

## **Activity Ideas from August Retreat**

### **Youth Experience of Safety, Belonging, Bullying and Adult Support**

#### **Activity 1**

**Share youth experience information with respective constituents, leaders and staff**

- Develop messaging – including sense of urgency; balance of data & storytelling; student voice)
- Members and others deliver messages, advocate within own organizations
- Be active part of communication plan for SF2020 report

#### **Activity 2**

**Develop and disseminate capacity and skill building supports for adults**

(Teachers, School Staff, SUN providers and other youth devt staff)

- Ask youth what they want, what supports them, and what isn't helpful
- Research existing resources, tools and trainings
- Growth mindset training – common language across schools and SUN providers
- Track SF2020 process – learn what supports the work
- Offer trainings for school and SUN staff on intervening in bullying; and fostering conditions that make youth feel that they belong
- Specific tools/support/coaching for skills around interrupting racism
- Set foundation for change using data which supports culture

#### **Activity 3**

**Provide safe places and support for youth**

- Trauma informed services
- Specific structures and relationship building to provide safety
- Prioritize making SUN safe space to address urgent needs

#### **Activity 4**

**Offer wraparound services based on survey results**

#### **Activity 5**

**Other SUN CS high schools use Reynolds surveys/replicate effort**

- Important to form relationships and agreements and take political and reputational implications into account

### **Activity 6**

#### **Increase understanding of youth experience**

- Listening sessions – true direct conversation with youth in panels regarding race
- Survey identified populations: social and emotional needs to prioritize services

### **Activity 7**

#### **Youth-led actions at sites**

- Youth led site based justice research
- Youth led surfacing of building level specific action areas

### **Activity 8**

#### **Align measurement and use of survey data**

- Integrate data from various school climate/health surveys
- One collaborative survey (school climate survey?) which would allow schools/SUN to work together for data collection.
