

### Program #40055 - Home and Community Based Consulting

**Program Contact:** LaRisha Baker 3/2/202

Health Department **Department: Program Offer Type: Existing Operating Program** Program Offer Stage: As Requested

**Related Programs:** 40054, 40056, 40058, 40097

Program Characteristics: In Target

# **Executive Summary**

This program includes Healthy Homes Asthma Home Visiting and community-based early childhood health consulting. Using nurse and community health worker home visiting models, these services support vulnerable families with children who have health conditions. Services include health assessments in the home; care coordination; technical assistance for providers who serve children with special healthcare needs; advocacy for children and families in the health care, social service, and education systems; building a family's capacity to work with health/social services systems; reducing environmental toxins in the home; and building culturally congruent health care.

# **Program Summary**

Research shows the conditions of early life have a profound impact on long-term health and life stability. Home and community based services support families with children who have a chronic health condition and/or are identified as highrisk in community settings.

The Healthy Homes Asthma Home Visiting program addresses health inequities by improving the livability of the home environment. Healthy Homes goals are to improve adherence to the child's asthma action plan and the livability of the home environment while reducing asthma triggers for children and families. A bilingual, multi-disciplinary team provides in-home asthma nursing and environmental case management to reduce environmental triggers and improve health outcomes, quality of life, and housing conditions. Staff provide home-based environmental and nursing assessment/interventions for high-risk children with asthma; consult with medical providers/ pharmacists; partner with landlords and tenants to improve housing conditions; coordinate asthma care with school/day-care; provide supplies to reduce or eliminate asthma triggers; and advocate for safe, healthy, stable, and affordable housing.

Early childhood health consulting is provided through community health nurses and community health workers. These services are provided by both staff and community contracts to support families enrolled in the Mt. Hood Head Start program, Oregon Child Development Coalition (OCDC), and Multnomah Early Childhood Program (MECP).

MCFH Consulting services utilize demographic data from Mt. Hood Head Start, OCDC, and MECP programming to tailor services to address racial health inequities and reach families most disparately impacted. MECP, Mt Hood, and OCDC have advisory boards with parents and community members on them to influence programming. Healthy Homes uses data on housing conditions, demographics, and health indicators to inform services. Referrals are received from parents, teachers, providers, and other community agencies to reach families most disparately impacted.

Performance Measures									
Measure Type	Primary Measure	FY20 Actual	FY21 Budgeted	FY21 Estimate	FY22 Offer				
Output	# of families receiving an environmental home inspection	33	45	25	30				
Outcome	% completion of final Asthma Home assessments	85%	80%	50%	80%				
Output	# of technical assistance consults to service providers who work with children with special health care needs	300	300	300	300				

**Performance Measures Descriptions** 

# **Legal / Contractual Obligation**

Federal Uniform Grant Guidelines, LPHA State/Federal Program Requirements, TCM OAR 410-138-0000 through 410-138-0420, Title V/Maternal Child Health. Targeted Case Management requires matching local funds. Some activities under this program offer are subject to contractual obligations under the DMAP Healthy Homes State Health Plan Amendment, and DMAP programs funded by Oregon Public Health Division must comply with work plans and assurances.

# **Explanation of Revenues**

This program generates \$90,622 in indirect revenues.

\$ 515,605 - DDSD CHN

\$ 17,000 - MHCC Head Start CHN

\$ 17,000 - OCDC CHN

#### **Significant Program Changes**

Last Year this program was: FY 2021: 40055 Home and Community Based Health Consulting Restoration

Significant Changes - In FY22, early childhood health consulting has an increase in contractual revenue, which will support technical assistance consults.

COVID-19-Related Impacts: In FY21, MCFH programs had a reduction in referrals and services; staff were deployed into COVID-19 response activities; and in-home services were transitioned to telehealth services, all of which impacted visit numbers and assessments. FY22 projects a return to some in-person services and an associated increases in performance. Staff will continue to support COVID-19 response for MCFH clients.
