

Comprehensive Annual Financial Report

Fiscal Year Ended June 30, 2005

About the Cover

Multnomah County's work spans the rural and urban areas and is inclusive of industrial and business communities. On the cover is a picture of a portion of one of two bronze panels representing these communities. On the urban panel, bridges are a central design element and refer to how the County "bridges" many diverse communities, fostering cooperative action and successful societal functioning. The water element refers to the flow of commerce and arts in the community.

On the rural panel, the arterial roads are like capillaries in the circulatory system that support urban life through agriculture that weave through the Columbia Gorge scenic preserve. Salmon are represented as the best known wild species in the network of environmental stewardship in which the county plays an important ongoing role. These panels suggest Portland's connection to the Pacific Rim. The oblique reference to the Asian scroll is highlighted especially in the rural composition, with its mountain, falls and Vista House at Crown Point.

The full panels, entitled "Connections," can be viewed at the entrance to the Multnomah Building, located at 501 SE Hawthorne, Portland, Oregon. The Multnomah Building is the administrative center for the County. The panels, commissioned by the Regional Arts & Culture Council, were installed in 2005 and are the creation of artist Wayne Chabre.

Department of County Management

MULTNOMAH COUNTY OREGON

David A. Boyer, Chief Financial Officer 501 SE Hawthorne, Suite 531 Portland, Oregon 97214 (503) 988-3903 phone (503) 988-3292 fax

November 14, 2005

Honorable County Chair, Board of County Commissioners and Citizens of Multnomah County, Oregon

INTRODUCTION

We are pleased to submit the Comprehensive Annual Financial Report of Multnomah County, Oregon, for the fiscal year ended June 30, 2005, together with the opinion thereon of our independent certified public accountants, Grant Thornton LLP. This report, required by State law, Oregon Revised Statutes 297.425, is prepared by the Department of County Management. Also included are Audit Comments and Disclosures required under the Minimum Standards for Audits of Oregon Municipal Corporations Section of the Oregon Administrative Rules.

In addition, the County is required to have a comprehensive single audit of its Federal Assistance Programs in accordance with the Single Audit Act of 1984, OMB Circular A-133 and the provisions of Government Auditing Standards promulgated by the U.S. Comptroller General as they pertain to financial and compliance audits. A report on the County's compliance with applicable Federal laws and regulations related to the Single Audit Act of 1984 is included with this report beginning on page 192.

This report is prepared in conformance with the guidelines for financial reporting developed by the Government Finance Officers Association of the United States and Canada and the principles established by the Governmental Accounting Standards Board (GASB), including all effective GASB pronouncements. It presents fairly the financial position of the various funds of the County at June 30, 2005, and the results of operations of such funds and the cash flows of the proprietary fund types for the year then ended in conformity with accounting principles generally accepted in the United States of America (US GAAP). The report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, County management has established a comprehensive internal control framework that is designed both to protect the County's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

US GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Multnomah County's MD&A can be found immediately following the independent auditors' report. Unless otherwise noted, dollar amounts are expressed in thousands.

PROFILE OF MULTNOMAH COUNTY, OREGON

Multnomah County, incorporated in 1854, is located in northwestern Oregon at the confluence of the Columbia and Willamette rivers, approximately 110 river miles and 80 highway miles from the Pacific Ocean. The County covers 465 square miles, and serves a population of 685,950 citizens. The cities of Portland and Gresham are the largest incorporated cities in the County.

Multnomah County is governed according to its Home Rule Charter, which became effective January 1967. The County's charter adopted in 1967 has had several subsequent amendments. The County is governed by a Board of County Commissioners consisting of four non-partisan members elected from designated districts within the County and the Chair of the Board, elected at large. The Board of County Commissioners conducts all legislative business of the County.

Multnomah County provides a full range of services, including public safety protection; corrections and probation; construction and maintenance of roads, highways, bridges and other infrastructure; health and social services; library and community enhancement; and internal business support. Certain sanitary and lighting services are provided as legally separate Service District Authorities, which function, in essence, as departments of the County and therefore are included in the County's financial statements as component units. The County also maintains a Hospital Facilities Authority whose primary purpose is to issue conduit debt for health care facilities. The Hospital Facilities Authority is also considered a component unit but it is not included in the County's financial statements. Additional information on these legally separate entities can be found in note 1 of the notes to the financial statements.

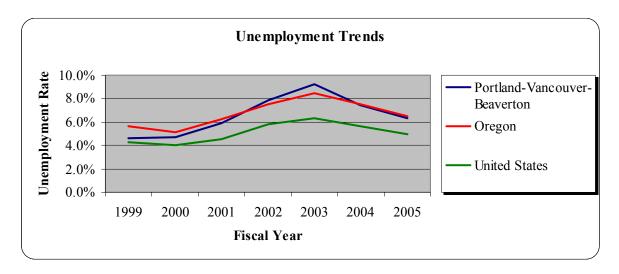

The County's budget is prepared on the modified accrual basis of accounting. In accordance with State statutes, the County budgets all funds except trust and agency funds. The County budget is adopted by the Board of County Commissioners by department for each fund. The expenditure appropriations lapse at the end of the fiscal year. Additional resources and corresponding appropriations may be added to the budget during the fiscal year through a supplemental budget process. Original and supplemental budgets may be modified during the fiscal year by the use of appropriation transfers between categories. The appropriation transfers must be approved by the Board of County Commissioners in public meetings. During the fiscal year, one supplemental budget was adopted.

Budget to actual comparisons are provided in this report for each individual governmental and proprietary fund for which an appropriated annual budget has been adopted. For the general fund, the federal state program fund and the Willamette River bridges fund the budget to actual comparisons are provided on pages 34-36 as part of the basic financial statements for the governmental funds. For all other governmental funds with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 75.

FACTORS AFFECTING FINANCIAL CONDITION

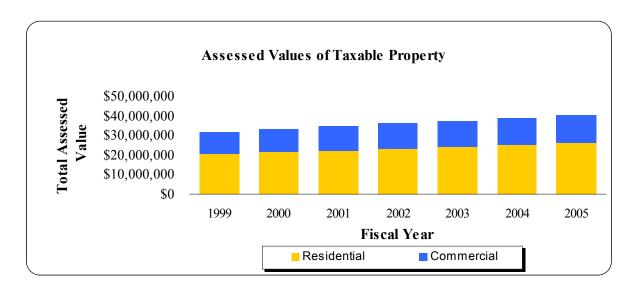

Local Economy: The Portland metropolitan area is the financial, trade, transportation and service center for Oregon, southwest Washington State and the Columbia River basin. Its manufacturing base includes electronics, machinery, transportation equipment, and fabricated metals.

The Portland-Vancouver-Beaverton PMSA's (Primary Metropolitan Statistical Area) economy improved throughout fiscal year 2005. The area's unemployment rate had improved to 6.1% at June 30, 2005, compared to a rate of 6.8% at June 30, 2004. However the unemployment rate for the area is still higher than the national average of 5.0% for June of 2005 compared to 5.6% for June 2004. The chart below compares the County's unemployment rate to the State's and the Nation's.

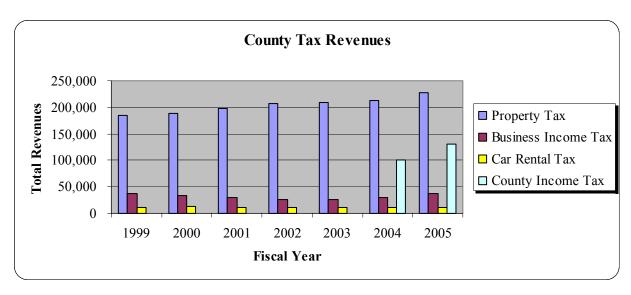

Financial outlook: The financial outlook for the County's general fund over the next five years is somewhat stronger than previous forecasts primarily due to gradual increases in economic conditions in the area. The regional economy is approaching a period of sustainable growth, but given the depth of our recession it will take longer for the region to experience a sizable employment and revenue growth. The State of Oregon has been making a strong push for recovery, but in order to catch up with the nation this trend must continue.

The region's slow but steady growth will impact the County's revenue stream. Property taxes are expected to grow at 3.2% over the next year and new residential and commercial construction will continue to have a major impact on the County in upcoming years. The following chart measures the County's total residential and commercial assessed property tax values over the past seven years. Residential properties have experienced a 30% increase in taxable property values over a seven year period compared to a 23% increase for commercial property values over the same period. The steady increase in residential property is primarily due to new construction in the Portland area.

Business income tax is the second largest source of revenue for the County and it has been set at a rate of 1.45% of net income. Business income tax collections parallel the business cycle. Increased business income tax collections in fiscal year 2005 suggest that we are finally seeing some growth after four years of declining revenues, and we expect this trend to continue in the upcoming years. In addition, motor vehicle rental taxes which have decreased over the past three years are expected to grow by 8% as travelers gain confidence and we see an increase in air traffic and car rentals in Portland. Overall revenue growth is forecast between 2.5% to 3.5% over the next five years. Expenditures are expected to grow between 4.5% and 6% annually, taking into account the normal rate of inflation, employee benefits and long term fixed costs.

During 2003 Multnomah County voters approved a temporary personal income tax of 1.25% for residents to fund services for fiscal years 2004, 2005, and 2006. The tax primarily provides support to the schools in the County but also provides support to the County's health, human services, and public safety programs. In fiscal year 2005 the County's general fund recognized \$130,187 as compared to \$100,114 in tax revenue in fiscal year 2004. The County expects revenues for the income tax to be at or near \$125,000 for fiscal year 2006. In fiscal year 2006 the County will begin planning for the end of the three year personal income tax. The graph below highlights the County's major tax revenues sources.

Financial and budget policies. As a guideline for the budget process the County has established financial and budget policies which have been reviewed and adopted by the Board of County Commissioners in connection with the budget process. Some of the goals of the financial policies include preserving capital through prudent budgeting and financial management, achieving a stable balance between the County's ongoing financial commitments and the continuing revenues available to the County, and to leverage local dollars with Federal and State funding grants. These financial policies ensure the County has appropriately recorded and accounted for transactions in our financial statements.

The County's adopted financial and budget policies include the use of one-time only resources because in the short run it appears more beneficial to allocate such resources to the highest priority public service that would otherwise be unfunded than to restrict them to costs that will not recur in following years. However, the result of this practice is to expand operational levels and public expectations beyond the capacity of the organization to generate continuing funding which can lead to future budget shortfalls. As mentioned earlier, fiscal year 2006 will be the last year of the three year temporary personal income tax measure and the County has already begin to establish necessary general fund reserves to lessen the impact of the sunset of the personal income tax revenues. The 2006 adopted budget includes approximately \$15,000 of one-time only funds. These one-time only funds include \$4,800 to retire debt in fiscal year 2006 and \$10,000 to set aside an income tax sunset reserve to manage the reductions forecast to occur in fiscal year 2007.

The County's financial and budget policies also state the Board acknowledges that to avoid financial instability, continuing requirements should be insulated from temporary fluctuations. Therefore one of the goals of the Board is to fund and maintain two general fund reserves designated as unappropriated fund balance and funded at approximately 5% each of total budgeted revenues of the general fund. These reserves are to be used for periods where revenues experience significant declines or used for non-recurring extreme emergencies such as disaster relief. Maintaining an appropriate reserve also helps the County maintain its favorable bond rating, which is currently Aa1 from Moody's Investors Services.

Long-term financial planning. The County Chair has an Executive Committee that includes the Board Chair's Chief Operating Officer, Department Directors, and the Chief Financial Officer. The Executive Committee holds ongoing planning sessions to develop short-term and long-term goals and to address the financial stability of the County. The County's Chief Financial Officer also meets with City of Portland Financial and Budget Officers and with representatives from the City of Gresham to confer on financial issues that either overlap or impact each entity.

Major initiatives. The construction on the County's new 525-bed Wapato jail and secure alcohol and drug treatment facility was completed during fiscal year 2005. Currently there are insufficient funds to operate this facility and as a result the jail remains empty. The Chair and the Sheriff are in discussions with State of Oregon corrections officials about leasing the facility or renting jail beds to the State. Other capital project initiatives include addressing the County's bridge rehabilitation and replacement needs. Thus far the County has been successful in obtaining \$25,000 in State awards for current bridge projects but an estimated long-term shortfall of \$215,000 still exists between identified needs and identified funds over the next twenty years. The County is in the early phases of the Sauvie Island bridge replacement project and is currently seeking bids from local contractors. The total cost for the Sauvie Island bridge project is estimated to be \$42,000.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report

(CAFR) for the year ended June 30, 2004. This was the twentieth year that the County has received this prestigious award. In order to be awarded a Certificate of Achievement, the County published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the employees in the Department of County Management who maintained the records and assisted in the preparation of this report. Special thanks are extended to the General Ledger Staff who were instrumental in preparing this report. Appreciation is also extended to the Chair of the Board, Board of County Commissioners, Department Directors, and other County personnel for their assistance and support in planning and conducting the financial operations of the County in a prudent manner.

Respectfully Submitted,

David A. Boyer

FINANCIAL SECTION

Independent Auditor's Report

The Board of County Commissioners Multnomah County, Oregon

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Multnomah County, Oregon, as of and for the year ended June 30, 2005, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Multnomah County, Oregon's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America as established by the Auditing Standards Board of the American Institute of Certified Public Accountants and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Multnomah County, Oregon, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund and Federal and State Program Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated November 4, 2005 on our consideration of Multnomah County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis on pages 14 through 26 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Suite 800

Portland, OR 97201-5864
T 503.222.3562
F 503.295.0148
W www.granithornton.com

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Multnomah County, Oregon's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for the purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory section, combining and individual fund financial statements and schedules, other schedules, and statistical information section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules and other schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements taken as a whole. The introductory section and statistical information section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Multnomah County, Oregon, we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2005. We encourage readers to consider the information presented here in conjunction with the additional information that we have furnished in our letter of transmittal, which can be found on pages 1-6 of this report. All dollar amounts, unless otherwise indicated, are expressed in thousands.

Financial Highlights

- Multnomah County's assets exceeded its liabilities at June 30, 2005, by \$626,172 (*net assets*). Of this amount, \$8,701 is restricted for capital improvement projects and \$67,911 is restricted for future years' debt service.
- Total net assets increased by \$59,977 or 11% in fiscal year 2005. \$25,000 of this increase is attributable to the Oregon Transportation Investment Act funding the County received in 2005 to help revitalize the County's aging bridges. In addition, stronger collection efforts on business income taxes combined with a better economy in 2005 compared to 2004 led to increased revenues of \$6,177 on business income taxes. Property tax revenues have increased slightly over the prior year and are up by 4% or \$8,267 due to more urban development and a stronger overall economy.
- The overall increase in net assets is also directly affected by the County's three-year 1.25% personal income tax for residents of Multnomah County. The County's personal income tax revenues and related distributions have significantly decreased in 2005 as compared to 2004. Personal income tax revenues are down by \$50,748 or 29% from 2004 with related distributions down by \$24,595 or 21%. This decrease is a result of recording all of calendar year 2003 personal income tax revenues in fiscal year 2004 due to the retroactive effect of the personal income tax measure when it was approved by the voters of Multnomah County in late 2003, as well as half of calendar year 2004. In 2005, however, only the remaining half of calendar year 2004 personal income tax revenues plus half of calendar year 2005 personal income tax revenues were recognized, resulting in lower revenues in fiscal year 2005.
- Total assets of the County increased by \$46,649 or approximately 4%. Most of this is an increase in cash and investments in governmental activities of \$46,322 for reasons mentioned above.
- As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$135,598, an increase of \$49,507 in comparison with the prior year's decrease of \$7,106. The governmental fund balances increased for the same reasons described above for the increased net assets.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$42,074, or approximately 11% of total General Fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Multnomah County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, health and social services, public safety and justice, community services, roads and bridges, and libraries. The business-type activities of the County include sanitary sewer and street lighting districts, and a behavioral health managed care operation.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also a legally separate sanitary sewer district and a legally separate street lighting district, for which the County is financially accountable. Financial information for these two *blended component units* is reported separately from the financial information presented for the County itself.

The government-wide financial statements can be found on pages 27-29 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains 28 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Federal State Program Fund, and the Willamette River Bridges Fund, all of which are considered to be major governmental funds. Data from the remaining governmental funds (non-major governmental funds) are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual appropriated budget for all funds. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

The basic governmental fund financial statements and respective reconciliations can be found on pages 30-33 of this report.

Proprietary funds. The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its sewer and lighting operations, and for behavioral health capitated services. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its risk management activities, fleet operations, telephone and data processing systems, mail distribution, facilities management operations, and business services operations. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The enterprise fund financial statements provide aggregate information for the sewer and lighting districts and the behavioral health fund. The internal service funds are also combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the proprietary and internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 37-39 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support County programs. The accounting used for fiduciary funds is similar to that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 40-41 of this report. The combining balance sheet for agency funds and combining statement of changes in assets and liabilities for agency funds can be found on pages 137-138 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the financial data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 42 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the notes to the basic financial statements. Combining and individual fund statements and schedules can be found beginning on page 75 of this report.

Government-wide Financial Analysis

Certain reclassifications were made to prior year amounts in order to conform to the current year presentation.

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. The County's assets exceeded liabilities by \$626,172 at the close of the most recent fiscal year.

Multnomah County's Net Assets June 30, 2005

	Governmental		Business- Type				
	Activ	rities	Activ	Activities		Total	
	2005	2004	2005	2004	2005	2004	
Current and other assets	\$ 493,898	\$ 450,655	\$3,927	\$4,171	\$ 497,825	\$ 454,826	
Capital assets	727,030	723,477	2,577	2,480	729,607	725,957	
Total assets	1,220,928	1,174,132	6,504	6,651	1,227,432	1,180,783	
Long-term liabilities outstanding	433,146	443,635	10	7	433,156	443,642	
Other liabilities	166,199	168,697	1,905	2,249	168,104	170,946	
Total liabilities	599,345	612,332	1,915	2,256	601,260	614,588	
Net assets:							
Invested in capital assets, net of							
related debt	523,606	511,277	2,577	2,480	526,183	513,757	
Restricted	76,612	62,954	-	-	76,612	62,954	
Unrestricted	21,365	(12,431)	2,012	1,915	23,377	(10,516)	
Total net assets	\$ 621,583	\$ 561,800	\$4,589	\$4,395	\$ 626,172	\$ 566,195	

The largest portion of the County's net assets, approximately 84%, reflects investment in capital assets (land, work in progress, buildings, improvements, machinery and equipment, bridges and infrastructure), net of accumulated depreciation, and the outstanding debt used to acquire the assets in the amount of \$526,183 as compared to \$513,757 a year ago. Capital assets net of related debt increased due to a debt refunding in fiscal year 2005 which reduced the County's total outstanding debt that had been issued for capital assets. During fiscal year 2005 the County paid approximately \$68,774 in debt related to capital assets. The County uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net assets are restricted for capital projects and debt service, \$76,612, or approximately 12%. The amount represents resources that are subject to external restrictions on how they may be used. The remaining balance is unrestricted net assets of \$23,377 or approximately 4%. At the end of the current year, the County is able to report positive balances in all categories of net assets for the government as a whole.

Total net assets increased by \$59,977 during the current fiscal year. This increase is partially attributable to the \$25,000 in State funding the County received in 2005 to address future bridge rehabilitation and replacement concerns. In addition, the stronger economy in 2005 led to an increase in revenue from property taxes and business income taxes.

Ending net assets	\$621,583	\$561,800	\$ 4,589	\$ 4,395	\$626,172	\$566,195	

Governmental activities. Governmental activities increased the County's net assets by \$59,783, thereby accounting for approximately 100% of the total increase in the net assets of the County. Key elements of this increase are as follows:

- Capital grants and contributions increased by \$24,340 or 248% due to a \$25,000 capital grant award from the Oregon Transportation Investment Act to help fund repair and replacement of deteriorating County bridges.
- Operating grants and contributions consist primarily of federal and state revenues and increased by \$7,410 or 3% over the prior year due to mental health services which were restored at the State level through the State Mental Health Grant. Mental health services that were restored by State funds include non-residential adult mental health programs and special mental health projects.
- General County revenues for property taxes increased by 4% or \$8,267 in 2005 and business income taxes were higher by \$6,177 or 20% in 2005 compared to 2004 due to favorable economic conditions and increased County collection efforts. County business income tax is a barometer of the local economy which has been strong over the past year. Additional urban growth within Multnomah County has also led to a steady increase in property tax revenues throughout 2005.
- General Government expenses decreased by \$25,775 or approximately 17%, due to a reduction in the County's distributions for personal income tax collections. Total distributions were down by \$24,595 in 2005 compared to 2004. Personal income tax distributions also parallel personal income tax revenues. The decrease from 2004 on personal income taxes is due to timing on the initial ballot measure approval to enact the three-year temporary personal income tax in late 2003. Calendar year 2003 income tax revenues were recorded in fiscal year 2004, leading to higher reported income tax revenues in the prior year.
- Social service expenses are 8% higher or \$13,448 in 2005 than 2004 due to additional services provided for mental health programs. The County's personal income tax measure funds a portion of mental health programs in addition to the State Mental Health Grant the County receives.
- Public safety and justice expenses are up by \$9,064 or 5% mainly due to additional payroll overtime expenses incurred in the Sheriff's office as a result of management's decision not to hire additional staff to fill existing vacant positions.

The graphs on the following page show the County's Governmental Activities expenses and revenues by program area and revenue by sources.

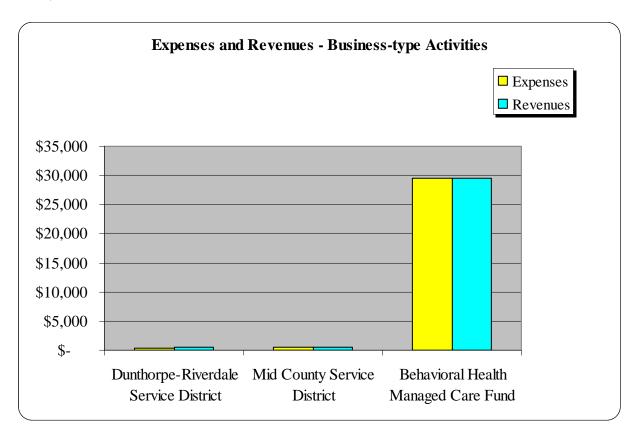

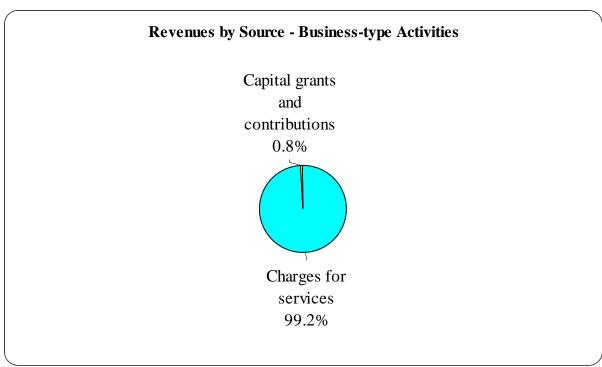

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services. Additionally, where expenses decreased from prior years, this can be directly attributed to the decrease in revenues in the governmental activities.

Business-type activities. Business-type activities increased the County's net assets by \$194, as opposed to a decrease of \$174 in the prior year. The primary reasons for the current year's increase are:

- Interest revenue increased by \$47, or approximately 64% from the prior year due to improved economic conditions and higher cash balances in 2005.
- A loss of \$47 as compared to a loss of \$224 in the prior year on the disposal of capital assets were recorded in the Mid County Service District due to the District's 2004 capital improvement plan to upgrade the District's lights and poles and disposal of capital assets too costly to maintain.
- Dunthorpe-Riverdale Service District increase in net assets of \$59 is primarily due to a 12% increase in customer sewer user assessment fees over the prior year.
- Revenues in the Behavioral Health Managed Care fund are up by \$3,434 or 20% from 2004 and expenses increased by \$3,693 or 14% over 2004. The main reason for these increases is changes made by the State to the Oregon Health Plan. During fiscal year 2005, the State partially restored the Oregon Health Plan standard. This increased the number of clients in the Oregon Health Plan which led to increased capitated premiums from the State. The effect of this restoration was to increase the County's share of State revenues covered by the Oregon Health Plan and to increase expenses for mental health services provided to this population.

The following graphs show the County's Business-type Activities expenses and revenues by program area and revenue by sources.

Financial Analysis of the Government's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$135,598, an increase of \$49,507 in comparison with the prior year. Approximately 72% or \$97,964 of this total amount constitutes *unreserved fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior period (\$1,453), 2) to pay debt service (\$26,105), or 3) to pay for ongoing capital projects (\$10,076).

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unreserved fund balance was \$42,074 in the General Fund or approximately 99% of the total fund balance of \$42,416. This indicates a high degree of liquidity of the General Fund.

The fund balance of the County's General Fund increased by \$22,924 during the current fiscal year. Key factors in this increase are increased business income tax revenues combined with additional property tax revenues as a result of a stronger economy and additional urban growth. In addition, changes in the County's personal income taxes directly impact the change in General Fund fund balance.

The Willamette River Bridges Special Revenue Fund has a total fund balance of \$30,718, all of which is unreserved. The fund balance increased from the prior year by \$26,313 as a result of a \$25,000 Oregon Transportation Investment Act award to fund for future County bridge rehabilitation and replacement.

Proprietary funds. The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the proprietary funds at year end amounted to:

- Dunthorpe-Riverdale Service District Fund, \$351
- Mid County Service District Fund, \$346
- Behavioral Health Managed Care Fund, \$1,315

The total change in net assets for all proprietary funds was \$194. Other factors concerning the finances of these three funds have already been addressed in the discussion of the County's business-type activities.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were minimal in fiscal year 2005. Budget modifications to the original budget in the General Fund included adjustments to increase the budget for personal income tax revenues and business income tax revenues. Also, budgeted expenditures in the Sheriff's office were increased to allow for additional overtime and payroll related expenditures incurred. Additionally, the County aggressively managed expenditures during the year in all program areas.

Capital Projects and Debt Administration

Capital assets. The County's investment in capital assets for its governmental and business-type activities as of June 30, 2005, amounts to \$729,607 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, roads and bridges, sewer and street lighting systems, and motor vehicles. The total increase in the County's investment in capital assets for the current fiscal year was \$3,650 or approximately 1%.

Major capital asset events during the current fiscal year included the following:

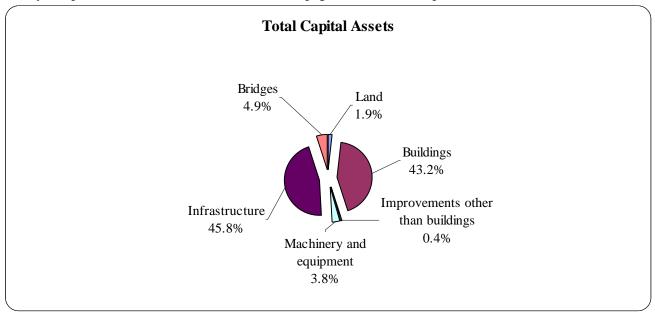

• Completion of the Wapato Jail in Northeast Portland. Total construction costs of the jail were \$51,164. The jail facility has not been placed into operation and therefore it was not depreciated during fiscal year 2005. For further information on the Wapato jail see footnote 3.C on pages 57-58.

The following chart indicates the County's capital assets as of June, 30, 2005. Additional information on the County's capital assets can be found in note 3.C on pages 57-58 of this report.

Long-term debt. At the end of the current fiscal year, the County had total debt outstanding of \$402,336. Of this amount, \$81,025 comprises debt backed by the general obligation bonds; \$267,225 represents debt backed by the full faith and credit bonds; \$542 comprises long term lease obligations; and the remainder of the County's debt represents bonds secured solely by specified sources (e.g., revenue bonds, capitalized leases). Both general obligation bonds and full faith and credit bonds are direct obligations pledging the full faith and credit of the County.

Multnomah County's Outstanding Debt and Other Long-Term Liabilities

	Governmental		Business- Type				
	Activ	Activities		Activities		Total	
	2005	2004	2005	2004	2005	2004	
General obligation bonds	\$ 81,025	\$ 86,445	\$ -	\$ -	\$ 81,025	\$ 86,445	
Revenue bonds	6,935	7,425	-	-	6,935	7,425	
Full faith and credit bonds	267,225	270,203	-	-	267,225	270,203	
Capital leases	27,971	28,596	-	-	27,971	28,596	
Loans	542	634	-	-	542	634	
Compensated absences	18,619	17,247	19	15	18,638	17,262	
Total outstanding debt	\$ 402,317	\$ 410,550	\$ 19	\$ 15	\$ 402,336	\$ 410,565	

The County's total debt decreased by \$8,229 or approximately 2% during the current fiscal year. Significant changes to the County's long-term debt during 2005 include the issuance of \$54,235 in full faith and credit refunding obligations to effectively defease \$54,960 in outstanding principal in 2005.

The County maintains an "Aa1" rating from Moody's for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may issue to two percent of the real market value of all taxable property within the government's boundaries. The current debt limitation for the County for general obligation debt is \$1,409,153, which is significantly in excess of the County's outstanding general obligation debt. State statutes also limit the amount of full faith and credit obligations to one percent of the real market value of all taxable property within the government's boundaries. The current debt limitation for the County for full faith and credit obligations is \$704,576, which is in excess of the County's outstanding full faith and credit debt.

The following chart indicates the County's long-term liabilities as of June 30, 2005. Additional information on the County's long-term liabilities can be found in note 3.G on pages 60-67 of this report.

Key Economic Factors and Budget Information for Next Year

- The unemployment rate for the Portland-metropolitan area at the close of the fiscal year was approximately 6.1%. At the time of preparation of this report, the unemployment rate had increased slightly to approximately 6.2% due to the beginning of school years. The rate is not expected to change significantly before the end of the next fiscal year.
- Voters in the County approved a three year temporary income tax of 1.25%. The income tax was approved in late 2003 but was retroactive to January 1, 2003. The tax generated \$100,114 during fiscal year 2004 and \$130,187 during fiscal year 2005, and it is expected to generate approximately \$125,000 for fiscal year 2006.
- It is anticipated that business income tax revenues will be approximately \$6,000 higher in the coming year than originally forecasted due to continuously improving economic conditions in the region.
- Property tax revenues are not expected to be significantly different than the original budget estimates.

All of these factors were considered in preparing the County's budget for fiscal year 2005-2006.

During the current fiscal year, unreserved fund balance in the General Fund increased to \$42,074. This increase should also enable the County to fully fund reserves to the levels recommended by bond rating agencies.

Requests for Information

This financial report is designed to provide a general overview of Multnomah County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for separately issued component unit reports should be directed to the following address:

Governmental Funds

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities For the Year Ended June 30, 2005 (amounts expressed in thousands)

Net change in fund balances - Governmental Funds		\$ 49,507
Amounts reported for governmental activities in the statement of net assets are different because:		
Governmental funds report capital outlay as expenditures. However in the statement of activities, the cost of those assets is depreciated over their estimated useful lives.		
Expenditures for capital assets	25,517	
Current year depreciation expense	(35,223)	(9,706)
Contributed and donated capital assets	8,722	
Loss on disposal of capital assets	(847)	7,875
Revenues in the statement of activities that do not provide current financial resources are		
not reported as revenues in the governmental funds.		
Decrease in deferred revenues - property taxes	(879)	
Decrease in deferred revenues - personal income taxes	(5,609)	(6,488)
Bond proceeds provide current financial resources to governmental funds, but an increase		/
of long-term liabilities in the statement of net assets.		(54,235)
Premium issued on long-term debt is reported as an other financing source in governmental		
funds, but an increase of long-term liabilities in the statement of net assets.		
The premium is amortized to interest income in the statement of activities.		
Premium issued on long-term debt	(5,089)	
Current year premium amortization	170	(4,919)
Issuance costs and similar items are reported in the governmental funds when the debt is first		
issued, whereas these amounts are deferred and amortized in the statement of activities.		
Bond issuance costs	474	
Current year amortization expense	(16)	458
The difference between refunding bond proceeds and amount sent to the escrow agent to		
defease outstanding debt is a deferred charge in the statement of net assets and amortized		
to interest expense in the statement of activities over the life of the refunded debt.		
Deferred charge	3,887	
Current year interest expense	(130)	3,757
Repayment of long-term debt (including defeased amounts) is reported as an expenditure in the		
governmental funds, but a reduction of long-term liabilities in the statement of net assets.		71,889
Some expenses reported in the statement of activities do not require the use of current		
financial resouces and therefore are not reported as expenditures in governmental funds.		
Increase in long-term compensated absences	(1,125)	
Decrease in personal income tax distribution liability	7,590	6,465
Amortization expense on the net pension asset.		(6,152)
Internal service funds are used by management to charge the costs of certain activities to		
individual funds. The change in net assets of the internal service funds is reported with		
governmental activities.	-	1,332
Change in net assets of Governmental Activities		\$ 59,783

MAJOR GOVERNMENTAL FUNDS

Major governmental funds are defined as those funds whose revenues, expenditures/expenses, assets or liabilities (excluding extraordinary items) are at least 10 percent of corresponding totals for all governmental funds for the same item. The general fund is always classified as a major fund. The modified accrual basis of accounting is used to record revenues and expenditures.

- **General Fund** accounts for the financial operations of the County which are not accounted for in any other fund. The principal sources of revenues are property taxes, personal income taxes, and business income taxes. Primary expenditures in the General Fund are made for general government, public safety, and health and social services.
- **Federal and State Program Fund** a special revenue fund that accounts for the majority of revenues and expenditures related to Federal and State financial assistance programs.
- Willamette River Bridges Fund a special revenue fund that accounts for capital grants and contributions for County bridges, motor vehicle fees, and gasoline tax proceeds transferred from the Road Fund for bridge inspections and maintenance.

PROPRIETARY FUNDS

The County utilizes ten Proprietary Funds made up of three Enterprise Funds and seven Internal Service Funds. Internal Service Funds' statements are noted at pages 117-136.

Enterprise Funds:

These funds are used to finance and account for the acquisition, operation and maintenance of sewage treatment facilities, street lighting facilities and mental health claims administration, which are supported by user charges. The County accounts for certain expenditures of the enterprise funds for budgetary purposes on the modified accrual basis of accounting. For financial reporting purposes the accrual basis of accounting is used. The difference in the accounting basis used relates primarily to the methods of accounting for depreciation and capital outlay. Funds included are:

- **Dunthorpe-Riverdale Service District No. 1 Fund** accounts for the operation of the sanitary sewer system in southwest unincorporated Multnomah County. (A blended component unit of Multnomah County.)
- Mid County Service District No. 14 Fund accounts for the operation of street lights throughout unincorporated Multnomah County. (A blended component unit of Multnomah County.)
- **Behavioral Health Managed Care Fund** accounts for all financial activity associated with the State required behavioral health capitated services.

FIDUCIARY FUNDS

These funds account for resources received and held by the County in a fiduciary capacity. Disbursements from these funds are made in accordance with the trust agreement or applicable legislative enactment for each particular fund. The modified accrual basis of accounting is used to record transactions in the agency funds. The accrual basis of accounting is used in the Library Retirement Pension Trust Fund. The funds included are:

- **Agency Funds** account for resources held by the County in a purely custodial capacity (assets equal liabilities).
- **Library Retirement Pension Trust Fund** provides pension benefits for former employees of the Library Association of Portland.

Note 1. Summary of Significant Accounting Policies

A. Reporting entity

Multnomah County (County) is a municipal corporation governed by an elected Board of Commissioners, comprised of a Board Chair and four commissioners. The accompanying financial statements present the County and its component units, entities for which the County is considered to be financially accountable. Financial accountability is defined as the appointment of a voting majority of the organization's governing board and where (1) the County is able to significantly influence the programs or services performed or provided by the organization or (2) the County is legally entitled to or can otherwise access the organization's resources. Blended component units, although legally separate entities, are, in substance, part of the County's operations. Component units may also include organizations which are fiscally dependent on the County in that the County approves the budget, the issuance of debt or levying of taxes. Multnomah County has three component units, two of which are blended and included in this report.

Blended component units. The Dunthorpe-Riverdale Sanitary Service District and the Mid County Street Lighting District serve residents within each district's geographical boundaries and are governed by a board comprised of the County's elected Board. The rates for user charges for both districts are approved by the Board. Each District is reported as an enterprise fund.

The County also maintains a Hospital Facilities Authority (Authority). The Authority only issues conduit debt for health care facilities and the County has no assets or liabilities recorded for the Authority.

Complete financial statements for each of the individual component units may be obtained at the County's administrative offices.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the County (the primary government) and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the County is financially accountable.

June 30, 2005

(dollar amounts expressed in thousands)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. In addition, functional expenses on the statement of activities include allocated indirect expenses. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement preparation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial* resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, excise taxes, personal income taxes, business income taxes, intergovernmental revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the County.

June 30, 2005

(dollar amounts expressed in thousands)

The County reports the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Federal State Program Fund* accounts for the majority of revenues and expenditures related to federal and state financial assistance programs.

The Willamette River Bridges Fund accounts for motor vehicle fees, gasoline tax proceeds transferred from the Road Fund and other intergovernmental grant revenues and expenditures related to inspection, maintenance and construction projects for various bridges along the Willamette River.

The County reports the following major proprietary funds:

Proprietary Funds account for the operations of predominantly self-supporting activities. Proprietary funds are classified as either enterprise or internal service. *Enterprise Funds* account for services rendered to the public on a user charge basis. The following are the County's major enterprise funds:

The *Dunthorpe-Riverdale Service District No. 1 Fund* accounts for the operation of the sanitary sewer system in southwest unincorporated Multnomah County.

The Mid County Service District No. 14 Fund accounts for the operation of the street lighting system throughout unincorporated Multnomah County.

The Behavioral Health Managed Care Fund accounts for all financial activity associated with the State required behavioral health capitated services.

Additionally, the County reports the following fund types:

Special revenue funds are primarily operating funds that account for revenue derived from specific taxes or other revenue sources, which are legally restricted to finance particular functions or activities. When a special revenue fund is not an operating fund, transfers are made from the special revenue fund to the operating funds authorized to make expenditures.

Debt service funds account for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

Capital projects funds account for expenditures on major construction projects or equipment acquisition. The principal sources of revenues are proceeds from certificates of participation issued to finance capital acquisitions, proceeds from the

June 30, 2005

(dollar amounts expressed in thousands)

sale of County-owned property, general obligation bond proceeds, full faith and credit bonds, and revenue bonds.

Internal Service funds account for activities and services performed primarily for other organizational units within the County. The County reports seven internal service funds: Risk Management Fund, Fleet Management Fund, Telephone Fund, Information Technology Fund, Mail/Distribution Fund, Facilities Management Fund and the Business Services Fund.

Fiduciary Funds account for assets held by the County for other governmental units. Disbursements from these funds are made in accordance with the trust agreement or applicable legislative enactment for each particular fund. For example, the County holds deposits and investments for the benefit of the participants in the County Library Retirement Pension Trust Fund. Agency funds are custodial in nature (i.e. assets equal liabilities) and do not measure the results of operations.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's sewer and lighting functions and various other functions of the County. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer and lighting districts, of the Behavioral Health Managed Care fund, and of the County's internal service funds are charges to customers for sales and services. The sewer district also recognizes as operating revenue the portion of connection fees intended to recover the cost of connecting new customers to

June 30, 2005

(dollar amounts expressed in thousands)

the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, liabilities, and net assets or equity

1. Cash and investments

The County's cash and cash equivalents are comprised of cash on hand, demand deposits, and investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, municipal bonds, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP). Investments for the County, as well as for its component units, are reported at fair value. The LGIP operates in accordance with appropriate state laws and regulations.

The County reports cash with fiscal agent and cash and investments with special restrictions imposed by grantors or regulations from other governments as restricted cash and investments.

2. Receivables and payables

Activity between funds that are representative of lending / borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to / from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Property tax receivables are deemed to be substantially collectible or recoverable through foreclosure. Accordingly, no allowance for doubtful tax accounts is deemed necessary. All other receivables are shown net of an allowance for uncollectibles.

Property taxes are levied and become a lien on July 1. Property taxes are assessed in October and tax payments are due November 15th of the same year. Under the partial payment schedule, the first one-third of taxes are due November 15th, the second one-third on February 15th, and the remaining one-third on May 15th. A three percent discount is allowed if full payment is made by November 15th and a two percent discount is allowed if two-thirds payment is made by November 15th. Taxes become delinquent if not paid by the

June 30, 2005

(dollar amounts expressed in thousands)

due date and interest accrues after each trimester at a rate of one percent per month. Property foreclosure proceedings are initiated four years after the tax due date.

Multnomah County residents approved a personal income tax effective from calendar year 2003 through calendar year 2005. The tax is a 1.25% levy on the Oregon taxable income of Multnomah County residents reduced by an exemption amount. The tax has generated an estimated \$125,000 for each calendar year the tax is in effect. The revenues generated from the tax will provide funding for public school districts within Multnomah County in addition to funding for elderly, disabled and mentally ill persons, and programs for public safety and health. Included in the financial statements is an allowance for uncollectible accounts of \$3,016 for personal income taxes. This amount is shown net with taxes receivable on both the fund financial statements and the statement of net assets. In the statement of activities the reduction is recorded to the related income tax revenues, and on the fund financial statements the offset is recorded in deferred revenues.

3. Inventories and prepaid items

Inventories of materials and supplies in the governmental funds are valued at average cost and are offset by a reservation of fund balance. Inventories of materials and supplies in the internal service funds are valued at the lower of average cost or market. All inventories are recorded as expenditures when consumed rather than when purchased.

Payments in excess of \$10 to vendors which reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted amounts

Certain revenues derived from specific taxes or other earmarked revenue sources are considered restricted assets. Such revenues include dedicated property taxes, temporary personal income tax, state gas tax, intergovernmental grants, and charges for services which are legally restricted to finance particular functions or activities. In addition, proceeds from general obligation bonds, revenue bonds, and full faith and credit bonds are restricted to support the specific purpose for which the debt was issued. Such net assets are classified as restricted on the Statement of Net Assets and are recorded in separate funds supporting the specific function or operation.

5. Capital assets

Capital assets, which includes property, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, sewers, street lighting, and similar items), and their improvements, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5 for equipment and \$10 for infrastructure

June 30, 2005

(dollar amounts expressed in thousands)

with an estimated useful life of at least three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction phases of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. During the year, the County incurred no interest expense for capital assets for business-type activities.

Property, plant, and equipment of the County, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

•	Motor vehicles	3 to 10 years
•	Sewer systems	50 years
•	Street lighting	15 to 30 years
•	Equipment, including software	3 to 20 years
•	Roads and bridges	40 years
•	Buildings and improvements	40 years

6. Other assets

Included in other assets are unamortized bond issuance costs and the unamortized pension asset. In governmental fund types, bond issuance costs are recognized in the current period. In the government-wide financial statements bond issuance costs are capitalized and amortized over the term of the bond using the straight-line method, which approximates the effective interest method. The net pension asset in the Statement of Net Assets has been recognized in connection with the debt issued by the County in 1999 to fund the County's Public Employees Retirement System (PERS) unfunded accrued actuarial liability (UAAL). The pension asset is amortized over the life of the debt or thirty years. Amortization expense on the pension asset and the bond issuance costs are included in the general government line item on the Statement of Activities.

7. Unearned / Deferred revenues

Unearned revenues will be recognized as revenue in the fiscal year they are earned in accordance with the accrual basis of accounting. Deferred revenues reported in the governmental fund financial statements represent unearned revenues or revenues which are measurable but not available, such as collections on the 2005 calendar year for the County's 1.25% personal income tax. In accordance with the modified accrual basis of accounting, these items are reported as deferred revenues.

June 30, 2005

(dollar amounts expressed in thousands)

8. Compensated absences

It is the County's policy to permit employees to accumulate earned but unused vacation, compensatory and sick leave benefits. There is no liability for unpaid accumulated sick leave since the County does not have a policy to pay any amounts when employees separate from service with the County. All vacation pay and compensatory time is accrued when incurred in the government-wide statements and proprietary funds statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements at June 30. Liabilities for compensated absences are liquidated as employees separate from service and receive payment for accumulated leave benefits. Expenditures for liquidating the liabilities are recorded in the General, Special Revenue, Capital Projects, Enterprise, and Internal Service Funds.

9. Long-term obligations

In the government-wide financial statements and for proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Post employment health care benefits considered to be special termination benefits are recognized as a liability in the government-wide financial statements. The liability reflects both the lump sum payments to employees and the present value of expected future payments. When incurred, bond premiums and discounts are deferred and amortized over the life of the bonds using a method that approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. The difference between the reacquisition price (funds required to refund the old debt) and the net carrying value of the refunded debt is an economic gain or loss, and is treated as a deferred charge on refunding. This deferred charge is reported as a reduction to the bonds payable on the Statement of Net Assets and is being amortized as a component of interest expense.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. The post employment benefits liability and expenditure in the governmental fund financial statements are limited to amounts that become due and payable as of the end of the fiscal year.

10. Fund equity

In the fund financial statements, governmental funds report reservation of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties

June 30, 2005

(dollar amounts expressed in thousands)

for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

11. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

12. Reclassifications

Certain reclassifications have been made to the prior year in order to conform to the current year financial statement presentation.

Note 2. Stewardship, compliance, and accountability

A. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except the trust funds. All annual appropriations lapse at fiscal year end.

During the month of February each year, all agencies of the County submit requests for appropriations to the County Chair so that a budget may be prepared. By May 15, the proposed budget is presented to the County Board of Commissioners for approval. The Board holds public hearings and a final budget must be prepared and adopted no later than June 30.

The adopted budget is prepared by fund and department. The County's department managers may make transfers of appropriations within a department and fund. Transfers of appropriations between departments or funds require the approval of the Board. The legal level of budgetary control, (i.e., the level at which expenditures may not legally exceed appropriations) is the fund and department level. The Board approved one supplemental budget and several other budgetary appropriations throughout the year.

B. Excess of expenditures over appropriations

For the year ended June 30, 2005, there were not any funds where expenditures exceeded appropriations. However the Building Project Fund had a deficit in the fund balance at year-end. The deficit was a result of various capital projects including renovation to Multnomah County libraries. The County entered into an internal loan agreement in fiscal year 2004 in order to reduce the Building Project's deficit fund balance. The loan is a five year agreement in which the General Fund will make a cash transfer each year

June 30, 2005

(dollar amounts expressed in thousands)

for five years to aid the Capital Project's Fund balance. At June 30, 2005 the Building Project Fund had a deficit fund balance of \$836.

Note 3. Detailed notes on all funds

A. Deposits and investments

Multnomah County pools virtually all funds for investment purposes. All appropriate funds are allocated interest based on the average daily cash balance of the fund and the average monthly yield of the County's investment portfolio. Each fund type's portion of this pool is displayed as "Cash and investments."

State law requires that collateral be deposited with a value of 25% of the balances above federal deposit insurance, but in some instances, the Oregon State Treasury can require banks to provide more than 25% of the balances of municipal corporations' deposits as collateral. The County cannot, however, determine which, if any, institutions have been required to meet a collateral requirement larger than 25%. The County independently monitors its depository institutions for indications that could potentially cause loss of County funds.

Funds deposited with fiscal agents for the purpose of meeting the payment of principal or interest on bonds or like obligations are not required to be collateralized per Oregon Revised Statutes, Chapter 295.005.

Oregon Revised Statutes, Chapter 294, authorizes the County to invest in obligations of the U.S. Treasury, U.S. Government agencies and instrumentalities, bankers' acceptances guaranteed by a qualified financial institution, commercial paper, corporate bonds, repurchase agreements, State of Oregon Local Government Investment Pool (LGIP), and various interest-bearing bonds of Oregon municipalities.

The County's investments are governed by a written investment policy that is reviewed annually by both the Oregon Short-Term Fund Board and the Multnomah County Investment Advisory Board, and is adopted annually by the Board of County Commissioners. The policy specifies the County's investment objectives, benchmarks, required diversification by security type and by maturity, and the reporting requirements.

The County's investment policy requires that a third party be used for safekeeping of investment instruments. Investment securities purchased pursuant to the County's investment policy are delivered via payment by book entry or physical delivery to a third party custodian.

The County's investment policy also requires that the market value plus accrued interest of the securities collateralizing repurchase agreements exceeds the face amount of the repurchase agreement by margins prescribed in writing by the Oregon Short-Term Fund

June 30, 2005 (dollar amounts expressed in thousands)

Board, providing the County with a margin against a decline in the market value of the securities. The market value plus accrued interest of the securities purchased under repurchase agreements did not fall below the required level during the year.

The County is authorized to invest in the LGIP, an external investment pool, within prescribed limits. The investments are booked at fair value and are the same as the value of the pool shares. The LGIP investments are governed by a written investment policy that is reviewed annually by the Oregon Short-Term Fund Board. The Oregon Short-Term Fund Board is comprised of members of local government and private investment professionals, who are appointed by the Governor of the State of Oregon.

At year-end, the carrying amount of the County's deposits was \$37,186 and the bank balance was \$37,151. The bank balance was covered by federal depository insurance or by collateral held by one or more of the State's authorized collateral pool managers in the name of the County as the County's agent. The balance of \$35 represents petty cash accounts that were uninsured and uncollateralized.

As a means of limiting its exposure to fair value losses resulting from rising interest rates, the County's investment policy limits maturities as follows:

<u>Maturity</u>	Cumulative Constraint
Less than 30 days	10%
Less than 90 days	25%
Less than 270 days	50%
Less than 1 year	70%
Less than 3 years	100%

If the goals of maturity limits are exceeded by 5% or more for ten successive business days, prompt notification to the County's Chief Financial Officer and the County's Investment Advisory Board is required. In addition, to limit its exposure to losses due to asset concentration, the County's investment policy and Oregon Revised Statutes limit asset concentration as follows:

- 1. Corporate indebtedness must be rated on the settlement date A-1 or AA or better by Standard and Poor's Corporation or P-1 or Aa by Moody's Investors Service, or the equivalent rating by any nationally recognized statistical rating organization.
- 2. Notwithstanding item one, corporate indebtedness must be rated A-2 or A by Standard & Poor's and P-2 or A by Moody's, or the equivalent rating by any nationally recognized statistical rating organization when issued by a business enterprise that has its headquarters in Oregon, employs more than 50% of its permanent workforce in Oregon, or has more than 50% of its tangible assets in Oregon.

June 30, 2005 (dollar amounts expressed in thousands)

- 3. Commercial paper and other corporate debt up to 25% of the total investment portfolio is allowed, but may exceed that limit up to 30% for a period not to exceed ten consecutive business days.
- 4. U.S. Government Agencies are limited to 75% of the investment portfolio.

Additionally, to limit its exposure to asset concentration risk, the County restricts the total investment that can be made in the corporate indebtedness of a single corporate entity and its affiliates and subsidiaries to 5% of the total investment portfolio. The County did not have any investments that exceeded this limit during the year.

The County has one investment that is uninsured and unregistered, is held by a counterparty and is not in the County's name. The investment is a pension trust investment that is held for the benefit of employees of the former Library Association of Portland. At the close of the year, the market value of the investment was \$14,182. More information can be found about this investment in note 4F, on page 70.

As of June 30, 2005, the County had the following unrestricted cash and investments:

			Risk		
			Concentration		
		Weighted	Unrestricted	Instruction and Materials	(in
	Fair	Average	Cash and	Investment Maturit	y (in years)
Investment Type	Value	Yield	Investments	Less than 1	1-3

Cash with Fiscal Agent Total restricted cash	1,598	1.00%	49%	1,598	
and investments	\$ 3,288			\$ 3,288	

During fiscal year 2005 the County received grant awards and contributions that have been restricted for specific County capital projects. These funds have been maintained in separate investment accounts and designated as restricted. In addition the County maintains cash with fiscal agent accounts to set aside for debt service requirements per the trustees and bond indentures.

B. Receivables

Receivables as of year-end for the County's individual major funds, and nonmajor and internal service funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

June 30, 2005

(dollar amounts expressed in thousands)

(dollar amounts expressed in thousands)

Revenues of Dunthorpe Riverdale and Mid County Service Districts are reported net of uncollectible amounts. Total uncollectible amounts related to revenues are all for prior periods.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Government funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue reported in the governmental funds were as follows:

<u>Una</u>	<u>vailable</u>

(dollar amounts expressed in thousands)

During fiscal year 2005 the County finalized the construction of the Wapato Jail. The total cost of the jail was \$51,164 and is included in the above capital asset schedule. Currently the County has not approved an operating budget for the jail and therefore the jail has not been placed into service and is not being depreciated. When the jail becomes operational it will be depreciated over forty years. The County is currently considering various plans to operate the Wapato Jail.

Depreciation expense was charged to functions / programs of the primary government as follows:

Governmental activities:	
General government	\$ 14,400
Health services	13
Social services	2
Public safety & justice	617
Community services	32
Library	2,562
Roads and bridges	20,439
Total depreciation expense – governmental activities	\$ 38,065
Business-type activities:

Lighting	103
Total depreciation expense – business-type activities	\$ 147

D. Other assets

Other assets, net of accumulated amortization at June 30, 2005 consist of the following:

Bond issuance costs	\$ 458	
Negative net pension asset	150,202	
	\$ 150,660	

Amortization expense in the statement of activities on bond issuance costs and the negative net pension asset were \$16 and \$6,152, respectively for the year ended June 30, 2005.

June 30, 2005

(dollar amounts expressed in thousands)

E. Interfund receivables, payables, and transfers

The County records "due to" and "due from" transactions in order that individual funds will be able to meet cash flow needs at year end and prevent a fund from reporting a negative cash balance. The composition of interfund balances as of June 30, 2005 is as follows:

Due to / from other funds:

Receivable Funds	Payable Funds	Amount	
General Fund	Mail/Distribution Fund	\$	642
General Fund	Federal State Fund		17,100
Asset Preservation Fund	SB 1145 Fund		1,100
Risk Management Fund	Building Project Fund		1,165
Risk Management Fund	Justice Bond Project Fund	4,085	
		\$	24,092

Interfund Transfers:

Following are the County's interfund transfers for the year ended June 30, 2005. The general fund transfers to nonmajor governmental funds include transfers for various construction projects in the capital project fund in addition to a large transfer to the Library special revenue fund to provide for various County Library upgrades and projects.

	Transfers in:				
Transfers out:	General Fund	Willamette River Bridges Fund	Nonmajor Governmental Funds	Internal Service Funds	Total

Total transfers out:	\$1,553	\$ 4,703	\$ 23,651	\$1,721	\$31,628

June 30, 2005

(dollar amounts expressed in thousands)

F. Short-term debt

Tax Revenue Anticipation Note

The County issues short-term debt in order to meet current operational needs during months when property tax collections are slow. At July 1, 2004 the County issued \$20,000 in tax revenue anticipation notes. The notes carried an interest rate of 1.75% and were due at June 30, 2005. The County also issued short-term debt on July 1, 2005 in the amount of \$20,000 with \$300 received prior to year-end as a good faith deposit. The remaining funds were received on July 1, subsequent to year-end. Short-term liability activity for the year-ended June 30, 2005 was as follows:

	Begin	ning					End	ding	Due V	Within
Governmental Activities	Bala	nce	A	dditions	Re	ductions	Bal	ance	One	Year
Tax revenue anticipation note, Series 2004 Tax revenue anticipation note,	\$	-	\$	20,000	\$	20,000	\$	-	\$	-
Series 2005		-		300		-		300		300
Totals	\$	_	\$	20,300	\$	20,000	\$	300	\$	300

G. Long-term debt

General Obligation Bonds

The County issues general obligation bonds to provide funds for the rehabilitation, construction and acquisition of various library and public safety facilities and related equipment. General obligation bonds have been issued for these governmental activities. The original amount of general obligation bonds issued in prior years was \$139,700. In February 1999, the County advance refunded a portion of these general obligation bonds by issuing \$66,115 in new general obligation bonds.

General obligation bonds are direct obligations, pledge the full faith and credit of the County and are backed by the County's authority to levy property taxes. These bonds are generally issued as 20-year serial bonds with equal amounts of principal and interest maturing each year. General obligation bonds currently outstanding are as follows:

Purpose	Interest Rates	Amount
Governmental activities	3.70-5.65%	\$ 81,025

June 30, 2005

(dollar amounts expressed in thousands)

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending June 30	Principal	Interest
2006	\$ 5,685	\$ 3,525
2007	5,960	3,256
2008	6,255	2,972
2009	6,555	2,677
2010	6,860	2,387
2011-2015	36,735	7,203
2016-2017	12,975	624
Total	\$ 81,025	\$ 22,644

Revenue Bonds

The County also issues bonds where the government pledges specific revenue sources or income derived from the acquired or constructed assets to pay debt service. In October 1998, the County issued \$3,155 of revenue bonds to finance constructing, renovating, improving and equipping County-owned facilities, and entered into a public / private partnership with the Regional Children's Campus (RCC), a 501(c)(3) non profit agency. In November 2000, the County issued \$2,000 of revenue bonds to finance the costs of acquiring land and constructing, renovating, improving and equipping certain facilities to be used as a vocational training center for developmentally disabled residents of Multnomah County. The County entered into a public / private partnership with Port City Development, a 501(c)(3) non profit agency. Also in November 2000, the County issued \$3,500 of revenue bonds to re-finance the costs of acquiring real property and constructing facility improvements related to the Oregon Food Bank. The total original amount of bonds issued in prior years was \$8,655.

Revenue bonds outstanding at year-end are as follows:

Purpose	Interest Rates	Amount		
Governmental activities	4.00-5.20%	\$ 6,935		

June 30, 2005

(dollar amounts expressed in thousands)

Annual debt service requirements to maturity for revenue bonds are as follows:

Year Ending June 30	Prin	ncipal	Int	erest
2006	\$	515	\$	314
2007		540		291
2008		560		267
2009		585		243
2010		620		215
2011-2015		3,575		596
2016		540		14
Total	\$	6,935	\$	1,940

Full Faith and Credit Bonds

On April 1, 1999, the County issued \$36,125 in Certificates of Participation with interest rates from 4.00% to 4.75% to finance the costs of acquiring land and facilities. In October 2004, the County advance refunded \$22,015 of the 1999 Certificates of Participation by issuing \$54,235 in full faith and credit bonds. Certificates of Participation are direct obligations and pledge the full faith and credit of the County. At June 30, 2005, \$7,770 of the 1999 Certificates of Participation were outstanding.

On December 1, 1999, the County issued \$184,548 in taxable Revenue Pension Obligation Bonds with interest rates from 6.49% to 7.74% to fund the County's unfunded accrued actuarial liability (UAAL). The County estimates that by funding the actuarial liability, the County will receive a present value savings of about \$35,776 between the amount calculated by the Oregon Public Employees Retirement System (PERS) to retire the UAAL and the amount of the debt repayment. Payment of principal and interest, except for a term bond, will be guaranteed by MBIA. At June 30, 2005, \$178,568 of these bonds were outstanding.

On April 1, 2000, the County issued \$61,215 in Full Faith and Credit Bonds with interest rates from 5.00% to 5.50% to finance the costs of acquiring and installing the integrated enterprise computer system, acquire land, acquire facilities and construct other County facilities and structures. In October 2004, the County advance refunded \$27,985 of these full faith and credit bonds by issuing \$54,235 in full faith and credit bonds. Full faith and credit bonds are direct obligations and pledge the full faith and credit of the County. At June 30, 2005, \$16,715 of these bonds were outstanding.

On May 15, 2003, the County issued \$9,615 in Full Faith and Credit Refunding Obligations, Series 2003 with interest rates from 1.50% to 3.25%. At June 30, 2005, \$8,775 of these bonds were outstanding.

June 30, 2005

(dollar amounts expressed in thousands)

On October 1, 2004, the County issued \$54,235 in Full Faith and Credit Refunding Obligations, Series 2004 at a premium of \$5,089, with interest rates from 3.00% to 5.00%. This issue was used to refund \$27,985 of outstanding Full Faith and Credit Bonds, Series 2000 with interest rates from 5.00% to 5.50%, \$22,015 of outstanding Certificates of Participation, Series 1999 with interest rates from 4.00% to 4.75%, and \$4,960 of outstanding Certificates of Participation, Series 1998 with interest rates from 3.75% to 4.90%. The difference between the present value of the old debt service requirements and the present value of the new debt service requirements is a deferred charge of \$3,887, which is amortized as a component of interest expense over the life of the new debt. At June 30, 2005, the entire amount of this issue was outstanding.

Full faith and credit bond obligations outstanding at year-end are as follows:

Purpose	Interest Rates	Amount
Governmental activities	1.50-7.74%	\$ 266,063

Annual debt service requirements to maturity for full faith and credit bonds are as follows:

Year Ending June 30	Principal	Interest
2006	\$ 9,230	\$ 11,984
2007	10,420	11,490

Total	\$ 267,225	

Capital Leases

The County has entered into various lease/purchase agreements to acquire property and equipment. These lease agreements qualify as capital leases for accounting purposes and have been capitalized in accordance with accounting principles generally accepted in the United States of America. On June 30, 2005 the County entered into a new building lease which met the criteria for a capital lease. The

June 30, 2005

(dollar amounts expressed in thousands)

building was capitalized at \$6,890 and the related debt was recorded to capital leases. Assets acquired through capital leases are as follows:

	Governmental		
Asset	Ac	tivities	
Buildings	\$	73,251	
Less: Accumulated depreciation		(19,578)

Defeased General Obligation Bonds

In prior years, the County defeased certain general obligation bond issues by placing the proceeds of the new bonds in irrevocable trusts to provide for all future debt service on the old bonds. Accordingly, the trust account assets and related liability for the defeased bonds are not included in the County's financial statements. At June 30, 2005, the amount of these bonds outstanding totaled \$62,180.

June 30, 2005 (dollar amounts expressed in thousands)

Defeased Full Faith and Credit Bonds

In the current year, the County defeased certain full faith and credit bonds by placing the proceeds of the new bonds in irrevocable trusts to provide for all future service on the old bonds. Accordingly, the trust account assets and related liability for the defeased bonds are not included in the County's financial statements. At June 30, 2005, the amount of these bonds outstanding totaled \$27,985.

Defeased Certificates of Participation

In the current year, the County defeased certain Certificates of Participation by placing the proceeds of the new Full Faith and Credit bonds in irrevocable trusts to provide for all future service on the old debt. Accordingly, the trust account assets and related liability for the defeased debt are not included in the County's financial statements. At June 30, 2005, the amount of these bonds outstanding totaled \$26,975.

Conduit Financing

On November 1, 1997, the County issued \$31,600 in Educational Facilities Revenue Bonds which have not been recorded in the County's financial statements. The proceeds of these bonds were assigned to the University of Portland (the University) to finance capital improvements to the University, pay issue costs and advance refund \$17,750 of the Series 1994 issue. On April 1, 2000, the County issued an additional \$17,160 in Conduit Educational Revenue Bonds for the University to finance the construction of a student housing facility, parking garage and street lighting. These bonds are not recorded on the books of the County but are assigned to the University. The responsibilities of the County in this bond transaction were limited to adopting the resolution authorizing the issuance of the bonds, executing the bonds and the bond documents to which it is a party, issuing and delivering the Bonds, assigning certain of its rights to the Trustee as provided in the indenture, and directing the Trustee as to the application of monies received from the University to pay the bonds in accordance with the indenture. The County has no obligation to take any other action relating to the bonds. Since the County does not own any of the assets constructed or assume any liabilities associated with repayment, there is no balance sheet disclosure or recognition of revenues and expenditures within the County's financial statements. As of June 30, 2005, \$38,300 of Educational Facilities Revenue Bonds were outstanding.

On December 3, 1998, the County created a component unit, the Hospital Facilities Authority of Multnomah County, Oregon (the Authority). On March 1, 1999, the Authority issued \$26,000 in Hospital Revenue Bonds (Terwilliger Plaza) On December 4, 2003, the Authority issued an additional \$17,200 in Hospital Revenue Bonds (Holladay Park Plaza). On July 13, 2004, the Authority issued an additional

June 30, 2005

(dollar amounts expressed in thousands)

\$100,000 in Hospital Revenue Bonds (Providence Health Systems). These bond issues have not been recorded as a liability for purposes of compliance with generally accepted accounting principles. The proceeds of these bonds were used by health care facilities to finance various capital projects and refund outstanding bonds. The Hospital Revenue Bonds have not been recognized as a liability of the County because the bonds are secured solely by the provisions of the Bond indenture and payments are made by the health care facilities. Terwilliger Plaza, Holladay Park Plaza, and Providence Health Systems have pledged the gross revenues of the health care facilities to secure payment of the bonds. The bonds shall not be payable from a charge upon any fund or asset, nor shall the County be subject to any liability. No holder or holders of the bonds shall ever have the right to exercise the taxing power of the County to pay the bonds or the interest, nor to enforce payment against any property of the County. Upon completion of the project, the assets constructed or purchased are owned by Terwilliger Plaza, Holladay Park Plaza, and Providence Health Systems. Since the County does not own any of the assets or assume any of the liabilities associated with the repayment, there is no balance sheet disclosure or recognition of revenues within the County's financial statements. As of June 30, 2005, \$141,350 of these bonds were outstanding.

On December 1, 1999, the County issued \$9,830 in Higher Education Variable Rate Demand Revenue Bonds. The proceeds of these bonds were used to provide funds to reimburse Concordia University for the costs of acquiring, constructing and improving the educational facilities of University (the Project), fund a debt service reserve fund and pay the costs of issuing the bonds. The Higher Education Revenue Bonds have not been recognized as a liability of the County because the bonds are secured solely by the provisions of the Bond indenture and payments are made by Concordia University. As the County does not own any of the assets constructed or assume any liabilities associated with the Project, there is no balance sheet disclosure or recognition of revenues and expenditures within the County's financial statements. As of June 30, 2005, \$8,880 of the Higher Education Variable Rate Demand Revenue Bonds were outstanding.

Note 4. Other information

A. Hospital Facilities Authority of Multnomah County

The primary purpose of the Authority is to issue conduit debt for various health care facilities. The Authority is a related organization for which the County is not financially accountable because the County does not control or have a financial benefit or burden relationship with the Authority even though the County's board is the same governing board as the Authority. At June 30, 2005 the net assets of the Authority were \$1,053.

June 30, 2005

(dollar amounts expressed in thousands)

B. Risk management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the County carries commercial insurance. The County established risk management programs for liability and workers' compensation, whereby premiums are calculated on payroll expenses in all funds and are paid into the risk management fund. The funds are available to pay claims, claim reserves, and reduce administrative costs of the program. These interfund premiums are used to offset the amount of claims expenditure reported in the risk management fund. As of June 30, 2005, interfund premiums exceeded reimbursable expenditures.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are re-evaluated periodically to consider the effect of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. An excess coverage insurance policy covers claims in excess of \$750 for workers' compensation and \$1,000 for all other claims. Settlements have not exceeded coverages for each of the past three fiscal years.

Changes in the balances of claims liabilities during the past two years are as follows:

	Fiscal Year	Fiscal Year
	Ended 6/30/05	Ended 6/30/04
Unpaid claims, beginning of fiscal year	\$ 10,590	\$ 10,006
Incurred claims (including IBNRs)	15,522	16,885
Claim payments	(15,872)	(16,301)
Unpaid claims, end of fiscal year	\$ 10,240	\$ 10,590

June 30, 2005

(dollar amounts expressed in thousands)

C. Subsequent events

On July 1, 2005, the County issued \$20,000 in Tax and Revenue Anticipation Notes to meet current cash flow needs of the County, prior to the receipt of property tax revenues in November. The County received \$300 of these notes in June as a good faith deposit. This amount has been included in short-term debt, see note 3.F on page 60 for further detail. The interest rate on the notes is 4.0% and the yield is 2.6%. The notes mature on June 30, 2006.

D. Commitments and contingent liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County's legal counsel the resolution of these matters will not have a material adverse effect on the financial condition of the County.

The following is a schedule by years of future minimum rental payments required under operating leases for certain land, buildings and equipment used in governmental operations that have initial or remaining noncancelable lease terms in excess of one year as of June 30, 2005:

Year ended June 30	
2006	\$ 2,960
2007	2,176
2008	1,592
2009	1,727
2010	1,287
2011 - 2015	5,328
2016 - 2020	2,013
2021 - 2025	1,450
2026 - 2030	1,564
2031 - 2035	917
Total minimum payments	\$ 21,014

The County recorded \$3,908 in rent expense for the year ended June 30, 2005.

June 30, 2005 (dollar amounts expressed in thousands)

E. Other post employment benefits

The County provides postretirement health care benefits, as per the requirements of collective bargaining agreements, for certain retirees and their dependents. The benefits vary by agreement, and depend upon a retiree's years of service. In general, the County pays 50% of the premiums of health care coverage for retirees from age 58 to age 65. The County's regular health care benefit providers underwrite the retirees' policies. Retirees may not convert the benefit into an inlieu payment to secure coverage under independent plans.

At June 30, 2005, there were 534 retirees that were receiving the post employment health care benefit. The County finances the plan by creating a reserve account that meets the actuarially determined amount of benefits that will be payable in the future. For the year ended June 30, 2005, the County paid \$2,352 for these benefits, which was net of \$2,713 of retiree contributions. The County has recorded a liability on the Statement of Net Assets for these post employment benefits in the amount of \$55,190.

F. Employee retirement systems, pension plans and deferred compensation plan

Pension plans

The County participates in the Oregon Public Employees Retirement System, a cost-sharing multiple-employer defined benefit public employee pension plan that covers substantially all employees; maintains a single employer defined benefit plan for employees transferred to the County from the former Library Association of Portland; and maintains a defined contribution plan for substantially all County employees for the purpose of individual retirement savings.

Oregon Public Employees Retirement System (PERS)

Plan description. The County participates in PERS, a cost-sharing, multiple-employer defined benefit pension plan administered by the PERS Pension board. PERS provides retirement, disability, and death benefits to plan members and their beneficiaries. State statutes authorize the State to establish and amend all plan provisions. PERS issues a publicly available financial report that includes financial statements and required supplementary information. The reports may be obtained by writing:

PERS PO Box 23700 Tigard, OR 97281-3700

June 30, 2005 (dollar amounts expressed in thousands)

Summary of significant accounting policies – basis of accounting and valuation of investments. The financial statements of PERS are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The County's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. All plan investments are reported at fair market value.

Funding policy. The contribution requirements of the County are established and may be amended by the State. The County is contractually obligated by collective bargaining agreements to contribute the required 6.0% of annual covered payroll. The County is also required to contribute at an actuarially determined rate; the current rate is 6.78% of annual covered payroll. In addition to the funding requirements, the County also charges an internal rate of 5.25% of payroll to departments to fund the repayment of the pension obligation bonds issued in 1999.

Annual pension cost. For 2005, the County's annual pension cost of \$22,969 for PERS was equal to the County's required and actual contributions. The required contribution was determined as part of the December 31, 2003 actuarial valuation using the entry age normal actuarial cost method. This actuarial valuation is the most recent available at the time of printing this report. The actuarial assumptions included (a) 8.0% investment rate of return (net of administrative expenses), (b) projected salary increases due to inflation of 3.5% per year, and (c) projected wage growth, excluding seniority / merit raises, of 4.25% per year. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The County's unfunded actuarial accrued liability is being amortized using the closed group fixed term method. The remaining amortization period at December 31, 2003, was 24 years.

The actuarial information included in the above table was prepared using the recently enacted amendments to PERS. The amendments made changes to the actuarial equivalency factors affecting retirement benefit amounts and calculation methods.

Multnomah County Library Retirement Plan

Plan description, summary of significant accounting policies, and funding requirements. The Multnomah County Library Retirement Plan is a single employer defined contribution plan. Prior to July 1, 1990, the Plan was administered by the Library Association of Portland (the Association), a not-for-profit association. Effective July 1, 1990, the Association was transferred to the County, and the County Board of Commissioners became responsible for amending Plan provisions. The Principal Financial Group is contracted by the County to be the trustee of the Plan, and the County's Chief Financial Officer is the Plan administrator. The Plan is now closed and all employees transferred are covered by PERS. The Plan does not issue a stand alone financial report. All related financial data is contained in this report, and is prepared using the accrual basis of accounting.

All former Association employees who were 21 years of age and had completed two years of service were eligible to participate in the Plan. Retirement benefits are based on salary and length of service, are calculated using a formula, and are payable in a lump sum or monthly using several payment options. The Plan also provides death benefits.

(dollar amounts expressed in thousands)

At June 30, 2005, there were 266 plan members. Current employees have an annual covered payroll of \$5,175. The total payroll and covered payroll are the same because the Plan is frozen. There are 121 participants currently receiving benefits. The assets of the Plan consist of unallocated insurance contracts and therefore are appropriately valued at contract value. Employer contributions to the Plan, participant benefits, and participant refunds are recognized using the accrual basis of accounting. The costs of administering the Plan are deducted from the earnings. The annual required contribution, or annual pension cost, of the County was \$0, due to the Plan being fully funded. The required contribution was determined as part of the December 31, 2003 actuarial valuation using the unit credit pro rate actuarial cost method. This actuarial valuation is the most recent available at the time of printing this report. The actuarial assumptions included (a) 6.0% investment rate of return (net of administrative expenses), (b) projected salary increases due to inflation of 3.0% per year, (c) projected wage growth of 3.0% per year and (d) adjustments to the retirement benefits related to the consumer price index of up to 2.0% per year. The remaining amortization period at December 31, 2003, was 18 years.

Following is a Schedule of Funding Progress for the Plan:

Multnomah County Library Retirement Plan Schedule of Funding Progress

Deferred Compensation Plan

Plan description. The County offers employees a deferred compensation plan (the Plan) administered by the County. The Plan is a defined contribution plan created in accordance with Internal Revenue Code Section 457. The Plan is available to all represented and non-represented County employees, and permits them to defer a portion of their salary until future years. Amounts deferred are not available to employees until termination, retirement, death, or unforeseeable emergency. All

June 30, 2005 (dollar amounts expressed in thousands)

assets and income of the Plan are held in trust for the exclusive benefit of the participants and their beneficiaries. No Plan assets have been used for purposes other than the payment of benefits.

At June 30, 2005, the amount deferred and investment earnings thereon, adjusted to fair market value, amount to \$120,990. The amounts accumulated under the Plan including investment earnings, are excluded from the financial statements of the County.

NONMAJOR SPECIAL REVENUE FUNDS

These funds account for revenue derived from specific taxes or other earmarked revenue sources, including state gas tax, grants, and charges for services which are legally restricted to finance particular functions or activities. When a special revenue fund is not an operating fund, transfers are made from the special revenue fund to the operating funds authorized to make the expenditures. The modified accrual basis of accounting is used to record revenues and expenditures. Funds included are:

- Strategic Investment Program Fund accounts primarily for monies received from corporations receiving property tax abatements and paying fees for specific purposes as a part of the reduced tax agreement to be used for community service.
- **Road Fund** accounts for revenues primarily from State motor vehicle fees and County gasoline taxes. Expenditures consist of construction, repair, maintenance, and operation of County highways and roads.
- **Emergency Communications Fund** accounts for monies received from the State which are designated for an emergency communication network in conjunction with the City of Portland.
- **Bicycle Path Construction Fund** accounts for revenue and expenditures for bicycle paths. Revenue is one percent of State motor vehicle fees.
- **County School Fund** accounts for forest reserve yield revenues from the State of Oregon which are apportioned to the County school districts.
- General Reserve Fund accounts for a reserve maintained separate from the General Fund at approximately 5% of the total budgeted revenues of the General Fund, to be used only for extreme emergencies related to disaster relief or public life and safety issues.
- Land Corner Preservation Fund accounts for the collection of fees on all recordings of real property transactions and surveying activity. The fund makes expenditures to maintain public land corners.
- Tax Title Land Sales Fund accounts for the receipt and sale of real property foreclosed upon by the County because of unpaid property taxes. Proceeds are subsequently distributed to all taxing districts.
- Animal Control Fund accounts for revenues from dog and cat licenses, control fees and transfers to the General Fund which are utilized for animal control activities.
- **Recreation Fund** accounts for State revenues and the pass through disbursements to Metro for the operation of parks.
- **Library Fund** accounts for the public library operations.
- **Justice Services Special Operations Fund** accounts for revenues and expenditures dedicated to justice services in the community justice department, district attorney's office, and sheriff's office.
- **Inmate Welfare Fund** accounts for the proceeds from the sale of commissary items. Expenditures are made for supplies for inmates in County jails.
- **Special Excise Tax Fund** accounts for a transient lodging tax and motor vehicle tax collection to be used for convention center expenditures.

NONMAJOR DEBT SERVICE FUNDS

These funds account for the retirement of general obligation bonds, certificates of participation (capitalized leases) and other lease-purchase arrangements. The modified accrual basis of accounting is used. Funds included are:

- Capital Debt Retirement Fund accounts for lease-purchase and full faith and credit principal and interest payments for buildings and major pieces of equipment acquired by the issuance of certificates of participation, lease-purchase arrangements and full faith and credit bonds. Revenues consist of certificates of participation proceeds, bond proceeds, service reimbursements and cash transfers from other County funds.
- **General Obligation Bond Fund** accounts for payment of principal and interest on general obligation bonds. Revenue is derived from property taxes and interest.
- **PERS Pension Bond Fund** accounts for payment of principal and interest payments on pension obligation bonds that were issued to fund the County's PERS unfunded liability. Revenues consist of charges to departments and interest.
- **Revenue Bond Fund** accounts for payment of principal and interest on bonds to be issued to construct various facilities. The revenues are derived from the lease payments on the facilities and interest.

NONMAJOR CAPITAL PROJECTS FUNDS

These funds account for expenditures on major construction projects, proceeds from certificates of participation issued to finance capital acquisitions, proceeds from the sale of County property, revenue bond proceeds and library and public safety general obligation bond proceeds. The modified accrual basis of accounting is used to record revenues and expenditures. Funds included are:

- Justice Bond Project Fund accounts for projects to expand Inverness Jail, construct new jail
 facilities, upgrade other jail facilities and pay for data processing linkages in the Corrections
 system.
- **SB 1145 Fund** accounts for State revenue to build jail beds to house convicted felons with sentences less than twelve months.
- **Building Project Fund** accounts for purchases and construction of capital acquisition by entering into lease/purchase agreements.
- **Library Construction / 1996 Bonds Fund** accounts for the renovation of branch libraries and upgrades to Library computer systems and linkages.
- Capital Improvement Fund accounts for the proceeds from the sale of County property and expenditures made to improve County property.
- Capital Acquisition Fund accounts for purchase of personal computers and capital purchases with economic payoffs of less than five years.
- Asset Preservation Fund accounts for the expenditures for building scheduled maintenance
 projects such as boiler replacement, carpet replacement, roof replacement, etc. Resources are
 derived from an asset preservation fee that is part of the facilities charges assessed to building
 tenants

INTERNAL SERVICE FUNDS

These funds account for activities and services performed primarily for other organizational units within the County. Charges to the County agencies are calculated to recover costs and maintain capital. The County accounts for certain expenditures of the Internal Service Funds for budgetary purposes on the modified accrual basis of accounting. For financial reporting purposes the accrual basis of accounting is used. Such differences relate primarily to the methods of accounting for depreciation and capital outlay. Funds included are:

- **Risk Management Fund** accounts for the County's risk management activities including insurance coverage.
- Fleet Management Fund accounts for the County's motor vehicle fleet operations and electronics.
- **Telephone Fund** accounts for the County's telephone operations.
- **Information Technology Fund -** accounts for the County's data processing operations.
- Mail / Distribution Fund accounts for the County's mail / distribution operations.
- Facilities Management Fund accounts for the management of all County owned and leased property.
- **Business Services Fund** accounts for the internal service reimbursements, revenues and expenses associated with the administration and operation of the County's human resource operations, financial operations and enterprise support system.

AGENCY FUNDS

These funds account for resources received and held by the County in a purely custodial capacity. Disbursements from these funds are made in accordance with the trust agreement or applicable legislative enactment for each particular fund. The modified accrual basis of accounting is used to record transactions in the agency funds. The funds included are:

- Sundry Taxing Bodies Fund accounts for the collection of property taxes for all governmental entities located in Multnomah County and the disbursement of the collections to such entities.
- **Department and Offices Agency Fund** accounts for the collection and disbursement of various monies held by Multnomah County in a fiduciary capacity.
- **Public Guardian Fund** accounts for receipts and disbursements for individuals who are not capable of handling their own financial affairs.
- Visitors' Facilities Trust Fund accounts for collection and disbursement of Motor Vehicle Rental Tax and Transient Lodging Tax used for visitor facilities.

MULTNOMAH COUNTY, OREGON NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended June 30, 2005

Note A – General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal awards programs of Multnomah County, Oregon (the County) for the year ended June 30, 2005. The County's reporting entity is defined in Note 1 to the County's June 30, 2005 basic financial statements.

Note B – Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using a basis of accounting which is consistent with the basic financial statements, as described in Note 1 to the County's basic financial statements.

Note C – Relationship to General Purpose Financial Statements

As described in Note 2 to the County's basic financial statements, federal financial assistance revenues reported in the County's basic financial statements are included with intergovernmental revenues.

Note D – Noncash Awards

The accompanying Schedule of Expenditures of Federal Awards includes a noncash award from the Department of Health and Human Resources in the form of vaccines (CFDA #93.268 – Childhood Immunization Grants). The value of the Childhood Immunization Grant award was determined by the granting agency. The amount expended and advanced at June 30, 2005 is calculated on a proportionate basis.

MULTNOMAH COUNTY, OREGON NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended June 30, 2005

STATISTICAL INFORMATION SECTION (UNAUDITED)

This part of Multnomah County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health. This section contains the following tables and information:

- **Financial Trends** These schedules contain trend information to help the reader understand how the county's financial performance and well-being have changed over time.
- **Revenue Capacity** These schedules contain information to help the reader assess the County's most significant local revenue sources: personal income tax, property tax, and business income tax.
- **Debt Capacity** These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the County's ability to issue additional debt in the future.
- **Economic and Demographic Information** These schedules offer economic and demographic indicators to help the reader understand the environment within which the County's financial activities take place.
- **Operating Information** These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report for the relevant year. Note that the County implemented Governmental Accounting Standards Board Statement No. 34 in 2002; therefore schedules presenting government-wide information include only information beginning in that fiscal year and going forward.

⁽¹⁾ Prior to the passage of Measure # 50 in 1997, assessed value equaled real market value.

Source: Multnomah County Division of Assessment and Taxation

⁽²⁾ Under Measure #50, assessed value is used for computation of taxes.

⁽³⁾ Prior to 2000 amounts did not include urban renewal excess in taxable real market value.

Report of Independent Certified Public Accountants on the County's

Compliance and Certain Items Based on an Audit of Basic

Financial Statements Performed in Accordance

with Federal and Oregon Auditing Standards

The Board of County Commissioners Multnomah County, Oregon

We have audited the basic financial statements of Multnomah County, Oregon, as of and for the year ended June 30, 2005, and have issued our report thereon dated November 4, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America as established by the Auditing Standards Board of the American Institute of Certified Public Accountants, the provisions of the Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State, and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement.

Compliance with laws, regulations, contracts and grants applicable to Multnomah County, Oregon is the responsibility of the County's management. As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of the County's compliance with certain provisions of laws, regulations, contracts and grants. However, our objective was not to provide an opinion on overall compliance with such provisions. Accordingly, we do not express such an opinion. Certain areas covered, as required by Oregon Administrative Rules 162-10-230 through 162-10-320 included, but were not limited to the following:

Accounting and Internal Control Structure - Our report on the accounting and internal control structure is presented separately under this cover.

Programs Funded from Outside Sources – Our report related to such programs is presented separately under this cover.

Financial Reporting Requirements - Whether financial reports and related data filed with other governmental agencies in conjunction with programs funded wholly or partially by such agencies were in agreement with or supported by the accounting records.

T 503:222.3562
F 503:295.0148
W www.grantthernton.com.

Compliance with Legal or Other Requirements

Accounting Records – Pertaining to the condition and adequacy of accounting records.

Collateral - Pertaining to the amount and adequacy of collateral pledged by depositories to secure the deposit of public funds (see requirements for public fund deposits as specified in Oregon Revised Statues (ORS) 295).

Indebtedness - Relating to debt and the limitation on the debt amount, liquidation of debt within the prescribed period of time, and compliance with provisions of indentures or agreements, including restrictions on the use of monies available to retire indebtedness.

Insurance - Relating to insurance and fidelity bond coverage.

Investments - Pertaining to the investment of public funds (see ORS Chapter 294.035 to 294.046).

Budget - Relating to the preparation, adoption and execution of the annual budget for the current fiscal year and the preparation and adoption of the budget for the next succeeding fiscal year (see ORS 294.305 to 294.565).

Public Contracts and Purchasing - Pertaining to (as contained in ORS Chapter 279) the awarding of public contracts and the construction of public improvements.

Taxes on Motor Vehicle Use and Fuel and use of a Road Fund - Pertaining to (as contained in Article IX, section 3a of the Oregon Constitution) the use of revenue from taxes on motor vehicle use and fuel and use of a road fund (as contained in ORS 294 and 373).

Sent Thomaton up

The results of our tests indicate that, with respect to the items tested, Multnomah County complied, in all material respects, with the provisions referred to above. With respect to items not tested, nothing came to our attention that caused us to believe that Multnomah County had not complied, in all material respects, with those provisions.

This report is intended solely for the information and use of management, the Board of County Commissioners and the Secretary of State, Division of Audits, of the State of Oregon and is not intended to be and should not be used by anyone other than these specified parties.

Portland, Oregon November 4, 2005

Report of Independent Certified Public Accountants on Compliance and on Internal Control Over Financial Reporting Based on an Audit of Basic Financial Statements Performed in Accordance with Government Auditing Standards

The Board of County Commissioners Multnomah County, Oregon

We have audited the basic financial statements of Multnomah County, Oregon as of and for the year ended June 30, 2005, and have issued our report thereon dated November 4, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America as established by the Auditing Standards Board of the American Institute of Certified Public Accountants and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Multnomah County, Oregon's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Multnomah County, Oregon's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving internal control over financial reporting, which we have reported to management of Multnomah County in a separate letter dated November 4, 2005.

Portland, Oregon November 4, 2005

Report of Independent Certified Public Accountants on the County's Compliance with Requirements Applicable to Each Major Program and Internal Control Over Compliance in Accordance with OMB Circular A-133

The Board of County Commissioners Multnomah County, Oregon

Compliance

We have audited the compliance of the Multnomah County, Oregon with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement*, that are applicable to each of its major federal programs for the year ended June 30, 2005. Multnomah County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Multnomah County, Oregon's management. Our responsibility is to express an opinion on Multnomah County, Oregon's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America as established by the Auditing Standards Board of the American Institute of Certified Public Accountants; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Multnomah County, Oregon's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Multnomah County, Oregon's compliance with those requirements.

In our opinion, Multnomah County, Oregon complied, in all material respects, with the requirements referred to above that are applicable to its major federal programs for the year ended June 30, 2005.

Internal Control Over Compliance

The management of Multnomah County, Oregon is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Multnomah County, Oregon's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management, the Board of County Commissioners, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
