

We're Changing Our Name

By July 1, Mental Health and Addiction Services will become **Behavioral Health**, AND we'll still provide the same great services.

Why change our name?

Improves understanding of what we do.

Positions us as the local Behavioral Health authority.

Covers the major services we provide as we treat the whole person: mental health services and substance use disorder services.

Promotes compassionate care and reduces stigma about mental health and substance use disorders.

Brings us up to date with other agencies.

And it's shorter.
