## INDIRECT COST RATES

## EXPLANATION OF THE

 INDIRECT COST RATESThe Federal government recognizes that County Organizations incur identifiable overhead costs in support of grants and contracts.

Costs are categorized in two ways. The first establishes support costs internal to individual departments within the County and the other identifies countywide support costs.

Central Service Cost Allocation: The Central Service Cost Allocation Plan identifies and distributes the cost of services provided by County support organizations (i.e., Budget, Auditor) to those County departments (Health, Sheriff, etc.) awarded grants or contracts as a flat county-wide central service rate.

Departmental Indirect Cost Rates: Each department has a rate based on departmental administrative costs incurred within the organization. Only costs not charged directly to grants are included in the departmental rates.

Combined Indirect Cost Rates: These are the indirect rates that each department may charge to grants.

NOTE: In fiscal year 2005 and 2006 the County implemented a Shared Service Organization (County Business Services (CBS)) where the costs for Human Resources, Labor Relations, Affirmative Action along with Finance functions for Accounts Payable, Payroll, SAP Support, and Purchasing and Contracts were included in a County Business Services internal service fund and not part of the Central Indirect Cost Allocation Plan. In fiscal year 2007 management reorganized and the shared service organization no longer exists. The costs from CBS are now accounted for in the general fund and included in the calculation for the County's Central Service Indirect Cost Rate.

## Description of Services

#### Abstract

AUDITOR

The Auditor conducts performance and fiscal audits in conformance with the US GAO Government Auditing Standards. The annual audit schedule is based upon a risk analysis of County services, with the majority of office resources focused on performance audits to increase efficiency, effectiveness, and accountability. Activities of the Auditor may include examination of expenditure reports for discrepancies or variances, reviews of internal controls, and testing transactions for compliance with state and federal regulations.

In keeping with the standards, the Auditor emphasizes a coordinated audit approach with the external auditors, and with state and federal agencies. County audits are complementary and never duplicate the audit efforts of the other organizations. The Auditor's efforts help insure that County financial and administrative policies are being followed throughout the organization, including federal programs and are, therefore, deemed allowable.

Normal costs of County government have been eliminated from the allocation.

## Description of Services

## BUDGET SERVICES

Budget Services is responsible for preparation of the County's budget and the monitoring of the budget once adopted. Included among the division's activities is the review of County programs to ensure compliance with local budget law in addition to independent evaluations of County programs, policies, and initiatives in various service areas.

Since all grant programs must comply with local budget law and Budget Services provides oversight necessary for the successful operation of federal programs, the Budget Services allocation is deemed allowable.

Normal costs of County government have been eliminated from the allocation.

## Description of Services

## FINANCE

In fiscal years 2005 and 2006 the County Business Services Fund (an internal service fund) directly charged County Departments for the costs of Accounts Payable, Payroll, SAP Support, and Purchasing and Contracts. In fiscal year 2007 the cost of these functions returned to the general fund and is again included in the Central Services Indirect rate.

The Finance Division is responsible for assuring that the County's financial activities are accurately reflected in the accounting records and that the County's cash is properly managed.

Activities of this organization include providing administrative support for federal grants, performing centralized payroll functions, paying vendors, and providing Countywide SAP support. Accounting and Treasury perform banking services and manage County cash; Purchasing and Contracts provides central purchasing and supply services to all County organizations, procuring all supplies, materials, equipment, labor, and contractual services for the performance of professional, technical, or expert services. In addition, Purchasing and Contracts oversees the solicitation and processing of bids for services and products of a specialized nature needed by the County.

Purchasing and Contracts directly benefits federal programs to the extent that it procures supplies and services for use in those programs; Accounting and Treasury services are deemed necessary for the successful conduct of federal programs and are, therefore, also allowable.

The portion of Finance considered normal cost of County government has been eliminated from this allocation.

## Description of Services

## HUMAN RESOURCES

In fiscal years 2005 and 2006, the County Business Services Fund (an internal service fund) directly charged County Departments for the costs of Human Resources. In fiscal year 2007 the cost of Human Resources returned to the general fund and is again included in the Central Services Indirect rate.

The Human Resources Division is responsible for classification of County positions, overall County personnel policy administration, and maintenance of personnel records. Affirmative Action assures that Multnomah County conforms to regulatory requirements for monitoring, reporting, planning and implementing programs and strategies that provide creative solutions to workforce and service program diversity. The Labor Relations Division is responsible for negotiating and administering labor contracts, representing the County in civil service hearings and advising managers on disciplinary action.

Human Resources utilizes various communication media to advertise for suitable candidates, in addition to directly contacting prospective candidates. Examinations are conducted, administered, and scored by Human Resources. Reliability and validation studies of tests are undertaken regularly.

Human Resources classifies all job positions in the County as to educational and experience requirements together with on-job performance duties and maintains personnel history records reflecting data pertaining to employees' work.

The Affirmative Action program helps assure compliance with various equal opportunity laws. The need for such services has increased due to new federal regulations, equal opportunity and ADA requirements contained in federal grant regulations and ongoing interpretation of regulatory requirements.

Labor Relations directly benefits grant programs through its work with employees and managers within those programs.

The variety of personnel services performed by Human Resources, Affirmative Action, and Labor Relations are judged allowable since the services benefit all organizations of the County. They benefit federal programs to the extent that County employees are used to carry out program activities.
