Report of Independent Certified Public Accountants
on the County's Compliance and Internal Control Over
Financial Reporting Based on an Audit of Basic Financial Statements
Performed in Accordance with *Government Auditing Standards*

The Board of County Commissioners
Multnomah County, Oregon

We have audited the basic financial statements of Multnomah County, Oregon as of and for the year ended June 30, 2002, and have issued our report thereon dated December 6, 2002. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Multnomah County, Oregon's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Multnomah County, Oregon's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weakness.

Report of Independent Certified Public Accountants
on the County's Compliance with Requirements Applicable to Each Major
Program and Internal Control Over Compliance in Accordance with
OMB Circular A-133

The Board of County Commissioners
Multnomah County, Oregon

Compliance

We have audited the compliance of Multnomah County, Oregon with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement*, that are applicable to each of its major federal programs for the year ended June 30, 2002. Multnomah County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Multnomah County, Oregon's management. Our responsibility is to express an opinion on Multnomah County, Oregon's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Multnomah County, Oregon's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Multnomah County, Oregon's compliance with those requirements.

In our opinion, Multnomah County, Oregon complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2002.

Internal Control Over Compliance

The management of Multnomah County, Oregon is responsible for establishing and maintaining effective internal control over the compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Multnomah County, Oregon's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

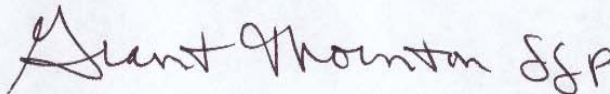

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of Multnomah County, Oregon as of and for the year ended June 30, 2002, and have issued our report thereon dated December 6, 2002. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the audit committee, management, the Board of County Commissioners, the Secretary of State, Division of Audits, of the State of Oregon and the federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

FINDING 01-1

Program:	CFDA #16.595 Executive Office for Weed and Seed CFDA #93.568 Low-Income Energy Assistance Program CFDA #14.235 Supportive Housing Program
Federal Agency:	Department of Justice Department of Health and Human Services Department of Housing and Urban Development
Award Year:	2000-2001
Requirement:	The office of Management and Budget issued a revised Circular A-87 on May 4, 1995. This Circular was effective for all awards or amendments, including continuation or renewal awards, made on or after September 1, 1995. The revised Circular increased the requirements related to time distributions, stating that unless a statistical time sampling system or other substitute system had been approved by the federal cognizant agency, time distributions for employees working on multiple grants must be supported by personnel activity reports. The reports must be prepared at least monthly and must coincide with one or more pay periods.
Finding:	The salary and wage distribution system was based on distribution percentages determined before the services were performed.
Questioned Cost:	None
Prevalence:	Systemic
Recommendation:	The County should base its time distributions on monthly surveys with each covering at least one pay period. All other aspects of the new Circular A-87 should be followed as appropriate.
County Response:	Billings are now based on actual grant-related activities. The Department of Health and Human Services Low Income Energy Assistance Program. Personnel charges are for personnel working solely in the weatherization program. The HUD Supportive Housing Program only bills personnel in the administrative cost charges. The actual county administrative costs for this program are approximately 9 percent. The award allows for a 5 percent administrative charge. The grant is always charged below actual cost.
