Executive Summary

The Asset Preservation (AP) Program is designed to create a self-sustaining fund which provides for the continuing reinvestment and capital work required to keep the County's Tier I buildings safe, reliable, functional and efficient.

Program Summary

The program creates accessible, functional, and energy efficient facilities that provide County services with space that meets their program needs. The program focuses on the County's 21 primary owned Tier I buildings and provides the funding to complete capital projects within these buildings. A Tier I building is one which is designated for long-term retention and which meets current County standards. AP funding is intended to support replacement or repairs to essential building elements such as roofs, plumbing, electrical, heating ventilation air-conditioning (HVAC), Americans with Disabilities Act (ADA) modifications, seismic upgrades, and interior finishes that keep buildings functioning and optimizing their potential. The program prolongs building life and provides the County with assets that are worth their market value. It creates more usable buildings through planned upgrades in equipment and systems intended to meet changing program needs.

The AP program continues to look at the long term County benefits by examining program needs, building needs, flexibility, cost efficiency's, building operations and maintenance. The AP Program is managed via annual 5-year Capital Plans that focus on short-term requirements that are integrated with the long-term Facilities Asset Strategic Plan (FASP). The Capital Plan is based on a comprehensive database which identifies all projected replacement needs in Tier I buildings over three decades and then prioritizes and schedules needed work in the future. This allows Asset Preservation funds, bond/levy proceeds, grants, etc. to be invested based on priority, and optimizes return on investment.
