

Program #91007B - Veterinary Services Continuation

Program Contact: Mike Oswald

Department: Community Services

Program Offer Type: Innovative/New Program Program Offer Stage: As Adopted

91007A, 91007C **Related Programs:**

Program Characteristics:

Executive Summary

This Program Offer is seeking on-going funding for expanded veterinary service levels to sustain the evidence-based success the division has achieved in saving animal lives. This Program Offer funds one veterinarian and one certified veterinary tech to provide high quality, sustainable health care for the 7,000 animals under the care of the division's animal shelter. In addition, this seven-day-a-week service level helps the division sustain spay-neuter veterinary services for low income eligible pet owners in the community.

Program Summary

The Animal Services division's veterinary team provides essential health care, 365 days a year, for the 7,000 animals cared for at the shelter each year; performs spay/neuter surgeries for shelter animals; and, serves low income pet owners with subsidized spay/neuter surgeries and additional medical procedures for their animals. The division's shelter hospital is accredited by the American Animal Hospital Association for meeting the industry's highest veterinary standards of excellence. The veterinary program is staffed with one full-time veterinarian and three full-time certified veterinary technicians. Each year the division's veterinary medical team performs approximately 2,300 spay/neuter surgeries at the shelter. Nearly 30% of the surgeries are for pets owned by low income pet owners. In FY15, a one-time-only Program Offer added one veterinarian and one certified vet tech to the veterinary team which enabled the division to provide essential health care and spay/neuter surgeries seven days-a-week. This FY16 Innovation Program Offer is seeking on-going fundina.

The division has utilized a three-step process for developing and implementing new, innovative life-saving programs. The first step is to fund a pilot program with private donation funds. Pilot programs yielding evidence-based success move to the second step, which is to seek one-time-only General Fund. Pilot programs that demonstrate sustained, evidence-based success, move to the third step, to seek on-going General Fund. This Program Offer for expanded veterinary services is the third step of this innovation strategy seeking on-going funding.

This Program Offer advances the Department of Community Services Strategic Plan's goal of service excellence by delivering the most effective services possible to our customers in a timely, efficient and thoughtful manner. This will increase levels of customer satisfaction and improve customer access to service. Objectives:

- 1. Provide sustainable, high standards of health care for all shelter animals seven-day-a-week.
- 2. Reduce waiting times for spay/neuter surgeries
- Sustain the number of days medical services are available to low income pet owners
- 4. Reduce overtime for Certified Vet Techs

Performa	Performance Measures								
Measure Type	Primary Measure	FY14 Actual	FY15 Purchased	FY15 Estimate	FY16 Offer				
Output	Additional Spay-Neuter Surgeries for Low Income Pet Owners	NA	NA	NA	250				
Outcome	Percent reduction in Length of Stay for Adopted Dogs and Cats	NA	NA	NA	25%
