Program Characteristics:

Executive Summary

Dental Services provides County residents with essential, urgent, routine, and preventive services in clinic settings and school-based programs. Program works with community partners, targeting under-served populations; providing service to nearly 27,000 people in Multhomah County. The Dental Program is the largest Safety Net provider for vital dental care in the County and provides child based services to uninsured and underinsured clients; focuses on access for clients with chronic diseases, children and pregnant women. The program uses evidence based practice guidelines.

Program Summary

The Dental program has four distinct service components. Six dental clinics provide comprehensive and urgent dental treatment for Medicaid (Oregon Health Plan) and self-pay patients. The clinics perform outreach to clients who have not had a visit in the past 12-24 months. The clinical program also focuses on services for pregnant women in order to reduce the risk of premature birth, and to foster a good oral health learning collaboration between the dental program, and expectant mothers. The School and Community Oral Health Program provides dental education, and dental sealant services to children in Multnomah County schools, and provides outreach, education, and dental treatment specifically to children 0-36 months in our clinic setting, known as our Baby Day program. The Dental program also delivers mandated services within two Corrections Health sites. The fourth component of the program consists of mentoring and training 3rd and 4th year OHSU Dental students who provide services to our clients in the clinics, under the preceptorship of our providers, which helps cultivate a workforce interested in providing public health today and into the future. Dental Services is an essential program that provides education, prevention, and dental treatment to the poorest and most vulnerable in Multhomah County. Services include dental sealants (protective coatings placed on children's molar teeth), which have been a mainstay at our School and Community Oral Health Program for many years, preventive measures and improving access for clients who have recently gained insurance through our outreach efforts. The focus on metrics benefits the community, guality of care, and our financial picture. The Dental program continues to search for ways to deliver the best evidence based oral healthcare services, to the most persons, in a reasonable, and cost-effective manner.

Measure Type	Primary Measure	FY18 Actual	FY19 Purchased	FY19 Estimate	FY20 Offer
Output	Billable patient visits (including School and Community Oral Health)	77,000	91,573	84,000	91,706
Outcome	No show rate	18%	17%	16%	15%
Quality	Opioid Prescribing by Dentists	CY 16~2,240	CY 17~1,800	CY 17~1,108	CY 18~1,000

Performance Measures Descriptions

RETIRED: Measure 3: percent of patients who say that provider always listens. As this figure was, and is consistently high, often over 90%, we feel it is not a useful benchmark going forward. It has been replaced: NEW: Measure 3: Opioid prescribing by dentists: As this measurement is critical, and impressive and valued by all HD employees, we have opted to add this important measurement for FY 19, in order to continue to emphasize its importance to the program, and the county as a whole. These figures are based on a CY. not FY.

Dental services are a requirement of the Bureau of Primary Health Care 330 Grant.

Explanation of Revenues

The primary source of revenue is Medicaid payments and patient fees.

Dental Patient Fees: \$ 23,066,032 PC Coordination Fund: \$ 142,070 Federal Primary Care (330) Grant: \$ 312,000

Significant Program Changes

Last Year this program was: FY 2019: 40017-19 Dental Services

For FY 2020 the program will continue to deliver services in a compassionate, whole body manner in order to facilitate and promote integration with primary care. The County dental program has been a State leader at reducing the number opioids prescribed by over 70% from CY 2015 compared to CY 2017.
