Program Characteristics:

Executive Summary

The North Portland Health Center provides comprehensive, culturally appropriate primary care, enabling and behavioral health services to vulnerable residents who are uninsured or under-insured and otherwise may not have access to medical care. The clinic provides care to approximately 6,000 patients that identify North Portland Health Center as their medical home.

Program Summary

North Portland Health Center primary care services are designed to be a patient centered medical home. This includes reducing barriers to access, integration of behavioral health services, providing continuity and coordination of services and collaboration with community partners. Culturally competent primary care services are provided and include: treatment of acute and chronic illnesses, behavioral health, family planning, prenatal and preventive services (well child, immunizations). Ancillary support services are operationally integrated and include pharmacy and lab. Enabling services include Medicaid eligibility screening, medical interpretation, transportation, case management and health education. North Portland Health Center serves a population of which 70% are below 100% of the Federal Poverty level. North Portland Health Center plays a significant role in providing safety net medical services to residents in the community.

Performance Measures									
Measure Type	Primary Measure	FY15 Actual	FY16 Purchased	FY16 Estimate	FY17 Offer				
Output	Number of patients with a North Portland Health Center assigned PCP	n/a	6,000	5,753	18,793				
Outcome	% of children who are up to date on immunizations at 24 months of age	81%	85%	81%	85%				

Performance Measures Descriptions

Output: Number of patients with a NPHC assigned PCP. Output measure was changed to patients assigned to a PCP instead of visits based on our payment restructuring with APM (alternative payment methods. Outcome: % of children who are immunized at 24 months: Immunizations are vitally important in preventing infectious diseases, many of which can occur in the first year of life. Efficiency measure was removed from monitoring as this is part of the clinic standard work.
