

# Support Groups For Grandparents and Other Relatives Raising Relative Children

A growing number of grandparents are taking on the role of raising their grandchildren. Nationwide, over 2 million grandparents are the primary caregiver of over 4.5 million children.

The Family Caregiver Support Program serves grandparents and other non-parent relatives, age 55 and older by linking them to:

- Programs which may provide financial assistance
- Educational opportunities
- Grandparent support groups
- After-school activities for their children

## What to expect at Support Groups

- Meet other grandparents/relatives raising their relative children.
- Get support and learn about community resources.
- Groups are informal and welcoming to all!

## N/NE Portland Location
