Executive Summary

Health Inspections and Education is a fee-supported program that helps protect the public from disease and injury by investigating food and waterborne disease; educating about food safety practices; and performing inspections of licensed facilities. Participation in the Food and Drug Administration's Program Standards aligns Multnomah County with national standards. The inspection program received an outstanding rating in the 2018 Oregon Health Authority triennial review.

Program Summary

Health Inspections and Education is a legally mandated program that protects the health and safety of the entire community by providing education, assuring safe food and water, controlling disease, improving safety in the work place, and reducing unintentional injuries as well as supporting other public health activities by incorporating prevention activities into the inspection process. The citizenry understands and expects the following program functions.

Inspected Facilities: The Health Inspections program has responsibility for assuring health and safety in 4,755 facilities including restaurants, mobile restaurants, hotel/motels, RV parks, organizational camps, warehouses, commissaries, vending machines, and jails. Most facilities receive two inspections per year. Swimming Pools and Spas: The program inspects and licenses 523 pools/spas to ensure pools are safe from hazards and disease. Field and classroom technical training is provided to approximately 60 pool operators each year, Schools, Child and Adult Foster Care Facilities; The program inspects 1,168 schools, childcare centers, and other service providers to ensure they handle food properly, are clean, and are free of health and safety hazards. Small Drinking Water Systems: There are 41 small water systems that are inspected every 3 to 5 years (dependent on the type of system) to ensure they are properly maintained and meet EPA water quality standards. There are also 12 additional systems that are monitored; the program responds to alerts as needed.

Foodborne Illness Outbreaks: Registered Environmental Health Specialists investigate local foodborne illness complaints in collaboration with the Communicable Disease Program and are key participants in emergency response. Multnomah County Environmental Health conducted 10 foodborne illness investigations and 27 vibrio investigations in restaurants in the previous calendar year. Food Handler Training and Certification: Multi-lingual training about safe food preparation in 7 languages is provided online and in person to food workers at all literacy levels to support health equity and entry into the workforce. Emergency contact information has been gathered for over 5,000 facilities, which can be used in a robo-calling system. A monthly newsletter/blog has over 3,000 subscribers consisting of food operators, regulators, and community members.
