Multnomah County				
Program #40067 - Medi	cal Records for MHASD			6/30/2016
Department:	Health Department	Program Contact:	Joan Rice	
Program Offer Type:	Support	Program Offer Stage:	As Adopted	
Related Programs:	40065, 40068			
Program Characteristic	S:			

Executive Summary

The Medical Records Program is responsible for the internal management of all of the Mental Health and Addiction Services Division's (MHASD) clinical records and Multnomah Mental Health records required by Oregon Administrative Rules. In support of MHASD programs, Medical Records indexed more than 40,000 documents into the electronic health record (EHR) in the last fiscal year.

Program Summary

MHASD Medical Records Unit ensures that mental health, alcohol and drug, and Multnomah Mental Health managed care records are maintained in compliance with federal and state laws and regulations, and county and departmental rules, policies, and procedures.

Program staff provide multiple record services including: document indexing; quality assurance; billing and administrative rule compliance auditing; data entry for reporting; archiving and retrieval; forms design and management; authorization/release of information; legal requests for records; notary services; and health information management expertise to county staff.

As the Local Mental Health Authority, MHASD is responsible for programs such as involuntary commitment, commitment monitor, trial visit and residential services which require maintenance of individual records. The MHASD programs where services are provided by county staff are expected to serve more than 1,000 individuals, each requiring a medical record.

Performance Measures					
Measure Type	Primary Measure	FY15 Actual	FY16 Purchased	FY16 Estimate	FY17 Offer
Output	Count of record items processed annually plus scanned document count. ¹	113,829	397,300	122,516	121,455
Outcome	Percent of representative sample audited for compliance with Medicaid billing rules. ²	100%	100%	100%	100%

¹ Tasks are now more accurately reported due to the EHR. Variations between the output of FY16 Purchased and FY16 Estimate are due to a change in the methodology used to determine the volume of scanning. The prior year used a calculated estimate of total scanned images. The current year uses a count of scanned document types pulled directly from an EHR report.

² These audits are analyzed by health information technicians.

Legal / Contractual Obligation

The following guidelines are utilized in monitoring MHASD compliance to federal, state and county rules and audits regarding client confidentiality and release of clinical records, record retention, responding to subpoenas and court orders for confidential client records and standards for clinical documentation: HIPAA, DSM V "Diagnostics & Statistical Manual of Mental Disorders", Children's & Adult's State of Oregon Administrative Rules, Oregon Revised Statutes related to medical records & client confidentiality, State Archiving rules, CFR 42 Public Health, Chapter 1 Part 2, Public Law 94-142, Public Law 99-57, State of Oregon Mandatory Child Abuse Reporting Laws, Oregon Health Plan, Mental Health Organization Contract, Multnomah Mental Health HSO Policies & Procedures, Practice Guidelines of the American Health Information Management Association, and Centers for Medicare and Medicaid billing regulations.
