Executive Summary

The Facilities Client Services program manages more than 3,700,000 gross square feet of County facilities space. The team of seven property managers and three MACS (Moves/Adds/Changes) Project Managers serve as the customer service interface between County programs and the Facilities Division. This team of liaisons coordinate all aspects of building management, space moves and related activities to ensure collaboration, communication and coordination for optimal programmatic service delivery.

Program Summary

Property Managers ensure that all County building users have a single, visible, and accessible point of contact for facilities services. Each have direct oversight of their respective building portfolios, and are responsible for coordinating both routine building activities (such as janitor service, security, and window washing) and repair and/or maintenance projects with the programs operating in County buildings. Property Managers are instrumental in coordinating sustainability activities such as recycling, managing energy and utility usage, and using sustainable cleaning products in buildings, thus supporting the County's Climate Action Plan. Finally, Property Managers respond to emergencies and coordinate after-hours access to buildings by contractors, community groups, or others.

The MACs (Moves-Adds-Changes) Project Managers plan and execute a significant number of personnel shifts in the County for each Department or Division. Each manager facilitates moves or changes and works with the stakeholder to identify departmental needs for both short and long term programmatic needs provide a safe, comfortable and productive work group.
