Kevin,
could you please email me the place where this park is being proposed. What stage is this in at this time? I would like to know before the plans are all done as you and I both know that once Metro gets a go ahead, it will make NO difference what the locals think about it. They always get their way. They have spent millions acquiring good farm and forest land--like the parcels they acquired for the elephants and then decided that it wasn't going to be practical and now those parcels are off the tax rolls and Metro hasn't the funds to maintain them or the parks they now have, let alone build more.
