Multnomah County Program #40001 - Publi	c Health Administration and Q	uality Management	4/25/2019
Department:	Health Department	Program Contact: Jessica Guer	rnsey
Program Offer Type:	Support	Program Offer Stage: As Proposed	
Related Programs:	40096		
Program Characteristic	s:		

Executive Summary

Public Health Administration and Quality Management (PHA-QM) provides leadership for the Public Health Division (PHD) as the local public health authority. The PHD promotes and protects health, and prevents disease of all residents within Multnomah County. PHA-QM sets the strategic direction of the PHD and ensures accountability through achieving performance standards related to Public Health Accreditation, Public Health Modernization, and effective financial management.

Program Summary

Through leading administrative, quality, and project management roles, Public Health Administration and Quality Management (PHA-QM) enables the Public Health Division (PHD) to meet the foundational roles and legal requirements to act as Multnomah County's local public health authority. The PHD is responsible for systems that promote and protect the health of, and prevent disease for, all residents and diverse communities within Multnomah County. Strategies of the PHD include direct services, policy interventions, community partnerships, planning, and assessment. The following PHA-QM program areas support these strategies.

Administration: This program area provides core administrative functions for the PHD. Division-wide administration ensures accountability through achieving performance standards related to Public Health Accreditation, Public Health Modernization, effective financial management, and the PHD Strategic Plan.

Quality and Project Management: Oversees quality assurance, quality improvement, performance measurement, and information management activities for public health assessment, service delivery, community engagement, and partnerships. Other key functions include public health workforce development; public health informatics; funding and grant development, project management for emerging public health issues with departmental and community significance (such as the prescription opioid epidemic); and academic partnerships.

Performance Measures					
Measure Type	Primary Measure	FY18 Actual	FY19 Purchased	FY19 Estimate	FY20 Offer
Output	Number of grant proposals written	35	30	25	25
Outcome	Dollar amount (in millions) of grants funded	\$21	\$24	\$20	\$20
Outcome	% of identified quality improvement, strategic projects, and strategic plan objectives successfully completed	90%	80%	90%	90%

Performance Measures Descriptions

Although 35 grant proposals were submitted in FY18, the amount of grant funds awarded was lower than in previous years due to changes in some funding streams from grant-based to formula-based (e.g. OHA Annual Plan, CareOregon Behavioral Health); therefore, these funds were not logged. Thus far, there have been fewer grant opportunities in FY19, but estimated amount is comparable to actual for FY18 due to the reinstatement of OAH Teen Pregnancy Prevention's original project period and a second round of competitive CDC REACH funding.

Revenue/Expense Detail

	Proposed General Fund	Proposed Other Funds	Proposed General Fund	Proposed Other Funds
Program Expenses	2019	2019	2020	2020
Personnel	\$1,948,072	\$302,048	\$2,225,717	\$238,839
