

Program #78232 - Health Syringe Boxes

Program Contact: Naomi Butler

Department: County Assets

Program Offer Type: Innovative/New Program

Program Offer Stage: As Proposed

Related Programs:

Program Characteristics: One-Time-Only Request

Executive Summary

Sharps drop boxes are a community-based disposal strategy which encourages safe disposal of used syringes by people who use injection drugs and provides the public with a convenient disposal option. In FY19, Multnomah County led a multijurisdictional Healthy Streets pilot to expand the number of sharps drop boxes in our community. In April of 2019, 14 new SDBs were sited across the community, bringing the total number of SDBs to 17. In FY20, the County will continue to provide support in implementing the expanded pilot and will track its success in reducing waste.

Program Summary

Improper syringe disposal has posed an ongoing waste management challenge for some time, and the national opioid epidemic has contributed to this growing problem in recent years. Opioid use and dependence across the country has led to a sustained rise in injection drug use and syringe debris.

Community members have become increasingly concerned about syringes found in neighborhoods, public spaces and businesses. In response, Multnomah County, the City of Portland, TriMet, Downtown Clean & Safe and Metro created the Healthy Streets pilot program to test the impact of SDBs on reducing syringe waste. The Healthy Streets pilot project is one component of a strategy to reduce the number of improperly discarded syringes and provide the public a safe communitybased disposal option.

Sharps disposal boxes create a 24/7 disposal option for safe disposal of syringes by community members finding used syringes. In partnership with other jurisdictions, the County has developed a website and communication materials to support the public in taking action when finding syringes. After reviewing existing designs for syringe drop boxes, the Healthy Streets pilot partners agreed to design and fabricate a unique, more tamper resistant syringe box. The procurement, design and fabrication of these boxes took longer than expect, and the boxes were installed in April 2019. In FY20, the County will continue to play a coordination role in maintaining and servicing sharps boxes, tracking the success of the program and working with other jurisdiction partners. A total of 17 boxes will be operation throughout the county in FY20.

Health Department will manage the biohazard vendor contract and payments. Facilities and Property Management will act as liaison for the Health Department regarding, service calls, installation and repair of boxes.

Performance Measures									
Measure Type	Primary Measure	FY18 Actual	FY19 Purchased	FY19 Estimate	FY20 Offer				
Output	Number of sharps disposal boxes maintained	N/A	5	5	5				
Outcome	Number of jurisdictional partnerships maintained	N/A	4	5	5				
Output	Total number of sharps disposal boxes in the community	2	5	17	17
