharing, multipleemployer defined benefit pension plan administered by the PERS Pension board. PERS provides retirement, disability, and death benefits to plan members and their beneficiaries. State statutes authorize the State to establish and amend all plan provisions. PERS issues a publicly available financial report that includes financial statements and required supplementary information. The reports may be obtained by writing:

> PERS PO Box 23700 Tigard, OR 97281-3700

Summary of significant accounting policies – basis of accounting and valuation of investments. The financial statements of PERS are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The County's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. All plan investments are reported at fair market value.

Funding policy. The contribution requirements of the County are established and may be amended by the State. The County is required by collective bargaining agreements to contribute the required 6.0% of annual covered salary. The County is also required to contribute at an actuarially determined rate; the current rate is 7.94% of annual covered payroll.

MULTNOMAH COUNTY, OREGON NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2002 (amounts expressed in thousands)

Based upon reports of substantial losses within the PERS system, the County believes it is likely that its future contribution rate will increase above the current level of 7.94%. It is also likely the unfunded actuarial surplus will decrease from the last reported balance in 1999. An actuarial report subsequent to 1999 is not yet available and as such the amount of the changes noted above is not known.

Annual pension cost. For 2002, the County's annual pension cost of \$30,344 for PERS was equal to the County's required and actual contributions. The required contribution was determined as part of the December 31, 1999 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) 8.0 percent investment rate of return (net of administrative expenses), (b) projected salary increases due to inflation of 3.5 percent per year, and (c) projected wage growth, excluding seniority / merit raises, of 4.25 percent per year. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The County's unfunded actuarial accrued liability is being amortized using the closed group fixed term method. The remaining amortization period at December 31, 1999, was 28 years.

Three-Year Trend Information for PERS

	Annual Pension	Percentage of APC	Net Pension
Year Ended	Cost (APC)	Contributed	Obligation
6/30/00	\$32,339	100%	\$ -
6/30/01	31,607	100%	-
6/30/02	30,344	100%	-

A Schedule of Funding Progress for PERS is shown on page 62 of this report.

Multnomah County Library Retirement Plan

Plan description, summary of significant accounting policies, and funding requirements. The Multnomah County Library Retirement Plan is a single employer defined benefit plan. Prior to July 1, 1990, the Plan was administered by the Library Association of Portland (the Association), a not-for-profit association. Effective July 1, 1990, the Association was transferred to the County, and the County Board of Commissioners became responsible for amending Plan provisions. The Principal Financial Group is contracted by the County to be the trustee of the Plan, and the County Finance Director is the Plan administrator. The Plan is now closed and all employees transferred are covered by PERS. The Plan does not issue a stand alone financial report. All related financial data is contained in this report, and is prepared using the accrual basis of accounting.

MULTNOMAH COUNTY, OREGON NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2002 (amounts expressed in thousands)

All former Association employees who were 21 years of age and had completed two years of service were eligible to participate in the Plan. Retirement benefits are based on salary and length of service, are calculated using a formula, and are payable in a lump sum or monthly using several payment options. The Plan also provides death benefits.

At June 30, 2002, there were 278 plan members. Current employees have an annual covered payroll of \$5,255. The total payroll and covered payroll are the same because the Plan is frozen. There are 121 participants currently receiving benefits. The assets of the Plan consist of unallocated insurance contracts and therefore are appropriately valued at contract value. Employer contributions to the Plan, participant benefits, and participant refunds are recognized using the accrual basis of accounting. The costs of administering the Plan are deducted from the earnings. The annual required contribution, or annual pension cost, of the County was \$0, due to the plan being fully funded.

A Schedule of Funding Progress for the Plan is shown on page 62 of this report.

Deferred Compensation Plan

Plan description. The County offers employees a deferred compensation plan (the Plan), a defined benefit plan administered by the County. The Plan is created in accordance with Internal Revenue Code Section 457. The Plan is available to all represented and non-represented County employees, and permits them to defer a portion of their salary until future years. Amounts deferred are not available to employees until termination, retirement, death, or unforeseeable emergency. All assets and income of the Plan are held in trust for the exclusive benefit of the participants and their beneficiaries. No Plan assets have been used for purposes other than the payment of benefits.

At June 30, 2002, the amount deferred and investment earnings thereon, adjusted to fair market value, amount to \$81,642. The amounts accumulated under the Plan including investment earnings, are excluded from the financial statements of the County.

NONMAJOR SPECIAL REVENUE FUNDS

These funds account for revenue derived from specific taxes or other earmarked revenue sources, including state gas tax, grants, and charges for services which are legally restricted to finance particular functions or activities. When a special revenue fund is not an operating fund, transfers are made from the special revenue fund to the operating funds authorized to make the expenditures. The modified accrual basis of accounting is used to record revenues and expenditures. Funds included are:

- Strategic Investment Program Fund accounts primarily for monies received from corporations receiving property tax abatements and paying fees for specific purposes as a part of the reduced tax agreement to be used for community service.
- **Road Fund** accounts for revenues primarily from State motor vehicle fees and County gasoline taxes. Expenditures consist of construction, repair, maintenance, and operation of County highways and roads.
- Emergency Communications Fund accounts for monies received from the State which are designated for an emergency communication network in conjunction with the City of Portland.
- Assessment and Taxation Fund accounts for revenues and expenditures for property assessment and tax collection.
- Bicycle Path Construction Fund accounts for revenue and expenditures for bicycle paths.
- County School Fund accounts for forest reserve yield revenues from the State of Oregon which are apportioned to the County school districts.
- General Reserve Fund accounts for a reserve maintained separate from the General Fund at approximately 5% of the total budgeted revenues of the General Fund, to be used only for extreme emergencies related to disaster relief or public life and safety issues.
- Land Corner Preservation Fund accounts for the collection of fees on all recordings of real property transactions and surveying activity. The fund makes expenditures to maintain public land corners.
- **Tax Title Land Sales Fund** accounts for the receipt and sale of real property foreclosed upon by the County because of unpaid property taxes. Proceeds are subsequently distributed to all taxing districts.
- Animal Control Fund accounts for revenues from dog and cat licenses, control fees and transfers to the General Fund which are utilized for animal control activities.
- Willamette River Bridges Fund accounts for motor vehicle fees and gasoline tax proceeds transferred from the Road Fund for bridge inspections and maintenance.
- **Recreation Fund** accounts for the collection and disbursement of park revenues from various funding sources on a pass through basis.
- Library Fund accounts for the public library operations.
- Justice Services Special Operations Fund accounts for revenues and expenditures dedicated to justice services in the community corrections department, district attorney's office, and sheriff's office.
- Inmate Welfare Fund accounts for the proceeds from the sale of commissary items. Expenditures are made for supplies for inmates in County jails.
- Special Excise Tax Fund accounts for a transient lodging tax collected from all hotels and motels in the County to be used for convention center expenditures.
- Public Safety Levy Fund accounts for operation of the Inverness Jail and related corrections programs.

NONMAJOR DEBT SERVICE FUNDS

These funds account for the retirement of general obligation bonds, certificates of participation (capitalized leases) and other lease-purchase arrangements. The modified accrual basis of accounting is used. Funds included are:

- **Capital Lease Retirement Fund** accounts for lease-purchase principal and interest payments for buildings and major pieces of equipment acquired by the issuance of certificates of participation or other lease-purchase arrangements. Revenues consist of certificates of participation proceeds, service reimbursements and cash transfers from other County funds.
- General Obligation Bond Fund accounts for payment of principal and interest on general obligation bonds. Revenue is derived from property taxes.
- **PERS Pension Bond Fund** accounts for payment of principal and interest payments on pension obligation bonds that were issued to fund the County's PERS unfunded liability. Revenues consist of charges to departments and interest.
- **Revenue Bond Fund** accounts for payment of principal and interest on bonds to be issued to construct the Edgefield Children's Center. The revenues are derived from lease of the facility to the Edgefield Children's Center, Inc. Due to project delay, the bonds were not issued and the lease was not executed.

NONMAJOR CAPITAL PROJECTS FUNDS

These funds account for expenditures on major construction projects, proceeds from certificates of participation issued to finance capital acquisitions, proceeds from the sale of County property, revenue bond proceeds and library and public safety general obligation bond proceeds. The modified accrual basis of accounting is used to record revenues and expenditures. Funds included are:

- **Revenue Bond Project Fund** accounts for the construction of an expanded Edgefield Children's Center. The proceeds will be from the issue of revenue bonds. Due to project delay the bonds were not issued.
- **SB1145 Fund** accounts for State revenue to build jail beds to house convicted felons with sentences under twelve months.
- Equipment Acquisition Fund accounts for long-term lease purchases of equipment.
- **Building Project Fund** accounts for purchases and construction of capital acquisition by entering into lease/purchase agreements.
- Library Construction Fund/1996 Bonds accounts for the renovation of branch libraries and upgrades to Library computer systems and linkages.
- **Capital Improvement Fund** accounts for the proceeds from the sale of County property and expenditures made to improve County property.
- Capital Acquisition Fund accounts for purchase of personal computers and capital purchases with economic payoffs of less than five years.
- **Deferred Maintenance Fund** accounts for expenditures for building deferred maintenance projects. Resources are derived from certificates of participation or other financing projects.
- Asset Preservation Projects Fund accounts for the expenditures for building scheduled maintenance projects such as boiler replacement, carpet replacement, roof replacement, etc. Resources are derived from an asset preservation fee that is part of the facilities charges assessed to building tenants.

INTERNAL SERVICE FUNDS

These funds account for activities and services performed primarily for other organizational units within the County. Charges to the County agencies are calculated to recover costs and maintain capital. The County accounts for certain expenditures of the Internal Service Funds for budgetary purposes on the modified accrual basis of accounting. For financial reporting purposes the accrual basis of accounting is used. Such differences relate primarily to the methods of accounting for depreciation and capital outlay. Funds included are:

- **Risk Management Fund** accounts for the County's risk management activities including insurance coverage.
- Fleet Management Fund accounts for the County's motor vehicle fleet operations.
- Telephone Fund accounts for the County's telephone operations.
- Data Processing Fund accounts for the County's data processing operations.
- Mail/Distribution Fund accounts for the County's mail/distribution operations.
- Facilities Management Fund accounts for the management of all County owned and leased property.

Report of Independent Certified Public Accountants on the County's Compliance and Certain Items Based on an Audit of Basic Financial Statements Performed in Accordance with Federal and Oregon Auditing Standards

The Board of County Commissioners Multnomah County, Oregon

We have audited the basic financial statements of Multnomah County, Oregon as of and for the year ended June 30, 2002, and have issued our report thereon dated December 6, 2002. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the provisions of the Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State, and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

Compliance with laws, regulations, contracts and grants applicable to Multnomah County, Oregon is the responsibility of the County's management. As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of the County's compliance with certain provisions of laws, regulations, contracts and grants. However, our objective was not to provide an opinion on overall compliance with such provisions. Accordingly, we do not express such an opinion. Certain areas covered, as required by Oregon Administrative Rules 162-10-230 through 162-10-320, included but were not limited to the following:

Accounting and Internal Control Structure - Our report on the accounting and internal control structure is presented separately under this cover.

Programs Funded from Outside Sources - Reports related to such programs are presented separately under separate cover.

Financial Reporting Requirements - Whether financial reports and related data filed with other governmental agencies in conjunction with programs funded wholly or partially by such agencies were in agreement with or supported by the accounting records.

Suite 800 111 S.W. Columbia Portland, OR 97201-5864 T 503.222.3562 F 503.295.0148 W www.grantthornton.com Compliance with Legal or Other Requirements -

Accounting Records - Pertaining to condition and adequacy of accounting records.

Collateral - Pertaining to the amount and adequacy of collateral pledged by depositories to secure the deposit of public funds (see requirements for public fund deposits as specified in Oregon Revised Statutes (ORS) 295)

Indebtedness - Relating to debt and the limitation on the debt amount, liquidation of debt within the prescribed period of time, and compliance with provisions of indentures or agreements, including restrictions on the use of moneys available to retire indebtedness

Budget - Relating to the preparation, adoption and execution of the annual budget for the current fiscal year and the preparation and adoption of the budget for the next succeeding fiscal year (see ORS 294.305 to 294.565)

Taxes on Motor Vehicle Use and Fuel and the use of a Road Fund - Pertaining to (as contained in Article IX, Section 3a of the Oregon Constitution) the use of revenue from taxes on motor vehicle use and fuel and the use of a road fund (as contained in ORS 294 and 373)

Insurance - Relating to insurance and fidelity bond coverage

Investments - Pertaining to the investment of public funds (see ORS Chapter 294.035 to 294.046)

Public Contracts and Purchasing - Pertaining to (as contained in ORS Chapter 279) the awarding of public contracts and the construction of public improvements

The result of our tests indicate that, with respect to the items tested, Multnomah County, Oregon complied, in all material respects, with the provisions referred to above except the County had overexpenditures as listed in Note 2B of Notes to the Basic Financial Statements. With respect to items not tested, nothing came to our attention that caused us to believe that the County had not complied, in all material respects, with those provisions.

This report is intended solely for the information and use of management, the Board of County Commissioners and the Secretary of State, Division of Audits, of the State of Oregon and is not intended to be and should not be used by anyone other than these specified parties.

Report of Independent Certified Public Accountants on the County's Compliance and on Internal Control Over Financial Reporting Based on an Audit of Basic Financial Statements Performed in Accordance with Government Auditing Standards

The Board of County Commissioners Multnomah County, Oregon

We have audited the basic financial statements of Multnomah County, Oregon as of and for the year ended June 30, 2002, and have issued our report thereon dated December 6, 2002. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Multnomah County, Oregon's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Multnomah County, Oregon's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting that we consider to be material weakness.

This report is intended solely for the information and use of management, the Board of County Commissioners and the federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Portland, Oregon December 6, 2002
