Program Characteristic	s: In Target			

Executive Summary

Adults in custody with mental health or substance use disorders benefit from a focused program designed to screen, identify, and channel appropriate healthcare services while in Multnomah County custody. The team operates within the Multnomah County Detention Center in support of, and in collaboration with, dedicated County mental health and medical health professionals, ensuring that mental health services for adults in custody are maximized through the synergy of common approaches.

Program Summary

Utilizing 1.00 FTE Corrections Sergeant and 1.00 FTE Corrections Deputy, MCSO is positioned to focus on the mental health and substance use concerns of incarcerated adults. This team will screen, identify, assess, record, and direct mental and physical health needs through an established network and system of professionals best suited to provide this critical care. This focus on addressing the immediate needs of adults in custody who require specialized mental health attention ensures necessary care and attention is provided as soon as possible by those best positioned to conduct corresponding evaluations, direct further care, or prescribe medications in line with a mental health diagnosis.

Where Health Department Staff are relied upon to provide the assessment, diagnosis, and prescription of medication and care, the MCSO Behavioral Health Team ensures the individual is properly screened upon entry into the facility and properly classified for receipt of mental health attention as part of this collaborative protocol.

In addition, this Corrections Sergeant and Deputy support the timely facilitation of the weekly Aid & Assist Docket, ensuring individuals who may require a higher level of mental health care are safely able to attend the court process. In the event an alternative to jail is ordered, this team coordinates communication for gathering health records and safe, timely transport from jail. The combining of mental health services, security, and social behavior programming promotes stabilization and engagement with health services and encourages individuals to advocate for themselves in a positive manner, as well as provides access to groups for building coping skills. The ultimate goal is to ensure individuals with Severe and Persistent Mental Illness (SPMI) and/or Substance Use Disorder are properly managed and cared for. The Team will contribute to a safe and livable community by facilitating access to services in the facility and linking to the appropriate levels of care within the community: Inpatient Hospitalization, Forensic Diversion, MH Court, Outpatient Services.

Performance Measures						
FY21 Offer	FY20 Estimate	FY20 Budgeted	FY19 Actual	Primary Measure	Measure Type	
900	730	NA	393	Number of adults in custody with behavior health concerns assessed and screened for necessary mental h	Output	
550	520	550	302	Number of adults in custody engaged in the Aid & Assist Docket	Outcome	
	520	550	302
