Testimony: Hi, I fully support efforts to develop well-designed trails for off-road cycling in the Tualatin Mountains. My family and I would appreciate the opportunity to be able to ride our bikes closer to home in a beautiful forest setting and not have to drive an hour to reach a trailhead. In my experience, singletrack trails that are professionally designed and built can provide off-road cycling access to natural areas without compromising the environment or the experience for other users of the forest. Thank you for your time and effort in developing the master plan, and we look forward to exploring these areas in the coming years.
